Spring 2021 Education Plan and Assurances

Pinellas County Schools

Due: December 15, 2020

Submit to ReopeningPlan@fldoe.org
Purpose

The purpose of this document is to guide districts to plan for the continued implementation of the 2020-21 District Reopening Plan through an updated Spring 2021 Education Plan and to capture an updated agreement of assurances. The flexibility provided for in DOE Order No. 2020-EO-07 is necessary to respond to and mitigate the impact of the emergency and to promote the health, safety and welfare of persons connected with Florida’s educational system. Overall, this document focuses on accomplishing the following four goals:

1. Building on the successful reopening of all public schools to in-person instruction;
2. Promoting parental choice while ensuring that every student is making adequate academic progress;
3. Providing financial continuity to enable each school district to maintain the full panoply of services for the benefit of Florida students and families, including students from vulnerable populations such as low-income families, migrant families, the homeless, English Language Learners (ELLs), students in foster care and students with disabilities; and
4. Empowering every district to maintain high-quality school choices for Florida students and families with a focus on eliminating achievement gaps, which have been exacerbated by the crisis.

Directions

Districts shall complete this form and email to ReopeningPlan@fldoe.org no later than December 15, 2020. The subject line of the email must include district name and Spring 2021 Education Plan and Assurances. The district shall complete the plan, agree to all assurances and faithfully implement the plan to receive the statutory flexibilities and financial supports that are offered in DOE Order No. 2020-EO-07. Approval of this plan will be predicated on the ability to deliver the needed resources for intervention programs to address any learning loss or lack of progress for students not on grade level, especially those students who are returning from options other than the traditional brick and mortar setting.

District Education Plan Assurances

The district must agree to ALL of the assurances by checking the corresponding boxes.

☒ Assurance 1: All schools will remain open. The district agrees to the conditions set forth in section II.a. of DOE Order No. 2020-EO-07. The district will continue to assure that all brick and mortar schools must continue to be open at least five days per week for all students, subject to advice and orders of the Florida Department of Health, local departments of health and subsequent executive orders.

☒ Assurance 2: Continue the full panoply of services. The district agrees to the conditions set forth in sections II.b. and II.e. of DOE Order No. 2020-EO-07. The district agrees to continue to provide the full array of services that are required by law so that families who wish to educate their children in a brick-and-mortar school full-time will continue to have the opportunity to do so. The district agrees to provide students with Individual Educational Plans (IEPs) the services necessary to ensure that they receive a free and appropriate education. The district agrees to identify students who may have regressed during school closures or during the fall term. School districts must ensure that IEP teams are appropriately determining needed services, including compensatory services. If an ELL’s reading, writing, listening or speaking skills have regressed during school closures, school districts agree to
convene an ELL committee meeting with appropriate staff and parents to determine if additional or
supplemental English for Speakers of Other Languages services are needed.

☒ Assuance 3: **Continue progress monitoring and interventions. The district agrees to the
conditions set forth in sections II.c. and II.d. of DOE Order No. 2020-EO-07.** The district agrees to
continue to provide robust progress monitoring and requisite interventions to all students, with tiered
support for students not making adequate progress. Students who are receiving instruction through
innovative learning modalities must transition to another learning modality if they fail to make adequate
progress. The district agrees to provide monthly progress monitoring reports to parents/guardians for
students identified as performing below grade level and/or demonstrating decline on the district’s
progress monitoring system. The district agrees to provide the department with a detailed report, in a
format prescribed by the Florida Department of Education, based on progress monitoring data that
delineates the interventions provided to students and the effectiveness of each intervention at the end of
the spring semester. The purpose of this report is to identify and differentiate between effective and
ineffective intervention strategies provided to students not making adequate progress. The district agrees
to continue to provide supplemental services (afterschool, weekend and summer) for any student who,
based upon progress monitoring or other data, has not achieved grade-level mastery or who is not on
track to achieve a minimum of one year of academic growth during the 2020-21 school year. The district
agrees to identify these students and provide written notice of the need and availability of these services
to parents/guardians.

