#### **PREFACE**

Section 1008.385(2), Florida Statutes, mandates that each school district and the Florida Department of Education develop and implement a comprehensive management information system which is made up of compatible components and links all levels of the state education system.

In order to support the statewide process of implementing compatible local and state-level automated information systems, the Florida Department of Education has developed the following documents:

- \* DOE INFORMATION DATA BASE REQUIREMENTS: VOLUME I -- AUTOMATED STUDENT INFORMATION SYSTEM
- \* DOE INFORMATION DATA BASE REQUIREMENTS: VOLUME II -- AUTOMATED STAFF INFORMATION SYSTEM
- \* DOE INFORMATION DATA BASE REQUIREMENTS: VOLUME III -- AUTOMATED FINANCE INFORMATION SYSTEM

This document contains the required data elements, functions and timelines which each automated information system component must incorporate within its automated staff information system. Further information or questions concerning this document should be addressed to the Administrator, Education Information Services, Florida Department of Education, 852 Turlington Building, Tallahassee, Florida 32399-0400

# A. AUTOMATED STAFF INFORMATION SYSTEM REQUIREMENTS

#### **AUTOMATED STAFF INFORMATION SYSTEM REQUIREMENTS**

Section 1008.385(2), F.S., requires the development and implementation of a comprehensive management information system linking all levels of the state education system. Each school district and the Florida Department of Education shall implement an automated information system component containing staff information which is compatible with the statewide comprehensive management information system.

The automated staff information system functions and timelines implemented by the Florida Department of Education and each school district are as follows:

#### **HISTORY**

1. An automated staff Information system is to be implemented in each school district by June 30, 1987.

Each school district shall install an automated staff information system which includes the data elements prescribed in Section B of this document and which contains the procedures for performing the automated state reporting and records transfer functions defined in subsection 4. below. Each system shall provide payroll, inservice training and basic personnel recordkeeping.

2. State-level automated staff information data base design is to be implemented in the Florida Department of Education by July 1, 1987.

A state-level staff data base of information shall be installed for access by state and local education managers and the Legislature. The data base design shall integrate existing Department reports now collected separately from school districts within the automated reporting formats defined in subsection 4. below, thereby reducing data burden, improving compatibility among data elements and providing a more comprehensive and flexible data base of information. The Florida Department of Education shall implement strict controls for privacy and security of staff records as contained in Section C of this document.

3. Automated state reporting functions are to be implemented by each school district beginning July 1, 1987.

Current state reporting functions are defined in subsection 4.

#### **AUTOMATED STATE REPORTING FUNCTIONS**

4. Each school district shall implement the following automated state reporting functions according to the timelines provided:

## B. AUTOMATED STAFF INFORMATION SYSTEM DATA ELEMENTS

#### INTRODUCTION

All automated staff data elements included in this volume must be incorporated within each school district's automated staff information system. Districts may add additional data elements with their local automated system to meet local needs.

The staff data elements have been reviewed by the Data Advisory Committee of the School District Council on Comprehensive Management Information Systems. Subsequent updating of this volume will utilize the data base review procedure developed by the Florida Department of Education and the Data Advisory Committee.

#### **DEFINITION/DOMAIN:**

Definition/domain provides a working definition associated with the data element, along with applicable examples, codes, notes and exception(s).

#### **LENGTH AND FORMAT:**

Length and format define the technical field characteristics to be maintained in the automated system for each data element.

#### STATE RECORD FORMATS REQUIRING THIS DATA ELEMENT:

Section A specifies the state record formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which will require the data element.

#### COMPATIBILITY REQUIREMENT:

All elements must use the specified length, format and coding definitions given in the automated staff data elements whenever automated state reporting is performed.

The degree of required compatibility between state and local elements varies. Many elements listed in this document need merely be **Compatible**, while others must meet stricter **State Standards**.

#### "Compatible" elements:

For data elements which are designated as **Compatible**, the coding structures used by the district, the data element names presented in user documentation and the length and format of the data fields may be the same as that contained in this volume or they may be completely locally defined depending on the district's staff information needs. If local definitions are used, it must be possible to convert the information into the state-required codes, descriptors and formats by calculation, computer procedures or subroutines whenever state formats are required (see **Compatibility Requirement**).

