From the funds in Specific Appropriation 87, \$480,000,000 is provided for salary increases, including related benefits for FICA and FRS, for school district and charter school classroom teachers, guidance counselors, social workers, psychologists, librarians, principals, and assistant principals, to be distributed in June of 2014 based on 2013-2014 performance evaluations as required under the provisions of Senate Bill 1664, or similar legislation, as verified by the Department of Education. The salary increases shall be at least \$2,500 for personnel evaluated as "effective" and up to \$3,500 for personnel evaluated as "highly effective". Factors identified in the district-determined, state-approved evaluation system plans shall include scholastic achievement and academic performance indicators (e.g., results of juried competitions; results on Advanced Placement, International Baccalaureate, and Advanced International Certificate of Education assessments; results on state-approved industry certification assessments; and results on SAT, ACT, and state-approved end-of-course and FCAT assessments).

Each district school board or charter school board must develop a plan and affirm that it is based on student performance. At the discretion of the district school board or charter school board, the plan may take into account the relative difficulty of the teaching assignment, including but not limited to whether a teacher is assigned to special needs students, students achieving below grade level, or to a D or F school.

Each board shall vote on the plan and affirm that it is based on student performance. A copy of the plan must be provided to the Commissioner of Education to confirm that the plan is based on student performance. The district shall submit its plan as early as possible.

From the funds in Specific Appropriations 7 and 87, \$947,987,428 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation as authorized by law to provide educational programs and services for exceptional students. Funds provided for gifted educational programs and services must primarily be focused on advanced mathematics and science curriculum and enrichment with instruction provided by an in-field teacher. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. Each district's ESE Guaranteed Allocation for the 2013-2014 appropriation shall not be recalculated during the school year. School districts that provided educational services in 2012-2013 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 7 and 87, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than three FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEPP allocations for the students being served. The supplemental value shall not exceed three FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in section 1011.61, Florida Statutes, for funding pursuant to section 1011.62,

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

Florida Statutes.

The Declining Enrollment Supplement shall be calculated based on 25 percent of the decline between the prior year and current year unweighted FTE students.

From the funds in Specific Appropriations 7 and 87, \$64,456,019 is provided for Safe Schools activities and shall be allocated as follows: \$62,660 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) middle and high school programs for correction of specific discipline problems; (3) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (4) behavior driven intervention programs that include anger and aggression management strategies; (5) alternative school programs for adjudicated youth that may include a web-based virtual system that results in mastery and certification, competency or credentials in the following inter-related counseling disciplines necessary for success in education and the work environment, including adjustment, educational, employment and optimal mental health areas that will include, but are not limited to, anger and impulse control, depression and anxiety, self-esteem, respect for authority, personal behavior, goal setting, time and stress management, social and workplace adjustment, substance use and abuse, workplace soft skills, communication skills, work ethic, the importance of timeliness, attendance and the self-marketing skills for future educational and/or employment opportunities; (6) suicide prevention programs; (7) bullying prevention and intervention; and (8) school resource officers. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity. The Department of Education shall monitor compliance with reporting procedures contained in section 1006.147, Florida Statutes. If a district does not comply with these procedures, the district's funds from the Safe Schools allocation shall be withheld and reallocated to the other school districts. Each school district shall report to the Department of Education the amount of funds expended for each of the eight activities.

From the funds in Specific Appropriations 7 and 87, \$639,296,226 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62 (1)(f), Florida Statutes. From these funds, at least \$15,000,000, together with funds provided in the district's research-based reading instruction allocation and other available funds, shall be used by districts with one or more of the 100 lowest performing elementary schools based on the state reading assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for the additional hour of instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used for the additional hour of instruction in these 100 schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Governor by September 30, 2014. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds in Specific Appropriations 7 and 87, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal

school day for each day of the entire school year for the students in the 100 lowest performing elementary schools based on the state reading assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds provided in Specific Appropriations 7 and 87, \$217,277,372 is provided for Instructional Materials including \$11,734,710 for Library Media Materials, \$3,207,487 for the purchase of science lab materials and supplies, \$5,000,000 for dual enrollment instructional materials, and \$3,000,000 for the purchase of digital instructional materials for students with disabilities. The growth allocation per FTE shall be \$292.48 for the 2013-2014 fiscal year. School districts shall pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From the funds provided for Instructional Materials, \$165,000,000 shall be available to school districts to purchase instructional content as well as electronic devices and technology equipment and infrastructure. The purchases made in the 2013-2014 fiscal year must comply with the minimum or recommended requirements for instructional content, hardware, software, networking, security and bandwidth and the number of students per device as developed and published by the department. Prior to release of the funds by the department to the school districts, each school district shall certify to the Commissioner of Education an expenditure plan for the purchase of instructional content and technology. If the district intends to use any portion of the funds for technology, the district must certify that it has the instructional content necessary to provide instruction aligned to the adopted statewide benchmarks and standards. If the district intends to use the funds for technology the district must include an expenditure plan for the purchase of electronic devices and technology equipment and infrastructure that demonstrates the alignment of devices and equipment with the minimum or recommended requirements. The department shall provide a report to the Legislature on or before March 1, 2014 that summarizes the district expenditures for these funds.

