Citrus 2019-20 K-12 Comprehensive Research-Based Reading Plan

Contact Information

The district contact should be the person ultimately responsible for the plan. This person will be FDOE’s contact for the K-12 Comprehensive Research-Based Reading Plan. Please designate one contact for your district.

District Contact: Trish Douglas
Contact Email: douglast@citrus.k12.fl.us
Contact Telephone: 352-726-1931 x 2227

District-Level Leadership

District-level administrators must look at schools on an individual basis and distribute resources based on students’ and teachers’ levels of need. To describe the district system for monitoring reading instruction that differentiates school-level services, please address the following.

1. **Districts should match or exceed the State Board goals for increasing FSA-ELA achievement by six percentile points, increasing the percentage of students making learning gains on the FSA-ELA by seven percentile points and reducing the achievement gap for the identified sub groups on the FSA-ELA by at least one-third by 2020.** Please fill out the charts below with the actual results from the 2015-2016, 2016-2017 and 2017-2018 FSA-ELA and the interim district goals for 2020 identified in the 2017-2018 Comprehensive Reading Plan.

*Citrus County created a five year goal using 2014-2015 as baseline data similar to the State of Florida’s Plan.

* Values for subsequent years will be entered once results are available in order to track progress toward the 2020 goal.

2. **Explain how expenditures from the allocation are expected to impact student achievement in relation to your district goals.**

All expenditures are considered carefully to ensure they will impact student achievement and help the district meet our literacy goals through professional development, personnel, and assessment.

All professional development delivered will be research-based and will provide our teachers with strategies to help students succeed in ELA. Professional development continues to focus on supporting teachers with: best practices for reading instruction, standards-based instruction,
strategies to integrate reading and writing across the content areas, multisensory strategies to increase reading success, as well as strategies to support struggling readers.

One area we have consistently analyzed is the performance of our high school students, as they have experienced an overall decline in overall ELA achievement. Student performance data paired with staff turnover of ELA and reading teachers have created a need for further resources to be allocated. In the 2017-18 school year, the district hired two additional reading/literacy coaches. One reading/literacy coach was placed at each of the three high schools in order to maximize the impact of the literacy coaches and to help improve high school student achievement. Two reading/literacy coaches will be funded through the reading grant; the others will be funded through alternative district funds so that each high school can have a reading/literacy coach.

We will continue to allocate funding for computerized assessment suites so that teachers have meaningful data and progress monitoring tools to help target students’ literacy needs. Through platforms such as Achieve3000, teachers can more efficiently track their students’ achievement and maximize their instruction.

3. In regard to district-level monitoring of student achievement progress, please address the following:

A. Who at the district level is responsible for collecting and reviewing student progress monitoring data?

District level administrators from the following departments: Executive Team, Educational Services (including Research & Accountability, Elementary Education, Secondary Education, Professional Development, Title I, and Title III), Exceptional Student Education, and Student Services are responsible for collecting and reviewing data.

District level Program Specialists, TOSAs, and Reading/Literacy Coaches collect and review data on a consistent basis.

B. What specific school-level progress monitoring data will be collected at the district level to determine that students are progressing toward the district goals stated above? Please specify which grade levels are associated with specific school-level progress monitoring tools discussed in this section.

The district will collect a variety of school-level progress monitoring data to determine that students are progressing towards the aforementioned district goals.

At the elementary level, the following progress monitoring tools will be used: District ELA Formative Tests (K-5), FLKRS (K), Kindergarten Skills Card (K), District 3rd Grade Portfolio (3), iReady (K-5).

At the secondary level, the following progress monitoring tools will be used: District ELA Formative Tests (6-10), District EOTs (11-12), Achieve3000 (9-10), Study Island (6-8).
C. How often will student progress monitoring data be collected and reviewed by the district?

District level administrators will meet with school level administrators throughout the school year to monitor progress towards meeting the student achievement goals identified on each site’s School Improvement Plan.

District level administrators will schedule monthly district meetings with school level administrators to monitor student data, track progress towards district goals, and share information relevant to assessment and district goals.

District personnel will be responsible for collecting and analyzing the formative assessment data through Performance Matters /Unify (an electronic data collection system) conduct district, school, grade, and content area data analysis (as assessments are completed) to provide ongoing support to schools with data-driven decision making and standards-based instruction.

District Level Program Specialists, TOSAs, and Reading/Literacy Coaches will attend quarterly “Data Days” with respective grade levels, and departments to review student data collected during that quarter, monitor student progress towards district goals, and share instructional resources/strategies to promote achievement of specified goals.

District and school level personnel will review elementary iReady data each month in order to monitor the progress of the students. The iReady diagnostic assessments are administered at the beginning, middle, and end of the year. They serve as broad screening measures to identify students who show high risk, some risk, or low risk of not performing adequately on state, standardized assessments.

