

Updated Standards Schedule

What's New?

This schedule includes alignment of the adoption of new standards to:

- College and career readiness,
- Professional development,
- Teacher certification, and
- Time for district implementation.

In addition to:

- Instructional materials adoption, and
- Assessment.

Next Generation Sunshine State Standards

Year One

- Adopt research-based standards.
- If applicable, assessment analyzes the new standards and current test items to identify needed development of new items and future deletion of current items.
- Build and adopt new course descriptions.
- Request from vendors alignment of current instructional materials to the new standards.
- Write instructional materials specifications.
- Identify professional development resources and processes.

Next Generation Sunshine State Standards

Year Two

- Districts align curriculum to the new standards and implement new course descriptions.
- If applicable, assessment includes pilot items aligned to the new standards.
- Implement instructional materials adoption process.
- Educator Preparation Programs and Florida Teacher Certification Exams are aligned to the new standards.
- Implement professional development process.

Next Generation Sunshine State Standards

Year Three

- Classroom instruction is fully aligned to the new standards.
- If applicable, assessment includes field test items aligned to the new standards.
- District's adopt instructional materials.
- Implementation of professional development continues.

Next Generation Sunshine State Standards

Completion

Alignment of:

- College and career readiness, curriculum, instruction, student assessment, professional development, and teacher certification programs and exams.