☒ Assuance 4: **Continue charter school flexibility. The district agrees to the conditions set forth in
section II.f. of DOE Order No. 2020-EO-07.** The district agrees to continue to extend the same
flexibility in instructional methods and funding to every charter school that submits a Spring 2021
Education Plan.

☒ Assuance 5: **Innovative learning modality. The district agrees to the conditions set forth in
sections II.g. and II.h. of DOE Order No. 2020-EO-07.** The district agrees that if a student receiving
instruction through the innovative learning modality is failing to make adequate progress, the
parents/guardian must be contacted and the student must be transitioned to face-to-face instruction. The
district agrees that a student who is not making adequate progress will only be allowed to remain in the
innovative learning modality if the district or charter school: 1) provides written notice to the parent or
guardian that the child is not making adequate progress and any associated education risks; and 2)
obtains written acknowledgement from the parent or guardian verifying the receipt of this information
and the intent to remain in the innovative learning modality. The district agrees that students transitioned
out of the innovative learning modality must be given additional interventions and supports. School
districts and charter schools must not unreasonably restrict the decision of a parent or guardian to alter
the learning modality (in-person, innovative, virtual) that best suits their child’s needs. Restricting when
changes can be made to a certain time of the semester or requiring more than a week’s notice prior to
changing a student’s learning modality are presumptively unreasonable.

☒ Assuance 6: **Truancy/Attendance of students. The district agrees to the conditions set forth in
section II.i. of DOE Order No. 2020-EO-07.** The district agrees to continue to provide enhanced
outreach to parents/guardians to ensure maximum in-person student enrollment and participation in
public schools.
Assurance 7: Continue professional development. The district agrees to the conditions set forth in section II.j. of DOE Order No. 2020-EO-07. The district agrees to continue to provide professional development to teachers and leaders to become proficient in the delivery of grade-level standards within all learning modalities, as well as the utilization of progress monitoring for remediation and intervention.

District Spring 2021 Education Plan

Directions: The district must address each of the following areas and their sub-components in the corresponding text box below. Please remember to clearly label the required information you are providing below accordingly, e.g., 1.a., 2.b., 4.c., etc. Additionally, please check to make sure you have thoroughly and clearly answered each required area and sub-component below prior to submission.

1. Spring Intervention Plan. The district shall explain in detail a proposed 2021 Spring Intervention Plan with the following three components:
   a. A focus on closing achievement gaps, particularly those that have been exacerbated during the pandemic. Include the district’s plan for additional instructional time including after school, weekends and/or summer programs, and an explanation of how lost instruction time has been or will be made up.
   b. Targeted outreach for students who are demonstrating a decline on the district’s progress monitoring system for reading and mathematics, by grade level and by learning modality.
   c. Specify additional interventions and supports that will be provided to students who are transitioned out of the innovative learning model.

Pinellas County Schools (PCS) has continually worked to improve the delivery of instruction and strategic interventions and supports for students since before the 2020-21 school year began in August. PCS utilized the summer of 2020 to launch summer programming to begin to address and close achievement gaps exacerbated during the pandemic. In grades K-5 alone, the district had more than 15,000 students engage in summer learning that was taught online by master teachers and had summer school teachers follow-up with small group and individualized instruction for students. Based on the students who engaged in our summer literacy program approximately 73% of the students demonstrated growth on their fall 2020 NWEA MAP reading assessment. This level of support and intervention of the summer demonstrates our commitment to providing additional instructional time and targeted intervention for our students. Throughout the 2020-21 school year, ongoing progress monitoring has occurred both by classroom teachers on a daily basis and through the district progress monitoring assessments at every grade level. Core instruction continues to be the backbone of closing achievement gaps and eliminating the COVID-slide experienced by some students. Additionally, programming to increase instructional time through school-based Extended Learning Programs (ELP) began in September 2020 and will continue throughout the school year. ELP ensures additional, skill-based interventions that are targeted to individual (or small group) student need. ELP is conducted by content certified teachers at school-sites so that the staff that knows the student need extends the learning and practice for each student. Part of the ELP programming include the state’s Rising K support programming which Pinellas has implemented with hundreds of kindergarten students.

