Management Response for Report #A-1718DOE-009
DBS Social Security Reimbursement Program
Status as of December 15, 2018

Finding	Recommendation(s)	Management Response as of June 12, 2018	Management Response as of December 15, 2018	Anticipated Completion Date & Contact
<p>DBS did not submit all eligible claims to SSA for reimbursement.</p>	<p>We recommend that DBS send all potentially eligible cases to SSA for reimbursement. We recommend sending claims to SSA for all cases in which the client has met SGA and is eligible for SSI or SSDI without a suspension or termination date. We additionally recommend moving cases to the SSRA application after the completion of the individualized plan for employment, rather than after case closure from AWARE, to ensure the system identifies all potential wage earnings for employment gained during the period DBS provided services.</p>	<p>Though all claims identified by the SSRA database generated in the daily email were filed and sent requesting reimbursement from the Social Security Administration, FDBS concurs that this process was not capturing all the potentially eligible claims.</p> <p>Many of the issues detailed in IG Report #A-1718-009 had previously been recognized by Florida DBS staff. In response, in May 2017 Florida DBS began exploring the replacement of the in-house Social Security Reimbursement Application (SSRA). Shortly thereafter, after a series of demos and discussions with Morrow Consulting, LLC, Florida DBS decided to purchase and implement the Vocational Rehabilitation Ticket to Work/Reimbursement Tracker</p>	<p>Florida DBS began processing VR Reimbursement Claims via TRACKER as of February 8, 2018, and as of November 20, 2018, sixty-one (61) claims in the amount of \$1,595,306.50 have been processed via TRACKER and approved for reimbursement by SSA.</p> <p>Florida DBS is continuing to learn the complexities of the VR Reimbursement process and the TRACKER application. Our goal is to submit 100% of all eligible reimbursement claims, and we fully expect to reach that goal as our knowledge and processes continue to improve.</p>	<p>January 31, 2019 Klaus Extine</p>

		<p>(TRACKER), an application that is already in use (or currently being installed) by 40 VR agencies. Florida DBS began processing VR Reimbursement Claims via TRACKER as of February 8, 2018, and as of May 24, 2018 approximately \$838,000 in claims processed through TRACKER has been approved for reimbursement by SSA.</p> <p>In regards to the listed recommendations, TRACKER connects to our AWARE case management system and to external data sources like Unemployment Insurance (UI) wage records and the State Verification and Exchange System (SVES). This information is used to determine when cases have met the requirements for Reimbursement payments and when they should be submitted</p>	<p>We recently discovered that TRACKER cannot be configured to create a claim based solely upon the achievement of 9 months of SGA as we previously thought. We have learned that TRACKER will not create a claim if the receipt of SSI/SSDI benefits is not indicated for the client in TRACKER. Since we have not yet been certified to use the SVES data file (which contains SSI/SSDI benefit information), there is a possibility of missing eligible claims if SSI/SSDI benefit information is not accurately recorded in the AWARE Case Management system.</p>

		<p>via the SSA Portal. A weekly process copies case information from AWARE to TRACKER after the completion of the individualized plan for employment (IPE). This weekly process also updates expenditure information for each case in TRACKER. Pending approval from the Social Security Administration Office of Information Security to import and utilize SVES data in TRACKER, Florida DBS is currently submitting all VR Reimbursement claims that have met SGA without taking into consideration SSI or SSDI benefits. Upon receiving approval to utilize SVES data in TRACKER, Florida DBS will make the determination on whether to continue submitting all VR Reimbursement claims based only on the achievement of SGA</p>	<p><u>Florida DBS will complete the following actions to ensure that SSI/SSDI information is accurately recorded in TRACKER so that all eligible claims can be accurately identified:</u></p> <ul style="list-style-type: none"> • Instruct all staff to accurately record SSI/SSDI benefit information in AWARE which will then be copied to TRACKER. • Complete and submit all required paperwork to SSA by January 1, 2019 to initiate the Federal Certification process of the TRACKER

		<p>accepted, FDBS had no other choice but to submit paper copies due to the non-functioning online portal for individual case entry. During the time period of this audit, FDBS was not able to produce batch formatting for submission due to the constraints with the SSRA Database system. As a result of SSA no longer accepting paper copies, several states that were not able to submit via batch processing, were not able to apply for cost reimbursement. This led FDBS to the implementation of the new Reimbursement TRACKER system.</p> <p>TRACKER provides a user-friendly interface that guides the user through the complex tasks involved in processing a VR Reimbursement claim. It provides feedback, like when processing</p>
