APPROVED MIDDLE SCHOOL COURSES FOR CAREER & EDUCATION PLANNING 2014-2015 School Year

Per Section 1003.4156, Florida Statutes, for students to meet middle grades promotion requirements, a Career and Education Planning course must be completed. At a minimum, the course must be Internet-based, easy to use, and customizable to each student and include researched-based assessments to assist students in determining educational and career options and goals. The current Florida CHOICES career planning program will satisfy the above requirement as it is Internet-based, it is customizable to each student and contains research-based assessments to assist with education and career goals. The Career and Education Planning course must result in a completed personalized academic and career plan for the student; must emphasize the importance of entrepreneurship skills, technology, or the application of technology in career fields; and, beginning in the 2014-2015 academic year, must provide information from the Department of Economic Opportunity's economic security report as described in Section 445.07, Florida Statutes. Schools must use one of the approved courses to meet this requirement. Some of the approved courses are designated as year-long. In those cases, the classroom teacher can determine which semester to implement the career and education planning standards. For additional information on the Career and Education Planning courses, go to http://www.fldoe.org/workforce/ced/.
