## Note: Proposed Revision on Page 5

### **6A-6.03028 Provision of Free Appropriate Public Education (FAPE) and Development of Individual Educational Plans for Students with Disabilities.**

(1) Entitlement to FAPE. All students with disabilities aged three (3) through twenty-one (21) residing in the state have the right to FAPE consistent with the requirements of the Individuals with Disabilities Education Act, 20 USC Section 1400, et. seq (IDEA), its implementing federal regulations at 34 CFR Subtitle B, part 300 et.seq. which is hereby incorporated by reference to become effective with the effective date of this rule, and under Rules 6A-6.03011 through 6A-6.0361, F.A.C. FAPE shall be made available to students with disabilities, including students who have been suspended or expelled, and any individual student with a disability who needs special education and related services, even though the student has not failed or been retained in a course or grade, and is advancing from grade to grade. The obligation to make FAPE available to all students with disabilities does not apply with respect to the following:

(a) Students with disabilities who have graduated from high school with a standard diploma. A standard diploma does not include an alternative degree that is not fully aligned with the state's academic standards, such as a certificate of completion or a general educational development credential (GED); and

(b) Students aged eighteen (18) through twenty-one (21) who, in the last educational placement prior to their incarceration in an adult correctional facility:

1. Were not actually identified as being a child with a disability pursuant to Rules 6A-6.03011 through 6A-6.0361, F.A.C.; and
2. Did not have an individual educational plan (IEP) under Rules 6A-6.03011 through 6A-6.0361, F.A.C.

(c) The exception in paragraph (b) of this section does not apply to students with disabilities, aged eighteen (18) through twenty-one (21), who:

1. Had been identified as a student with a disability under Rules 6A-6.03011 through 6A-6.0361, F.A.C., and had received services in accordance with an IEP, but who left school prior to their incarceration; or

2. Did not have an IEP in their last educational setting, but who had actually been identified as a student with a disability under Rules 6A-6.03011 through 6A-6.0361, F.A.C.

(2) Treatment of charter school students. Students with disabilities who attend public charter schools and their parents retain all rights under Rules 6A-6.03011 through 6A-6.0361, F.A.C. In carrying out Part B of the IDEA and Rules 6A-6.03011 through 6A-6.0361, F.A.C., with respect to charter schools that are public schools of the school district, the school district must serve students with disabilities attending those charter schools in the same manner as the district serves students with disabilities in its other schools, including providing supplementary and related services on site at the charter school to the same extent to which the school district has a policy or practice of providing such services on the site to its other public schools and provide funds under Part B of the IDEA to those charter schools on the same basis as the school district provides funds to the school district's other public schools, including proportional distribution based on relative enrollment of students with disabilities and at the same time as the school district distributes other Federal funds to its other public schools.

(3) IEP Requirements. An IEP or individual family support plan (IFSP) must be developed, reviewed, and revised for each eligible student or child with a disability served by a school district, or other state agency that provides special education and related services either directly, by contract, or through other arrangements, in accordance with this rule. Parents are partners with schools and school district personnel in developing, reviewing, and revising the IEP for their student.

(a) Role of parents. The role of parents in developing IEPs includes, but is not limited to:

1. Providing critical information regarding the strengths of their student;
2. Expressing their concerns for enhancing the education of their student so that their student can receive FAPE;
3. Participating in discussions about the student's need for special education and related services;
4. Participating in the determination of how the student will be involved and progress in the general curriculum, including participation in the statewide assessment program and in district-wide assessments;
5. Participating in the determination of what services the school district will provide to the student and in what setting; and
6. Participating in the determination of whether the student is pursuing a course of study leading towards a standard diploma, consistent with Sections 1003.43 and 1004.428, F.S., or a special diploma, consistent with Section 1003.438, F.S.