4. Who at the district level is responsible for ensuring the fidelity of students not progressing towards district goals receiving appropriate interventions?

District level leadership will form a partnership with building-level administrators, who are the first line for understanding the existing interventions and supports being applied in the classroom. This collaboration will be used to develop plans for additional and varied instructional tasks needed to bring about growth in that school. District-level leaders, along with building-level administrators, determine the areas of need and allocate resources which may include: professional development for teachers, instructional supplemental tools, or opportunities for collaboration between educators (i.e. lesson study, cross school visits, modeled lessons, data chats with focused attention on areas of need). More specifically, the following actions occur in elementary and secondary schools to facilitate academic improvement.

Elementary:

The Director of Elementary Education will schedule monthly district meetings with school literacy TOSAs to review and discuss intervention goals and options.

The Director of ESE will schedule monthly district meetings with school-based ESE Specialists and Psychologists to review and discuss goals identified through an Individualized Education Program (IEP) or Progress Monitoring Plan (PMP).
School level administrators schedule “Data Days” for grade level teams on a quarterly basis to analyze progress monitoring data.

Data from the iReady broad screening assessments will be used to determine which students need additional diagnostic assessments to target their specific needs.

Intervention groups and goals will be adjusted based on “Data Days” data analysis.

Instructional strategies targeting specific deficiencies will be implemented as a result of “Data Days” discussions. School-based and district data will be discussed at monthly district level meetings with principals.

District personnel responsible for collecting and analyzing the formative assessment data through Performance Matters (an electronic data collection system) participate in school data analysis to provide ongoing support in data-driven decision making and standards-based instructional methods.

The infrastructure for the K-12 MTSS/Problem Solving Model will be supported through a series of ongoing trainings focused on: the MTSS Process, data analysis, gap analysis, and rate of improvement when setting intervention goals.

School-based MTSS Problem-Solving Teams (PSTs) will meet weekly to monitor students who are not progressing towards their IEP or PMP goals. PSTs conduct gap analysis and calculate rate of progress to determine what intensity of intervention or support is required for students to meet their individual goals.

District funding will be provided for “Data Days”; professional development relevant to reading assessment, progress monitoring tools, and diagnostic assessments; and professional learning communities.

Secondary:

The Director of Secondary Education will schedule monthly district meetings with middle school literacy TOSAs, high school literacy coaches, and curriculum assistant principals to review and discuss intervention goals and options.

The Director of ESE will schedule monthly district meetings with school-based ESE Specialists and Psychologists to review and discuss goals identified through an Individualized Education Program (IEP) or Progress Monitoring Plan (PMP).

School-level administrators schedule “Data Days” for departments on a semester basis to analyze progress monitoring data. “Data Days” also focus on state assessment results and instructional implications.

Data from the Achieve3000 will be used to determine which students need additional diagnostic assessments to target their specific needs and to measure progress on lexile growth.

Intervention groups and goals will be adjusted based on “Data Days” data analysis.
Instructional strategies targeting specific deficiencies will be implemented as a result of “Data Days” discussions.

District personnel responsible for collecting and analyzing the formative assessment data through Performance Matters/Unify (an electronic data collection data-driven decision making and standards-based instructional methods) participate in school data analysis to provide ongoing support in

The infrastructure for the K-12 MTSS/Problem Solving Model is supported through a series of ongoing trainings focused on the MTSS Process, data analysis, gap analysis, and rate of improvement when setting intervention goals.

School-based MTSS Problem-Solving Teams (PSTs) will meet as needed to monitor students who are not progressing towards their IEP or PMP goals. PSTs conduct gap analysis and calculate rate of progress to determine what intensity of intervention or support is required for students to meet their individual goals.

District funding will be provided for “Data Days”, professional development relevant to reading assessment, progress monitoring tools, and diagnostic assessments; and professional learning communities.

5. **In regard to district-level monitoring of instructional alignment to grade-level Florida Standards, please address the following:**

A. **Who at the district-level is responsible for ensuring classroom instruction is aligned to grade-level Florida Standards?**

   District level administrators from the following departments: Executive Team, Educational Services (including Research & Accountability, Elementary Education, Secondary Education, Professional Development, Title I, and Title III), Exceptional Student Education, and Student Services will be responsible for ensuring classroom instruction is aligned to grade-level Florida Standards.

   District level Program Specialists, TOSAs, and Reading/Literacy Coaches provide standards-based professional development to school-level administrators, TOSAs, and teachers.

