#### For release on July 13, 2015

**Note to editors: College-sponsored Merit Scholarship® winners in your state are listed alphabetically by city following this press release. News media are encouraged to contact high school principals for additional information about these outstanding students.**

*This material is prepared solely for news media to announce the names of Merit Scholar® designees; its use for any other purpose is prohibited.*

*This is the last group of National Merit Scholar designees to be announced in 2015 by National Merit Scholarship Corporation (NMSC). In three spring releases, NMSC announced winners of National Merit® \$2500 Scholarship awards, corporate-sponsored Merit Scholarship awards, and the first group of college-sponsored Merit Scholarship awards.*

### Additional College-Sponsored Merit Scholarship Winners

(Evanston, Illinois) Today, National Merit Scholarship Corporation (NMSC) announced approximately 1,700 additional winners of National Merit Scholarships financed by colleges and universities. These Merit Scholar designees join more than 2,200 other college-sponsored award recipients who were announced in late May.

Officials of each sponsor college selected their scholarship winners from among the Finalists in the National Merit Scholarship Program who will attend their institution. College-sponsored awards provide between \$500 and \$2,000 annually for up to four years of undergraduate study at the institution financing the scholarship.

This year, 183 colleges and universities are sponsoring about 3,900 Merit Scholarship awards. Sponsor colleges include 106 private and 77 public institutions located in 44 states and the District of Columbia.

*Add one  
Additional College-Sponsored Merit Scholarship Winners*

This final group of winners brings the number of 2015 National Merit Scholars to about 7,400. These distinguished high school graduates will receive scholarships for undergraduate study worth a total of more than \$32 million. In addition to college-sponsored awards, two other types of National Merit Scholarships were offered—2,500 National Merit \$2500 Scholarships, for which all Finalists competed, and approximately 1,000 corporate-sponsored Merit Scholarship awards for Finalists who met criteria specified by their grantor organizations.

### **2015 National Merit Scholarship Competition**

This year's competition for National Merit Scholarships began when over 1.4 million juniors in some 22,000 high schools took the 2013 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT<sup>®</sup>), which served as an initial screen of program entrants. In September 2014, about 16,000 Semifinalists were named on a state-representational basis in numbers proportional to each state's percentage of the national total of graduating high school seniors. Semifinalists were the highest-scoring program entrants in each state and represented less than one percent of the nation's seniors.

To become a Finalist, each Semifinalist had to complete a detailed scholarship application, which included writing an essay, describing leadership positions and contributions in school and community activities, showing an outstanding academic record, and being endorsed and recommended by a high school official. Semifinalists also had to take the SAT<sup>®</sup> and earn scores that confirmed their performance on the initial qualifying test. From the Semifinalist group, about 15,000 attained Finalist standing, and more than half of the Finalists were chosen to receive National Merit Scholarships.

NMSC, a not-for-profit corporation that operates without government assistance, was founded in 1955 to conduct the National Merit Scholarship Program. Over the past 60 years, more than 315,000 outstanding young men and women have won National Merit Scholarships worth over \$1 billion. The majority of awards offered each year are underwritten by approximately 440 independent corporate and college sponsors that support NMSC's efforts to recognize scholastically talented youth and encourage the pursuit of academic excellence.

**CAUTION:** Any attempt to compare high schools on the basis of numbers of Merit Scholarship winners will lead to erroneous and unsound conclusions. The National Merit Scholarship Program honors *individual* students who show exceptional academic ability and potential for success in rigorous college studies. The program does not measure the quality or effectiveness of education within a school, system, or state.