(b) Parent participation in meetings. Each school district shall establish procedures that provide the opportunity for one or both of the student's parents to participate in meetings and decisions concerning the IEP for the student. Parents of each student with a

# DRAFT

## Note: Proposed Revision on Page 5

disability must be members of any group that makes decisions on the educational placement of their student. Procedures to ensure participation in meetings shall include the following:

1. Notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
  2. Scheduling the meeting at a mutually agreed on time and place.
  3. A written notice of the meeting must be provided to the parents and must indicate the purpose, time, and location of the meeting, and who, by title or position, will be attending. The notice must also include a statement informing the parents that they have the right to invite individuals with special knowledge or expertise about their student and that they may request that a Part C service coordinator or other representative of the Part C system be invited to attend the initial IEP Team meeting for a child previously receiving early intervention services under Part C of the IDEA.
  4. No later than the first IEP to be in effect when the student turns fourteen (14), or younger if determined appropriate by the IEP Team, the notice must also indicate that a purpose of the meeting will be identifying transition services needs of the student and that the district will invite the student.
  5. Not later than the first IEP to be in effect when the student turns sixteen (16), or younger if determined appropriate by the IEP Team, the notice must also indicate that a purpose of the meeting will be consideration of the postsecondary goals and transition services for the student, that the district will invite the student, and identify any other agency that will be invited to send a representative to the meeting.
  6. If neither parent can attend, the school district shall use other methods to ensure parent participation, including individual or conference telephone calls or video conferencing.
  7. A meeting may be conducted without a parent in attendance if the school district is unable to obtain the attendance of the parents. In this case, the district must have a record of its attempts to arrange a mutually agreed on time and place, such as:
    - a. Detailed records of telephone calls made or attempted and the results of those calls;
    - b. Copies of correspondence sent to the parents and any responses received; and
    - c. Detailed records of visits made to the parents' home or place of employment and the results of those visits.
  8. The district shall take whatever action is necessary to ensure that the parents and the student, beginning at age fourteen (14), understand the proceedings at a meeting, which may include arranging for an interpreter for parents and students who are deaf or whose native language is a language other than English.
  9. A meeting does not include informal or unscheduled conversations involving school district personnel and conversations on issues such as teaching methodology, lesson plans, or coordination of service provision. A meeting also does not include preparatory activities that school district personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.
  10. The district shall give the parents a copy of the IEP at no cost to the parents.
- (c) IEP Team participants. The IEP Team, with a reasonable number of participants, shall include:
1. The parents of the student;
  2. Not less than one (1) regular education teacher of the student, if the student is or may be participating in the regular education environment. The regular education teacher of a student with a disability, as a member of the IEP Team, must to the extent appropriate, participate in the development, review, and revision of the student's IEP, including assisting in the determination of:
    - a. Appropriate positive behavioral interventions and supports and other strategies for the student; and
    - b. Supplementary aids and services, classroom accommodations, modifications or supports for school personnel that will be provided for the student consistent with this rule.
  3. Not less than one (1) special education teacher of the student, or where appropriate, not less than one special education provider of the student;
  4. A representative of the school district who is qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of students with disabilities, is knowledgeable about the general curriculum, and is knowledgeable about the availability of resources of the school district. At the discretion of the school district, the student's special education teacher may be designated to also serve as the representative of the school district if the teacher meets the requirements described in this paragraph;
  5. An individual who can interpret the instructional implications of evaluation results who may be a member of the IEP Team as

# DRAFT

## Note: Proposed Revision on Page 5

described in subparagraph (3)(c)3., or (3)(c)4., of this rule;

6. At the discretion of the parent or the school district, other individuals who have knowledge or special expertise regarding the student, including related services personnel as appropriate. The determination of the knowledge or special expertise of any such individual shall be made by the party who invited the individual to be a member of the IEP Team; and

7. The student, if appropriate, and in all cases where a purpose of the meeting will be the identification of the student's transition services needs or consideration of postsecondary goals for the student and the transition services needed to assist the student in reaching those goals. If the student does not attend the IEP meeting to identify transition services needs or consider postsecondary goals and transition services, the school district shall take other steps to ensure that the student's preferences and interests are considered.

8. To the extent appropriate and with the consent of the parents or a student who has reached the age of majority, the school district shall invite a representative of any participating agency that may be responsible for providing or paying for transition services. Parental consent or the consent of the student who has reached the age of majority must also be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.

9. In the case of a child who was previously served and received early intervention services under Part C of the IDEA, an invitation to the initial IEP Team meeting must, at the request of the parent, be sent to the Part C service coordinator or other representatives of the Part C system to assist with the smooth transition of services.

(d) IEP Team member excusal. A member of the IEP Team described in subparagraph (3)(c)2., or (3)(c)3., or (3)(c)4., or (3)(c)5. above is not required to attend an IEP Team meeting, in whole or in part, if the parent of a student with a disability and the school district agree, in writing, that the attendance of the member is not necessary because the member's area of the curriculum or related services is not being modified or discussed in the meeting. Any such member of the IEP Team may also be excused from attending an IEP Team meeting, in whole or in part, when the meeting involves a modification to or discussion of the member's area of the curriculum or related services, if the parent, in writing, and the school district consent to the excusal and the member submits, in writing to the parent and the IEP Team, input into the development of the IEP prior to the meeting.