B. **What evidence will be collected to demonstrate that classroom instruction is aligned to grade-level Florida Standards?**

   **Elementary:**

   During the 120-minute integrated literacy block, the core reading program, Scott Foresman - Pearson Reading Street, will be utilized. This program addresses the six areas of reading and supports whole group instruction, small group instruction and targeted intervention through differentiated instructional strategies. The district level Program Specialist works in tandem with Teachers on Special Assignment at each school, along with teachers, to develop curriculum maps. The curriculum maps align materials from the core reading series, as well as other supplemental resources, to the Florida Standards for ELA.
Additionally, our elementary schools schedule a 120-minute ELA block to support the integration of reading, writing, and social studies. As mandated by the Florida Standards for ELA, K-5 teachers use the 120-minute literacy block to emphasize the importance of text dependent questions to guide the purpose for reading and writing; multiple opportunities for close reading; graphic organizers and deconstruction strategies to collect evidence/elaboration from text(s); time for drafting, revision, and teacher/peer conferencing before final writing.

Through professional development, district ESE Specialists will support ESE teachers with the implementation of access points in the literacy block. Through professional development, district ESOL Coordinators support ESOL teachers with the implementation of the ELA standards in the literacy block.

Evidence that teachers are providing instruction that meets the Florida Standards for ELA includes:

- An administrator will conduct a formal observation at least once a year
- Weekly lesson plans identify the ELA standards being covered
- Daily student work demonstrates understanding of the taught ELA standards
- Weekly grades will reflect students’ progress towards mastery of the ELA standards
- Biweekly Grade 3 ELA formative assessments show students’ progress towards mastery of the ELA standards
- Grades 4-5 ELA formative assessments, administered twice a year, show students’ progress towards mastery of the ELA standards
- Results of iReady diagnostic assessments, administered three times a year, indicate students’ progress towards mastery of the ELA standards
- District and school level ESOL coordinators will work regularly with teachers of ESOL students to ensure that ELD standards are integrated into the reading block
- District and school level ESE specialists work regularly with ESE teachers to ensure that students working towards access points are supported during the literacy block
- Intensive interventions will be scheduled for students requiring additional support to master the Florida Standards for ELA. Schools provide up to 60 extra minutes of reading instruction five days a week to small groups of students requiring Tier 2 or 3 intensive support. The number of students scheduled for intensive intervention is based on student data and each school’s allocation of resources to sustain intensive intervention.
- Tri-annual K-5 District Writing Prompts to review and address students’ needs in regard to the writing standards. Data is collected and reviewed by district staff, school administrators, and teachers

Secondary:

During the ELA class, HMH Collections will be utilized. This series focuses on helping students analyze complex texts, determine evidence, reason critically, and communicate thoughtfully. The district level Program Specialist works in tandem with teachers to develop curriculum maps which center on the Florida Standards for ELA; these maps drive classroom instruction.
Additionally, students who have not shown mastery of the Florida Standards for ELA on state assessments will be enrolled in an additional reading course to provide remediation in students’ areas of weakness. In this course, teachers utilize Cengage Inside (middle school) or Edge (high school) and Achieve3000 at both levels. The focus of this course is providing instruction in reading strategies such as text dependent questions to guide the purpose for reading and writing; multiple opportunities for close reading; graphic organizers and deconstruction strategies to collect evidence/elaboration from text(s); and routine writing to texts.

Through professional development, district ESE Specialists support ESE teachers with the implementation of access points in the ELA/reading class. Through professional development, district ESOL Coordinators support ESOL teachers with the implementation of the ELD standards in the reading block.

Evidence that teachers are providing instruction that meets the Florida Standards for ELA includes:

- An administrator conducts a formal observation at least once a year
- Weekly lesson plans identify the ELA standards being covered
- Daily student work demonstrates understanding of the taught ELA standards
- Weekly grades reflect students’ progress towards mastery of the ELA standards
- Grades 6-10 ELA formative assessments, administered twice a year, show students’ progress towards mastery of the ELA standards
- Results of Achieve3000 (9-10) assessments, administered three times a year, indicate students’ progress towards mastery of the ELA standards
- District and school level ESOL coordinators work regularly with teachers of ESOL students to ensure that ELD standards are integrated into the literacy block
- District and school level ESE specialists work regularly with ESE teachers to ensure that students working towards access points are supported during the reading block

**C. How often will this evidence be collected at the district level?**

The district will ensure that through the use of student reading data from district formative assessments administered throughout the year, as well as tools embedded within the core reading text (on a weekly basis), that systematic and explicit instruction will be aligned with the Florida Standards. In addition, data from iReady will be reviewed on a monthly basis. Instruction will be data-driven and based on student needs. Citrus County uses a research-based core curriculum which is guided through the development of a scope and sequence guide that ensures the use of high-quality, explicit and systematic strategies to ensure mastery of the Florida Language Arts Standards. Additional evidence will be collected through the following means:

- Formal and informal district administrative walkthroughs
- Monthly meetings will take place between district staff, school administrators and reading leadership teams to discuss the implementation of all reading programs and strategies
- Site visits by the superintendent, assistant superintendents, directors of curriculum, and program specialists will be conducted throughout the year as needed
- District-wide trainings supporting explicit reading and writing strategies
• District ELA formative assessment data analysis during regularly scheduled data chats
• District review of data matrices capturing student performance on various reading assessments and data collected from the core reading series, as well as supplemental materials
• District-developed curriculum maps will provide suggestions and resources by grade level to promote systematic and explicit reading instruction through the support of the core programs.
• Tri-annual 4th/5th grade District Writing Prompts to review and address students’ needs in regard to the writing standards. Data will be collected and reviewed by district staff, school administrators, and teachers.
• In addition, 3rd grade students will participate in an annual District Writing Prompt.

6. As a separate attachment, please provide the meeting agenda which demonstrates the district contact for the K-12 Comprehensive Research-Based Reading Plan has developed the plan along with: the district contact for Exceptional Student Education (ESE) to discuss the alignment between the District's Special Programs and Procedures (SP&P) requirements, the district contact for Multi-Tiered Systems of Supports (MTSS), the district Management Information Systems (MIS) contact to ensure accurate data reporting, the district ELL contact, a school based principal and a teacher.

See Appendix A.

Research-Based Reading Instruction Allocation

As per Section 1011.62(c), F.S., funds allocated under this subsection must be used to provide a system of comprehensive reading instruction to students enrolled in the K-12 programs, which may include the following:

- An additional hour per day of intensive reading instruction to students in the 300 lowest-performing elementary schools by teachers and reading specialists who are effective in teaching reading;
- Kindergarten through grade 5 reading intervention teachers to provide intensive intervention during the school day and in the required extra hour for students identified as having a reading deficiency;
- Highly qualified reading coaches to specifically support teachers in making instructional decisions based on student data and improve teacher delivery of effective reading instruction, intervention and reading in the content areas based on student need;
- Professional development for school district teachers in evidence-based reading instruction, including strategies to teach reading in content areas with an emphasis on technical and informational text;
- Summer reading camps, using only teachers or other district personnel who are certified or endorsed in reading consistent with Section 1008.25(7)(b)(3), F.S., for all students in kindergarten through grade 2 who demonstrate a reading deficiency as determined by district and state assessments, and students in grades 3 through 5 who score at Level 1 on the statewide, standardized English Language Arts (ELA) assessment;
- Supplemental instructional materials that are grounded in evidence-based reading research; and
Intensive interventions for students in kindergarten through grade 12 who have been identified as having a reading deficiency or who are reading below grade level as determined by the statewide, standardized English Language Arts assessment.

The following sections will require districts to submit their budget for these expenditures and to answer questions regarding the implementation of the plan.

**Professional Development**

As per Section 1012.98, F.S. each school district shall develop a professional development system which must include a master plan for inservice activities for all district employees, from all fund sources. The *Just Read, Florida!* office will review professional development related to reading instruction listed in this plan during monitoring. Please answer the following questions to assist with this process:

1. **Who is responsible for ensuring every professional development activity funded through the Research-Based Reading Instruction Allocation is appropriately entered into the Professional Learning Catalog pursuant to 6A-5.071 F.A.C.?**

   Lindy Woythaler- Director of Professional Development

2. **What is the total amount budgeted from the Research-Based Reading Allocation for these inservice activities?**

   $3,333.00

3. **Within the district professional development system, Section 1012.98 (4)(b)(11), F.S., states the district must provide training to reading coaches, classroom teachers, and school administrators in effective methods of identifying characteristics of conditions such as dyslexia and other causes of diminished phonological processing skills; incorporating instructional techniques into the general education setting which are proven to improve reading performance for all students; and using predictive and other data to make instructional decisions based on individual student needs. The training must help teachers integrate phonemic awareness; phonics, word study, and spelling; reading fluency; vocabulary, including academic vocabulary; and text comprehension strategies into an explicit, systematic, and sequential approach to reading instruction, including multisensory intervention strategies. Each district must provide all elementary grades instructional personnel access to training sufficient to meet the requirements of Section 1012.585(3)(f), F.S..**

   Please list the course numbers from your district Professional Learning Catalog which cover this training.

   2-013-002
   2-013-003
   7-401-001
   2-100-007
Reading/Literacy Coaches

The Just Read, Florida! office strongly encourages district leadership to allocate reading/literacy coaches for schools determined to have the greatest need based on student performance data, especially achievement gaps. Please answer the following questions regarding reading/literacy coaches:

1. **What are the qualifications for reading/literacy coaches in your district? If there is a posted job description you may submit the link.**

   Our schools are served by Teachers on Special Assignment (TOSA), a reading interventionist, and three literacy coaches.

