C'est a toi! Level One, Fawbush, et al, 2007/2nd

Committee Comments or Notations:

Approach: This textbook has been developed in conjunction with the National Standards in Foreign Language Education. C'est a toi! Level 1 engage students to become effective communicators, keen observers of French-speaking cultures, insightful about themselves and their learning, informed and knowledgeable across disciplines and participants in the community and global marketplace.

Recommended for: Average high school students in a 9-12 level one French class

Suggested Instructional Time: 1 year

Consultant Service: In-service workshops are available, at no charge, on a mutually agreeable schedule by contacting the publisher at 1-800-328-1452.

Adopted: 2007-2013

McDougal Littell

Discovering French, Nouveau! Bleu, Level 1, Valette, et al., 2007/1st

Committee Comments or Notations:

Approach: "The Florida Edition, *Discovering French, Nouveau! Bleu* (Level 1) is part of a complete, classroom-proven program authored by Jean-Paul Valette and Rebecca M. Valette, widely recognized for their authenticity and accuracy. The program is designed for middle school and high school students of French, and is fully aligned with both the Florida Sunshine State Standards and the National Standards. The Florida Edition contains helpful information to support the FCAT test, including the Lectures pour tous Interactive Readers that give students practice in a variety of reading genres, with testing practice in the FCAT format. "

"*Discovering French Nouveau!* is a program that: · Builds skills and develops strategies for more accurate communication · Reflects the cultural diversity of the French-speaking world · Provides integrated technology that engages students and facilitates teaching

The revised Florida Edition adheres to the principle of making the materials relevant to the classroom by meeting five criteria: 1. Engage and stimulate the students 2. Be pedagogically sound 3. Be linguistically accurate 4. Be culturally authentic and up-to-date 5. Correlate completely to the Sunshine State Standards and support skills tested on the FCAT

In the Florida Edition, the student textbooks have a greater emphasis on the multicultural diversity of France and the French-speaking world. The opening lessons of *Discovering French, Nouveau! Bleu* (Level 1) have been streamlined. The first two units comprise Invitation au français which focuses on listening and speaking. Starting with Unit 3, each unit ends with a self-testing review labeled Tests de contrôle, and a unit vocabulary summary. New, updated video footage has been added to the integrated Video Program. The entire program incorporates the latest research in foreign language pedagogy. The clear organization and presentation of skills and concepts, as well as the program methodology, ensure that *Discovering French, Nouveau! Bleu* is of the highest quality in terms of educational content.

Organization: Units in the Pupil Editions are subdivided into manageable lessons, thereby giving students a sense of accomplishment and progression as they move from one lesson to the next. Vocabulary is introduced in context, and with the help of line drawings and word hints in English. Lesson vocabulary is always introduced on a color-coded (gold) background. Practice activities progress from controlled to open-ended in difficulty. Activities are motivating, student-centered, and communicative. Grammar concepts are presented with multiple examples, graphics, and color-coding in green. Practice sequences lead students through controlled, transitional, and open-ended activities to assure maximum development of communication skills. Model answers to practice activities are in red. "

"Reading skill development progresses from short, easy-to-read realia pieces and stories to longer, more complex selections. A new Interactive Reader, Lectures pour tous, has been added to provide additional reading support via reading tips, vocabulary support, graphic organizers, and other strategies to increase comprehension. This consumable worktext contains readings for students to mark up, write in, and make their own—for both in-class and at-home use. It includes FCAT strategies and practice tests in the FCAT format that will help prepare students for the FCAT test. The writing skill is developed through the end-of-lesson À votre tour section, as well as through the end-of-unit Entracte sections where there are longer, guided writing assignments. "

"*Discovering French, Nouveau! Bleu* (Level 1) immerses students in French culture through lesson openers that present a reading or a video dialog within a culturally-authentic setting (at a French café; at a teen-age party). Culture notes (Notes culturelles), color-coded in blue, appear throughout each lesson. They expand on the cultural setting that was established in the lesson opener. In Level 1, Notes culturelles are predominantly in English, with a gradual transition to French. Listening, Writing, and Reading Strategies help students learn how to approach learning a language, e.g., French, more effectively. Authentic photos, and humorous illustrations by native French artists provide further cultural authenticity. Finally, practice activities are placed in culturally-authentic settings."

Recommended for: Intended for beginning students of French at the high school level.

Suggested Instructional Time: 1 year

Consultant Service: "McDougal Littell will provide in-service/staff development to each Florida school district in which *Discovering French, Nouveau!* is adopted. Consultant services and staff development may be arranged on a mutually convenient basis at no cost to the local school district. The service is provided for the life of the contract and may be arranged by contacting the McDougal Littell sales representative in the local district. The company maintains a toll-free telephone number (1-800-323-5435) to answer questions and provide service to teachers. This service is available from 8 a.m. to 5 p.m. CST, Monday through Friday. For technical support for McDougal Littell software, teachers can call 1-800-727-3009 from 9 a.m. to 5 p.m. EST, Monday through Friday. Frequently asked questions about technology can be answered on the company's Internet site, www.mcdougallittell.com, under the Tech Support tab. "

Glencoe/McGraw-Hill

Glencoe French Bon voyage! Level 2, Schmitt, et al, 2007/1st

Committee Comments or Notations:

Approach: Bon voyage! Level 2 © 2007 continues with the same systematic approach as used in Level 1. It is designed to address the teaching of language through communicative and meaningful topics. The level 2 Student Edition is intended to reintroduce vocabulary, grammar, and skills taught at level one at a higher level of difficulty while using the same approach to facilitate communicative proficiency. The approach is very systematic, providing a solid foundation for language learning and retention. This program balances reading, writing, listening and speaking. Culture is integrated throughout. The content of Bon voyage! is logical, consistent, and clearly explained. Photos and illustrations visually support the content, making it appealing and comprehensible for the learner. Topics are of high-interest to the adolescent learner. The information is presented in manageable sections and is practiced before more material is presented. Each chapter is built around a communicative topic to provide coherence. Each section builds toward the next. Conversely, information previously taught is always reincorporated and recycled to build communication skills. Explanations are clear and concise.

