

STATE BOARD OF EDUCATION
Update
August 14, 2007

SUBJECT: Development of Sunshine State Standards-Mathematics 2007

PROPOSED BOARD ACTION

Update

AUTHORITY FOR STATE BOARD ACTION

1001.02, Florida Statutes

BACKGROUND INFORMATION

Florida began the revision process of the Mathematics Sunshine State Standards in September 2006. International, national, and state level experts in standards writing, mathematics content, and mathematics instruction have participated in the process of defining new world class Mathematics Sunshine State Standards for Florida. Major differences include: fewer benchmarks per grade level k-8, moving from an average of 83 to 20; and Bodies of Knowledge at the secondary level that include: Algebra, Calculus, Discrete Mathematics, Financial Literacy, Geometry, Probability, Statistics, and Trigonometry.
