**SUBJECT:** Alternative Methods Placement Webinar Follow-Up

---

*Original Email from Abbey E. Ivey*

Thank you for participating in today's webinar regarding multiple measures placement. The slides from the webinar are attached, and the recording is available [here](#). You can access the resource guide directly [here](#).

As promised, the crosswalks between high school and postsecondary mathematics courses developed by the Florida Mathematics Re-Design workgroups is attached. The crosswalks include MAT1033, MGF1106, MAC1105, and STA2023. Note that MGF1107 is not included because the workgroups concluded that there is no comparable high school course.

If you have not already, please complete this brief [survey](#) to provide feedback on the webinar and future activities regarding alternative methods placement.

Feel free to reach out if you have any questions.