(e) Transition of children with disabilities from the infants and toddlers early intervention program.

1. By the third (3rd) birthday of a child who has been participating in the early intervention program for infants and toddlers with disabilities, an IEP consistent with this rule or an individual family support plan consistent with these rules, must be developed and implemented.

2. For the purpose of implementing the requirement of this rule, each school district will participate in transition planning conferences arranged by the state lead agency for the infants and toddlers with disabilities early intervention program.

3. If the child's third (3rd) birthday occurs during the summer, the child's IEP Team shall determine the date when services under the IEP or individual family support plan will begin.

(f) IEP and meeting timelines. Timelines for IEPs for students with disabilities shall include the following:

1. An IEP, which has been reviewed, and if appropriate, revised periodically, but not less than annually, must be in effect at the beginning of each school year for each eligible student with a disability within its jurisdiction.

2. An IEP must be developed within thirty (30) calendar days following the determination of a student's eligibility for special education and related services and be in effect prior to the provision of these services.

3. Meetings shall be held to develop, review and revise the IEP. A meeting shall be held at least annually to review each IEP and, as appropriate, revise its provisions in accordance with all aspects of this rule.

(g) Considerations in IEP development, review, and revision for students with disabilities. The IEP team shall consider the following in IEP development, review, and revision:

1. The strengths of the student and the concerns of the parents for enhancing the education of their student;

2. The results of the initial or most recent evaluation or reevaluation of the student;

3. As appropriate, the results of the student's performance on any general statewide or districtwide assessment;

4. The academic, developmental, and functional needs of the student;

5. In the case of a student whose behavior impedes the student's learning or the learning of others, strategies, including the use of positive behavioral interventions, supports, and other strategies to address that behavior;

# DRAFT

## Note: Proposed Revision on Page 5

6. In the case of a student with limited English proficiency, the language needs of the student as those needs relate to the student's IEP;

7. In the case of a student who is blind or visually impaired, provision of instruction in Braille and the use of Braille unless the IEP Team determines, after an evaluation of the student's reading and writing skills, needs, including future needs, and appropriate reading and writing media (including an evaluation of the student's future need for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the student;

8. The communication needs of the student;

9. In the case of a student who is deaf or hard-of-hearing, the student's language and communication needs, opportunities for direct communications with peers and professional personnel in the student's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the student's language and communication mode;

10. Whether the student requires assistive technology devices and services. On a case-by-case basis, the use of school-purchased assistive technology devices in a student's home or in other settings is required if the IEP Team determines that the student needs access to those devices in order to receive a free appropriate public education; and

11. At least annually, whether extended school year services are necessary for the provision of a free appropriate public education to the student consistent with the following:

a. Extended school year services (ESY) must be provided if a student's IEP team determines, on an individual basis, that the services are necessary for the provision of FAPE to the student.

b. School districts may not limit ESY to particular categories of disability or unilaterally limit the type, amount, or duration of those services.

12. If, after consideration of the factors in paragraph (3)(g), the IEP Team determines that a student needs a particular device or service, including an intervention, accommodation or other program modification, in order for the student to receive a free appropriate public education, the IEP must include a statement to that effect.

(h) Contents of the IEP. The IEP for each student with a disability must include:

1. A statement of the student's present levels of academic achievement and functional performance, including how the student's disability affects the student's involvement and progress in the general curriculum, or for prekindergarten children, as appropriate, how the disability affects the student's participation in appropriate activities;

2. A statement of measurable annual goals, including academic and functional goals designed to meet the student's needs that result from the student's disability to enable the student to be involved in and make progress in the general curriculum or for preschool children, as appropriate, to participate in appropriate activities and meeting each of the student's other educational needs that result from the student's disability;

3. A description of benchmarks or short-term objectives for:

a. Students with disabilities who take alternate assessments aligned to alternate achievement standards; or

b. Any other student with a disability, at the discretion of the IEP Team.