The target language is used to give instruction and to provide information at the point when the students' prior knowledge, based on what has been presented in the text, allows comprehension. Conversations and reading selections use previously presented material and are comprehensible when they are introduced. The contents of the book are clearly labeled. The objectives of the lesson are clearly stated at the beginning of each chapter. The page layout is clear and logical. The students read from left to right and from top to bottom. The layout of the text provides consistency and helps students learn how to learn. Reviews are provided at the end of each chapter and at the end of each unit. The text is illustrated, especially where the illustration is necessary to provide context clued for new language. Colorful and appealing photographs from National Geographic are featured at the end of every unit in a special Reflets de... section. Color and shading are used to aid in comprehension.

The methodology used in Bon voyage! is based on second language acquisition research and practice. While adult learners need grammar practice; real-life language experience activities in Bon voyage! provide students with the tools to use the language in a meaningful context. The Student Edition is the heart of the program with its systematic approach to language learning.

In the Student Edition, each chapter opens with a photographic scene that provides a meaningful context for the chapter. The vocabulary is always presented and practiced in two manageable sections. Once the students have mastered the vocabulary, the necessary structure is added. Structure points are thoroughly explained and practiced to ensure mastery and retention. Conversation and Lectures culturelles are related to the communicative topic of the chapter and reinforce learned vocabulary and structures. A C'est à vous section at the end of each chapter provides review and reinforcement. An in-text FCAT Practice occurs at the end of every chapter. A more extensive Révision appears at the end of each unit.

Connexions provide an interdisciplinary lesson related to the communicative topic. The students are able to use French to learn about another subject areas. National Geographic Society provides exquisite photographs from around the Francophone world, and are featured at the end of every unit in Reflets de . . . providing a high-interest cultural exploration for the students.

The Literary Companion section is included at the end of the book and provides an in-text reader that is written using vocabulary and structures that are familiar to the student. The selected pieces of literature are supported with pre-reading, during reading, and after reading activities. The reading strategies reinforced in the Student Edition reinforce the reading skills learned in language arts and those skills needed to do well on the FCAT test. Revisions to the text have also included developing higher level thinking skills and test taking strategies.

The ¡Buen viaje! Level 2 © 2007 textbook is the core of the program; however, the accompanying teacher and student materials provide additional support.

The Florida Teacher Wraparound Edition is an indispensable resource for both veteran and new teachers, and facilitates the teaching of Bon voyage! Among its many features are answer keys, step-by-step suggestions for teaching the contents of the Student Edition, instruction on the ancillaries, cultural information, additional vocabulary and explanations of regional language variations, ideas for projects and for techniques to reach students with varying abilities and learning styles. A convenient pacing guide and Florida's Benchmark Correlation will assist teachers in ensuring that all standards are covered.

Bon voyage! provides a full array of Teacher Classroom Resources to save teacher preparation time. The Teacher Wraparound Edition eases the integration of the many components of the program, which include a variety of blackline masters, communicative activities, answer keys, assessment options, and other classroom activities. The chapter transparencies and fine art transparencies provide comprehensible instruction, cultural awareness, and are noted at point of use. The Level 2 video program provides students with listening practice as well as a deepening of the target culture. The integration of additional technology pieces provide both students and teachers with additional tools that provide ease to the teaching and learning process.

Holt, Rinehart and Winston

Holt French 2, Allez, viens! ©2006, DeMado & Rongieras d'Usseau, 2006/2006

Committee Comments or Notations:

Approach: "Allez, viens! offers an integrated approach to language learning where students develop listening, reading, writing, and speaking skills with the option to use a variety of print and technology resources. Students learn to communicate effectively and express themselves with confidence. "

"Allez, viens! allows students to process modeled language through a variety of activities as they develop a comfort level in oral and written communication. Each lesson begins with a video based mini-drama that models the functional expressions and grammar to be presented in the chapter. Within each chapter, language is taught incrementally through short, focused vocabulary and grammar presentations and activities. Each presentation is followed by structured activities that gradually lead the student toward more open-ended communication. By the end of each chapter students are mixing language that they have previously learned with the new vocabulary and structures. Language instruction in the Allez, viens! program promotes language development as defined by current research in language acquisition. "

Recommended for: This program was written to be used by high school students with various learning styles in a variety of teaching situations.

Suggested Instructional Time: 1 year

Consultant Service: "Holt, Rinehart and Winston maintains a staff of highly qualified professional consultants, who are available at no charge to adopting schools for the life of the contract. Requests should be submitted in writing to your sales representative, indicating preferred and alternate dates.

In addition, Holt, Rinehart and Winston offers a for-sale customized program of professional development services—in print, face-to-face and online. Schools or school districts may select from a menu of professional teacher training options. Please contact your sales representative or visit hrw.com for more details including additional charges based on total purchase."

McDougal Littell

Discovering French, Nouveau! Blanc, Level 2, Valette, et al., 2007/1st

Committee Comments or Notations:

Approach: "The Florida Edition, *Discovering French, Nouveau!, Blanc (Level 2)* is part of a complete, classroom-proven program authored by Jean-Paul Valette and Rebecca M. Valette, widely recognized for their authenticity and accuracy. The program is designed for middle school and high school students of French, and is fully aligned with both the Florida Sunshine State Standards and the National Standards. The Florida Edition contains helpful information to support the FCAT test, including the Lectures pour tous Interactive Readers that give students practice in a variety of reading genres, with testing practice in the FCAT format. "

"*Discovering French Nouveau!* is a program that: · Builds skills and develops strategies for more accurate communication · Reflects the cultural diversity of the French-speaking world · Provides integrated technology that engages students and facilitates teaching

The revised Florida Edition adheres to the principle of making the materials relevant to the classroom by meeting five criteria: 1. Engage and stimulate the students 2. Be pedagogically sound 3. Be linguistically accurate 4. Be culturally authentic and up-to-date 5. Correlate completely to the Sunshine State Standards and support skills tested on the FCAT

" In the Florida Edition, the student textbooks have a greater emphasis on the multicultural diversity of France and the French-speaking world. The opening lesson of *Discovering French, Nouveau!, Blanc (Level 2)* consists of a review (Reprise) of the major concepts taught in Level 1. Starting with Unit 1, each unit ends with a self-testing review labeled Tests de contrôle, and a unit vocabulary summary. New, updated video footage has been added to the integrated Video Program. The entire program incorporates the latest research in foreign language pedagogy. The clear organization and presentation of skills and concepts, as well as the program methodology, ensure that *Discovering French, Nouveau!, Blanc* is of the highest quality in terms of educational content.

