8417110 - Health Science 2

Applied Educational Systems, Inc.

HealthCenter21:Health Care Foundations, AES, 2006/N/A

Committee Comments or Notations:

Approach: AES develops curriculum using a backward design process, which begins with the exploration and determination of the desired understandings, knowledge, and skills students should learn. It includes these steps:

- Evaluate Standards and Understandings
- Determine Assessments
- Develop Learning Plan
- Create Curriculum
- Review and Test Curriculum
- Teachers Implement Curriculum

In addition, HealthCenter21: Health Care Foundations uses a range of instructional strategies to help all individual students learn and understand.

Multiple Learning Styles

HealthCenter21 appeals to multiple styles of learning with its dynamic and interactive multimedia presentations. These presentations merge text, video, animation, graphics, simulations, photographs, audio, and music to help students explore and make sense of the content.

Hands-on Practice

Practicing new skills is essential to becoming a proficient health care professional. In HealthCenter21 students constantly gain hands-on experience and practice.

Just-In-Time Learning

HealthCenter21 uses "just-in-time" learning, where students learn concepts, answer questions about the concepts, and then immediately connect them to clinical skills.

Differentiation

HealthCenter21 accommodates a range of student abilities by providing a customizable assessment profile for each student. The flexible curriculum framework allows the teacher to offer additional practice of clinical skills when needed and to assign projects to more advanced students.

Recommended for: HealthCenter21: Health Care Foundations is targeted toward students in Grade 10 or above. AES keeps the reading level of the curriculum within the range of the target audience by using clear, concise writing, simple sentence structures, and basic-level vocabulary. In addition, interactive multimedia presentations aid student comprehension. And hyperlinked, narrated glossary words are included for students to review vocabulary.

Suggested Instructional Time: 1 year

Consultant Service: Three days of intensive teacher training in the operation of the lab is included at the manufacturer's training facility.

Adopted: 2007-2013

Type	ISBN	Item	Price	Free Symbols	Terms	Grade
M		HealthCenter21:Health Care Foundations program	\$35,000.00			9-12

8417110 - Health Science 2

Glencoe/McGraw-Hill

Health Care Science Technology: Career Foundations, Booth, 2004/1st

Committee Comments or Notations: Additional materials may be needed in the areas of domestic violence and AIDS to meet the needs of the particular district/school.

Approach: Health Care Science Technology: Career Foundations ©2004 provides students with a firm foundation of skills, including teamwork and communication, for health-related careers. Specifically created to addresses the National Health Care Skills Standards.

The Student Edition breaks procedures and techniques into easy-to-understand steps: Preprocedure, Procedure, Postprocedure, and troubleshooting. Students are guided through each step using hands-on activities that allow them to practice and learn the prop

The Teacher Annotated Edition features detailed teaching/activity annotations on each student page. The Teacher's Manual contains a program overview, details student text features, ancillaries, standards, a correlation guide to the National Health Care Sk

8417211 - Nursing Assistant 3

Elsevier

Mosby's Textbook for Nursing Assistants, Sorrentino, 2004/6th

Committee Comments or Notations:

Approach: Mosby's Textbook for Nursing Assistants provides the most extensive coverage of all content areas in Nursing Assisting in a variety of health care settings (hospitals, nursing centers and home care settings). It emphasizes the needs of individuals across the life span. Caring, understanding, ensuring the person's rights and respect for the patients and residents is a unifying theme throughout the text. In addition, safety has always been a core value of Mosby's Textbook for Nursing Assistants.

Recommended for: Mosby's Textbook for Nursing Assistants is intended to be used for high students in grades 10-12 for Nursing Assistant Classes.

Suggested Instructional Time: 1 year

Consultant Service: Not applicable.

Glencoe/McGraw-Hill

The Effective Nursing Assistant, Stratton, et al, 2007/2nd

Committee Comments or Notations:

Approach: The Effective Nursing Student ©2007 is a skills-based program that integrates academics with the national Health Care Skills Foundation Standards and enables students to pursue Certified Nursing Assistant (CNA) certification.

The Student Edition clearly presents procedures and techniques in step-by-step tasks as commonly performed by nursing assistants. Safety First features emphasize the information students need to keep themselves and patients safe. Focus On features provide information on relevant issues and encourage critical thinking. Vital Skills features build academic employability skills by applying reading, writing, math and communication in the context of chapter content. CNA Certification Exam pages test student knowledge of chapter content using the format encountered while taking the state exam to become licensed or certified nursing assistants.

The Instructor Annotated Edition features teaching annotations on each student page. The Teacher's Manual contains a program overview, teaching tips, vital skills practice activities, and answers to chapter review questions.

Recommended for: Intended for use by students in grades 9-12

Suggested Instructional Time: 1 year