From funds provided in Specific Appropriations 7 and 87, \$45,286,750 is provided for the Teachers Lead Program and shall be given to teachers pursuant to section 1012.71, Florida Statutes. The allocation shall not be recalculated during the school year.

Funds provided in Specific Appropriations 7 and 87 for the virtual education contribution shall be allocated pursuant to the formula provided in Section 1011.62(11), Florida Statutes. The contribution shall be based on \$5,200 per FTE.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From the funds in Specific Appropriations 7 and 87, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend a negotiated amount per student for each student who was enrolled and served during the 2012-2013 fiscal year and who is re-enrolled and eligible to be served during the 2013-2014 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2012-2013 fiscal year and who is re-enrolled and is eligible to be served during the 2013-2014 fiscal year. The department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number of students served in the 2012-2013 fiscal year.

The Department of Education shall submit a report on the status of each school district's allocation no later than January 31, 2014, to the chairs of the Senate Committee on Appropriations and the House of Representatives Appropriations Committee.

SECTION 3 - HUMAN SERVICES

From the funds in Specific Appropriation 210, the calculations of the Medicaid Hospital Funding Programs for the 2013-2014 fiscal year are incorporated by reference in Senate Bill 1502. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 210, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 210, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 210, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 210, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 210 is contingent upon approval from the Centers for Medicare and Medicaid Services.

	FROM MEDICAL CARE TRUST FUND		10,549,697

Funds in Specific Appropriation 211 are for the inclusion of freestanding dialysis clinics in the Medicaid program. The agency shall limit payment to \$125.00 per visit for each dialysis treatment. Freestanding dialysis facilities may obtain, administer and submit claims directly to the Medicaid program for End-Stage Renal Disease pharmaceuticals subject to coverage and limitations policy. All pharmaceutical claims for this purpose must include National Drug Codes (NDC) to permit the invoicing for federal and/or state supplemental rebates from manufacturers. Claims for drug products that do not include National Drug Code information are not payable by Florida Medicaid unless the drug product is exempt from federal rebate requirements.

From the funds in Specific Appropriation 211, the Agency for Health Care Administration shall work with dialysis providers, managed care organizations, and physicians to ensure that all Medicaid patients with End Stage Renal Disease (ESRD) are educated and assessed by their physician and dialysis provider to determine their suitability for peritoneal dialysis (PD) as a modality choice. Further, the agency shall consult with the dialysis community concerning suitable voluntary reporting to the state Medicaid program on members' PD suitability.

The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals. In the event there is insufficient budget authority to fully implement this section of proviso, the Agency is authorized to submit a budget amendment in accordance with Chapter 216, Florida Statutes to obtain additional budget authority to fully implement this policy.

From the funds in Specific Appropriation 213, \$472,119 in nonrecurring funds from the General Revenue Fund and \$670,197 in nonrecurring funds from the Medical Care Trust Fund are provided to allow for exemptions from outpatient reimbursement ceilings for any hospital that is classified as a sole community hospital under 42 C.F.R. section 412.92 but is not classified as a rural hospital under section 395.602, Florida Statutes. SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 602 through 736, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2014.

From the funds in Specific Appropriations 602 through 736, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee for review.

Funds in Specific Appropriation 602 through 736 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2013, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds in Specific Appropriations 644K , 644X and 644AK, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as State Government property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 602 through 678 and 701 through 736 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 100,359 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 100,028 inmates.

Funds and positions in Specific Appropriations 602 through 678 and 701 through 736 are provided to address security needs for the prison population expected in Fiscal Year 2013-2014, as projected by the Criminal Justice Estimating Conference.

From the funds in Specific Appropriations 602 through 678 and 701 through 736, the Department of Corrections shall open the 432-bed Gadsden Re-Entry Center as a substance abuse treatment and vocational training center serving inmates within three years of release from prison. The Department of Corrections will issue a competitive solicitation for program services for inmates at the Gadsden Re-Entry Center. The program will be performance-based to maximize the number of inmates receiving treatment. At least 70 percent of the inmate population shall be actively enrolled in treatment programs. In addition, an advisory group for the re-entry program will be established by the Department of Corrections to provide accountability through oversight in program planning, design and evaluation to ensure that the re-entry program provides the optimal performance.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1128 through 1152, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriation 1128 through 1152, in order to maximize the number of filled beds and reduce the number of vacant beds in their programs statewide, the Department of Juvenile Justice shall use economies of scale in each judicial circuit when procuring residential bed contracts. In addition, the department shall ensure that educational services are consolidated commensurate with the effort to maximize filled beds. In order to maximize cost savings, the consolidation must include educational services in neighboring counties or where department facilities are within 30 miles of each other. In making these determinations, the department shall consider the type of program and level of commitment. Finally, the department must report their program consolidation results to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee by January 1, 2014.

