2015-16 Workforce Development Information System (WDIS) Database Handbook

The District WDIS Database Handbook is for use by the school districts, and offers guidance on the reporting of adult general education and postsecondary career and technical education student data in WDIS.

What is WDIS?

WDIS is the Workforce Development reporting system and uses seven reporting formats. Each format contains specific data elements required for gathering student and teacher data.

Secondary career and technical education students are reported in the K-12 reporting system. However, secondary students are also reported in WDIS when they are co-enrolled in an adult general education program or dual-enrolled in a postsecondary career and technical education program.

WDIS System Requirements

All public school districts are required to submit all postsecondary career and technical education and adult general education enrollment data via the Department of Education Student Information Data Base.

1008.41, Florida Statutes, requires the development and implementation of a comprehensive management information system linking all levels of the state education system.

Rule 6A-1.0014, Florida Administrative Code, details all automated student and staff information requirements.

1008.41, Florida Statutes, addresses specific requirements regarding the career and technical education management information system.

WDIS Student Database Handbook changes made between the 1415 and 1516 WDIS reporting years. Please see the 2015-16 Handbook formats, edits, and data element definitions for details.

Data Element Number: **100075**

Data Element Name: **Additional Hours Credited**

A six-byte numeric field representing the cumulative count of clock hours credited the student in the current career and technical education program number, excluding clock hours reported on the Career and Technical Education Student Course Schedule. These hours include those credited due to work completed prior to enrollment in the reporting institution (transfer, life experience, etc). Additional Hours Credited are not reported for Continuing Workforce Education, Adult General Education, or Apprenticeship.

Code	Definition/Example
000150	Student is given credit for OCP A in the program for "life experience" (for example, skills gained while in the military). OCP A has a length of 150 hours. Report 150 hours for Additional Hours Credited.
000150	Student transfers from another institution with credit for Course A, a 150 hour course. Report 150 hours for Additional Hours Credited.

Data Element Number: **101075**

Data Element Name: **Adult Educational Functioning Level, Initial**

A federally-defined code indicating the Adult General Education or English Language functioning level of the adult student upon initial entrance into the course. A student may be assigned only one initial adult educational functioning level for each course on each reporting record. Based upon the instruction being reported on the record, select the most appropriate response from those listed under either Adult General Education (Adult Basic Education and Adult Secondary Education), Literacy for Adult ESOL Learners, Adult ESOL, Adult ELCATE, or Applied Academics for Adult Education (AAAE). For the initial Adult General Education functioning level, use the following codes to relate functioning levels to grade levels.

Code	Definition/Example
1) Adult General Education	
B	ABE Beginning Literacy (grade level 0 through 1.9),
F	ABE Beginning Basic Education (grade level 2.0 through 3.9),
H	ABE Intermediate Low (grade level 4.0 through 5.9),
J	ABE Intermediate High (grade level 6.0 through 8.9),
K	Adult Secondary Education Low (grade level 9.0 through 10.9),
L	Adult Secondary Education High (grade level 11.0 through 12.9 WITHOUT a high school diploma or its equivalent),
M	Adult Secondary Education High (grade level 11.0 through 12.9, WITH a high school diploma or its equivalent).

NOTE: See Appendix R for appropriate TABE scores.
NOTE: When testing on an instrument that assesses two or more subject areas, always place and promote the student according to the lowest score.
NOTE: When determining initial placement for GED® Prep Social Studies (9900132) or GED® Prep Science (9900133) using the TABE, placement should be based on the Reading or Language Arts subtest with the lowest score.

NOTE: Students may only be enrolled in Applied Academics for Adult Education (AAAE) if their initial functioning level is equivalent to grade level 9.0 or higher (Codes K, L or M).

Beginning in 2002-03 there is a new course called Literacy For Adult ESOL Learners for adult ESOL students who are functioning initially at less than the second grade level AND who are illiterate in their native language. For these students, use Code Q, R, S.

