BACKGROUND INFORMATION

Report on the current status and activities of the Data Warehouse. The presentation will include an overview of the design and operation of the warehouse with a focus on how the warehouse improves the ability of the Department of Education to respond to questions, which require the use of multiple sets of data across education delivery systems and/or across time. An illustration will show how the Data Warehouse can be utilized in answering questions about the progress of students from secondary into postsecondary education and the improvements which have resulted with the use of the Data Warehouse. Further, a demonstration will show how the Data Warehouse is being used to answer questions analyzing the FCAT scores.
