A ten-character code used to uniquely identify a student. The number must be maintained for all PK-12 students, adult general education students and postsecondary career and technical education students.

If the student provides a social security number, the Student Number Identifier, Florida equals the social security number followed by an “X.”

If a student does not provide a social security number, the school district should assign a number using the common method statewide.

For any student entering a Florida school district for the first time who does not have a social security number, the first two digits will represent the district of initial entry into the Florida school system.

The last eight digits are district-defined in such a way as to result in a unique student number within the district where the number is originally assigned.

<table>
<thead>
<tr>
<th>Code</th>
<th>Definition/Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>123456789X</td>
<td>The student's social security number (123-45-6789) followed by an X is the student's identifier number.</td>
</tr>
<tr>
<td>2610124677</td>
<td>The student did not provide a social security number and was assigned an identifier number by Hendry County, the district of initial entry into a Florida public school for this student.</td>
</tr>
</tbody>
</table>

If a student does not provide a social security number at the time of entry, but later provides a social security number, the district must update the Student Number Identifier, Florida with the verified social security number.

See Student Number Identifier - Alias, Florida data element for more information concerning changes to the Student Number Identifier, Florida.

Section 1008.386, F.S. requires school districts to request a social security number for each student in grades PK - Adult who enroll or who are enrolled in school. However, a student is not required to provide his or her social security number as a condition for enrollment or graduation.

Districts may maintain a separate local student number identifier.