" Organization: Units in the Pupil Editions are subdivided into manageable lessons, thereby giving students a sense of accomplishment and progression as they move from one lesson to the next. Vocabulary is introduced in context, and with the help of line drawings and word hints in English. Lesson vocabulary is always introduced on a color-coded (gold) background. Practice activities progress from controlled to open-ended in difficulty. Activities are motivating, student-centered, and communicative. Grammar concepts are presented with multiple examples, graphics, and color-coding in green. Practice sequences lead students through controlled, transitional, and open-ended activities to assure maximum development of communication skills. Model answers to practice activities are in red. "

Reading skill development progresses from short, lesson opener readings to longer, more complex selections in the Interlude sections following each unit. The first lesson of each unit ends with *Au jour le jour*, a reading comprised of authentic cultural realia, and an activity. The other three lessons end with a reading (Lecture) accompanied by pre- and post-reading strategies. A new Interactive Reader, *Lectures pour tous*, has been added to provide additional reading support via reading tips, vocabulary support, graphic organizers, and other strategies to increase comprehension. This consumable worktext contains readings for students to mark up, write in, and make their own—for both in-class and at-home use. It includes FCAT strategies and practice tests in the FCAT format that will help prepare students for the FCAT test. The writing skill is developed through appropriate activities in each lesson labeled *Écrire*, the end-of-lesson *À votre tour* section, as well as through the end-of-unit Interlude sections where there are longer, guided writing assignments.

"*Discovering French, Nouveau!, Blanc (Level 2)* immerses students in French culture through lesson openers that present a reading or a video dialog within a culturally-authentic setting (at a French café; at a teen-age party). *Au jour le jour* culture readings focus on reading for information using authentic realia. Culture notes (Notes culturelles), color-coded in blue, appear frequently, expanding on the cultural setting that was established in the unit and lesson openers. In Level 2, Notes culturelles are written in French. Listening, Writing, and Reading Strategies help students learn how to approach learning French more effectively. Authentic photos, and humorous illustrations by native French artists provide further cultural authenticity. Finally, practice activities are placed in culturally-authentic settings."

Recommended for: Intended for intermediate students of French at the high school level.

Suggested Instructional Time: 1 year

Glencoe/McGraw-Hill

Glencoe French Bon voyage! Level 3, Schmitt, et al, 2007/1st

Committee Comments or Notations:

Approach: Bon voyage! Level 3 © 2007 is designed with the same format of Levels 1 and 2. This text contains eight chapters, each of which deals with a different theme. Each chapter focuses on high-level literature from the Francophone world. The Level 3 Student Edition is intended to reintroduce vocabulary, grammar, and skills using a higher level of difficulty while using the same approach to facilitate communicative proficiency. The approach is very systematic, providing a solid foundation for language learning and retention. This program balances reading, writing, listening and speaking. Culture is integrated throughout. The content of Bon voyage! is logical, consistent, and clearly explained. Photos and illustrations visually support the content, making it appealing and comprehensible for the learner.

Topics are of high-interest to the adolescent learner. The information is presented in manageable sections and is practiced before more material is presented. Each chapter is built around a communicative topic to provide coherence. Each section builds toward the next. Conversely, information previously taught is always reincorporated and recycled to build communication skills. Explanations are clear and concise.

The target language is used to give instruction and to provide information using the students' prior knowledge, based on what has already been presented in the text. Conversations and reading selections use previously presented material and are comprehensible when they are introduced. The contents of the book are clearly labeled. The objectives of the lesson are clearly stated at the beginning of each chapter. The page layout is clear and logical. The students read from left to right and from top to bottom. The layout of the text provides consistency and helps students learn how to learn. The text is illustrated, especially where the illustration is necessary to provide context clued for new language. The pages are uncluttered; the photographs are colorful and appealing. Color and shading are used to aid in comprehension.

The methodology used in Bon voyage! is based on second language acquisition research and practice. While adult learners need grammar practice, real-life language experience activities in Bon voyage! provide students with the tools to use the language in a meaningful context. The Student Edition is the heart of the program with its systematic approach to language learning.

In the Student Edition, each chapter opens with a photographic scene that provides a meaningful context for the chapter. The vocabulary is always presented and practiced in two manageable sections. Once the students have mastered the vocabulary, the necessary structure is added. Structure points are thoroughly explained and practiced to ensure mastery and retention. Conversation and Lectures culturelles are related to the communicative topic of the chapter and reinforce learned vocabulary and structures. A C'est à vous section at the end of each chapter provides review and reinforcement. An in-text FCAT Practice occurs at the end of every chapter.

Holt, Rinehart and Winston

Holt French 3, Allez, viens! ©2006, Rongieras d'Usseau, 2006/2006

Committee Comments or Notations:

Approach: "Allez, viens! offers an integrated approach to language learning where students develop listening, reading, writing, and speaking skills with the option to use a variety of print and technology resources. Students learn to communicate effectively and express themselves with confidence. "

"Allez, viens! allows students to process modeled language through a variety of activities as they develop a comfort level in oral and written communication. Each lesson begins with a video based mini-drama that models the functional expressions and grammar to be presented in the chapter. Within each chapter, language is taught incrementally through short, focused vocabulary and grammar presentations and activities. Each presentation is followed by structured activities that gradually lead the student toward more open-ended communication. By the end of each chapter students are mixing language that they have previously learned with the new vocabulary and structures. Language instruction in the Allez, viens! program promotes language development as defined by current research in language acquisition. "

Recommended for: This program was written to be used by high school students with various learning styles in a variety of teaching situations.

