State Board Plan For Repeat F Elementary Schools

Non-Negotiable Requirements

In 2006, the State Board of Education established 26 requirements for all repeated F schools. During the course of the 2006-2007 school year, four districts and seven schools implemented these requirements. All of these schools were secondary schools and the 26 requirements reflected the unique needs of secondary schools. Based upon their feedback, as well as on the experience of DOE staff members, this document suggests modifications to these 26 requirements that apply to the needs of elementary schools.

Suggested changes to this document are noted in **red**.