#### **INTRODUCTION (Continued)**

District documentation of locally defined elements must reference the state data elements for which they are surrogates.

Even though the state does not require the use of the state-defined codes for these **Compatible** elements, districts are encouraged to keep each of these elements in state format whenever possible to minimize the need for and cost of conversion.

#### "State Standard" elements:

For data elements which are designated as **State Standard**, the coding structures used by the district, the data element names presented in user documentation, the length and format of the data fields for all external occurrences of information in reports, user documentation and display and entry screens must be the same as those contained in this volume.

Thus, **State Standard** elements must meet these additional requirements:

- 1) the state codes **must be used locally exactly as defined** in this document for automated staff data elements;
- 2) user documentation must list the **State Standard** data element name;
- 3) input and output documents and reports must use the state-defined codes; and
- 4) local screen displays must use the state-defined codes.

These requirements do not address the **physical storage** of the data on tape, disk or other medium, but only how the data elements are to be presented to users in paper format or on screen displays. The stricter definition of **State Standard** still allows the district the flexibility to use its own district-defined codes for **physically** storing elements in the staff records system while, at the same time, using **State Standard** codes for display, input, reports and user documentation. For example, a date might be required to appear always to the user as MMDDYYYY or MM/DD/YYYY but could be physically stored as YYDDD with nonuser system documentation recording this fact.

In many of the data element definitions included in this volume, a code has been defined for "not applicable." In the case of very specialized data elements, it would seem more sensible in terms of the design of the staff records system to record information for such specialized elements only for staff to whom the element is pertinent. For both **Compatible** and **State Standard** data elements, the codes defined as "not applicable" need not be maintained in the local data records or displayed on local screens. At the time of reporting, if it is determined that a particular characteristic or condition is "not applicable" for an individual staff member, the value meaning "not applicable" may be programmatically inserted into the reporting structure at that time.

**INTRODUCTION (Continued)** 

This interpretation should allow segmentation of records and help reduce the need to store large numbers of characters of "noninformation" in the local data records, thereby reducing

the need for disk or other data storage space.

**USE TYPES:** 

**Use Types** define the major purposes for which information is collected, maintained and utilized as follows:

State report means the data element is required for an automated state report to be

forwarded to the Florida Department of Education.

Local accountability identifies those data elements which the school district must

maintain as an audit trail in support of statutorily required activities.

STATE REPORTING FORMATS REQUIRING THIS DATA ELEMENT:

A section is included with this document which specifies the state reporting formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which will require the data

element.

**DATA ELEMENT NUMBER:** 

The data element number is an internal number assigned by the Education Information and Accountability Services Section to facilitate the data base review activity of the Data Advisory Committee. School districts need not maintain this number in their local automated system.

**REPORTED IN SURVEY PERIODS:** 

See data element "Survey Period code" on page 66-1 for an explanation of this element.

DATES:

There are three dates associated with each data element:

Revised;

Implementation Date; and

Effective.

**B-3** 

#### **INTRODUCTION (Continued)**

The **Revised Date**, located at the bottom left-hand corner of the page, indicates the **month** and year of the last change to the data element page. Revisions may be *minor* (such as corrections to typographical errors or additions of examples for further clarification of the definition) or *substantive* (those affecting state reporting, additions, changes, or deletions to codes, or complete revisions).

The Implementation Date and the associated Fiscal Year are located in the upper right-hand corner of the data element page. In general, the date indicates implementation at the beginning of the fiscal year following the date first adopted by the State Board of Education as part of Rule 6A-1.0014, FAC. If subsequent changes to the data element are minor, the Implementation Date will remain the same. If subsequent changes are substantive, the Implementation Date will be changed to the beginning of the next fiscal year except where Emergency Rule procedures have been implemented. In those cases, the Implementation Date may be a date in the current fiscal year.

