Overall Project Goals slide: These are deliverables that will come out of committee's work over the next few years. Look at how to match the continued approval site visit process to goals. Before we begin revising the continued approval process, we need to make sure that we review and refine the Florida Principal Leadership Standards.

Subcommittee Development: To assist with project goals. Also mentions the alignment with the teacher/leader evaluation processes that are under development. Subcommittee will take an early look at aligning prep programs with evaluation and bring information back to full committee for consideration in recommendation for work over the summer in reviewing leadership standards. The goal is to have draft leadership standards in place and ready for the rule revision process by fall. The subcommittee provides information and input to the Teacher and Leader Preparation Implementation Committee; does not have a vote in the committee's recommendation.

Overview of TLPIC Meetings: Slide outlines dates/activities for meetings. Online forum will be used in between meetings to continue discussions. Discussion of conflicts – several people have conflicts on May 10 but can work around. Teacher concern – how to get time off for meetings? State will reimburse for subs for those days if needed. June 8-9 dates conflict with state board/superintendent conference and school district graduations. Move to week of June 13? Discussion indicates less conflict – reschedule to Wed/Thurs
