School Internal Funds

SECTION I – PRINCIPLES

1. The district school board shall be responsible for the administration and control of internal funds of the district school system, and in connection therewith shall:
 - a. Adopt written rules governing the receipt and disbursement of all internal funds and the accounting for property pursuant to Florida Statutes.
 - b. Provide for an annual audit of internal funds in accordance with rule 6A-1.087, F.A.C.
2. The financial transactions of school organizations shall be accounted for in the school internal funds. All funds handled by district school board employees during normal working hours shall be included in and become part of the internal funds of the school unless accounted for in the district-level accounting system. All organizations of the school, or organizations operating in the name of the school, that obtain money from the public shall be accountable to the board for receipt and expenditure of those funds in the manner prescribed by the board. If approved by the district school board, a school-based, direct-support organization as defined under section 1001.453, F.S., may have all financial transactions accounted for in school internal funds.
3. Funds collected by and used for the benefit of faculty and staff may be exempt from the preceding requirements at the option of the district school board.
4. School internal account funds shall be used to benefit activities authorized by the district school board.
5. Student participation in fundraising activities shall not be in conflict with the program as administered by the district school board.
6. The objective of fundraising activities by the school, by any group within the school, or in the name of the school shall not conflict with programs as administered by the district school board.
7. Funds collected shall be expended to benefit those students in school unless those funds are being collected for a specific documented purpose or are generated by career education production shops. Career education production revenues shall benefit the students or program that generated the funds or the student body. Those internal account funds designated for general purposes shall be used to benefit the student body.
8. Collecting and expending of school internal account funds shall be in accordance with the State Constitution, Florida Statutes, SBE rules and district school board rules. Sound business practices should be observed in all transactions.
9. Each school organization should operate within a budget formulated by the organization members. The format of the budget shall be prescribed by the principal, if not prescribed by district school board rules.

10. Purchases from internal accounts shall not exceed the resources of the applicable student activity/project account, except for items acquired for resale or items authorized by district school board rules. Purchases to support instructional programs may be made from career education production revenues.
11. An adequate system of internal controls shall be maintained in order to safeguard the assets of the school internal funds.

SECTION II – GENERAL PRACTICES

1. All employees responsible for handling and recording internal funds financial transactions shall be bonded through the school district.
2. Purchases from internal funds must be authorized in writing by the principal or designee. Neither the school nor the district school board shall be liable for any purchase made in the name of the school without express written approval.
3. School district-approved, pre-numbered receipt forms shall be used as the means of recording cash received and as the basis for entries to the accounting records.
4. Approved pre-numbered checks shall be used as the means for disbursing funds and as the basis for accounting entries, with the exception of disbursements from properly established petty cash funds.
5. Promissory notes, installment contracts and lease purchase agreements shall not be executed in the name of a school or any school organization except as authorized by the district school board.
6. Internal funds shall not be used to cash checks to accommodate individuals, make any kind of loans, pay any form of compensation directly to employees or extend credit. Employees of the school district who are compensated for additional services, such as working at athletic events, shall be paid through the school district payroll department or, when appropriate, as prescribed by district school board rules. Designated area career centers may cash checks and make loans as necessary to administer student grant and loan programs funded by federal, state and private sources.
7. Internal funds shall be accounted for on the same fiscal year basis as all other school district funds. No school organization shall make expenditures that exceed the cash resources available to that organization. All accounts payable shall be disclosed to the district school board at fiscal year end.
8. Bank statements shall be reconciled as soon as received, preferably by a person other than the person who receives and disburses funds.
9. Monthly financial reports shall be made in approved written form to provide the school's administration with financial information necessary for decision making. An annual report will provide data for inclusion of internal funds in the school district's annual financial statements.
10. Account balances shall be subject to limits that the district school board may prescribe.

SECTION III – STANDARDS, PRACTICES AND PROCEDURES

1.0 CONTROL OF CASH RESOURCES

1.1 DEPOSITORIES FOR INTERNAL FUNDS

Depositories in which internal funds are kept must be qualified public depositories, approved by the district school board, required to furnish the same type of security for deposits as is required for other district school board funds.

1.2 BANK ACCOUNTS

Each school shall have only one checking account, which shall be entitled “(SCHOOL NAME) Internal Fund, The School District of _____ County, Florida,” or alternative that clearly identifies the school and school district. The account title must be imprinted on all internal fund checks and deposit slips. All monies received by the school will be deposited intact as collected into this account, and all disbursements will be made by checks drawn on this account. Savings or investment accounts shall be titled in the same manner. Additional checking accounts may be used by designated area career centers, if required, in the administration of student grant or loan programs. The name of such grant or program shall be identified in the account title.

1.3 CHECK SIGNATURES

- a. Each account shall have at least two authorized check signers, one of whom must be the principal. These names shall be kept on file for audit. All checks must be signed with two signatures as prescribed by the principal, if not prescribed by district school board policy.
- b. The principal is responsible for all financial transactions and proper check signatures.
- c. Under no circumstances shall checks be presigned.

