(1) As used in ss. [1009.57](#), [1009.58](#), and [1009.59](#), the term "critical teacher shortage area" applies to mathematics, science, career education, and high priority location areas. The State Board of Education may identify career education programs having critical teacher shortages. The State Board of Education shall adopt rules pursuant to ss. [120.536\(1\)](#) and [120.54](#) necessary to annually identify other critical teacher shortage areas and high priority location areas. The state board shall also consider teacher characteristics such as ethnic background, race, and sex in determining critical teacher shortage areas. School grade levels may also be designated critical teacher shortage areas. Individual district school boards may identify other critical teacher shortage areas. Such shortages must be certified to and approved by the State Board of Education. High priority location areas shall be in high-density, low-economic urban schools and low-density, low-economic rural schools and shall include schools which meet criteria which include, but are not limited to, the percentage of free lunches, the percentage of students under Chapter I of the Education Consolidation and Improvement Act of 1981, and the faculty attrition rate.

SUBJECT: HIGH PRIORITY SCHOOL REPORT

YEAR: 2004-05

AUTHORITY: High priority location areas shall include schools which meet criteria which include, but are not limited to, the percentage of free lunches, the percentage of students served by Chapter I, and the faculty attrition rate (Section, 1012.07, Florida Statutes).

Rule 6A-20.0313 (3), FAC states that, based on data submitted annually by each school district, the Commissioner shall rank all public schools in accordance with the criteria provided in Section 1012.07, Florida Statutes, and shall select from this ranked list those schools to be identified as high priority locations. Rule 6A-20.0313 (4) FAC then states that, based on the recommendations of the Commissioner, the State Board shall adopt a list of approved critical teacher shortage areas and high priority locations to be used in conjunction with the programs described in Rules 6A-20.012 Critical Teacher Shortage Tuition Reimbursement Program, and 6A-20.013 Critical Teacher Shortage Student Loan Forgiveness Program, FAC.

EXPLANATION: The high priority location schools in the report are determined based upon the combined standard scores of the schools in the areas of free/reduced lunch and newly hired teachers.

A standard score is used because it indicates relative position within a particular distribution of scores. The quantity standard score is the number of standard deviations between the score and the mean. The conversion allows the comparison and combination of measures made on different scales. If data are being combined or scaled the conversion eliminates accidental weighting due to differences in means or standard deviations.

REPORTED BY: Number; Percentage; Standard Score.

SCHOOL TYPE: Elementary; Middle; High

Separate rankings are performed for each school type because of the way free/reduced lunch statistics change for students as they progress through the grades. Traditionally, elementary students are most likely to sign-up for free/reduced price lunch when eligible and high school students are least likely to do so. Thus, high schools are not compared to elementary schools. Instead all schools are compared within their own school type.
