Florida Department of Education Webinar

K-12 Accountability Update
May 20, 2020
Statewide Assessment Waiver Reminders
2020 Graduates

• The statewide assessment waiver applies to currently enrolled students who have met all other graduation requirements and are expected to graduate in the Spring of 2020.

• These students will receive a standard diploma.
Graduation Assessment Requirements for Non-Seniors

• Non-seniors who are currently enrolled in Algebra 1 may use one of the following to meet the graduation requirement:
  • passing the Algebra 1 EOC (offered four times each year) during a future administration,
  • earning a comparative score, or
  • passing the Geometry EOC during a future administration.

• Non-seniors who have yet to pass the Grade 10 FSA ELA must still meet the exit criteria by passing that assessment during a future administration or earning a concordant score.
Geometry EOC

• Rule Development is underway to allow the use of a passing score on the Geometry EOC to satisfy the Algebra 1 assessment graduation requirement for students in the applicable cohorts.

• A rule development workshop is scheduled for May 20 (today) at 4pm EDT.

• Please register for “6A-1.09422 - Statewide, Standardized Assessment Program Requirements” at: https://attendee.gotowebinar.com/register/8152370052075144971.
Scholar Designation

• EOC assessment requirements are waived for seniors graduating in 2020.
• Non-seniors will need to meet the EOC assessment requirements to earn the designation for future years.
Florida Standards Assessments – Waiver for Current Seniors

• It applies to all current seniors, even if they:
  • did not participate in the Spring 2020 Retake(s)
  • have been retained multiple times

• It applies to students who are scheduled to graduate in the Spring of 2020 and are coded by the district as non-seniors (e.g., 18-credit hour program).

• It does NOT apply to:
  • adult education students wishing to re-enroll in high school in 2019-2020
  • current seniors moving from 12th grade to adult education after 2019-2020
  • current seniors who repeat 12th grade for the 2020-2021 school year
Concordant or Comparative Scores

• Students who were scheduled to take the Spring 2020 Grade 10 ELA or Algebra 1 EOC assessment may use a concordant or comparative score as soon as it is earned.
Florida Standards Assessments – Retakes

• The next opportunity for the Grade 10 ELA is the Fall 2020 Retake administration, which is currently scheduled for September 14–October 2, 2020.

• The next opportunity for the Algebra 1 EOC is the Summer 2020 EOC administration, which is currently scheduled for July 13–24, 2020.
Assessment Window Update

• The Summer EOC assessment window is scheduled for July 13-24.

• Districts may reach out to the Assessment office, if they desire, to adjust the dates for this window.

• Districts have the discretion to not participate in this assessment window, if they so choose.

• Given the waiver of assessment requirements for students in the class of 2019-2020, there is no immediate need to assess these students for graduation purposes.
Adjustments to the 2020-2021 Accountability Calculations
Calculation of Learning Gains (All Students and the Low 25%)

**Current**

- Learning gains are calculated based on the improvement from the prior year to the current year.
- For example, a learning gain is measured based on improvement from the 2018 Grade 3 FSA ELA to the 2019 Grade 4 FSA ELA.

**Adjustment for 2020-2021**

- To accommodate the missing year of assessment results (2020), learning gains would be calculated based on the improvement from the “prior-prior” year to the current year.
- For example, a learning gain would be based on improvement from the 2019 Grade 3 FSA ELA to the 2021 Grade 5 FSA ELA.
"Prior-Prior" Year to Current Year Learning Gains Considerations

• Requires statutory change to s. 1008.34, F.S., which defines learning gains as “annual,” measuring gains from “one school year to the next” as well as a change to s. 1008.341, F.S., and Rule 6A-1.09981, F.A.C.

• Preserves learning gains components in the school grades calculation providing for comparability and continuity – allowing for a meaningful comparison in school performance from 2019 to 2021

• With this adjustment, learning gains at the elementary school level would be based solely on the gains from 3rd grade (2019) to 5th grade (2021)
## Calculation of Middle School Acceleration

<table>
<thead>
<tr>
<th>Current</th>
<th>Adjustment for 2020-2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Middle school acceleration is calculated based on the percentage of</td>
<td>• To accommodate the missing year of assessment results (2020), middle school</td>
</tr>
<tr>
<td>students who scored a Level 3 or higher in Grade 7 mathematics who</td>
<td>acceleration would be calculated based on the percentage of students who scored a</td>
</tr>
<tr>
<td>pass a high school level EOC in Grade 8</td>
<td>Level 3 or higher in Grade 6 mathematics (2019) who pass a high school level EOC in</td>
</tr>
<tr>
<td>• Students who earn industry certifications are also included (lagged</td>
<td>Grade 8 (2021)</td>
</tr>
<tr>
<td>measure), as well as all students who take high school level EOCs</td>
<td>• Industry certifications and all EOCs in middle school remain included</td>
</tr>
<tr>
<td>in middle school</td>
<td></td>
</tr>
</tbody>
</table>
Middle School Acceleration Calculation Considerations

• Requires a change to Rule 6A-1.09981, F.A.C.

• 90% of students who score a Level 3 or higher in Grade 6 mathematics score a Level 3 or higher in Grade 7 mathematics
  • This indicates that using results from Grade 6 instead of Grade 7 serves as an accurate proxy to identify students for this calculation

• Preserves middle school acceleration component in the school grades calculation providing for comparability and continuity – allowing for a meaningful comparison in school performance from 2019 to 2021
2020-2021 Accountability Considerations

• In addition to School Grades, these adjustments would apply to the 2021 calculation of district grades, school improvement ratings for alternative schools, and the federal percent of points index.
• These would be one-year adjustments.
• Since these adjustments require statutory and/or State Board rule changes, they are not final, until the Legislature and State Board act.
Impact Data of Adjustments

2019 Actual Results
- 35% “A”
- 27% “B”
- 32% “C”
- 5% “D”
- <1% “F”

2019 Simulated Results (if adjustments described in this presentation are applied)
- 36% “A”
- 24% “B”
- 31% “C”
- 7% “D”
- 1% “F”

- Applying these one-year adjustments to preserve the learning gains and middle school acceleration components results in a similar distribution of results.
- If the learning gains and middle acceleration components were excluded from the calculation, the distribution of results would vary greatly, with the change more likely being a reflection of a significant change in the calculation rather than an actual change in school performance.
- The above results are a simulation and not a projection of actual results.
Updates to School and District Report Cards on EduData
New Feature in EduData – School and District Grades by Subgroup

• A new feature has been added to the district and school report cards at edudata.fldoe.org – grades by subgroup.

• This feature takes the existing performance data already reported on the website and applies the corresponding grade based on the percent of points earned by subgroup.

• This enhancement allows for more transparent comparisons of school and district performance both across schools/districts and within schools/districts.
