Module C: Lesson Plan 9: Exploring Careers

Topic: Job Shadowing

Standard(s): Students will:

2.0 Develop skills to locate, evaluate, and interpret career information.

Length: Three class periods total: two class periods suggested to discuss, plan and report on the job shadowing experience, and one day to job shadow.

Objective: Students will be able to shadow an adult for some or all of a work day to observe not only job characteristics and responsibilities, but also what each job requires on a day-to-day basis. *Note:* Students should have already completed an interest assessment so that they can shadow someone in a job that matches their interests.

Materials:

- Handout Job Shadowing Questions to Ask
- Handout Sample Contact and Sample Thank You E-mail or Letter
- Handout Job Shadow Planning Sheet

Teacher Notes:

- 1. Check to see if your school has had experience organizing job shadows in the past, and if your school has guidelines in place to ensure a quality experience for each student.
- 2. You may even want to guide students to attempt to schedule their job shadows for a non-school day such as a break between semesters, teacher planning days, etc.
- 3. If your school does not have a list of job shadow hosts, you can contact community members who may help you in compiling a list of businesses and professionals who are willing to host your students.
- 4. The Job Shadowing experience may not be suitable for all middle school students. Many may have no desire or not have the maturity to do this activity. Teams or partners may be considered. For those students who do, it will be an excellent opportunity to gain insight into a career area. This activity will give the more mature student the chance to have an in-depth experience. Students will develop communication skills and gain self-confidence if they are involved in setting up the job shadow.
- 5. For your information, you can even go on a virtual job shadow by watching career videos in which workers describe their job, their work environment, their prospects for advancement and the education, skills, and other requirements needed to succeed in that job. Check out the website for Virtual Job Shadow (http://www.virtualjobshadow.com). This site is not being endorsed but rather letting you know that such a product exists if unable to arrange job shadowing opportunities locally. This is a cost item.

Description of Activity:

- 1. Introduce students to the concept of job shadowing where they will "shadow" an adult at his or her job for part or all of a work day. The job shadow will let them see a sample career in action and visit a real workplace.
- 2. Each student should decide based on his/her career research, which worksite they want to shadow.
- 3. Review the *Job Shadow Planning Sheet* with students. Follow school policy and change this process accordingly. Once they have selected a worksite, they can email or send a letter asking if the employer is willing to host them for a job shadow day. See *Sample Contact E-Email or Letter*.
- 4. Coach the students on the questions they should ask during the job shadow day. See Handout *Job Shadowing Questions to Ask*.
- 5. Students should write a summary of their shadowing experience.
- 6. Students should write or e-mail a thank-you note to the Job Shadowing participant. See *Sample Thank You E-Email or Letter*.
- 7. The teacher will provide resources for students and help arrange shadowing schedule between student and job site.

Evaluation: Students will participate in a job shadow experience, interview the hosts, and reflect on their experience.

Job Shadowing – Questions to Ask

Student Name: Date of Visit: Facility Visited: Address:		Date of Visit:		
Name and Title of Interviewee:				
Signature of Interviewee:				
	What are your duties and responsibilities?			
2.	What are the responsibilities of your department?			
3.	How are computers used in this career?

Pre Job Shadow Activities

After you have secured a place in which to contact your job shadow, you need to prepare yourself to get the most out of the experience. The following suggestions will help keep you focused.

- Know about the company you're visiting:
 - the type of product or service they sell
 - who owns or operates the business
 - correct spelling of the name of the person being interviewed
 - correct mailing address
- Research several occupations relating to the company using online sources or information from your guidance office.
- Research the company's Web site, if available.
- Make sure you have the appropriate clothes ready for the day you visit.
- Prepare a folder to keep notes, business cards, or any other information given to you during the day. Make sure you bring a pen or pencil.