2) ESOL

Q	ESOL Pre Literacy – Level A
R	ESOL Basic Literacy – Level B
S	ESOL Advanced Literacy – 2 Level C

For the initial Adult ESOL functioning level, use the following codes to relate functioning level to approved test scores per SBR 1004.93.

3) ESOL initial

4	Low Intermediate ESOL –EFL 4
5	High Intermediate ESOL –EFL 5
6	Advanced ESOL –EFL 6

For the initial Adult ELCATE functioning level, use the following codes to relate functioning level to approved test scores per SBR 1004.93.

4) ELCATE

C	Beginning EFL 4
D	Intermediate EFL 5
E	Advanced EFL 6

This program is for students who wish to enter a university or community college, to take post-secondary level credit courses, or who wish to study academic English for personal enrichment. It is open to students who have completed the core ESOL curriculum or the ELCATE course, or to new students who demonstrate strong English language ability.

Year: 2015-16

Data Element Number: **107900**

Data Element Name: **Career Pathways Student Participant**

The student's status, regarding the Career Pathways program, during the current reporting year.

Code	Definition/Example
N	The student did not participate in Career Pathways.
Y	Secondary Career Pathways Student Participant- A career and technical education student who has earned 3 or more credits in a single career and technical education program and has participated in a locally developed Program of Study* that has a written articulation agreement in place which establishes and validates the career pathway. A career and technical education student is still considered a Career Pathways Student Participant even if the student is not currently enrolled in a career and technical education course. The student may be in the process of completing complementary academic courses identified in the program of study. OR Postsecondary Career Pathways Student Participant – A student enrolled in a postsecondary career and technical education program who has participated in a locally developed program of study and has earned articulated credit or dual enrollment credit as delineated in a local articulation agreement that is creditable to the student's degree or certificate.

*Note: A Program of Study is a coherent sequence of rigorous academic and technical courses that prepare students for successful completion of state academic standards and supports transition to more advanced postsecondary coursework in a related career area of interest. Additional requirements include:

A written articulation agreement must be in place for each Program of Study that validates the career pathway.

The agreement must be signed and approved by the agency head of each participating local education agency (LEA).

The Program of Study must include the locally endorsed sequence of core academic and Career and Technical Education (CTE) courses.

Career pathways must lead to a postsecondary credential. This may include a certificate, diploma, associate, or baccalaureate degree.

Each Program of Study is expected to be guided by the workforce and economic needs of business and industry in the community and employment opportunities for students.

AUTOMATED STUDENT DATA ELEMENTS

Year: 2015-16

Data Element Number: **108125**

Data Element Name: **Certificate of Completion, Type**

The type of certificate of completion awarded to the student in lieu of a high school diploma.

Code	Definition/Example
W08	Certificate of Completion, 24-Credit Option:
	Certificate awarded to students who have completed the 24-credit option per section 1003.4282, F.S. but failed to earn passing scores on the state approved graduation test or earn a concordant and/or comparative score and/or to achieve a cumulative grade point average of 2.0 on a 4.0 scale.
W09	Special Certificate of Completion:
	Certificate awarded to students who have been properly classified as deaf or hard-of-hearing, specific learning disabled, orthopedically impaired, other health impaired, traumatic brain injured, language impaired, emotional/behavioral disabled, dual-sensory impaired, intellectually disabled or autism spectrum disorder and who have met all applicable requirements prescribed by the local school board but are unable to meet the appropriate special state minimum requirements.
W44	Adult Certificate of Completion, 24-Credit Option:
	Certificate of Completion, see definition above (for W08), awarded to an adult student enrolled in the adult high school program.
W53	Adult Postsecondary Education Readiness Test (P.E.R.T.) - Eligible Certificate of Completion, 24-Credit Option:
	Certificate awarded to an adult student who completed all of the requirements to receive an adult standard high school diploma, including a cumulative grade point average of 2.0 on a 4.0 scale, except passing the state approved graduation test or concordant and/or comparative score. Students who receive this certificate of completion are eligible to take the Postsecondary Education Readiness Test and be admitted to remedial or credit courses at a state community college, as appropriate.
W56	Adult Certificate of Completion, 18-Credit ACCEL Option:
	Certificate awarded to adult students who have completed the 18-credits ACCEL option, section 1002.3105(3), F.S. but failed to earn passing scores on the state approved graduation test or concordant and/or comparative score or to achieve a cumulative grade point average of 2.0 on a 4.0 scale.
W8A	Common Placement Test – Eligible Certificate of Completion, 24-Credit Option:
	Certificate awarded to students who have completed all requirements for the standard high school diploma, including a cumulative grade point average of 2.0 on a 4.0 scale, except for passage of the state approved graduation test or concordant and/or comparative score. Students who receive this certificate of completion are eligible to take the common placement test and be admitted to developmental education or credit courses at the state community college, as appropriate.
W8B	Certificate of Completion, 18-Credit ACCEL Option:
	Certificate awarded to students who have completed the 18-credits ACCEL option, section 1002.3105(3),