   The qualifications for TOSA and reading interventionist are as follows:
   - Bachelor’s Degree with certification/eligibility in the appropriate field
   - Three years of successful teaching

   The qualifications for literacy coach are as follows:
   - Bachelor’s Degree with certification/eligibility in the area of assignment preferred
   - Competence in subject matter assigned to teach
   - Knowledge of computer applications and educational technology as related to instructional function

2. **Which schools have reading/literacy coaches funded from the Research-Based Reading Instruction Allocation?**

   The allocation of literacy coaches is based on school population and student achievement data on the statewide assessment in reading. Availability of other resources at the schools that may meet the school literacy needs is also considered. For SY 2019-2020, each of the three high schools will be supported by a district reading coach. In schools that do not have a reading/literacy coach, a Teacher on Special Assignment (TOSA) assumes this role. As leads for curriculum and instruction, they receive professional development, facilitate data chats and lesson study teams, and participate in district-led meetings focused on literacy instruction.

   Crystal River High School- Reading Coach
   Lecanto High School- Reading Coach
   Crystal River Middle School- TOSA
   Lecanto Middle School- TOSA
   Citrus Springs Middle School- TOSA
   Inverness Middle School- TOSA
   Inverness Primary School- TOSA
   Pleasant Grove Elementary School- TOSA
   Hernando Elementary School- TOSA
   Forest Ridge Elementary-TOSA
   Central Ridge Elementary School- TOSA
   Citrus Springs Elementary School- TOSA
   Lecanto Primary School- TOSA
   Rock Crusher Elementary School- TOSA
   Crystal River Primary School- TOSA
3. Were these schools identified to have the greatest need based on a review of student achievement data? If not, please explain why reading/literacy coaches were placed at these schools.

Literacy is our biggest need across the district. Each school will be provided instructional support through positions such as reading/literacy coach/teacher on special assignment (TOSA).

4. How many total positions will be funded at each level using the Research-Based Reading Instruction Allocation:

   a. Elementary: 9
   b. Middle: 4
   c. High: 2

5. How is the effectiveness of reading/literacy coaches measured in your district?

   Evidence of Effectiveness of Coach-Provided Professional Development:
   - FSA ELA Assessment Data -District ELA Formative Assessment Data
   - Positive feedback/positive evaluation average from participants of coaches’ trainings via the required ERO evaluations
   - Student/teacher samples of implementation of professional development will be delivered
   - Strategies learned from professional development will be implemented into lesson plans

6. What is the total amount from the Research-Based Reading Instruction Allocation that will be expended on reading/literacy coaches?

   $658,000.00

**Supports for Identification and Intervention of Students with Reading Deficiencies**

Districts are required to submit Identification and Intervention Decision Trees which can be found in Appendix B.

Please answer the following questions regarding the use of the Research-Based Reading Instruction Allocation in support of the identification and intervention of students with reading deficiencies:

1. Which schools will be provided reading intervention teachers to provide intensive interventions funded through the Research-Based Reading Instruction Allocation?

   Floral City Elementary School and Homosassa Elementary School
2. Were these schools identified to have the greatest need based on a review of the students achievement data? If not, please explain why reading intervention teachers were placed at these schools.

These schools have the highest free and reduced lunch population. These positions provide additional instructional support and are funded through the research-based reading allocation and Title I.

3. How many total positions will be funded at each level through the Research-Based Reading Instruction Allocation:

   a. Elementary: 2
   b. Middle: 0
   c. High: 0

4. What is the total amount expended on these positions funded through the Research-Based Reading Instruction Allocation?

   $40,000.00

5. Please list any supplemental instructional materials, or interventions, which will be purchased using funds from the Research-Based Reading Instruction Allocation. These will be reviewed by the Just Read, Florida! Office to ensure the materials, or interventions, meet the requirements of Section 1001.215(8), F.S.:

   N/A

6. What is the total amount expended from the Research-Based Reading Instruction Allocation on supplemental instructional materials, or interventions?

   $0.00

7. If the intensive, explicit, systematic and multisensory interventions required to be provided to students in grades K-3 were not purchased using the Research-Based Reading Instruction Allocation, please list the funding source.

   Title I

   **Summer Reading Camps**

   Please complete the following questions regarding SRC:

   1. **SRC Supervisor Name:** Trish Douglas

   2. **Email Address:** douglast@citrus.k12.fl.us

   3. **Phone Number:** 352-726-1931 x 2227
4. Please list the schools which will host a SRC:
   Hernando Elementary, Central Ridge Elementary, and Rock Crusher Elementary

5. Provide the following information regarding the length of your district SRC:
   a. Start Date: June 17, 2019
   b. Which days of the week is SRC offered: Monday- Thursday
   c. Number of instructional hours per day in reading: 4.00
   d. End Date: July 11, 2019
   e. Total number of instructional hours of reading: 60.00

6. Per the requirements of Section 1008.25(7)(b)(3), F.S., are all teachers selected to deliver SRC instruction highly effective as determined by their evaluation under Section 1012.34, F.S.?
   Yes

7. What is the anticipated teacher/student ratio?
   1:10

8. Will students in grades other than grade 3 be served as well? If so, which grade level(s)?
   Second grade students and ELL students in grades K-5 will also be served during SRC. In addition, we will serve our lowest performing Level 2, 3rd grade students.