4. A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the classroom accommodations, modifications or supports for school personnel that will be provided for the student to advance appropriately toward attaining the annual goals; to be involved and progress in the general curriculum; to participate in extracurricular and other nonacademic activities; and to be educated and participate with other students with disabilities and nondisabled students in the activities described in this section. A parent must provide signed consent for a student to receive instructional accommodations that would not be permitted on the statewide assessments and must acknowledge in writing that he or she understands the implications of such accommodations. An explanation of the extent, if any, to which the student will not participate with nondisabled students in the regular class and in the activities described in subparagraph (3)(h)4., of this rule;

5. A statement of any individual appropriate accommodations in the administration of state or district assessments of student achievement that are necessary in order to measure the academic achievement and functional performance of the student on the assessments. Accommodations that negate the validity of a statewide assessment are not allowable in accordance with Section 1008.22(3)(c)6., F.S. If the IEP Team determines that the student will take an alternate assessment instead of the regular state or district assessment of student achievement or part of an assessment, the IEP must include a statement of why the student can not participate in the regular assessment and why the particular alternate assessment selected is appropriate for the student. If a student

# DRAFT

## Note: Proposed Revision on Page 5

does not participate in the regular state assessment, the district must notify the student's parent and provide the parent with information regarding the implications of such nonparticipation in accordance with Section 1008.22(3)(c)6., F.S.

6. The projected date for the beginning of the special education, services, accommodations and modifications described in subparagraph (3)(h)4., of this rule and the anticipated frequency, location, and duration of those services;

7. A statement of how the student's progress toward meeting the annual goals will be measured and when periodic reports on the progress the student is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;

8. In accordance with Commissioner of Education Rule 6A-1.09961, F.A.C., during the student's eighth (8th) grade year or during the school year of the student's fourteenth (14th) birthday, whichever comes first, a statement of whether the student is pursuing a course of study leading to a standard diploma or a special diploma.

9. In order to ensure quality transition planning and services, IEP Teams shall begin the process of identifying transition services needs of students with disabilities, to include consideration of the student's need for instruction or the provision of information in the area of self-determination to assist the student to be able to actively and effectively participate in IEP meetings and self-advocate, beginning no later than age fourteen (14), so that needed postsecondary goals may be identified and in place by age sixteen (16).

10. Beginning not later than the first IEP to be in effect when the student turns sixteen (16), or younger, if determined appropriate by the IEP Team and updated annually:

a. A statement of appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills and the transition services (including courses of study) needed to assist the student in reaching those goals.

~~b. Consideration of instruction or the provision of information in the area of self-determination to assist the student to be able to actively and effectively participate in IEP meetings and self-advocate, if appropriate.~~

~~e-b.~~ If a participating agency responsible for transition services, other than the school district, fails to provide the transition services described in the IEP, the school district shall reconvene the IEP Team to identify alternative strategies to meet the transition objectives for the student set out in the IEP. However, this does not relieve any participating agency, including Division of Vocational Rehabilitation Services, of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.

~~10.11.~~ Beginning at least one (1) year before the student's eighteenth (18th) birthday, a statement that the student has been informed of his or her rights under Part B of the IDEA, if any, that will transfer from the parent to the student on reaching the age of majority, which is eighteen (18) years of age.

(i) Least restrictive environment (LRE) and placement determinations. Placement determinations shall be made in accordance with the least restrictive environment provisions of the IDEA and Rules 6A-6.03011 through 6A-6.0361, F.A.C., as follows:

1. To the maximum extent appropriate, students with disabilities, including those in public or private institutions or other facilities, are educated with students who are not disabled;

2. Special classes, separate schooling or other removal of students with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily; and

3. A continuum of alternative placements must be available to meet the needs of students with disabilities for special education and related services, including instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions and a school district must make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

4. In determining the educational placement of a student with a disability, including a preschool child with a disability, each school district must ensure that:

a. The placement decision:

(I) Is made by a group of persons, including the parents, and other persons knowledgeable about the student, the meaning of the evaluation data, and the placement options; and

(II) Is made in conformity with the LRE provisions of this rule.