Data Element Name: **Career and Technical Education /Adult General Education Completion Point Code**

These codes are used only for adult general education and career and technical education students to identify the literacy completion points and occupational completion points achieved by the student during the term (postsecondary) or year (secondary). See Appendix S.

Code	Definition/Example
A-Y	Select up to six of the appropriate alphabetic code or codes (from the applicable list in the appropriate data base handbook) that most closely describes the literacy or occupational completion point achievement(s) of the student in the term. Select as many codes as apply, and report them in the order in which they were achieved by the student during the term.
Z	Not applicable, or the student is exiting the program without having achieved at least one CPC in that program. This includes all Continuing Workforce Education. When code "Z" is used, all other positions in the field must be blank.

NOTE: These codes are to be reported on the format that is associated with the type of student for whom the record is being submitted. For example, adult general education students with literacy completion points from the list of such codes are to be reported on the WDIS Adult General Education Student Course format. Adult High School and Co-enrolled student LCPs are reported as two characters, as illustrated in the Workforce Development Education Data Base Handbook. See Appendix R.

A code indicating whether the postsecondary career and technical education or adult general education student is self-identified as having a disability , and based upon documentation, requires instructional accommodations and/or related auxiliary aids and services in at least one of the following accommodation areas: flexible schedule, flexible response, flexible presentation, assistive technology, and/or direct support services. Instructional accommodations and/or related auxiliary aids and services are provided with funding from the state workforce education allocation. Workforce Funding Education (WFE) 504/ADAAA Funding Level classification is based on the level of supports documented on the accommodation areas listed above.

Code	Definition/Example
A	Student is receiving instructional accommodations and/or related auxiliary aids/services due to a self-initiated and documented disability in order to access or respond to educational programs and opportunities. Level of instructional accommodations and/or related auxiliary aids/services received is applicable to a level A using the Workforce Funding Education (WFE) 504/ADAAA Funding Level classification system.
B	Student is receiving instructional accommodations and/or related auxiliary aids/services due to a self-initiated and documented disability in order to access or respond to educational programs and opportunities. Level of instructional accommodations and/or related auxiliary aids/services received is applicable to a level B using the Workforce Funding Education (WFE) 504/ADAAA Funding Level classification system.
C	Student is receiving instructional accommodations and/or related auxiliary aids/services due to a self-initiated and documented disability in order to access or respond to educational programs and opportunities. Level of instructional accommodations and/or related auxiliary aids/services received is applicable to a level C using the Workforce Funding Education (WFE) 504/ADAAA Funding Level classification system.
I	Student is receiving instructional accommodations and/or related auxiliary aids/services due to a self-initiated and documented disability in order to access or respond to educational programs and opportunities. Level of instructional accommodations and/or related auxiliary aids/services the student receives has not been evaluated using the Workforce Funding Education (WFE) 504/ADAAA Funding Level classification system.
N	Self-initiated, but neither requesting nor requiring accommodations and/or related auxiliary aids/services due to a self-initiated and documented disability.
Z	Not applicable or not self-identified.