A review by a Department of Education/Department of Juvenile Justice interagency workgroup shall occur prior to the 2014 Legislative session to provide further guidance on how educational services in residential programs will be provided. Finally, the workgroup must report their recommendations and results to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee by January 1, 2014.

Funds in Specific Appropriation 1626 and Section 54 are provided to fund the Department of Environmental Protection's Beach Management Funding Assistance Program (BMFAP) for the Fiscal Year 2013-2014 to be as follows:

Funds shall be provided for those congressionally-authorized beach nourishment projects eligible for significant federal cost-sharing, specifically those experiencing storm damages from Hurricane Sandy and Tropical Storm Debby that have been determined to be eligible for 100 percent federal rehabilitation assistance funding for sand losses. Those projects include only: North/South Reaches-Brevard County Shore Protection Project, Ft. Pierce Shore Protection Project, Martin County Shore Protection Project, Jupiter/Carlin Segment-Palm Beach County Shore Protection Project, Delray Beach Shore Protection Project, North Boca Raton Shore Protection Project, and Segment II-Broward County Shore Protection Project, Treasure Island Segment-Pinellas County Shore Protection Project, Gasparilla Island-Lee County Shore Protection Project, Captiva/Sanibel Island Beach Nourishment, and Anna Maria Island-Manatee County Shore Protection Project. Total project costs and federal/non-federal cost-shares have been determined by the U.S. Army Corps of Engineers as part of favorable Project Implementation Reports (PIR). State matching dollars shall be used only for construction of the full project construction profile, if needed, and monitoring for all the above named projects.

Funds shall also be provided for federally-authorized beach projects included in the department's BMFAP that maximize federal funds and address storm damages. These projects include only: Venice Beach Segment-Sarasota County Shore Protection Project, Ocean Ridge Segment-Palm Beach County Shore Protection Project, and Long Key Segment-Pinellas County Shore Protection Project.

The funding provided for those projects reflects the ranking of local government funding requests and the department's Fiscal Year 2013-2014 project priority list; however, it also takes into account recent storm damages and storm impacts on project designs and costs. To address future situations, the department shall make recommendations as to how current statutory ranking criteria should be modified to accommodate storm damage and other beach impacts, as well as current department processing procedures and timetables for local government funding requests, in annual project rankings. The department's recommendations shall be provided to the President of the Senate and the Speaker of the House of Representatives no later than January 1, 2014.

Funding for post-construction project monitoring shall not exceed 50 percent of the department's request. Priority shall be given to projects in the BMFAP and other highly ranked projects in the department's funding request for other than first-year needs.

Funds shall be provided for engineering costs for the Collier County Beach Nourishment Project as part of the BMFAP.

From the funds in Specific Appropriation 1626 and Section 54, \$1,992,800 is provided for the three highest ranked inlet management projects in the BMFAP. These include St. Lucie Inlet IMP Implementation, Lake Worth Inlet Bypassing, and Sebastian IMP Implementation. From any unobligated state share balance, the department may use up to \$300,000 for regional sand source management.

ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2131 through 2233, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation.

SECTION 6 - GENERAL GOVERNMENT

Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2131 through 2233, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: STRATEGIC BUSINESS DEVELOPMENT

STRATEGIC BUSINESS DEVELOPMENT

From the funds provided in Specific Appropriations 2215 through 2233, the Department of Economic Opportunity must competitively procure and execute a contract for an independent third-party to verify that each business that receives an economic development incentive satisfies all of the requirements of the incentive agreement, including job creation numbers. These comprehensive performance audit functions must include reviewing: 100 percent of all incentive claims, including audit confirmations; procedures used to verify incentive eligibility; and the department's records for accuracy and completeness. The independent third-party contractor must perform all functions and conduct all of the activities necessary to verify compliance with the performance terms of economic development incentive contracts. If there is insufficient operating budget authority in Specific Appropriation 2224 to pay for the independent third-party contractor, the department may submit a budget amendment in accordance with chapter 216, Florida Statutes, to transfer funds provided in Specific Appropriation 2220, or any other operating appropriation category within this budget entity, to implement the comprehensive performance audits.

The proposed revised guideline schedule shall more accurately reflect the costs of raising children in Florida, to ensure that the parents who are ordered to pay support do not fall below the federal poverty level by paying child support, and be based on parent-child time-sharing arrangements. Statement of Purpose:

This section provides instructions for implementing the Fiscal Year 2013-2014 salary and benefit adjustments provided in this act. All allocations, distributions and uses of these funds are to be made in strict accordance with the provisions of this act.

For the purpose of determining the applicable increase for part-time employees, the full-time equivalent value of the base rate of pay on September 30, 2013, shall be used; but the amount of the annual increase for a part-time employee shall be proportional to the full-time equivalency of the employee's position.