The Effective Date, located at the bottom of the page, indicates the beginning month and fiscal year that this version of Volume II is in effect. This date will only change once each year and pages in the document will reflect the same effective date.

#### **APPENDIX E**

#### JOB CODE ASSIGNMENTS

The job codes have been structured around the function categories 5100 to 9100 found in the <u>Financial and Program Cost Accounting and Reporting Manual</u> (Red Book) so that jobs found in a particular function will have codes beginning with the two digits which correspond to that function area. For example, teachers in basic education have job codes beginning with 51 and food service workers have job codes beginning with 76.

In addition, the job codes have been organized to form the following 11 categories of employees:

#### **Categories of Employees**

- I. Executive Administrators
- II. General Administrators
- III. School Administrators
- IV. Professional Staff
- V. Instructional Staff
- VI. Other Managers
- VII. Technicians
- VIII. Aides and Clerical/Secretarial Workers
- IX. Skilled Crafts Workers
- X. Service Workers
- XI. Other School Board Members

The first three categories (Executive Administrators, General Administrators and School Administrators) comprise the Administrative Staff. The Instructional Staff includes category V. (Instructional Staff) plus those in categories IV. (Professional Staff) and VI. (Other Managers) whose duties are instructional. Categories VII. through X. and noninstructional personnel in Categories IV. and VI. make up the Support Staff. Definitions and guidelines for the use and assignment of job codes and categories follow.

A basic premise that should be followed throughout the assignment of job codes is that an employee should be coded according to the job functions required rather than according to the job title or pay schedule for that job. No employee eligible for membership in a bargaining unit should be assigned a job code in Categories I., II. or III.

#### RECORDS PROCESSING ON THE DOE STAFF INFORMATION DATA BASE

Records received from school districts are subjected to different categories of edits upon their receipt. These edits result in two kinds of detailed reports:

- 1. Initial Edit Reports,
- 2. State Validation/Exception Reports.

# Initial Edit Reports

Initial Edit Reports contain the result of the first edits applied to the individual records received. The Initial Edit Reports include only the REJECT RULES as detailed in the following pages. Districts have access to these edit programs and are expected to apply the edits to their records prior to submission to the DOE for processing.

An example of this category of edit is the checking for valid codes for district number. A district number of 82 will not pass this category of edit and will result in omission of the record from the data base.

# State Validation/Exception Reports

A second type of edit report is the State Validation/Exception Report. During the State Records Processing Cycle (generally, two weeks after the data are due), State Validation/Exception Edit Rules are applied to the records. In each case where an error condition is detected, State Validation/Exception edits list the records in error on the initial load of the file. Batch updates to the file, however, do not reject records based on the State Validation/Exception rules nor are they listed again.

An example of the State Validation/Exception Edit is each Staff Payroll Information record must have a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code and Fiscal Year.

#### **Edit Specifications**

The edit specifications which follow are organized by reporting format and are subdivided into the categories discussed above: Reject Rules, State Validation Rules and Exception Reports. This document goes through each of the edits that are applied to records submitted for processing, defines and gives examples of what causes each error, and discusses actions districts may need to take to resolve additional problems created as a result of the initial error.

IN THE EXAMPLES, NOT ALL PARTS OF THE RECORD ARE SHOWN. DUE TO SPACE LIMITATIONS, ONLY THE AFFECTED PARTS OF THE RECORD ARE GIVEN. When reference is made to the "data base," it should be assumed that the reference is to the DOE Information Data Base files maintained at Northwest Regional Data Center.

### **Error Resolution**

The process of error resolution on the DOE Information Data Base may require intervention by districts in several different ways. Although the net effect of the intervention is to correct the error in the specific record, several other factors may need to be taken into consideration when the district "corrects" the error. The single error may have created other situations which also need resolution.

During the edit process, the Transaction Codes for initial submission, updating of records, or deleting records from the data base will be as they always have been. That is, the Transaction Code of A will indicate an add to the data base, the Transaction Code of C will indicate a change to the data base while the Transaction Code of D will indicate a deletion from the data base. However, the Error File generated by the edits will have records with Transaction Codes created by the State which reflect the action taken on the record. See the table below which explains the Error File Transaction Codes generated by the State.