	Not applicable for this element

NOTE: To report the appropriate code for dually enrolled students in FTE Surveys 1-4:

For regular secondary career and technical education students, enter the secondary program number. For a dually enrolled student taking postsecondary adult career and technical education in a district setting, enter the postsecondary adult career and technical education program number. (See Appendix I in the WDIS Data Base Handbook for current program numbers.)

If reporting a dually enrolled student taking an academic or career and technical education class for college credit through a state university or community college, zero fill this field.

In Survey 5, report only the instruction actually provided to the student by the school of instruction. Dual enrollment courses are reported in Survey 5 if the student took an industry certification or technical skill assessment listed in Appendix Z that is related to the dual enrollment course.

FLORIDA DEPARTMENT OF EDUCATION
DOE INFORMATION DATABASE REQUIREMENTS VOLUME I:
AUTOMATED STUDENT INFORMATION SYSTEM
AUTOMATED STUDENT DATA ELEMENTS

Year: 2015-16

Data Element Number: **140462**

Data Element Name: **Industry Certification Identifier**

The identifier assigned by the Florida Department of Education to specify the CAPE Digital Tool Certificate, CAPE Industry Certification, CAPE Acceleration Industry Certification, CAPE Innovation Course, or technical skill attainment examination that the student has taken/attempted.

See Appendix Z for a list of the Industry Certification Identifiers.

The following procedures apply for CAPE Digital Tool Certificates, CAPE Industry Certifications, CAPE Acceleration Industry Certifications, and technical skill attainment examinations:

For certifications or assessments with more than one exam, an industry certification identifier should only be reported when all exams required to earn the certification or pass the assessment have been taken/attempted.

For example, MICRO069 - This Microsoft bundle requires that a student pass three of six exams. Students must have taken at least three exams for the industry certification identifier to be reported.

For certifications or assessments with work experience requirements, an industry certification identifier may be reported as an attempt when all exams have been taken and any requirements other than work experience are satisfied (i.e., report valid identifier on Industry Certification Identifier element and outcome of "F" on the Industry Certification Outcome element). However, students may not be reported with an "F" for two consecutive years if the only certification requirement outstanding is the work experience.

For example, NRAEF002 - This certification requires the student pass Year 1 and Year 2 exams and complete 400 hours of work experience. A student may be reported one time with this industry certification identifier and an outcome of "F" if the exams have been taken but the work experience was not successfully completed.

For a student earning an industry certification in a prior year (value of "P" on industry certification outcome), the student may not be reported with that same industry certification identifier in a subsequent reporting year.

For example, ADOBE012 - This certification often has software updates and new versions of the software and subsequent exams are released. If a student earned the ADOBE012 certification in 2011-12, the student may not be reported as attempting or earning that industry certification in any following year.

Reporting on this data element is end of year reporting only for K-12 (Survey 5). The outcome reported should be the final outcome for the reporting year.

For example, ADOBE012 – If a student took this exam twice during the same year and failed the exam on two occasions, the certification identifier and outcome should only be reported once.   If the student took an exam and failed on the first attempt and then the student re-tested on the same exam and earned the certification, only the final outcome on the industry certification identifier should be submitted.

The following procedures apply for CAPE Innovation Course reporting:

All students enrolled in CAPE Innovation Courses should have a value reported on this format. One identifier is used for all CAPE Innovation Courses for purposes of reporting performances in the course – CAPEI001. For example, outcomes for AP Microeconomics Innovation (Course Number: 2102365) are reported for all students enrolled in this course on the Industry Certification format with an identifier of CAPEI001.

Data Element Number: **140462**

Data Element Name: **Industry Certification Identifier**

Data Element Number: **140500**

Data Element Name: **Industry Certification Outcome**

An indicator of whether or not the student passed the industry certification or technical skill assessment taken/attempted.