9. What evidence will be collected that demonstrates growth in student achievement was a result of the instruction provided during SRC?
   Students will take the SAT 10 Alternative Assessment at the end of summer camp.

300 Lowest-Performing Elementary Schools

Section 1011.62(9)(d)(2), F.S., requires school districts that have one or more of the 300 lowest-performing elementary schools, specifically delineate in the comprehensive reading plan, or in an addendum to the comprehensive reading plan, the implementation design and reading strategies that will be used for the required additional hour of reading instruction. Given district comprehensive reading plans must be submitted and approved before the list of 300 lowest-performing elementary schools is released, districts with one or more schools on the list will be notified to submit an addendum with a required due date once the list is available. Each district will be given an opportunity to revise portions of their plan if the additional hour impacts the funding of other aspects.

This may be found in Appendix C.

Good Morning,

Thank you again for taking the time to join us as we create the Reading Plan for 2019-20 school year. The purpose of this meeting will be to review the reading intervention process for the elementary, middle, and high school levels. Specifically, we will discussing how we are identifying and serving our students in need of reading interventions.

**Reading Plan Committee Agenda**

Overall review of the Reading Plan Goals

Identification of Students with Reading Deficiencies and Intervention Supports

In this section districts will describe how they identify students with substantial reading deficiencies and provide them with required interventions. Districts will create three Identification/Intervention Decision Tree charts to demonstrate how data from screening, diagnostic, progress monitoring, local assessments, statewide assessments or teacher observations will be used to determine specific reading instructional needs and interventions for students. It is important to note that a school may not wait for a student to receive a failing grade at the end of a grading period to identify the student as having a substantial deficiency in reading. If a local assessment is being used for identification, districts should internally analyze their data in order to ensure students are identified at similar rates as on statewide assessments. Districts who use a procured diagnostic, progress monitoring or assessment tool should, at a minimum, use the recommended ranges provided by the instrument developer; however, these districts should also ensure that rates of identification correlate to statewide performance.

- DT1 – Elementary (K-5)
- DT2 – Middle (6-8)
- DT3 – High (9-12)

The charts must contain the following information:

- The grade level(s) of the student;
- Name and performance benchmark on screening, diagnostic, progress monitoring, local assessment, statewide assessment or teacher observations used to identify students with substantial deficiencies in reading and subsequent interventions provided. FSA-ELA scores must be used for appropriate grade levels;
- DT1 must clearly state the conditions the district uses to determine whether a student has a substantial reading deficiency and will subsequently notify the student’s parent as required in Section 1008.25, F.S. This also includes a description of the intensive, explicit, systematic and multisensory reading interventions which will be provided to students in grades K-3;
- DT1 must include information on how the Florida Kindergarten Readiness Screener will be used to identify students for intervention. For each grade level on each chart, districts must include a description of which students will be reported in the Student Information System with an appropriate code for the Reading Intervention Component; and
- An explanation of how instruction will be modified for students who have not responded to a specific reading intervention with the initial intensity (time and group size) provided;
Elementary K-5 Identification/Intervention Decision Making Process

Tier 1
Core instruction is provided in the general education classroom using scientifically research-based materials

Universal screeners/assessments administered. Teacher observations and data of all students are analyzed. (See Table A)

Are students making adequate progress in the core? Are they meeting proficiency requirements or are they on track to meet proficiency expectations by the end of the year? Did their scores on the universal screeners/assessments indicate a reading deficiency and need to intervention? (See table B for FLKRS scores/tables C/D for other assessments)

Continue to provide core instruction.

Yes

No

Analyze core instructional program.

Is core instruction effective for at least 80% of the classroom?

Yes

No

Return to Tier 1.

Tier 2
Classroom teacher reviews the student’s strengths and weaknesses and determines why the student is not achieving (what skill(s) are they lacking?). A PMP is developed for the area(s) of concern. Small group intensive interventions are implemented. (See Table D)
Bi-weekly (minimum) progress monitoring data is collected. Parents are notified/conferences are held to address the concerns.

Are students making adequate progress with core plus differentiated instruction, small group remediation, UDL strategies, and multisensory strategies? Are they meeting proficiency expectations or are the on track to meet proficiency expectations by the end of the year as measured by the screeners/assessments referenced above?

No

Yes

Continue to provide Tier 2 interventions.

