APPRENTICESHIP

This presentation pertains only to those Apprenticeship Sponsors who have entered into an agreement with a Local Educational Agency, school district or community college.

Postsecondary Adult Vocational (PSAV) Curriculum Framework

- Defines purpose of training program
- Overview of content
- Intended students outcomes, what the student should be able to do
- Provides program reporting numbers
- Occupational Completion Points within the program
 - OCP the point that a student may leave a program and become employed in an occupation

Registered Apprenticeship Curriculum Framework

- Generic – one framework for all programs
- Special notes:
 - Federal definition of an apprenticeship program
 - Conditions for reporting – requires an agreement between LEA and sponsor
 - Sponsor and apprentice must have a RAIS number

Registered Apprenticeship Curriculum Framework

- Major Concepts/Content: The purpose is to provide training in various trade areas. The content of the programs will vary as directed by the local apprenticeship sponsors in each trade area.
 - Relates back to program standards approved by Apprenticeship Office

Registered Apprenticeship Program Reporting Numbers

- Process of transitioning to new Apprenticeship program specific numbers
- New program numbers now immediately identifies the program as an apprenticeship program and students as apprentices
- OCPs are based on 2000 hours per year and movement from one level to the next level, designated by the sponsor

Registered Apprenticeship Program Reporting Numbers

- Matrix provides reporting number for Community Colleges and School Districts
- Flexibility in program length – 2-5 years
- Identifies occupation

Registered Apprenticeship Student Enrollment & Reporting

- Apprentices in school districts and community colleges are enrolled in a program/course/section
- Basis for reporting student performances
 - Program completers and placement on a job
- Reports of student performances sent to DOE at specific times throughout the year

Registered Apprenticeship Program Funding

- Legislature appropriates dollars for Workforce Education in Community Colleges and School Districts
 - PSAV, College Credit, AS, AAS, Adult Ed
 - Apprenticeship programs at LEAs are funded out of the Workforce Budget

Registered Apprenticeship Program Funding @ Community Colleges

- Workforce dollars are combined with all CC state funding dollars
- Lump sum dollars are distributed to CC based on a formula agreed upon by CC Presidents
- The local CC administration allocates the dollars to the individual programs

Registered Apprenticeship Program Funding @ School Districts

- Workforce dollars are kept as a separate allocation
- Dollars are sent to the districts based on previous year's budget
- New money distributed based on enrollment and performances
- Local school district administrators allocate the dollars to individual schools and programs

Registered Apprenticeship Program Funding

- Moving towards a new reporting and funding system that will provide information relative to the state funds generated by individual programs
- There are no Federal or State dollars allocated for Apprenticeship programs