Suggested Instructional Time: 1 year

Consultant Service: Describe the training/in-service available from the publisher, the type of in-service available, how it may be obtained, and if there is a charge for the service. (If this program is adopted, this information will be used in the compilation of our catalog.)

"Holt, Rinehart and Winston maintains a staff of highly qualified professional consultants, who are available at no charge to adopting schools for the life of the contract. Requests should be submitted in writing to your sales representative, indicating preferred and alternate dates.

In addition, Holt, Rinehart and Winston offers a for-sale customized program of professional development services—in print, face-to-face and online. Schools or school districts may select from a menu of professional teacher training options. Please contact your sales representative or visit hrw.com for more details including additional charges based on total purchase."

McDougal Littell

Discovering French, Nouveau! Rouge, Level 3, Valette, et al., 2007/1st

Committee Comments or Notations:

Approach: "The Florida Edition, *Discovering French, Nouveau!, Rouge (Level 3)* is part of a complete, classroom-proven program authored by Jean-Paul Valette and Rebecca M. Valette, widely recognized for their authenticity and accuracy. The program is designed for middle school and high school students of French, and is fully aligned with both the Florida Sunshine State Standards and the National Standards. The Florida Edition contains helpful information to support the FCAT test, including the Lectures pour tous Interactive Readers that give students practice in a variety of reading genres, with testing practice in the FCAT format. "

"*Discovering French Nouveau!* is a program that: · Builds skills and develops strategies for more accurate communication · Reflects the cultural diversity of the French-speaking world · Provides integrated technology that engages students and facilitates teaching

The revised Florida Edition adheres to the principle of making the materials relevant to the classroom by meeting five criteria: 1. Engage and stimulate the students 2. Be pedagogically sound 3. Be linguistically accurate 4. Be culturally authentic and up-to-date 5. Correlate completely to the Sunshine State Standards and support skills tested on the FCAT

In the Florida Edition, the student textbooks have a greater emphasis on the multicultural diversity of France and the French-speaking world. *Discovering French, Nouveau!, Rouge (Level 3)* begins with a review (Reprise) of the major concepts taught in previous levels of the program. A completely new, fully-integrated video program has been added to Level 3. The entire program incorporates the latest research in foreign language pedagogy. The clear organization and presentation of skills and concepts, as well as the program methodology, ensure that *Discovering French, Nouveau!, Rouge* is of the highest quality in terms of educational content.

"Organization: Each of the ten thematic units in the Level 3 Pupil Edition follows a consistent format that includes a journalistic reading, two vocabulary sections, two grammar sections, a literary reading, and an Interlude culturel designed to develop cultural literacy and deepen students' appreciation of French and the Francophone culture. Vocabulary is introduced in context, and with the help of line drawings and word hints. Lesson vocabulary is always introduced on a color-coded (gold) background. Practice activities progress from controlled to open-ended in difficulty. Activities are motivating, student-centered, and communicative. Grammar concepts are presented with multiple examples, graphics, and color-coding in green. Practice sequences lead students through controlled, transitional, and open-ended activities to assure maximum development of communication skills. "

"In Level 3, there is a special emphasis on reading. Selections have been chosen with the objective of bringing students into direct contact with the rich variety of literature that exists in the French-speaking world, including France, Africa, the Caribbean, and North America. A new Interactive Reader, *Lectures pour tous*, has been added to provide additional reading support via reading tips, vocabulary support, graphic organizers, and other strategies to increase comprehension. This consumable worktext contains readings for students to mark up, write in, and make their own—for both in-class and at-home use. It includes FCAT strategies and practice tests in the FCAT format that will help prepare students for the FCAT test. The writing skill is further developed through writing activities in each unit that are appropriately labeled, as well as through longer, more open-ended writing assignments that accompany the numerous and varied reading selections in Level 3. "

Discovering French, Nouveau!, Rouge (Level 3) immerses students in French culture starting with unit openers that present a high-interest, everyday cultural topic in a magazine-style format. The Lecture reading, found in each unit, is a literary selection that also reinforces numerous cultural themes. The end-of-unit interlude culturel provides in-depth exposure to a variety of cultural subjects, including literature, fine art, history, geography, sculpture, and music. Taken together, these subjects represent major cultural contributions from France and the francophone world. Authentic photos, and humorous illustrations by native French artists provide further cultural authenticity. Finally, practice activities are placed in culturally-authentic settings.

Recommended for: Intended for advanced students of French at the high school level.

Suggested Instructional Time: 1 year

Consultant Service: "McDougal Littell will provide in-service/staff development to each Florida school district in which *Discovering French, Nouveau!* is adopted. Consultant services and staff development may be arranged on a mutually convenient basis at no cost to the local school district. The service is provided for the life of the contract and may be arranged by contacting the McDougal Littell sales representative in the local district. The company maintains a toll-free telephone number (1-800-323-5435) to answer questions and provide service to teachers. This service is available from 8 a.m. to 5 p.m. CST, Monday through Friday. For technical support for McDougal Littell software, teachers can call 1-800-727-3009 from 9 a.m. to 5 p.m. EST, Monday through Friday. Frequently asked questions about technology can be answered on the company's Internet site, www.mcdougallittell.com, under the Tech Support tab. "

0701350 - French IV

Glencoe/McGraw-Hill

Tresors du temps, Lenard, 2005/5th

Committee Comments or Notations:

Approach: Trésors du temps © 2005 is a comprehensive , multiple-approach textbook that provides an in-depth view of France, its culture and civilization by means of a systematic introduction to French history and literature. At the same time, the grammar that is reviewed in each chapter serves to strengthen language skills. Its beautiful illustrations and photography give students a visual appreciation of French culture and civilization.

The student edition is divided into twelve chapters or etapes, corresponding to the main periods of French history and civilization. Each chapter begins with Un peu d'histoire, a reading dealing with milestone events and important figures of the period. The section includes a timeline and is illustrated with photos and artwork that give students an understanding of the period. Each reading is followed by vocabulary-building exercises, comprehension questions, and critical thinking questions. Students are given oral and written practice in order to connect between their lives and the past. The next section, Vie et littérature, presents two to four selections from well-known authors of the period. These readings are followed by vocabulary exercises and comprehension questions. Students are asked to analyze the main topics of the selections and relate themes to their own experience. This is presented very systematically, helping students connect the material to their own lives and build higher-level thinking skills.

