

FLORIDA BOARD OF EDUCATION
December 14, 2001

SUBJECT: Reorganization

PROPOSED BOARD ACTION

No action required.

BACKGROUND INFORMATION

In accordance with SB 1162, all education delivery systems are to be melded into one Department of Education. Accenture has been hired to assist in the reorganization of the education delivery systems into the new, "seamless" DOE. To that end, they have been visiting with major stakeholders and studying in depth the existing systems in the current delivery systems (DOE, Community Colleges and Universities). During the workshop on Thursday, Accenture will share the results of all the data collected and how it will be reflected in the organizational structure of the new seamless DOE.