- c. All money collected must be deposited intact to a depository as frequently as feasible and as dictated by sound business practices. **IN ANY EVENT, FUNDS COLLECTED MUST BE DEPOSITED WITHIN FIVE (5) WORKING DAYS AFTER RECEIPT.**
- d. All deposits must equal the total amount of money taken in and recorded on receipts for the period covered by the deposit. Deposit slips shall be made in the number of copies necessary to meet the approved accounting procedures. All checks received shall be deposited with a restrictive endorsement of “for deposit only” and specifying the account title and number.
- e. The principal or designee shall be notified immediately of any errors in deposits or disbursements and shall take appropriate corrective action.

- f. All checks, receipt forms and tickets shall be pre-numbered and perpetual inventories of each shall be maintained. Inventories shall show the beginning and ending numbers of all documents acquired and issued. For all cases in which tickets are used, ticket reports and unsold tickets must be available for audit. Any pre-numbered documents shall be accompanied by a certified statement of the numbers received.

1.6 COLLECTION OF WORTHLESS CHECKS

- a. The principal is responsible for seeking reimbursement for any unpaid check returned by the bank.
- b. A check can be declared uncollectible and written off the books only by action of the district school board or designated officer. This action will be taken only after every legal and reasonable effort at collection by the principal has been exhausted.
- c. The school principal may require payment for school obligations in cash, money order or other form of guaranteed payment if it is deemed necessary.

2.5 GENERAL

- a. This category encompasses all other accounts for funds that are to be used for the general welfare of the student body.

Account. A record of financial transactions that are similar in terms of a given frame of reference, such as purpose, objective or source.

Accounting Period. A period of time for which financial statements are prepared (e.g., July 1 through June 30).

Accounts Payable. Unpaid balances or invoices against an internal fund that are owed.

Accounts Receivable. Amounts owed to the internal funds.

Accrual Basis. Recording of revenues and expenditures at the time revenue is earned or at the time an expenditure results in a liability, regardless of when the actual cash receipt or disbursement occurs.

Asset. Something of value that is owned by an entity.

Audit. An examination of records and documents by an auditor in the process of securing evidence for one or more of the following purposes: 1) determining the propriety of completed transactions, 2) ascertaining whether all transactions have been recorded, and 3) determining whether transactions are accurately recorded in the accounts and in the statements drawn from the accounts.

Balance. The difference between the total debits and the total credits of an account, or the total of an account containing only debits or only credits.

Bank Deposit. The total amount of money taken in and recorded on receipts for a specified time period and deposited intact with a depository.

Capital Assets. Land, buildings, machinery, furniture and other equipment that the school system intends to hold or continues to use over a long period of time.

Capital Outlay. Expenditures for land or existing buildings, improvement of grounds, construction of buildings, additions to buildings and remodeling of buildings or equipment.

Cash. Currency, checks, postal and express money orders and bank deposits, including certificates of deposit.

Cash Basis. The basis of accounting under which revenues are recorded only when actually received and only cash disbursements are recorded as expenditures.

Cash Discount. An allowance received or given if payment is completed within a stated period. The term is not to be confused with “trade discount.”

Change Fund. An amount of money obtained by issuing a check to a designated individual for the purpose of making change for a specific event. No expenditures are to be made from these monies.

Check. A written order on a bank to pay on demand a specified sum of money to a named person, to his or her order, or to bearer from money on deposit to the credit of the maker. The check is canceled when it has been paid by the bank and has, thus, “cleared.”

Closing the Books. The process of putting the account books in order at the end of a month, or a fiscal period, so that a trial balance and financial reports may be prepared.

Commemorative Items. Personalized articles such as class jewelry, announcements, caps and gowns, yearbooks, cards and invitations, insignia and school pictures.

Commission. A share of sale proceeds from any company or individual given the school in return for the sale, rental or promotion of any items within the school.

Concession. The act of granting to an individual or group a right that resides with the school.

Current Assets. Cash and other assets readily converted into cash, such as accounts receivable, inventory and some prepaid expenditures.

Deficit. The excess of the obligations of an account over its resources.

Deposit in Transit. A deposit that has been transmitted to the bank and recorded in the school ledgers, but is not yet reflected on the monthly bank statement because it was not received before the bank's preparation of the statement.

Deposit, Property. Money collected from students and held in a school account for return at a designated time for the purpose of covering loss or damages to school-owned supplies and equipment while being used by the students.

Depositories. Banks or savings and loan institutions where schools deposit and withdraw money.

Disbursements. Money paid out.

Double Entry. A system of bookkeeping that requires, for every entry made to the debit side of an account or accounts, an entry for the corresponding amount or amounts made to the credit side of another account or accounts.

Dues. A regular charge made to students for the privilege of being a member of a particular club or student body organization.

Encumbrance. A restriction of available money by issuance of a purchase order.

Equipment. A material item of a nonexpendable nature, such as a built-in facility, a movable or fixed unit of furniture or furnishings, an instrument or apparatus, a machine (including attachments), instructional skills training device or a set of small articles whose parts are replaceable or repairable, the whole retaining its identity and utility over a period of time that is characteristic for items of its class.

