

**FLORIDA BOARD OF EDUCATION**  
November 19-20, 2001

**SUBJECT:** Reorganization

---

**PROPOSED BOARD ACTION**

For discussion only.

**BACKGROUND INFORMATION**

In accordance with SB 1162, all education delivery systems are to be melded into one Department of Education. Accenture has been hired to assist in the reorganization of the education delivery systems into the new, “seamless” DOE. To that end, they have been conducting interviews with major stakeholders and studying in depth the existing systems in the current delivery systems (DOE, Community Colleges and Universities). Accenture will share the information gathered from these interviews and the input gained in relation to the vision for the new DOE.

We are hoping that the Board members will share some thoughts on larger policy needs and how they may be reflected in a new organization. For example: how will the new organization reflect accountability across all delivery systems.