Sending Transaction Code	Return Transaction Code on Initial and Batch	Explanation
А	A X	Added record Not added, duplicate record
С	С	Changed record
D	D	Deleted record

In updating the errors using the batch update method, if a key field needs to be changed, the record in error must be deleted and re-submitted as an add to the data base. Key fields are listed on the front of each record format.

1. District Number must be numeric in the range 01-70 or 72-76 and must be correct for the district submitting the data. -record rejected-

# **EXAMPLE**

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number and resubmit the record for processing.

2. Social Security Number (SSN) must be numeric and greater than zero, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-

#### **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

3. Survey Period Code must be correct for the submission specified by the district and must be 2, 3 or 5. -record rejected-

#### **EXAMPLE**

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code on the records coming in or in the JCL and resubmit the records for processing.

4. Fiscal Year must be correct for the submission specified by the district. -record rejected-

# **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

5. School Number, Primary/Home must exist on the Master School Identification File as a valid school in the district of submission. -record rejected-

#### **EXAMPLE**

School Number, Primary/Home 0661 is submitted for District Number 01. Since this School Number, Primary/Home is not found on the Master School Identification File for district 01, the record would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the School Number, Primary/Home and resubmit the record for processing.

6. Florida Educators Certificate Number must be numeric, and in the range 000000000-000999998, 0001000000-000999999, 0000999999 or 9999999999. -record rejected-

#### **EXAMPLE**

The following Florida Educators Certificate Number would cause the records to be rejected: 8888888888, (blank)123456. The first of these numbers is not within the acceptable range. The second number contains leading blanks instead of zeros.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Florida Educators Certificate Numbers to be valid numbers and resubmit the records for processing.

7. For the Employee Name, Legal; the Last Name cannot be blank. Allowable characters include double or single quotation marks, commas, slashes, periods, hyphens and accent marks. (Z-fill is not allowed.) -record rejected-

# **EXAMPLE**

The two records below would be rejected because no valid Last Name was submitted.

District Number	Social Security Number	School Number, Primary/ Home	Florida Educators Certificate Number	Employee Name, Legal: Last Name	Employee Name, Legal: First Name
* 03	123456789	0081	0000112233		Denise
* 03	123456780	0291	0000445566	7777777777	7777777777

# DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the records by providing valid Last Names and resubmit the records for processing.

8. For the Employee Name, Legal; the Appendage may be blank but must not include nondisplayable characters. Allowable characters include double or single quotation marks, commas, slashes, periods, hyphens and accent marks. -record rejected-

#### **EXAMPLE**

The two records below would be rejected because no valid Appendage was submitted.

District Number	Social Security Number	School Number, Primary/ Home	Florida Educators Certificate Number	Employee Name, Legal: Appendage
* 03	123456789	0081	0000112233	(nondisplayable character)
* 03	123456780	0291	0000445566	@@@

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the records by including a valid Appendage and resubmit the records for processing.

# 9. Birth Date must be numeric and a valid date. -record rejected-

# **EXAMPLE**

The two records below would be rejected because the Birth Dates are not valid dates.

District Number	Social Security Number	Survey Period Code	Fiscal Year	School Number, Primary/ Home	Florida Educators Certificate Number	Employee Name, Legal: Last Name	Birth Date
* 03	123456789	2	****	0081	0000112233	Jones	13151962

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### **DISTRICT RESPONSIBILITY**

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Birth Dates to be valid dates and resubmit the records for processing.

# 10. Gender code must be M or F. -record rejected-

#### **EXAMPLE**

The two records below would be rejected; the first because there is no code for Gender, the second because "Z" is not a valid code for Gender.

District Number	Social Security Number	Survey Period Code	Fiscal Year	School Number, Primary/ Home	Florida Educators Certificate Number	Employee Name, Legal: Last Name	Gender
* 03 * 03	123456789 123456780		****	0081 0291	0000112233 0000445566	Jones Smith	Z

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

# 11. Racial/Ethnic Category code must be W, B, H, A, or I. -record rejected-

#### **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D". To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A". Records with an incorrect Transaction Code would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Exempt from Public Records Law, Employee codes and resubmit the records for processing.