Perform gap analysis to determine if it is closing, consider moving back to Tier 1.

Tier 3
Student has been identified as having a substantial reading deficiency. The Problem-Solving Team meets and discusses the results of the diagnostic testing, specific skills that need to be targeted, and intensive reading instructional needs. The PMP/intervention is updated, and Tier 3 interventions begin. Weekly (minimum) progress monitoring data is collected. Parents are notified/conferences conducted to address concern(s).

Are the student responding to core + Tier 2 + Tier 3 interventions according to the progress monitoring data? Are the skills taught in intervention groups being generalized to core? Are they meeting proficiency expectations or are they on track to meet proficiency expectations by the end of the year?
Continue to provide Tier 3 interventions. Perform gap analysis to determine if it is closing, consider moving back to Tier 2.

Yes  No

Return to Tier

PST meets and discusses if the student might need a comprehensive evaluation through the ESE department. If so, the ESE specialist will obtain parent consent for testing and begin the referral process. If not, interventions and the PMP for

• Small group instruction provided during 90-minute reading block to differentiate instruction.  
• iReady intervention used to target deficits.  
• Possible Tier 2 PMP implemented depending on MTSS flowchart and PST/RTI committee meeting.  
• Read at home plan provided to parents |
| 437 and below | • Progress monitoring through the use of the Kindergarten Skills card to determine specific area of need. Interventions provided based on results.  
• Small group explicit intervention provided outside of the 90-minute reading block to differentiate instruction.  
• iReady intervention used to target deficits.  
• Read at home plan provided to parents |
Table C: Performance Benchmarks used for Intervention Determinations

Students will receive interventions for scores falling in the “high risk” range for each grade level.

- Small group explicit intervention provided outside of the 90-minute reading block to differentiate instruction.
- iReady intervention used to target deficits.
- Read at home plan provided to parents.

Read at home plan provided to parents

For students falling in the “some risk” range, other data (iReady, classroom grades, FSA scores, or District Assessment scores) will be reviewed to determine whether an intervention is needed.

- Small group explicit intervention provided outside of the 90-minute reading block to differentiate instruction.
- iReady intervention used to target deficits.
- Read at home plan provided to parents