Code	Definition/Example
A	Student was enrolled in a CAPE Innovation Course and attempted all required academic assessments and industry certifications, but only passed the required academic assessment.
C	Student was enrolled in a CAPE Innovation Course and attempted all required academic assessments and industry certifications, but only passed the required industry certification examinations
F	Student attempted but did not pass or complete all of the required components of the certificate, certification or assessment OR the student attempted all academic assessments and industry certification examinations required in a CAPE Innovation Course and did not pass any of the required assessments.
I	Student was enrolled in a CAPE Innovation Course and attempted at least one but not all of the required academic assessments and industry certifications.
P	Student completed and passed all of the required components of the certificate, certification or assessment OR the student successfully completed all academic assessments and industry certification examinations required in a CAPE Innovation Course.
Z	Student was enrolled in a CAPE Innovation Course and did not attempt any of the required academic assessments and industry certification examinations for the course.

FOR CAPE INNOVATION COURSES

For example, for the Advanced Placement Microeconomics (Course Number: 2102365), the following outcomes would be reported:

A   Student took the AP Microeconomic examination and passed with a 3 or higher AND took the required Microsoft Office Specialist for Excel examination and did not earn the certification.

C   Student took the AP Microeconomic examination and did not pass with a 3 or higher AND took the required Microsoft Office Specialist for Excel examination and earned the certification.

I   Student took either the AP Microeconomics examination or the Microsoft Office Specialist for Excel but did not complete all of the required assessments for the CAPE Innovation Course.

F   Student took the AP Microeconomic examination and did not pass with a 3 or higher AND took the required Microsoft Office Specialist for Excel examination and did not earn the certification.

P   Student took the AP Microeconomic examination and passed with a score of 3 or higher AND took the required Microsoft Office Specialist for Excel examination and earned the certification.

Data Element Name: **Postsecondary School of Enrollment**

Definition: The state assigned four-digit school number in which the student is officially enrolled in postsecondary instruction.

Postsecondary School of Enrollment will be used for reporting performance outcomes by school for legislatively required reports. Examples of situations where the school number for current instruction/service matches the Postsecondary School of Enrollment include when instruction is provided at a Council on Occupational Education (COE) accredited school, a non-COE accredited institution providing instruction in districts that do not have a COE accredited site, and an institution in which the local provider has determined should be a school of enrollment for reporting of performance outcomes.

School of Instruction should not match School of Enrollment in the following situations:
•Instruction is provided on an extension campus which falls under the accreditation of a Council on Occupational Education (COE) accredited site. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
•Instruction is provided at a separate school that has been approved as an alternate site under an accredited institution. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
•A student is dual enrolled and instruction is provided at the secondary school. In this situation, the school of enrollment would be the school that was providing the instructional services, not the physical location of the instruction.

Federal social security number. Left justified.

STAFF SOCIAL SECURITY NUMBER: Report the social security number for all instructional staff on the Teacher Course and the Career and Technical Education Teacher Course formats.

NOTE: For contracted or charter school staff for whom the school district cannot obtain a Social Security Number, the district must assign a Staff Number Identifier for the employee using the following method:

First Two Positions

CS   The first two positions in the Social Security Number field must be coded with the letters "CS".

Last Seven Positions

NNNNNNN   The last seven positions must be numeric.

NOTE: The district-defined Staff Number Identifier must result in a unique staff number within the district.

STUDENT SOCIAL SECURITY NUMBER: Florida Statute 1008.386 requires school districts to request a social security number for each student in grades PK-Adult who enroll or who are enrolled in school. When a social security number is available, the number is also used as the first nine digits of the student's Florida Student Number Identifier.

See the Student Number Identifier, Florida data element for more information.

Data Element Number: **175630**

Data Element Name: **Student Number Identifier - Alias, Florida**

A ten-character code used to identify the first Student Number Identifier, Florida assigned to a student in a district. The number will be reported to the state and will be used to enable the state to do longitudinal studies.

Creation of the Data Element

1. Upon enrollment in the district, copy each student's Student Number Identifier, Florida to the student's Student Number Identifier - Alias, Florida field.

2. Effective the first day of the 180 day 1991-92 school year, for any student who provides a social security number, the student's Student Number Identifier, Florida should be equal to the student's social security number followed by an "X."

Subsequent Changes

If a social security number is provided at a later date or the student's social security number is incorrect, the student's existing Student Number Identifier, Florida must be updated. The correct social security number would be entered in the first nine positions of the Student Number Identifier, Florida field and an "X" would be entered into the tenth position. The Student Number Identifier – Alias, Florida field must remain constant.