For Spring 2021 Interventions, based on winter 2020 formative assessments and first semester grades (in middle and high school) students demonstrating a decline in progress will receive additional interventions both during their school day and through additional instructional time after-school through ELP and/or Saturdays. For students attending face-to-face instruction this programming will occur at the school sites. For students receiving their instruction through MyPCS Online (innovative learning option), increasing their instructional time will be offered via in-person, small group ELP. If a parent selects not to attend in-person, ELP will be offered virtually. All schools within PCS will have a site-based plan to ensure ELP services for students demonstrating a decline in
2. **Innovative Learning Modality.** The district shall explain in detail its plan to:
   a. Offer the innovative learning modality only to students who are making adequate academic progress.
   b. Provide written notice to the parent/guardian that the child is not making adequate progress and describe the associated education risks. The district must obtain a written acknowledgement from the parent or guardian verifying the receipt of this information and their intent to have their child remain in the innovative learning modality. The district must submit a copy of the written acknowledgement form that they will provide to parents/guardians.

   Pinellas County Schools (PCS) has continually made every effort to welcome students back to face-to-face instruction throughout the first semester of the 2020-21 school year. While the district began the year with 51% of our student enrollment in face-to-face instruction, by October 2020 70% of students receiving their instruction in-person within our school buildings.

   PCS believes that in-person instruction best serves the academic and social-emotional needs of our students, especially for students not demonstrating academic, on-grade-level progress. As a district, we have continually notified parents in MyPCS Online (innovative option) of their student’s progress through report cards, progress reports, teacher conferences and feedback and many other forms of communication.

   PCS will ensure each parent/guardian of a student not making adequate progress within MyPCS Online (innovative option), is notified of their student’s course progress (grades) and progress monitoring assessment (e.g. NWEA MAP, iReady, cycle assessments) performance, the associated educational risks and the desire to have the student return to face-to-face instruction. Communication with parents will be completed via written letters (PCS Parent Acknowledgement of Student Progress Letter) with additional follow-up (e.g. phone calls, virtual parent meetings, etc.) to ensure every parent is aware of their student’s progress.
Parents that wish to keep their child enrolled in MyPCS Online, knowing the associated risks, will need to sign and return the PCS Parent Acknowledgement of Student Progress Form. All forms will be collected at the school level and uploaded within FOCUS (see Appendix B: PCS Parent Acknowledgement of Student Progress Letter and Form).

Please note that Department of Juvenile Justice (DJJ) schools are included in the PCS plan and the district DJJ day-treatment programs and partners have confirmed that they will follow the district plan.

3. **Enhanced Outreach - Truancy/Attendance of Students.** The district shall list strategies they are implementing to:
   a. Identify vulnerable students who have had limited or no contact with the district and transition them to the appropriate learning modality, including students who have yet to appear or enroll for the 2020-21 school year.
   b. Identify VPK- and kindergarten-eligible students with the goal of engaging students to maximize kindergarten readiness to support long-term achievement.

Pinellas County Schools (PCS) has continually made every effort to enroll, engage and support all students who should be enrolled within the district. PCS has created a district team to oversee the efforts to identify vulnerable students who the district, until this point, had limited or no contact with, students who are not currently enrolled in school and/or are VPK- or kindergarten-eligible students that are not currently enrolled in order to transition them to the appropriate learning modality and support readiness and long-term achievement.

