Easytech K-5, 3e

MAJOR TOOL:		
0972729488	EasyTech K-5	8.00 per/year per/child OR 48.00/per child for 6 yr adoption
ANCILLARIES:		
N/A	Getting Started Guide (downloadable)	N/C
N/A	Family Resources -- English and Spanish (downloadable)	N/C
N/A	Computer Lab Pack (downloadable)	N/C
N/A	Easy Tech Technology Standards	N/C
N/A	State-specific documents and website	N/C
N/A	Free updates of all components	N/C
N/A	Anytime/anywhere access	N/C
N/A	Computer compatibility self check	N/C
N/A	Access to all listed required software	N/C
N/A	Quarterly newsletter	†
N/A	Spanish audio track (available as an option in selected lessons)	†

State Committee recommended notations: The prescriptive nature of this program allows it to be easily customized for individual student needs. It can also be used as a staff development tool. The internet connection speed will impact the number of students that can use the tool concurrently. The content has the ability to be cached on a local area network device.

Approach: The curriculum is a comprehensive scope-and-sequenced technology integration system for grades K-8 that aligns with both the ISTE's NETS and Florida's Sunshine State Standards. It correlates to the performance goals of the EETT provision of the 2001 NCLB Act. Delivered through a browser via the Internet.

Recommended for: Students in grades K-5.

Suggested instructional time: One year.

Consultant services: In-service, training and support documentation are available at no charge.

Adopted: 2004-2010.

South-Western (Thomson Learning),

Trabel & Hoggatt

State Committee recommended notations:

Implementation of this program requires a high level of technology proficiency on the part of the teacher.

Approach: Program is a series of color coded project based keyboarding texts. The computer serves as a learning tool whereby students learn and apply computer skills as they work through the cross-curricular projects.

Recommended for: Students in grades K-5.

Suggested instructional time: One year.

Consultant services: Staff development and training are available upon the adoption and purchase of these materials at the request of the school district.

Adopted: 2004-2010

State Committee recommended notations: There are four delivery methods for this product, each requiring a unique level of support. In the online option, Internet connection speed will impact the number of students that can use the tool concurrently. The content has the ability to be cached on a local area network device.

Approach: Curriculum developed to teach foundational computer skills and apply those skills in meaningful applications as outlined in the ISTE's NETS for grades K-5. Lessons provide explicit instruction in a sequential development appropriate for each grade level.

Recommended for: Students in grades K-5.

Suggested instructional time: One year

Consultant services: In-service training and software support are provided at no cost.

Adopted: 2004-2010