# DRAFT

## Note: Proposed Revision on Page 5

- b. The student's placement:
    - (I) Is determined at least annually;
    - (II) Is based on the student's IEP; and
    - (III) Is as close as possible to the student's home.
  - c. Unless the IEP of a student with a disability requires some other arrangement, the student is educated in the school that he or she would attend if nondisabled;
  - d. In selecting the LRE, consideration is given to any potential harmful effect on the student or on the quality of services that he or she needs; and
  - e. A student with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.
5. In providing or arranging for the provision of nonacademic and extracurricular services and activities (including meals, recess periods, counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the school district, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the school district and assistance in making outside employment available), each school district must ensure that each student with a disability participates with students who are not disabled to the maximum extent appropriate to the needs of the student. The school district must ensure that each student with a disability has the supplementary aids and services determined by the student's IEP Team to be appropriate and necessary for the student to participate in nonacademic settings.
- (j) Review and revision of the IEP. The school district shall ensure that the IEP Team:
    - 1. Reviews the student's IEP periodically, but not less than annually, to determine whether the annual goals for the student are being achieved;
    - 2. Revises the IEP as appropriate to address:
      - a. Any lack of expected progress toward the annual goals and in the general curriculum, if appropriate;
      - b. The results of any reevaluation conducted;
      - c. Information about the student provided to, or by, the parents;
      - d. The student's anticipated needs or other matters; and
      - e. Consideration of the factors described in paragraph (3)(g) of this rule; and
    - 3. Responds to the parent's right to ask for revision of the student's IEP; and
    - 4. Encourages the consolidation of reevaluation meetings for the student and other IEP Team meetings for the student, to the extent possible.
  - (k) Changes to the IEP. Generally, changes to the IEP must be made by the entire IEP Team at an IEP Team meeting and may be made by amending the IEP rather than by redrafting the entire IEP. However, in making changes to a student's IEP after the annual IEP meeting for a school year, the parent and the school district may agree not to convene an IEP Team meeting for purposes of making those changes, and instead may develop a written document to amend or modify the student's current IEP. If changes are made to the student's IEP without a meeting, the school district must ensure that the student's IEP Team is informed of those changes. Upon request, a parent must be provided with a revised copy of the IEP with the amendments incorporated.
  - (l) Students with disabilities in adult prisons. The requirements of this rule relating to participation in general assessments do not apply to students with disabilities who are convicted as adults under State law and incarcerated in adult prisons. In addition, the requirements relating to transition planning and services do not apply with respect to those students whose eligibility for services under Part B of the IDEA and Rules 6A-6.03011 through 6A-6.0361, F.A.C., will end, because of their age, before they will be eligible to be released from prison based on consideration of their sentence and eligibility for early release. The IEP Team of a student with a disability who is convicted as an adult under State law and incarcerated in an adult prison may modify the student's IEP or placement if the State has demonstrated a bona fide security or compelling penological interest that cannot otherwise be accommodated, and the requirements relating to IEP content and LRE do not apply with respect to such modifications made.
  - (m) IEP implementation and accountability. The school district, or other state agency that provides special education either directly, by contract, or through other arrangements, is responsible for providing special education to students with disabilities in accordance with the students' IEPs. However, it is not required that the school district, teacher, or other person be held accountable

# DRAFT

## Note: Proposed Revision on Page 5

if a student does not achieve the growth projected in the annual goals and benchmarks or objectives. An IEP must be in effect before special education and related services are provided to an eligible student and must be implemented as soon as possible following the IEP meeting. In addition:

1. The student's IEP shall be accessible to each regular education teacher, special education teacher, related service provider, and other service provider who is responsible for its implementation.

2. All teachers and providers shall be informed of their specific responsibilities related to implementing the student's IEP and the specific accommodations, modifications, and supports that must be provided for the student in accordance with the IEP.

3. The school district must make a good faith effort to assist the student to achieve the goals and objectives or benchmarks listed on the IEP.

4. Nothing in this section limits a parent's right to ask for revisions of the child's IEP or to invoke due process procedures.

(n) IEPs and meetings for students with disabilities placed in private schools or community facilities by the school district.

1. If a student with a disability is placed in a private school by the school district, in consultation with the student's parents, the school district shall:

a. Ensure that the student has all of the rights of a student with a disability who is served by a school district.

b. Before the school district places the student, initiate and conduct a meeting to develop an IEP for the student, in accordance with this rule or for children ages three (3) through five (5), an IEP or an IFSP in accordance with Rules 6A-6.03011 through 6A-6.0361, FAC.; and

c. Ensure the attendance of a representative of the private school at the meeting. If the representative cannot attend, the school district shall use other methods to ensure participation by the private school, including individual or conference telephone calls.

