EXCEPTIONAL STUDENT - REJECT RULES

1. District Number, Current Enrollment must be numeric in the range 01-68 or 71-75 and must be correct for the district submitting the data. -record rejected-

EXAMPLE

If district 01 is submitting records; District Number, Current Enrollment must be 01 for all records. Of the records listed below, the first two records would be loaded to the database assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Enrollment is 02 rather than 01 (the district submitting the record).

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the database, the district must correct District Number, Current Enrollment and resubmit the record.
