

Florida's Public Virtual Education Programs

Florida is a nationally recognized leader in K-12 virtual education. Florida has the largest state virtual school in the nation, Florida Virtual School (FLVS), and all school districts in Florida offer online schools, programs and/or courses. Teachers must hold Florida teaching certificates and the curriculum must align with state standards. Full-time public virtual school students participate in state assessments, and full-time schools and programs receive school grades through Florida's accountability system.

Florida Online Course Catalog

State Virtual Education – Florida Virtual School (FLVS)

- FLVS – Operates three full-time schools at the state level to serve public school students in grades K-12. School districts and virtual charter schools may also contract with FLVS to provide the FLVS FT program to district public school students.
- FLVS Flex – Operates three supplemental schools to serve students in grades K-12. FLVS Flex offers over 190 online courses for elementary, middle, and high school public, private, and home education students.

District Virtual Education

- District Virtual Instruction Program (VIP) – Provides full-time and part-time instruction for students in grades K-12. All districts must provide at least one VIP option for all grade levels.
- District Franchises of Florida Virtual School – Florida school districts may operate their own franchises of FLVS. District administrators operate the franchises and district teachers provide the instruction. FLVS provides professional development and mentoring for district teachers and administrators, the curriculum and numerous learning resources and tools.
- District Virtual Course Offerings – These courses may be offered to full-time students in district school settings or to students outside of traditional school settings.

Virtual Charter Schools

- Virtual Charter Schools - Serves students in grades K-12. The virtual charter school must contract with an approved FDOE provider or with Florida Virtual School for its virtual instruction program.

Statutes Impacting Virtual Education

- Section 1002.20(6) (a), F.S., related to educational choice, lists virtual instruction programs and Florida Virtual School as educational choice options.
- Section 1002.37, F.S., establishes Florida Virtual School for the development and delivery of online and distance learning education.
- Section 1002.45, F.S., related to virtual instruction programs, sets guidelines for operating a VIP.
- Section 1002.455, F.S., outlines student eligibility.
- Section 1003.498, F.S., related to district virtual course offerings, allows students enrolled in the district to register and enroll in online courses offered by their school district and by any other school district in the state.

School District Virtual Contacts:

Each school district has a virtual school liaison. District virtual contact information can be found here: <http://www.fldoe.org/schools/school-choice/virtual-edu/directories/district-virtual-contacts.shtml>