# 20. If Survey Period Code is <u>not</u> 5, Separation Date must be zeros. -record rejected-

# **EXAMPLE**

The record listed below would be rejected because the Separation Date is not valid for the Survey Period reported. If the survey period is not 5, then Separation Date must be all zeros.

District Number	Social Security Number	Survey Period Code	Fiscal Year	School Number, Primary/ Home	Florida Educators Certificate Number	Separation Date
* 03	123456780	2	****	0291	0000445566	1219****

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the record to show all zeros in the Separation Date field. if, however, the Survey Period Code was reported incorrectly and should be 5, correct the Survey Period Code leaving the Separation Date code as it is. Resubmit the record for processing.

# 21. If Survey Period Code is <u>not</u> 5, Separation Reason code must be Z. -record rejected-

#### **EXAMPLE**

The record listed below would be rejected because the Separation Reason is not valid for the Survey Period reported. If the survey period is not 5, then Separation Reason must be Z.

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must either change the Separation Reason code to Z or change the Survey Period Code to 5 and resubmit the record for processing.

## **DISTRICT RESPONSIBILITY**

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Duty Days to be the standard number of working days for a regular full-time employee and resubmit the record for processing.

39. Employment Length may be zero for temporary employees, student employees, and substitute teachers (Job Code, Primary equal to 51080, 52080, 53080, 54080, or 55080), but must be greater than zero for all other employees. -record rejected-

## **EXAMPLE**

The first three records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The fourth record listed below would be rejected because Employment Length is zero for a regular full-time employee.

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Employment Length to be the standard number of months for a regular full-time employee and resubmit the record for processing.

41. Salary Schedule Pay Lane code must be 1-8 for instructional employees (Pay Class equals I), and zero for all other employee classes. -record rejected-

#### **EXAMPLE**

The three records listed below would not be loaded to the data base. The first and second records would be rejected because the Salary Schedule Pay Lane is "0" for an instructional employee. The third record would be rejected because the Salary Schedule Pay Lane is "1" for a noninstructional employee.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the relationship between the Salary Schedule Pay Lane and Pay Class and resubmit the records for processing.

42. Salary Schedule Step must be 00-97 for instructional employees not paid on a flat rate (Salary Schedule Pay Lane code equals 1-7), 98 for flat rate employees (Salary Schedule Pay Lane code equals 8), and 99 for employees not paid on the regular instructional personnel salary schedule (Salary Schedule Pay Lane code equals 0). -record rejected-

#### **EXAMPLE**

The three records list below would not be loaded to the data base. The first record would be rejected because a Salary Schedule Step of 99 is not valid for an employee paid on a flat rate schedule. The second record would be rejected because a Salary Schedule Step of 99 is not valid for an employee who is not paid on a flat rate schedule. The third record would be rejected because a Salary Schedule Step of 07 is not valid for an employee not paid on the regular instructional personnel salary schedule.

43. Each Staff Payroll record must be unique based on District Number; Social Security Number; Survey Period Code; Fiscal Year; Job Code, Primary and Employee Type code. -first record accepted, all others rejected-

# **EXAMPLE**

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record below would be rejected because the key items (District Number; Social Security Number; Survey Period Code; Fiscal Year; Job Code, Primary and Employee Type code) duplicate the key items in the first record.

#### DISTRICT RESPONSIBILITY

If, in fact, the last record should not have been submitted, the district would not have to take any action. The record was rejected. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted with a Transaction Code of "C" rather than "A."

# **EXAMPLE**

The Staff Payroll record listed below would not pass this edit because the Job Code, Primary is the same as the Job Code, Additional on the Staff Additional Job Assignment record.

## DISTRICT RESPONSIBILITY

The district must verify that the Staff Payroll record is valid and correct the Job Code, Additional on the Staff Additional Job Assignment record so that it is not identical to the Job Code, Primary.