If a student does not have a social security number and the district determines the student's Student Number Identifier, Florida is incorrect, the student's existing Student Number Identifier, Florida must be updated. The Student Number Identifier - Alias, Florida must remain constant.

FLORIDA DEPARTMENT OF EDUCATION
DOE INFORMATION DATABASE REQUIREMENTS VOLUME I:
AUTOMATED STUDENT INFORMATION SYSTEM
AUTOMATED STUDENT DATA ELEMENTS

Year: 2015-16

Data Element Number: **175625**

Data Element Name: **Student Number Identifier, Florida**

A ten-character code used to uniquely identify a student. The number must be maintained for all PK-12 students, adult general education students and postsecondary career and technical education students.

If the student provides a social security number, the Student Number Identifier, Florida equals the social security number followed by an "X."

If a student does not provide a social security number, the school district should assign a number using the common method statewide.

For any student entering a Florida school district for the first time who does not have a social security number, the first two digits will represent the district of initial entry into the Florida school system.

The last eight digits are district-defined in such a way as to result in a unique student number within the district where the number is originally assigned.

Code	Definition/Example
123456789X	The student's social security number (123-45-6789) followed by an X is the student's identifier number.
2610124677	The student did not provide a social security number and was assigned an identifier number by Hendry County, the district of initial entry into a Florida public school for this student.

If a student does not provide a social security number at the time of entry, but later provides a social security number, the district must update the Student Number Identifier, Florida with the verified social security number.

See Student Number Identifier - Alias, Florida data element for more information concerning changes to the Student Number Identifier, Florida.

Section 1008.386, F.S. requires school districts to request a social security number for each student in grades PK - Adult who enroll or who are enrolled in school. However, a student is not required to provide his or her social security number as a condition for enrollment or graduation.

Districts may maintain a separate local student number identifier.

FLORIDA DEPARTMENT OF EDUCATION
DOE INFORMATION DATABASE REQUIREMENTS VOLUME I:
AUTOMATED STUDENT INFORMATION SYSTEM
AUTOMATED STUDENT DATA ELEMENTS

Year: 2015-16

Data Element Number: **187011**

Data Element Name: **WDIS Student Instructional Hours**

WDIS Student Instructional Hours is a whole number, expressed in hours, assuming no decimal places and right justified with leading zeros.

WDIS Student Instructional Hours may not be reported in the Workforce Development Information System (WDIS) for students enrolled in courses or programs for which the direct instructional costs have been fully funded by an external agency. Section 1011.80(5)(d), Florida Statutes:

"State funding and student fees for workforce education instruction shall be established as follows: For a public educational institution that has been fully funded by an external agency for direct instructional costs of any course or program, the FTE generated shall not be reported for state funding."

For Adult General Education (Cost Reporting Codes ranging from 401 – 409*):
For the procedures governing the reporting of WDIS Student Instructional Hours for adult general education students, see the procedures and technical assistance documents found at these links:

http://info.fldoe.org/docushare/dsweb/Get/Document-3722/06_14memo.pdf
http://info.fldoe.org/docushare/dsweb/Get/Document-3724/06_14att2.pdf
http://info.fldoe.org/docushare/dsweb/Get/Document-3723/06_14att1.pdf

For Career Certificate and Applied Technology Diploma (Cost Reporting Codes ranging from 351 – 369*):
For career certificate and applied technology diploma students, the WDIS Instructional hours shall be defined as the number of scheduled course hours from a student's first day of enrollment in a course and to his/her last scheduled day of enrollment in the course. If the student's enrollment in a course crosses reporting surveys, the instructional hours shall be pro-rated across the survey.

WDIS Instructional hours may not exceed the contact hours for which a student has paid/deferred tuition or received a wavier/exemption for the payment of tuition; the only exception is for instructional hours of students who withdrew after the drop/add period. If a student withdraws from a course prior to the end of the reporting survey (but after a drop/add period), the instructional hours may still be reported through the end of the course for that survey. For cases in which a student transfers to a different section in the same course during the survey, the instructional hours for the first section must be reported based on the hours from the date of enrollment to the date of transfer.