The grammar section reviews the essential grammar points covered in lower-level courses and introduces students to more advanced concepts. This section moves to reinforcement exercises, as well as essay topics, that encourage students to make intensive use of the grammar at hand in context relevant to their own lives. The last section of each chapter, Plaisir des yeux, is a two -page spread featuring representative works of art of the period. The accompanying text correlates the art with the history and literature of the period. The communicative topics in every section of the chapter are designed to make French history, art and culture relevant to students' lives.

The Teacher Annotated Edition is a valuable resource for teachers. Among its many features are answer keys, additional cultural or historical information, teaching tips, pre-reading questions, additional vocabulary, and ideas for projects. The Teacher's Manual at the front of the book contains additional teaching suggestions and cultural information as well as answers to the exercises in the textbook.

The Teacher Annotated Edition refers to exercises in the Student Workbook, providing practice activities, as well as recommended use of the Test booklet with assessment options of each section of the chapter. There is a Web site which provides several options for teachers and students. There are links to authentic French Web sites for each chapter of the textbook. These links enable students and teachers to do additional research about the history, literature, art, and culture of the chapter. Teachers are encouraged to share projects and students can play games and read Francophone newspapers.

Holt, Rinehart and Winston

Holt German I, Komm mit! ©2006, Winkler, 2006/2006

Committee Comments or Notations:

Approach: Each chapter in all levels of Komm mit! centers around a set of communicative goals. Students are first introduced to these goals in *Los geht's!*, a dramatic episode that uses the functional expressions, vocabulary, and grammatical structures in context. Students then learn functional expressions that support these goals in *So sagt man das!* The grammar and syntax students will need to learn to carry out the chapter's communicative tasks is embedded in these functional expressions. Support for the functional expressions is provided by the *Grammatik, ein wenig Grammatik, and Wortschatz* features. The focus of all the aforementioned features in *Komm mit!* is to give students the tools to engage in meaningful communication.

The nature of the *Komm mit!* materials allows students to process modeled language in a variety of settings as they develop a comfort level in oral and written communication. Each lesson begins with an image-based and contextualized vocabulary presentation. Students practice the modeled vocabulary in structured activities, then begin to mix and create with the modeled language. Grammar is then presented to help students achieve accuracy in their communication. Again, students practice the grammatical structures through activities that move from closed-ended to more open-ended communication. By the end of each chapter, students are mixing language that they have previously learned with the new vocabulary and structures. Language instruction in the *Komm mit!* program thus promotes language development processes as defined by current research in language acquisition.

Recommended for: Holt German 1, *Komm mit!* was designed to be used by middle and high school (grades 7-12) students with various learning styles in a variety of teaching situations

Suggested Instructional Time: 1 year

Holt, Rinehart and Winston

Holt German 2, Komm mit! ©2006, Winkler, 2006/2006

Committee Comments or Notations:

Approach: Each chapter in all levels of *Komm mit!* centers around a set of communicative goals. Students are first introduced to these goals in *Los geht's!*, a dramatic episode that uses the functional expressions, vocabulary, and grammatical structures in context. Students then learn functional expressions that support these goals in *So sagt man das!* The grammar and syntax students will need to learn to carry out the chapter's communicative tasks is embedded in these functional expressions. Support for the functional expressions is provided by the *Grammatik, ein wenig Grammatik, and Wortschatz* features. The focus of all the aforementioned features in *Komm mit!* is to give students the tools to engage in meaningful communication.

The nature of the *Komm mit!* materials allows students to process modeled language in a variety of settings as they develop a comfort level in oral and written communication. Each lesson begins with an image-based and contextualized vocabulary presentation. Students practice the modeled vocabulary in structured activities, then begin to mix and create with the modeled language. Grammar is then presented to help students achieve accuracy in their communication. Again, students practice the grammatical structures through activities that move from closed-ended to more open-ended communication. By the end of each chapter, students are mixing language that they have previously learned with the new vocabulary and structures. Language instruction in the *Komm mit!* program thus promotes language development processes as defined by current research in language acquisition.

Recommended for: This program was designed to be used by high school (grades 9-12) students with various learning styles in a variety of teach situations.

Suggested Instructional Time: 1 year

Consultant Service: "Holt, Rinehart and Winston maintains a staff of highly qualified professional consultants, who are available at no charge to adopting schools for the life of the contract. Requests should be submitted in writing to your sales representative, indicating preferred and alternate dates.

In addition, Holt, Rinehart and Winston offers a for-sale customized program of professional development services—in print, face-to-face and online. Schools or school districts may select from a menu of professional teacher training options. Please contact your sales representative or visit hrw.com for more details including additional charges based on total purchase."

0702340 - German III

Holt, Rinehart and Winston

Holt German 3, Komm mit! ©2006, Winkler, 2006/2006

Committee Comments or Notations: This could be used for a fourth level class or a split level class.

Approach: Each chapter of *Komm mit!*, Level 3, contains two types of culturally authentic linguistic input that are based on the chapter's communicative goals: *Los geht's* and *Weiter geht's*. This input at Level 3 takes the form of interviews or discussions that model the language being presented and practiced in the chapter. Students then learn functional expressions that support these goals in *So sagt man das!* The grammar and syntax students will need to learn to carry out the chapter's communicative tasks is embedded in these functional expressions. Support for the functional expressions is provided by the *Grammatik, ein wenig Grammatik, and Wortschatz* features. The focus of all the aforementioned features in *Komm mit!* is to give students the tools to engage in meaningful communication.

The nature of the *Komm mit!* materials allows students to process modeled language in a variety of settings as they develop a comfort level in oral and written communication. Each lesson begins with an image-based and contextualized vocabulary presentation. Students practice the modeled vocabulary in structured activities, then begin to mix and create with the modeled language. Grammar is then presented to help students achieve accuracy in their communication. Again, students practice the grammatical structures through activities that move from closed-ended to more open-ended communication. By the end of each chapter, students are mixing language that they have previously learned with the new vocabulary and structures. Language instruction in the *Komm mit!* program thus promotes language development processes as defined by current research in language acquisition.

