State Committee recommended notations: None

Approach: This program was developed to assist today's teachers with the challenge of helping students become mathematically literate. It was designed to provide a balance of conceptual competence, procedural competence, and problem solving.

Recommended for: students in grades k-5

Suggested instructional time: one year

Consultant services: Inservice and consultants are available throughout the adoption at no expense to the district/school.

Adopted: 2004-2010

State Committee recommended notations: None
Approach: This is a research-based mathematics curriculum, developed by the University of Chicago School Mathematics Project and funded by the National Science Foundation. It is an innovative, activity-based program that teaches children to think mathematically both in and out of the classroom setting.
Recommended for: students in grades k-5
Suggested instructional time: one year
Consultant services: Inservice, training, and professional development opportunities are available by contacting 800.382.7670.
Adopted: 2004-2010
