

FLORIDA BOARD OF EDUCATION
July 23-24, 2001

SUBJECT: Department of Education Program Highlight

PROPOSED BOARD ACTION

This agenda item requires no action.

BACKGROUND INFORMATION

The Department of Education, through its divisions, provides a wide variety of services and administers many programs. The secretary is recommending that a portion of each meeting be devoted to a presentation on one of the offices within the department. The presentation will include resources devoted to the services, organization and delivery methods, customer feedback and any performance data on effectiveness. The first presentation is on the Office of School Improvement Services. This office provides direct school improvement assistance to public schools throughout the state. This presentation will provide a good overview of the role of the department in producing dramatic improvement in school grades over the past few years.

Supporting Documentation Included: PowerPoint presentation attached

Facilitators/Presenters: Andrea Willet