Recommended for: This program was designed to be used by high school (grades 9-12) students with various learning styles in a variety of teach situations.

0709300 - Spanish for Spanish Speakers I

Glencoe/McGraw-Hill

El español para nosotros Level 1, Schmitt, 2007/1st

Committee Comments or Notations:

Approach: El español para nosotros, Nivel 1 is a comprehension program written for Heritage Speakers. The text is intended to be used for Heritage Speaker classes or can also be used in conjunction with the ¡Buen viaje! Level 1 teachers who have heritage speakers in their classes. The contents of the book are clearly labeled. The objectives of the lesson are clearly stated at the beginning of each chapter. The page layout is clear and logical. The students read from left to right and from top to bottom. The layout of the text provides consistency and helps students learn how to learn. The pages are uncluttered; the photographs are colorful and appealing. Color and shading are used to aid in comprehension. In the Historia y cultura section in each chapter, students are introduced to Hispanic and Latino history and culture. Students will be made aware of their rich cultural heritage. In the Conocimientos para superar section, students are presented with the vocabulary necessary to communicate about specific disciplines such as science, art, literature, business, etc. The primary goal of this section is to increase students' vocabulary and enrich their knowledge of academic language. In the Gramática y lenguaje section, students are introduced to the mechanics (spelling and punctuation) of the Spanish languages. Students will come to understand and appreciate the regionalisms that exist in a language that is spoken officially in many countries of the world. The Literatura section will expose students to the great literary works of authors of Spain, Latin America, and the United States. They will come to appreciate all literary forms and genres—poetry, prose, novel, short story, essay, fable, and theater. The Composición section will give students the opportunity to express themselves in written form. They will learn to organize their thoughts and present them in a coherent and interesting manner. The Conexión con el inglés section will indicate to students the linguistic differences between the two languages that they hear daily—Spanish and English. Linguists claim that one cannot understand how a language functions without being able to compare it to another. The El español para nosotros, Nivel 1 © 2007 textbook is the core of the program; however, the accompanying teacher and student materials provide additional support. The Florida Teacher Wraparound Edition is an indispensable resource for both veteran and new teachers. The Teacher Wraparound Edition facilitates the teaching of El español para nosotros. Among its many features are answer keys, step-by-step suggestions for teaching the contents of the Student Edition, instruction on the ancillaries, cultural information, additional vocabulary and explanations of regional language variations, ideas for projects and for techniques to reach students with varying abilities and learning styles. A convenient pacing guide and Florida's Benchmark Correlation Grid will assist teachers in ensuring that all standards are covered. El español para nosotros, Nivel 1 provides a full array of Teacher Classroom Resources to save teacher preparation time. The Florida Teacher Wraparound Edition eases the integration of the many components of the program, which include a variety of blackline masters, communicative activities, answer keys, assessment options, and other classroom activities. The chapter transparencies and fine art transparencies provide comprehensible instruction, cultural awareness, and are noted at point of use. The Level 1 video program provides students with listening practice. The integration of additional technology pieces provide both students and teachers with additional tools that provide ease to the teaching and learning process.

Recommended for: Intended for use by students in grades 9-12

Holt, Rinehart and Winston

Holt Advanced Spanish, Nuevas Vistas, Curso dos ©2006, Holt, Rinehart and Winston, 2006/2006

Committee Comments or Notations:

Approach: "Holt Advanced Spanish, Nuevas vistas Curso dos ©2006 provides a proven communicative approach to language learning with a solid foundation of grammar and vocabulary to help students become proficient readers, writers and speakers of Spanish. Nuevas vistas is designed for students who have grown up with Spanish as a home language as well as for advanced English-speaking students of Spanish. "

Holt Advanced Spanish, Nuevas vistas materials are designed to help students to develop and build on their existing language skills. Each collection contains two structured readings: one AP reading and one optional reading. A reading strategy, advance organizers, and pre-reading activities tap into students' critical thinking abilities so they become more disciplined and thoughtful readers. Questions placed strategically throughout the reading help them increase their comprehension, and post-reading activities give students the opportunity to process what they've read.

Recommended for: This program was written to be used by high school students who have grown up speaking Spanish as well as for advanced English -speaking students of Spanish.

Suggested Instructional Time: 1 year

Consultant Ser vice: "Holt, Rinehart and Winston maintains a staff of highly qualified professional consultants, who are available at no charge to adopting schools for the life of the contract. Requests should be submitted in writing to your sales representative, indicating preferred and alternate dates.

In addition, Holt, Rinehart and Winston offers a for-sale customized program of professional development services—in print, face-to-face and online. Schools or school districts may select from a menu of professional teacher training options. Please contact your sales representative or visit hrw.com for more details including additional charges based on total purchase."

Glencoe/McGraw-Hill

Glencoe Spanish I ¡Buen viaje! Level 1, Schmitt, et al, 2007/1st

Committee Comments or Notations:

Approach: ¡Buen viaje! Level 1 © 2007 is designed to teach Spanish through a communicative approach and meaningful topics. The revision of the program has kept its systematic approach to teaching since it provides the solid foundation for language learning and ensures that all students progress through communicative proficiency. This revised program is based on the National Standards while incorporating the Florida Sunshine States Standards. Special attention has been made to balance listening and speaking with reading, writing, and culture.

The target language is used to give instruction and to provide information using the students' prior knowledge, based on what has already been presented in the text. Conversations and reading selections use previously presented material and are comprehensible when they are introduced. The contents of the book are clearly labeled. The objectives of the lesson are clearly stated at the beginning of each chapter. The page layout is clear and logical. The students read from left to right and from top to bottom. The layout of the text provides consistency and helps students learn how to learn. Reviews are provided at the end of each chapter and at the end of each unit. The text is illustrated, especially where the illustration is necessary to provide context clued for new language. The pages are uncluttered; the photographs are colorful and appealing. Color and shading are used to aid in comprehension. The methodology used in ¡Buen viaje! is based on second-language acquisition research and practice. While adult learners need grammar practice; real-life language experience activities in ¡Buen viaje! provide students with the tools to use the language in meaningful context. The Student Edition is the heart of the program with its systematic approach to language learning.