## STAFF PAYROLL INFORMATION - STATE VALIDATION RULES

52. If Job Code FTE equals zero on all Payroll records for an employee, then there must not be an Additional Job Assignment record for that employee. -state validation 3-

# **EXAMPLE**

The Staff Additional Job Assignment record listed below would not pass this edit because it has a reported Job Code FTE of "050" with a Staff Payroll record reporting a Job Code FTE of "000" for the same employee.

## DISTRICT RESPONSIBILITY

The district must determine whether the Staff Additional Job Assignment record is valid and correct the Job Code, FTE on the appropriate record or change the Job Code, Primary and Job Code, Additional to accurately reflect the jobs the employee holds.

## STAFF PAYROLL INFORMATION - EXCEPTION REPORTS

60. If Survey Period is 2 and the employee's Job Code places the employee on lines 8-43, inclusive, of the Public Schools Staff Survey - EEO-5, excluding substitute teachers (Job Code, Primary code equal to 51080, 52080, 53080, 54080, or 55080), then the Payroll record should have a matching Experience format based on District Number, Social Security Number, Survey Period Code, and Fiscal Year. -exception report-

#### **EXAMPLE**

The first record below would pass the edit because the employee has a matching Staff Experience record. The second record below would cause a message to be generated because this employee, who has a Job Code, Primary placing the employee on the Public Schools Staff Survey EEO-5 line 24, does not have a matching Staff Experience record (based on District Number, Social Security Number, Survey Period Code and Fiscal Year).

#### DISTRICT RESPONSIBILITY

The district should verify the Job Code, Primary and correct it if in error or submit a matching Staff Experience record.

## STAFF PAYROLL INFORMATION - EXCEPTION REPORTS

61. If Pay Type is S; and Employment Status Code is A; and Pay Class is I; and Employee Type is RF or TF; and Salary Schedule Pay Lane is greater than zero; and Salary Schedule Step is 00-98; then Pay Frequency must be greater than or equal to 1000 and less than or equal to 5200 and Pay Rate must be greater than or equal to 00068500 and less than or equal to 00625000. -exception report-

## **EXAMPLE**

The first and second records listed below would cause a message to be generated because the Pay Rate is not in the acceptable range. The third record would cause a message to be generated because it is not in the acceptable Pay Frequency range.

* S	Α	I	RF	6	05	0010	00150000

## DISTRICT RESPONSIBILITY

The district should verify the Pay Frequency and/or Pay Rate and if in error correct the records.

1. District Number must be numeric in the range 01-70 or 72-76 and must be correct for the district submitting the data. -record rejected-

### **EXAMPLE**

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03 03	123456789 123456782
* 00	123456781

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number and resubmit the record for processing.

2. Social Security Number (SSN) must be numeric and greater than zero, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-

## **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

# DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-

### **EXAMPLE**

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period either on the JCL or the records being submitted and resubmit the records for processing.

4. Fiscal Year must be correct for the submission specified by the district. -record rejected-

#### **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

5. School Number, Primary/Home must exist on the Master School Identification File as a valid school in the district of submission. -record rejected-

#### **EXAMPLE**

School Number, Primary/Home 0661 is submitted for District Number 01. Since this School Number, Primary/Home is not found on the Master School Identification File for district 01, the record would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the School Number, Primary/Home and resubmit the record for processing.

6. Job Code, Additional must equal one of the codes on the Job Code Assignments table as listed in Appendix E of the <u>DOE Information Data Base Requirements: Volume II--Automated Staff Information System</u> manual. -record rejected-

#### **EXAMPLE**

The two records below would be rejected because the Job Code, Additional codes reported are not on the Job Code Assignment table.

District	Social Security	Survey Period	Fiscal	Job Code,
Number	Number	Code	Year	Additional
* 03	123456789	2	****	00000
* 03	123456780	2	***	51000

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

# DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct Job Code, Additional by reporting a valid number from the Job Code Assignments table and resubmit the records for processing.

