

LAKE CITY
COMMUNITY COLLEGE

From the Office of the President

March 20, 2006

Mr. David Armstrong, Chancellor
Community College & Workforce Development
Turlington Building, Suite 1514
325 West Gaines Street
Tallahassee, Florida 32399

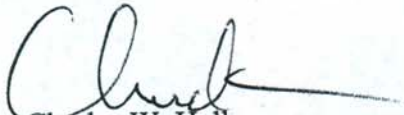

Dear David,

At its last regularly scheduled meeting, the Lake City Community College Board of Trustees voted to support establishing a Lake City Community College Center in Gilchrist County.

Previous to this decision by the Board of Trustees, we have been working with the Gilchrist County Schools, Gilchrist County Commissioner, Gilchrist County Chamber of Commerce, and citizens from the area. All the support for a center in this rapidly growing area has been shared with the LCCC Board of Trustees. Thus, when a vote came, it was unanimous.

I know that notifying you is certainly one of our first steps in making this dream become a reality. This done, I am asking for your help as to the next step and your support to provide educational programs and services to this part of our district and the people requesting a center for their community.

Best wishes,

Charles W. Hall
President