In the Student Edition, each chapter opens with a photographic scene that provides a meaningful context for the chapter. The vocabulary is always presented and practiced in two manageable sections. Once the students have mastered the vocabulary, the necessary structure is added. Structure points are thoroughly explained and practiced to ensure mastery and retention. Conversations and Lecturas culturales are related to the communicative topic of the chapter and reinforce learned vocabulary and structures. A ¡Te toca a ti! section at the end of each chapter provides review and reinforcement. An in-text FCAT Practice occurs at the end of every chapter. A more extensive Repaso appears at the end of each unit.

Conexiones provide an interdisciplinary lesson related to the communicative topic. The students are able to use Spanish to learn about other subject areas. People en Español provides a high-interest cultural exploration for the students.

The Literary Companion section is included at the end of the book and provides an in-text reader that is written using vocabulary and structures that are familiar to the student. The selected pieces of literature are supported with pre-reading, during reading, and after reading activities. The reading strategies reinforced in the Student Edition reinforce the reading skills learned in language arts and those skills needed to do well on the FCAT test. Revisions to the text have also included developing higher level thinking skills and test taking strategies.

The ¡Buen viaje! Level 1 © 2007 textbook is the core of the program; however, the accompanying teacher and student materials provide additional support.

The Florida Teacher Wraparound Edition is an indispensable resource for both veteran and new teachers. The Teacher's edition facilitates the teaching of ¡Buen viaje! Among its many features are answer keys, step-by-step suggestions for teaching the contents of the Student Edition, instruction on the ancillaries, cultural information, additional vocabulary and explanations of regional language variations, ideas for projects and for techniques to reach students with varying abilities and learning styles. A convenient pacing guide and Florida's Benchmark Correlation Grid will assist teachers in ensuring that all standards are covered.

¡Buen viaje! provides a full array of Teacher Classroom Resources to save teacher preparation time. The Teacher Wraparound Edition eases the integration of the many components of the program, which include a variety of blackline masters, communicative activities, answer keys, assessment options, and other classroom activities. The chapter transparencies and fine art transparencies provide comprehensible instruction, cultural awareness, and are noted at point of use. The Level 1 video program provides students with listening practice as well as a glimpse of the target culture. The integration of additional technology pieces provide both students and teachers with additional tools that provide ease to the teaching and learning process.

Recommended for: Intended for use by students in grades 9-12

Glencoe/McGraw-Hill

Glencoe Spanish 2 ¡Buen viaje! Level 2, Schmitt, et al, 2007/1st

Committee Comments or Notations:

Approach: ¡Buen viaje! Level 2 © 2007 continues with the same systematic approach as used in Level 1. It is designed to address the teaching of language through communicative and meaningful topics. The level 2 Student Edition is intended to reintroduce vocabulary, grammar and skills taught at level one at a higher level of difficulty while using the same approach to facilitate communicative proficiency. The approach is very systematic providing a solid foundation for language learning and retention. This program balances reading, writing, listening and speaking. Culture is integrated throughout. The content of ¡Buen viaje! is logical, consistent, and clearly explained. Photos and illustrations visually support the content, making it appealing and comprehensible for the learner. Topics are of high- interest to the adolescent learner. The information is presented in manageable sections and is practiced before more material is presented. Each chapter is built around a communicative topic to provide coherence. Each section builds toward the next. Conversely, information previously taught is always reincorporated and recycled to build communication skills. Explanations are clear and concise.

The target language is used to give instruction and to provide information using the students' prior knowledge, based on what has already been presented in the text. Conversations and reading selections use previously presented material and are comprehensible when they are introduced. The contents of the book are clearly labeled. The objectives of the lesson are clearly stated at the beginning of each chapter. The page layout is clear and logical. The students read from left to right and from top to bottom. The layout of the text provides consistency and helps students learn how to learn. Reviews are provided at the end of each chapter and at the end of each unit. The text is illustrated, especially where the illustration is necessary to provide context clued for new language. The pages are uncluttered; the photographs are colorful and appealing. Color and shading are used to aid in comprehension. The methodology used in ¡Buen viaje! is based on second-language acquisition research and practice. While adult learners need grammar practice; real-life language experience activities in ¡Buen viaje! provide students with the tools to use the language in meaningful context. The Student Edition is the heart of the program with its systematic approach to language learning.

In the Student Edition, each chapter opens with a photographic scene that provides a meaningful context for the chapter. The vocabulary is always presented and practiced in two manageable sections. Once the students have mastered the vocabulary, the necessary structure is added. Structure points are thoroughly explained and practiced to ensure mastery and retention. Conversations and Lecturas culturales are related to the communicative topic of the chapter and reinforce learned vocabulary and structures. A ¡Te toca a ti! section at the end of each chapter provides review and reinforcement. An in-text FCAT Practice occurs at the end of every chapter. A more extensive Repaso appears at the end of each unit.

Conexiones provide an interdisciplinary lesson related to the communicative topic. The students are able to use Spanish to learn about other subject areas. People en Español provides a high-interest cultural exploration for the students.

The Literary Companion section is included at the end of the book and provides an in-text reader that is written using vocabulary and structures that are familiar to the student. The selected pieces of literature are supported with pre-reading, during reading, and after reading activities. The reading strategies reinforced in the Student Edition reinforce the reading skills learned in language arts and those skills needed to do well on the FCAT test. Revisions to the text have also included developing higher level thinking skills and test taking strategies.

The ¡Buen viaje! Level 2 © 2007 textbook is the core of the program; however, the accompanying teacher and student materials provide additional support.

The Florida Teacher Wraparound Edition is an indispensable resource for both veteran and new teachers. The Teacher's edition facilitates the teaching of ¡Buen viaje! Among its many features are answer keys, step-by-step suggestions for teaching the contents of the Student Edition, instruction on the ancillaries, cultural information, additional vocabulary and explanations of regional language variations, ideas for projects and for techniques to reach students with varying abilities and learning styles. A convenient pacing guide and Florida's Benchmark Correlation Grid will assist teachers in ensuring that all standards are covered.