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discover Intensive Phonics*</td>
<td>Explicitly teaches phonics sounds as well as phonics rules.</td>
</tr>
<tr>
<td>Read Well*</td>
<td>This program develops the five components in reading; vocabulary, fluency, spelling, phonemic awareness, and comprehension.</td>
</tr>
<tr>
<td>Sing Spell Read Write*</td>
<td>A comprehensive program that allows students to learn letters, sounds, blends, clusters, digraphs through music.</td>
</tr>
<tr>
<td>Words Their Way in Action*</td>
<td>This program is designed to improve students’ basic phonics recognition, spelling, and vocabulary using different modalities of learning.</td>
</tr>
<tr>
<td>Phonographix*</td>
<td>A program that incorporates tactile letter formation, letter tile manipulation and repetition to learn foundational reading skills.</td>
</tr>
<tr>
<td>Seeing Stars*</td>
<td>The Seeing Stars program develops symbol imagery - the ability to visualize sounds and letters in words - as a basis for orthographic awareness, phonemic awareness, word attack, word recognition, spelling, and contextual reading fluency.</td>
</tr>
<tr>
<td>95% Phonics*</td>
<td>Teaches explicit phonics lessons targeted at a specific phonics skill using chips to stand for sounds in words.</td>
</tr>
<tr>
<td>Snap Words*</td>
<td>Sight words with pictures or body motions attached to each word. Snap words help attach a visual to words for students struggling</td>
</tr>
<tr>
<td>Read Naturally*</td>
<td>Program that allow repeated to readings to improve fluency. Has comprehension questions and vocabulary support as well.</td>
</tr>
<tr>
<td>Program</td>
<td>Description</td>
</tr>
<tr>
<td>--------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>SRA *</td>
<td>Scripted direct instruction programs. There are many some that are for younger students such as Early Reading Tutor and Early Interventions. Some for Grades 4 or 5 include Corrective Reading and Decoding A, B1, B2, and Spelling Through Morphographs. Phonemic awareness is explicitly taught through scripted lessons.</td>
</tr>
<tr>
<td>Earobics</td>
<td>Computerized program that offers students practice in auditory attention, sequential memory, phoneme identification, phonological awareness, pattern recognition and word closure. Teachers have the ability to select and target specific skills for students to work on AND data reports can be generated.</td>
</tr>
<tr>
<td>Hearbuilders</td>
<td>Computer program (CD) that works on phonological awareness.</td>
</tr>
<tr>
<td>Language for Learning</td>
<td>Scripted direct instruction program for early language development. It begins very basic and increases as students progress through.</td>
</tr>
<tr>
<td>Language for Thinking</td>
<td>Scripted direct instruction focusing on vocabulary development.</td>
</tr>
<tr>
<td>Six-minute Solution</td>
<td>This is a program targeting fluency. Students read a passage at their level to a partner each day while the partner listens and marks their words correct per minute. Then partners switch. They also graph their own progress. As goals are met, passages increase in level.</td>
</tr>
<tr>
<td>Headsprouts</td>
<td>Online program that teach fundamental skills such as: phonemic awareness, phonics fluency, and basic vocabulary (K-2) &amp; comprehension skills (3-5). The online instruction automatically adapts to the learning needs of each student. Has automated reports for teachers and parents to track progress.</td>
</tr>
<tr>
<td>Great Leaps</td>
<td>This program targets fluency. Students can begin where they struggle. Starts at letter fluency, progresses through word fluency, phrases, sentences, and passages.</td>
</tr>
<tr>
<td>Performance Coach</td>
<td>FSA type rigor of passages as it teaches comprehension strategies. The questioning very closely matched FSA.</td>
</tr>
<tr>
<td>RAZ Kids</td>
<td>Reading A-Z utilizes leveled readers and matching assessment pieces to focus on Reading comprehension strategies.</td>
</tr>
<tr>
<td>RAVE-O</td>
<td>Language based instructional strategies used to build vocabulary and word structure, spelling patterns and language usage.</td>
</tr>
<tr>
<td>Focused Reading</td>
<td>Standards-based instruction utilizing fiction and non-fiction texts to address key reading and literacy skills.</td>
</tr>
<tr>
<td>Intervention</td>
<td></td>
</tr>
<tr>
<td>Study Island Reading</td>
<td>Standards-based instruction and remediation utilizing FSA like questioning.</td>
</tr>
<tr>
<td>Reading Street</td>
<td>Has books for each of the 5 components of reading so you can easily target the weak area. The lessons are designed to be taught 1 per day. Teachers cannot simply do the workbook pages, the lesson must be taught as well.</td>
</tr>
<tr>
<td>Intervention Kit</td>
<td></td>
</tr>
<tr>
<td>Quick Reads</td>
<td>A fluency-based program with basic comprehension strategies used to build fluency in struggling readers. In the lower levels the passages are short but progress as the program increases in difficulty</td>
</tr>
<tr>
<td>-------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>iReady</td>
<td>An adaptive intervention program with individual learning paths to target performance goals.</td>
</tr>
<tr>
<td>STARS</td>
<td>Highly scaffolded instruction with gradual release practice targeted for explicit instruction in specific comprehension strategies.</td>
</tr>
<tr>
<td>FCRR</td>
<td>Hands-on activities in the areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension.</td>
</tr>
<tr>
<td>Sound Partners</td>
<td>Introduces and reinforces letter sounds, incorporating only a few at a time with practice blending sounds into words.</td>
</tr>
<tr>
<td>West Virginia Phonics</td>
<td>Instruction split into sections to target specific phonics skills from short vowels to multisyllable words.</td>
</tr>
<tr>
<td>Grade Level(s)</td>
<td>If Student scores…</td>
</tr>

Schools will revise, modify, intensify or supplement interventions as necessary and required for any student who has not responded to a specific reading intervention with the initial intensity (time and group size) provided through the MTSS guidelines based on student progress monitoring data that is reviewed monthly.

The school shall provide evaluation results in a timely manner to students and parents/guardians. Instructional supports and course offerings may need to be refined within each school depending on local circumstances such as available resources and student performance. Students will be placed in the highest course for which data suggests the students can succeed.

The school shall provide evaluation results in a timely manner to students and parents/guardians. Instructional supports and course offerings may need to be refined within each school depending on local circumstances such as available resources and student performance. Students will be placed in the highest course for which data suggests the students can succeed. High school literacy coaches will be utilized to provide model lessons and resources to individualize instruction for struggling students and to provide appropriate interventions and scaffolds for struggling readers.
11-12 | Student has a previous score of a Level 3 or above on FSA or a passing concordant score | Student is scheduled into English, Honors English, or Advanced Placement English for the appropriate grade level. | **Full Year/Single Class**

AP: An Introduction to Reading and Writing | ● District EOTs  
● Teacher Created EOTs | **Strategies:** Tier 1 - 80% of the students meeting proficiency with core instruction  
**Intensity:** Differentiated based on need of students, determined by Teacher Evaluations and IEPs  
**Class Size:** 25

Literacy Coaches will provide additional support in Tier 2 and/or Tier 3 classes as needed. Schools will revise, modify, intensify or supplement interventions as necessary and required for any student who has not responded to a specific reading intervention with the initial intensity (time and group size) provided through the MTSS guidelines based on student progress monitoring data that is reviewed monthly.
