Integrated Education and Training (IET)

• All IET programs must include the following three components:
  • Adult education and literacy activities (§463.30) (delivered through the adult education frameworks);
  • Workforce preparation activities (§463.34) (delivered through the adult education frameworks); and
  • Workforce training for a specific occupation or occupation cluster which can be any one of the training services defined in section 134(c)(3)(D), of WIOA (delivered through a locally adopted curriculum).

• The integrated education and training program must have a single set of learning objectives that identifies specific adult education content, workforce preparation activities, workforce training competencies and the program activities function cooperatively.
Integrated Education and Training (IET) Cont.

• In order to meet the “integrated” requirement of IET, all services must include the following:
  • Adult education and literacy activities run cooperatively and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement (translation: students are enrolled in a single AGE program number that is delivering instruction through IET);
  • Activities are of sufficient intensity and quality, and based on the most rigorous research available, particularly with respect to improving reading, writing, mathematics and English proficiency of eligible individuals;
  • Occur simultaneously; and
  • Use relevant occupational instructional materials.
IET, WIOA Then (2016) and Now (2020)

2016 WIOA State Plan

• Modeled after the I-BEST model from Washington state
• Simultaneous enrollment in adult education and a CTE career certificate program
• Limited to GED®-I and ELCATE (high functioning levels)
• Hallmarks were team teaching between adult education teacher and CTE teacher
• Culminated in completion of GED®-I and ELCATE and the award of an OCP (represents completion of part of a program) or a career certificate (represents completion of an entire program)
• Pre-IET was defined as an adult education instructional service approach (also referred to as a “contextualization”) wherein adult education course and program instructional standards are taught contextually for a specific occupation or occupational cluster for the purpose of educational and career advancement.
IET, WIOA Then (2016) and Now (2020) Cont.

2020 WIOA State Plan

• IET is contextualized instruction! It is an adult education instructional service approach (also referred to as a “contextualization”) wherein adult education standards are taught contextually for a specific occupation or occupational cluster for the purpose of educational and career advancement.

• This new IET approach is not limited to specific functioning levels in ABE (levels 1-5) and ESOL (levels 1-5).

• It is recommended that a cohort-based model be used when delivering IET and a collaborative partnership between AGE instructors and CTE teachers be utilized for consultation purposes.

• The goal is for students to advance functioning level(s) and springboard into related postsecondary study and employment with the academic skills needed for success.

IET Scenario-Based Questions

• **Question:** My district wants to operate a GED®/Welding IET program. Does this mean my district can teach the standards and benchmarks in the Welder Assistant 1 course (PMT 0070) through our comprehensive GED® preparation program?

• **Answer:** No. The Welder Assistant 1 course is part of a State Board of Education approved curriculum framework (career certificate program) that has specific teacher certification requirements and a specific tuition and fee structure.
IET Scenario-Based Questions (cont.)

- However, your district can utilize IET to teach the academic skills needed to learn the occupational skill associated with welding. For example, mathematics instruction that supports a welding course would teach fractions using activities to determine combining pipe lengths to complete a welding task (measurement).
Integrated Education and Training (Cont.)

• IET students may be enrolled in any NRS reportable adult education programs.

• New Reporting of IET students: A separate webinar will be held to review the new reporting process for IET students, more information will be available soon.

• New for 2020-2021 – all continuation projects must submit Florida’s Adult Education Integrated Education and Training Program of Study form.

• The form will serve to demonstrate how your agency is moving towards implementation of an IET program for the 2020-2021 program year.