¡Buen viaje! provides a full array of Teacher Classroom Resources to save teacher preparation time. The Teacher Wraparound Edition eases the integration of the many components of the program, which include a variety of blackline masters, communicative activities, answer keys, assessment options, and other classroom activities. The chapter transparencies and fine art transparencies provide comprehensible instruction, cultural awareness, and are noted at point of use. The Level 2 video program provides students with listening practice as well as a deepening of the target culture. The integration of additional technology pieces provide both students and teachers with additional tools that provide ease to the teaching and learning process.

0708350 - Spanish II

McDougal Littell

Avancemos! Level 2, Gahala, et al., 2007/1st

Committee Comments or Notations:

Approach: ¡Avancemos! is a complete multi-level, articulated program designed for middle school and high school students of Spanish. The author team, comprised of Estela Gahala, Patricia Carlin, Audrey Heining-Boynon, Ricardo Otheguy, and Barbara Rupert, has extensive teaching and writing experience. In addition, these authors have made major contributions to the language teaching profession. The ¡Avancemos! program is fully aligned with both the Florida Sunshine State Standards, and the National Standards. The program offers an ample array of FCAT support.

¡Avancemos! was developed as a result of extensive quantitative and qualitative research with practicing Spanish teachers from Florida and the rest of the United States. Based on this research, ¡Avancemos! (a) integrates culture as a cornerstone for meaningful communication; (b) provides clear goals, careful sequencing, and leveled activities that make practice purposeful; and (c) provides multiple opportunities for language learning that lasts through frequent and regular checkpoints within each lesson, as well as at the end of each lesson and unit. Language retention is further supported with the cumulative review following each unit, and the frequent recycling of previously-learned material, both within and between levels of the program.

Culture is the cornerstone underlying the entire ¡Avancemos! program. Each unit is set in a specific Spanish-speaking country. The online Cultura interactiva links allow students to travel virtually to the target country. The two lessons comprising the unit present cultural information through photos, realia, cultural readings, cultural projects, the recurring Cultural Comparison feature, and the ongoing Telehistoria. The Telehistoria, set in the targeted country, is fully dramatized on DVD and was filmed on location in 8 countries, specifically for the ¡Avancemos! program. Students discuss and compare and contrast relevant cultural aspects of the highlighted country vis-à-vis other Spanish-speaking countries and their own culture using new language and structures they learn throughout the unit. In Level 2, the Gran desaffo adventure video begins in Unit 5. Each episode uses the target language from the unit in a motivating, competitive "reality" show format.

In addition to the Cultural Comparisons, photos, realia, and more extended cultural readings (Lectura and Lectura cultural), there is a self-contained, free-standing bank of culture mini-lessons located at the front of the student textbook. These mini lessons are easily accessible at any time during the school year. In Level 2, the mini lessons focus on musical genres from around the Spanish-speaking world, e.g., Salsa, Cumbia, Flamenco, Tango, etc. Each of the twelve culture mini lessons can be used independently and in any desired order.

The ¡Avancemos! program is carefully designed to provide well-articulated, purposeful practice. At the beginning of each presentation of new material a goal is clearly stated. These goals are always marked with an ¡Avanza! icon to help the student understand what he or she must achieve. Practice is presented in a variety of formats to accommodate every learning style. Expansión activities in the Pupil Edition and in the Teacher Edition help the teacher take the activity one step further for enrichment or for additional practice. The workbooks that accompany the textbook, and the @Home Tutor provide additional, multi-leveled practice activities so students can get the most benefit whether they are performing below-level, on-level, or at an advanced level.

The ¡Avancemos! program ensures retention of newly learned language with clearly stated goals, and ongoing and frequent assessment. A green recycling icon, used throughout the text, helps students know when previously taught material is being incorporated into practice activities. Constant and consistent recycling and re-entry keeps previously learned material fresh in students' minds. Students are directed to the pages where the material was presented if they need to review independently. A succinct one-page review of the essential vocabulary and grammar is provided at the end of each lesson. Frequent checkpoints called Para y piensa encourage the student to check his or her own progress before moving on to new material. Additional help is available online and in the form of reteaching copymasters if the students do not successfully complete the Para y piensa tasks.

In addition to the "Did You Get It?" self-check that ends each practice set, each lesson ends with a lesson review (Repaso de la lección). The sidebar information on these lesson review pages directs the student back to the lesson pages where the concept was first presented and practiced, thereby making a direct connection between these culminating activities and the initial presentation. A cumulative review, Repaso inclusivo, integrates content from all previous units. The manageable scope of the lessons and units, cyclical re-entry, gradual expansion of vocabulary and structures, and frequent self-check opportunities are designed for language learning that lasts.

Florida teachers who were involved in the research that led to the development of ¡Avancemos! pointed to the need to support FCAT skills development. Throughout the program, reading, grammar, and writing strategies are provided and skills are practiced to help students improve their performance on the FCAT. In addition to the abundant FCAT support in the Pupil Edition, an interactive reader, Lecturas para todos with FCAT Preparation, is available.

Recommended for: Intended for intermediate students of Spanish at the high school level.

Suggested Instructional Time: 1 year

Consultant Service: "McDougal Littell will provide in-service/staff development to each Florida school district in which ¡Avancemos! is adopted. Consultant services and staff development may be arranged on a mutually convenient basis at no cost to the local school district. The service is provided for the life of the contract and may be arranged by contacting the McDougal Littell sales representative in the local district. The company maintains a toll-free telephone number (1-800-323-5435) to answer questions and provide service to teachers. This service is available from 8 a.m. to 5 p.m. CST, Monday through Friday. For technical support for McDougal Littell software, teachers can call 1-800-727-3009 from 9 a.m. to 5 p.m. EST, Monday through Friday. Frequently asked questions about technology can be answered on the company's Internet site, www.mcdougallittell.com, under the Tech Support tab."