The district cross-functional team and corresponding action plan are overseen by the Associate Superintendent of Student and Community Services. The strategy areas being implemented include:

1. **Student Identification:** Through ongoing review and dissemination of student enrollment data to each school’s child study team (CST)
2. **School-Specific Action Planning:** Targeted outreach to students and families to ensure parents know the importance of their child returning to school. Examples of outreach include:
   a. Individual phone calls and/or home visits by CST members
   b. Personalized school leader outreach to parents/families (e.g. phone calls, virtual meetings, etc.)
   c. Live and virtual tours of school
   a. Shadowing opportunities
   b. Academic parent nights
3. **Districtwide Support and Monitoring:** Direct support to school leaders and child study teams.
   a. Districtwide communication campaign regarding coming back to Pinellas County Schools
   b. District Student Services staff support for difficult or nuanced family circumstances
   c. Ongoing data support and monitoring

Please note that Department of Juvenile Justice (DJJ) schools are included in the PCS plan and the district DJJ day-treatment programs and partners have confirmed that they will follow the district plan.
4. **Professional Development.** The district shall list professional development opportunities provided and planned to support teachers and leaders in implementing the Spring 2021 Education Plan, including:
   a. Innovative and virtual learning modalities;
   b. Interventions to support students in various learning modalities; and
   c. Technology needs (especially new learning management systems).

<table>
<thead>
<tr>
<th>Pinellas County Schools (PCS) has continually worked to improve the delivery of instruction for all students since the onset of virtual and blended learning through targeted and ongoing professional learning. The Innovative Reopening Plan allowed PCS to implement a district wide Learning Management System and expand use of digital tools that increase student achievement and close achievement gaps. The Pinellas County Schools professional development plan to support teachers and leaders will continue to include the offerings below:</th>

Appendix B: Parent Acknowledgement of Student Progress Letters and Forms
Dear Parent/Guardian of ______________________________________________,

As we prepare for the second semester of the 2020-21 school, I want to provide you with an update on your child’s academic progress. You have received report cards, progress reports and feedback from your child’s teacher(s) this school year. In reviewing this feedback and current academic progress, in accordance with the Florida Commissioner of Education’s Emergency Order 2020-EO-07, your child should return to school for face-to-face instruction no later than January 19, 2021. Based on the academic areas below, your child is not currently performing at grade-level expectations while learning from home:

**Course Grades:**
Your child is not currently earning a satisfactory course grade (at least a C grade or better) in the following course(s) and is in danger of being retained:

<table>
<thead>
<tr>
<th>Content Area</th>
<th>Your Child’s Performance (X indicates not currently earning a satisfactory course grade)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Language Arts</td>
<td></td>
</tr>
<tr>
<td>Math</td>
<td></td>
</tr>
<tr>
<td>Science</td>
<td></td>
</tr>
<tr>
<td>Social Studies</td>
<td></td>
</tr>
</tbody>
</table>

**Reading and Math Performance:**
In addition, based on your child’s performance on the reading and math progress monitoring assessments, they are not currently demonstrating expected performance for their grade level in one or more areas.

<table>
<thead>
<tr>
<th>Content Area MAP Assessment</th>

<th>Days Absent</th>
<th>Days Tardy</th>
<th>Early Release</th>
</tr>
</thead>
</table>

By returning to face-to-face instruction at our school, we believe your child will experience the benefits of in-person instruction. This will allow for greater interaction with their teachers and peers, increased time on task, more individual attention and a more rapid increase in achievement. We cannot wait for your child to return to face-to-face instruction. Please sign and return the attached ‘Parent/Guardian Acknowledgement of Student Progress’ form to the front office as soon as possible.

Sincerely,

[Insert Principal Name]

[Insert School Contact Information]
I have received and reviewed the letter from my child’s school that indicates my child is not currently performing at grade-level expectation while enrolled in MyPCS Online (virtual instruction). Based on this information (please mark and sign below):

_____ My child will return for in-person learning beginning no later than January 19, 2021.

_____ My child will remain in MyPCS Online and continue to receive their instruction virtually. I am aware that my child is at-risk of being retained and/or the need to attend summer school. I am also aware that my student is not currently performing on grade level and will ensure my child participates in the following interventions:

_____ Full-day Attendance
   Insert School Hours

_____ Extended Learning Program
   Insert school-specific information

_____ Other School-Based Intervention(s)