Expenditures. Decreases in net financial resources. If accounts are kept on the accrual basis, this includes total charges incurred, whether paid or unpaid. For accounts kept on the cash basis, payments are termed "disbursements."

Fidelity Bond. A bond guaranteeing the district school board against losses resulting from the dishonest actions of employees.

Finance Clerk. Person assigned responsibilities for internal accounts bookkeeping.

Financial Statement. A formal written presentation that sets forth information concerning the financial condition of the school internal funds.

Fiscal Year. As it pertains to internal funds, July 1 through June 30.

General Ledger. A book, file or other device in which accounts are kept to the degree of detail necessary to summarize the financial transactions of the school. General ledger accounts may be kept for any group of receipts or expenditures over which an administrative officer wishes to maintain fiscal control.

Gift. Something of value received for which no repayment or special service to the contributor is expected.

Grant. Money received by a school activity for which no repayment is expected, but for which certain conditions exist relative to the disbursement of funds.

Inactive Account. An account is considered inactive upon declaration of the principal when: 1) no financial transactions have occurred within one year and the need for the activity has passed or 2) a class has graduated.

Intact, or Deposit Intact. The practice in which money is presented to a bank or bookkeeper for the credit of the school's internal fund in the same form as received. This means that any receipt of funds in the form of cash shall be deposited as cash. The cashing of a check from funds on hand would be a violation of this concept, as would be the substitution of a check for cash.

Internal Control. A plan of organization under which employees' duties are so arranged, and records and procedures so designed, as to make it possible to exercise effective accounting control over assets, liabilities, revenues and expenditures. For example, under such a system, work is subdivided so that no single employee performs a complete cycle of operations. The procedures to be followed are definitely identified and such procedures call for proper authorizations by designated officials for all actions to be taken.

Inventory. The cost of supplies and equipment on hand but not yet distributed to requisitioning units.

Inventory Record. A detailed list or record showing quantities, descriptions, values, units of measure and unit prices.

Investments. Temporarily idle funds placed in interest-earning accounts.

Journal. The accounting record in which financial transactions of the school are formally recorded for the first time.

Liabilities. Debt or other legal obligations arising out of transactions that are payable but not necessarily due. (Encumbrances are not liabilities; they become liabilities when the services or materials for which they were established have been rendered or received.)

Memoranda (Memo) Account. An informal record of an internal fund transaction that cannot be recorded under the regular financial accounts, but for which a record is desired (e.g., encumbrances).

Outstanding Check. A check issued and recorded by the school that has not been presented to the bank for payment prior to issuance of the monthly bank statement.

Outstanding Deposit. See Deposit in Transit.

Overdrawn. A situation in which a check has been written for an amount in excess of that on deposit. An overdraft is the amount by which withdrawals exceed the depositor's available balance.

Perpetual Inventory. An inventory system that is initiated by a physical inventory and perpetuated by entry of receipts and withdrawals, thereby reflecting current balances on hand for each item.

Petty Cash. Cash paid out in small amounts for authorized expenditures. Petty cash may be used to reimburse persons or to make a direct purchase (petty cash funds must be authorized). Payments must be evidenced by petty cash vouchers, which are signed receipts that show the purpose, date and amount of the transaction.

Posting. The act of recording to an account in a ledger the detailed or summarized data contained in the documents of original entry.

Pre-Numbered Documents. Checks, receipt forms, tickets and similar items that have been consecutively numbered and controlled before use.

Prior Authorization. A written approval granting authority to enter into a contract, to obligate funds for a purchase or to receive a benefit before such an action occurs.

Purchase Order. A document issued to a vendor authorizing the delivery of goods or services that implies the obligation of funds.

Reconciliation of Bank Statement. A statement of the details of the differences between the bank statement and the cash account record to show agreement between the adjusted balances.

Refund. An amount paid back or credit allowed.

Reimbursement. Repayment of authorized expenditures made on behalf of the school's internal fund.

Student Organization. Any group of students organized on campus into a single body for the purpose of pursuing common goals and objectives. This includes the various types of student clubs and class organizations that, with proper approval by school authorities, are managed and operated by students under the direction or supervision of authorized adults.

Subsidiary Ledger. A record of the financial transactions of a given activity showing the receipts, expenditures, transfers, adjustments and balances for the activity's account.

Supply. An item of expendable nature that is consumed, worn out or deteriorated in use; or one that loses its identity through fabrication or incorporation into a different or more complex unit or substance.

Supporting Documentation. Evidence attesting to the authenticity, accuracy and authority of a financial transaction.

Surety Bond. A written promise to pay damages or to indemnify against losses caused by the party or parties named in the document, through nonperformance or through defalcation. For example, a surety bond may be required of a contractor or an official handling cash or securities.

Trade Discount. An allowance made to individuals engaged in certain businesses and allowable irrespective of the time when the account is paid. The term should not be confused with “Cash Discount.”
