Bernard J. Presha

Objective

"Our children are our more precious asset. As such, we need to assure that they are educated and mentored to, by only the most qualified educators. As the parent of Orange County students in elementary, middle and high school, it would be my honor to be a small part of that process. As a career law enforcement officer of over three decades, I feel that I would have a unique insight to these issues".

Experience

1975-2005

Orange County Sheriff's Office

During my tenure with the Sheriff's Office, I attained the rank of captain. My various assignments included supervisory positions in the Uniform Patrol Division, Metropolitan Bureau of Investigation, Detective Bureau, Mounted Patrol Unit, School Resource Program and Commanding Officer of the Media Relations Division, Office of the Sheriff. I was also assigned to the DEA Task Force, for the Mid-Florida District and a member of the Student Advisory Council at Lakemont Elementary School, Orange County, Florida.

2005-Present

Orange County Sheriff's Office

Subsequent to my retirement, I remained as a Reserve Deputy Sheriff, with the agency. As a volunteer deputy sheriff, I help augment the manpower, in the various units. In 2007, I was asked to return to the Sheriff's Office, in a civilian position, as a Background Investigator. In that capacity, I conduct thorough investigations into the background of applicants for sworn and civilian positions, to assure that we employ only the most qualified people.