Code	Definition/Example
Cost Reporting Codes ranging from 351 – 369*	
0100	The student enrolls in a 150 hour course and is scheduled to attend 100 hours in the fall survey and 50 hours in the spring survey. The student remains in this course to the end of the second survey. For this student, WDIS instructional hours are 100 hours in the fall survey and 50 hours in the spring survey.

NOTES:

1   Adult High School, Vocational/Adult General Education Program Code 9900010, is to be used for adult students seeking an adult high school diploma. Adult students are those students who have a grade level of 30, indicating that they are no longer enrolled in K-12 courses and have not earned a high school diploma. Adult High School students must be reported with the appropriate secondary course number. Adult High School Co-Enrolled students can not be reported with a Vocational/Adult General Education Program Code of 9900010 - see note 6.

2   GED Prep LCPs are based on the student successfully passing the official GED tests rather than completion of the GED Prep courses.

3   TABE Scale Scores for ASE LOW are Reading 567-595, Math 566-594, Language 560-585; for ASE HIGH are Reading >595, Math >594, Language >585.

4   CASAS Scale Scores for ASE LOW are Reading 236-245, Math 236-245, Writting 261-270; for ASE HIGH are Reading >245, Math >245, Writing >270.

5   The credit in Social Studies and the 4th Credit in Science are a district level requirement.

6   Co-enrolled adult high school students must be reported as Adult High School Co-Enrolled, Vocational/Adult General Education Program Code 9900099. A co-enrolled student is any student who has not been withdrawn from the K-12 system, including summer students who are expected to return to the K-12 system in the Fall. Co-enrolled Adult High School students must be reported with the program code 9900099 and the appropriate secondary course number.

7   Districts must adhere to curriculum guidelines as documented in the Curriculum Frameworks for program 9900100. Student instruction for programs whose direct costs are fully funded under the Vocational Rehabilitation's Adults with Disabilities Grant Program or another outside funding source should *not* be reported in WDIS, and should *not* be recorded in local data collection systems under the 9900100 program code. These programs should be coded under a local number to avoid any inappropriate reporting of ineligible programs in WDIS.

8   Beginning 2014-2015, students testing below grade equivalent 9.0 will enroll in the ABE courses (0-8.9).

WDIS and Secondary CTE

Workforce Development Information System data are submitted five time each year. Surveys F, W, and S are for reporting complete survey data. Surveys G and X are for reporting preliminary enrollments data for fall and winter terms(s).

Secondary Career and Technical Education (CTE) data are reported in Survey 5.

Prior to the due date, the district should enter the necessary data in the local automated information system, prepare the necessary automated reporting formats from the local system, edit the data locally, and correct all edit errors. The reporting formats should be transmitted to the state on or before the due date.

The Department of Education will edit the data when they are received. Records that do not pass the reject rule edits are immediately rejected and not loaded to the database. When these edits are applied to an initial submission to NWRDC, any data set with twenty percent or more of its records in error will be rejected in its entirety. If less than twenty percent of the records in the data set do not pass the reject rule edits, the error-free records are loaded to the database and only the records in error are rejected. The twenty percent rule does not apply to data sets submitted for batch update. These edit programs are available for the districts to modify and run prior to submitting data for a survey.

Error reports will be made available to the district via the Northwest Regional Data Center (NWRDC). The district should correct the records and resubmit the data. When all reject errors have been corrected, the district should request the Validation and Exception reports, using the on-line system at NWRDC. If there are validation errors, the district should correct them and re-submit the data.

After each state processing window is closed, records will then be processed by CCTCMIS, which will use the data in producing files and reports, including those that are used in placement, follow-up, and workforce development funding. Other agencies and organizations also will use these records.

NOTE: Districts may update WDIS data for a closed survey during the next open survey *of the same reporting year.* The district must contact Bruce Harrington in writing (bruce.harrington@fldoe.org) in order to update.