2. After a student with a disability enters a private school or facility, any meetings to review and revise the student's IEP may be initiated and conducted by the private school or facility at the discretion of the school district but the school district must ensure that the parents and a school district representative are involved in decisions about the IEP and agree to proposed changes in the IEP before those changes are implemented by the private school.

3. Even if a private school or facility implements a student's IEP, responsibility for compliance with these rules remains with the school district.

4. Subparagraphs (3)(n)1. through 3. of this rule apply only to students who are or have been placed in or referred to a private school or facility by a school district as a means of providing FAPE.

(o) If placement in a public or private residential program is necessary to provide special education to a student with a disability, the program, including non-medical care and room and board, must be at no cost to the parents of the student.

(p) Procedures for routine checking of hearing aids and external components of surgically implanted medical devices. Each school district must ensure that hearing aids worn in school by students with hearing impairments, including deafness, are functioning properly and must ensure that the external components of surgically implanted medical devices are functioning properly. For a student with a surgically implanted medical device who is receiving special education and related services under Rules 6A-6.03011 through 6A-6.0361, F.A.C., a school district is not responsible for the post-surgical maintenance, programming, or replacement of the medical device that has been surgically implanted (or of an external component of the surgically implanted medical device).

(q) Procedures for students with disabilities who are covered by public benefits or insurance. A school district may use the Medicaid or other public benefits or insurance programs in which a student participates to provide or pay for services required under Rules 6A-6.03011 through 6A-6.0361, F.A.C., as permitted under the public benefits or insurance program, except as provided herein.

1. With regard to services required to provide FAPE to an eligible student under the IDEA, the school district:

a. May not require parents to sign up for or enroll in public insurance programs in order for their student to receive FAPE under Part B of the IDEA;

b. May not require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services provided pursuant to the IDEA, but pursuant to subparagraph (3)(q)3. of this rule, may pay the cost that the parent otherwise would be required to pay;

c. May not use a student's benefits under a public insurance program if that use would:

# DRAFT

## Note: Proposed Revision on Page 5

(I) Decrease available lifetime coverage or any other insured benefit;  
(II) Result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the student outside of the time the student is in school;  
(III) Increase premiums or lead to the discontinuation of benefits or insurance; or  
(IV) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures; and  
d. Must obtain informed written parental consent each time that access to public benefits or insurance is initially sought and notify parents that the parents' refusal to allow access to their public benefits or insurance does not relieve the school district of its responsibility to ensure that all required services are provided at no cost to the parents. Parental consent must be obtained each time services are changed.

2. With regard to students with disabilities who are covered by private insurance, a school district may access a parent's private insurance proceeds to provide services required under the IDEA only if the parent provides written informed consent. Each time the school district proposes to access the parent's private insurance proceeds, the agency must obtain parental consent and inform the parents that their refusal to permit the school district to access their private insurance does not relieve the school district of its responsibility to ensure that all required services are provided at no cost to the parents.

3. Use of Part B funds if parent does not give consent. If a school district is unable to obtain parental consent to use the parents' private insurance, or public benefits or insurance when the parents would incur a cost for a specified service required to ensure FAPE, the school district may use its IDEA Part B funds to pay for the service. To avoid financial cost to parents who otherwise would consent to use private insurance, or public benefits or insurance if the parents would incur a cost, the school district may use its IDEA Part B funds to pay the cost that the parents otherwise would have to pay to use the parents' benefits or insurance (e.g., the deductible or co-pay amounts).

(r) Access to Instructional Materials. Each school district must take all reasonable steps to provide instructional materials in accessible formats to children with disabilities who need those instructional materials at the same time as other children receive instructional materials.

(s) Physical education. Physical education services, specially designed if necessary, must be made available to every student with a disability receiving FAPE, unless the school district enrolls students without disabilities and does not provide physical education to students without disabilities in the same grades. Each student with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled students unless the student is enrolled full time in a separate facility or the student needs specially designed physical education, as prescribed in the student's IEP. If specially designed physical education is prescribed in a student's IEP, the school district responsible for the education of that student must provide the services directly or make arrangements for those services to be provided through other public or private programs. The school district responsible for the education of a student with a disability who is enrolled in a separate facility must ensure that the student receives appropriate physical education services in compliance with this section.

(t) Program options. Each school district must take steps to ensure that its students with disabilities have available to them the variety of educational programs and services available to nondisabled students in the area served by the school district, including art, music, industrial arts, consumer and homemaking education, and vocational education.
