Re: Change in Site Designation

Dear Will:

Miami Dade College's Entrepreneurial Education Center (site 10) was approved by the State as a "special purpose center" in 1989. This 0.3 acre site in the Liberty City area of the City of Miami includes approximately 32,000 square feet of facilities. A diverse range of college courses are offered and students also have opportunities to pursue certificate and vocational programs as well as partake in a variety of seminars, conferences and workshops. Students at this site can obtain workforce and business skills training to enter the labor market or become successful entrepreneurs.

I am requesting a change in site designation for this site. FTE enrollment at the Entrepreneurial Education Center last year (2007-8) was 872. Current State approved FTE projections for 2013 at this site show a 36 per cent increase to 1,186 FTE (CCFTE602 as of 6/30/08). Per FAC rule 6A-14.0061, this site meets the requirements for "Center" site designation.

This request for change in site designation to "Center" has been approved by the College's District Board of Trustees on December 16, 2008 (see attached).

Sincerely,

  
Eduardo J. Padrón