# 7. Job Code FTE must be numeric and less than or equal to 100. -record rejected-

## **EXAMPLE**

The two records below would be rejected due to incorrect Job Code FTE. In the first record, the Job Code FTE is not numeric. In the second record, the Job Code FTE is not less than 100.

D:	Social	Survey	<b>-</b>	Job	Job
District	Security	Period	Fiscal	Code,	Code

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Job Code FTE and resubmit the records for processing.

8. Each of the three Job Code Fund Source codes must be one of the following: B, C, E, O, G, R, S or zero. -record rejected-

#### **EXAMPLE**

The two records below would be rejected due to incorrect Job Code Fund Source codes. In the first record, the code "Z" is not a valid code. In the second record, only the first of the three Job Code Fund Source codes is supplied and the last two are left blank.

	Social	Survey		Job
District	Security	Period	Fiscal	Code
Number	Number	Code	Year	Fund Source
* 03	123456789	2	****	Z050CO500000
* 03	123456780	2	****	G100

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the "Z" in the first record to be a valid code. In the second record, place zeros in the second and third Job Code Fund Source code positions if they are not needed to indicate additional Job Code Fund Source codes. Resubmit both records for processing.

9. Each of the three Job Code Fund Source percentages must be numeric and greater than or equal to zero. -record rejected-

#### **EXAMPLE**

The two records below would be rejected due to incorrect Job Code Fund Source percentages. In the first record, "Z's" rather than zeros are placed in the percentage positions. In the second record, only the first Job Code Fund Source percentage is included and the last two are left blank.

	Social	Survey		Job
District	Security	Period	Fiscal	Code
Number	Number	Code	Year	Fund Source
* 03	123456789	2	****	BZZZC0500000
* 03	123456780	2	****	G100

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

# DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must, correct the Job Code Fund Source percentages by supplying the numeric percentage rather than "Z's" in the first record, and by reporting all three Job Code Fund Source percentages (using zeros if appropriate) in the second record. Resubmit the records for processing.

10. The Transaction Code must be A, C, or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

## **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Transaction Code and resubmit the record for processing.

# 30. At least one of the three Job Code Fund Source codes must be nonzero. -record rejected-

# **EXAMPLE**

The second record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The first record below would be rejected because each of the three Job Code Fund Source codes is zero.

	Social	Survey		Job	Job	
District	Security	Period	Fiscal	Code,	Code	Job Code
Number	Number	Code	Year	Additional	FTE	Fund Source
* 03	123456789	2	****	53007	050	00000000000
03	123456780	2	****	51004	025	G10000000000

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the record so that a valid nonzero Job Code Fund Source code is reported in at least one of the three Job Code Fund Source code positions. Resubmit the record for processing.

31. Any one Job Code Fund Source code can appear only once on a Staff Additional Job Assignment record. For purposes of this edit, zero (used where there are fewer than three fund sources) is NOT treated as a Job Code Fund Source code. -record rejected-

## **EXAMPLE**

The second record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The first record below would be rejected because the Job Code Fund Source "G" appears twice.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Job Code, Additional	Job Code FTE	Job Code Fund Source
* 03	123456789	2	****	53007	050	G050G0500000
03	123456780	2		51004	025	G100000000000

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

# DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must change the "G" Job Code Fund Source to another valid Job Code Fund Source or combine the percentages attributed to that Job Code Fund Source into the first four positions so that the Job Code Fund Source is not repeated within that record. Resubmit the record for processing.

# 32. The three Job Code Fund Source percentages on a Staff Additional Job Assignment record must add up to 100 percent. -record rejected-

### **EXAMPLE**

The second record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The first record below would be rejected because the Job Code Fund Source percentages add up to 90 rather than to 100 percent.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Job Code, Additional	Job Code FTE	Job Code Fund Source
* 03	123456789	2	****	51073	050	G050B0400000
03	123456780	2	****	51004	025	G10000000000

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

# DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Job Code Fund Source percentages so that they add up to 100 percent for that record and resubmit the record for processing.

