Re: St. Petersburg College – Request Site Designation Approval for a Veterinary Technology Special Purpose Center

Dear Dr. Holcombe:

St. Petersburg College (SPC) is seeking authorization for a special purpose center site designation for a Veterinary Technology Center located in the School Board of Pinellas County's Seminole Vocational Education Center, Seminole, Florida. The School Board's Veterinary Assisting Program is located at the 47-acre site, and our SPC students already utilize this site and its facilities for their large animal studies as part of an existing agreement with the School Board.

This special purpose center designation request was approved by the St. Petersburg College's Board of Trustees at their meeting on March 18, 2008. The site designation will allow us to construct the Veterinary Technology Building to be located at this site. Additional support documentation is attached as required by Section 1001.02(7)(e) Florida Statutes and State Board of Education Rule 6A-14.0061, Florida Administrative Code, Campus, Center, Special Purpose Center and Instructional Site Designations.

Sincerely,

Carl M. Kuttler, Jr.