33. Each Staff Additional Job Assignment record must be unique based on District Number, Social Security Number, Survey Period Code, Fiscal Year, and Job Code, Additional. -first record accepted, all other duplicate records rejected-

# **EXAMPLE**

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected because the key items (District Number; Social Security Number; Survey Period Code; Fiscal Year; and Job Code, Additional) duplicate the key items in the first record.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Job Code, Additional
03	123456789	2	****	51080
03	123456780	2	****	51004
* 03	123456789	2	****	51080

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## DISTRICT RESPONSIBILITY

If, in fact, the last record above should not have been submitted, the district would not have to take any action. The record was rejected. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted with a Transaction Code of C rather than A.

34. Job Code FTE may be equal to or greater than zero for temporary part-time employees, student employees and substitute teachers (Job Code, Additional codes equal to 51080, 52080, 53080, 54080, or 55080), but must be greater than zero for all other employees. -record rejected-

## **EXAMPLE**

The first three records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The fourth record below would be rejected because the Job Code FTE has zero FTE for a regular full-time employee.

However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Job Code FTE to be greater than zero for the regular full-time employee who is not a substitute teacher. Resubmit the record for processing.

#### STAFF SALARY SUPPLEMENTS - REJECT RULES

1. District Number must be numeric in the range 01-70 or 72-76 and must be correct for the district submitting the data. -record rejected-

### **EXAMPLE**

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

2. Social Security Number (SSN) must be numeric and greater than zero, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-

#### **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

#### STAFF SALARY SUPPLEMENTS - REJECT RULES

3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-

### **EXAMPLE**

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code either on the JCL or the records being submitted and resubmit the records for processing.

4. Fiscal Year must be correct for the submission specified by the district. -record rejected-

## **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

# **DISTRICT RESPONSIBILITY**

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

# 5. Salary Supplement Type code must be A - C, E - K, or N - W. -record rejected-

#### **EXAMPLE**

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Salary Supplement Type code is not an acceptable code.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Salary Supplement Type	Salary Supplement Value

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Salary Supplement Type and resubmit the record for processing.

# 6. Salary Supplement Value must be numeric. -record rejected-

# **EXAMPLE**

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Salary Supplement Value is not numeric.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Salary Supplement Type	Salary Supplement Value

* 03	123456780	2	****	В	Z000000

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Salary Supplement Value to be greater than zero and resubmit the record for processing.

7. The Transaction Code must be A, C, or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

### **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Transaction Code and resubmit the record for processing.

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The last record below would be rejected because the key items (District Number, Social Security Number, Survey Period Code, Fiscal Year, and Salary Supplement Type code) duplicate the key items in the first record

District Number	Social Security Number	Survey Period Code	Fiscal Year	Salary Supplement Type

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

# DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted with a Transaction Code of C rather than A.

# **DISTRICT RESPONSIBILITY**

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Inservice Education, Primary Purpose and resubmit the records for processing.

# **INSERVICE EDUCATION - STATE VALIDATION RULES**

30. Each Inservice Education record must have a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code and Fiscal Year. -state validation 3-

# **EXAMPLE**

The Inservice Education record listed below would not pass this edit because there is no matching Staff Demographic Information record based on the key items of District Number, Social Security Number, Survey Period Code and Fiscal Year.

Staff Demographic Information records

District Number	Social Security Number	Survey Period Code	Fiscal Year

### Inservice Education record

* 03	123456790	5	***	5008021

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

The district must verify that the Staff Inservice Education record is valid, then submit a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code and Fiscal Year.

1. District Number must be numeric in the range 01-70 or 72-76 and must be correct for the district submitting the data. -record rejected-

### **EXAMPLE**

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number and resubmit the record for processing.

2. Social Security Number (SSN) must be numeric and greater than zero, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-

## **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-

### **EXAMPLE**

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code on the records coming in or in the JCL and resubmit the records for processing.

# **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

# 5. Experience Type code must be A, C, D, F, M, N, P, or S. -record rejected-

# **EXAMPLE**

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record below would be rejected because of an incorrect code for Experience Type.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Experience Type code to be a valid code and resubmit the record for processing.

6. Experience Length must be numeric and be greater than or equal to zero and less than or equal to 75. -record rejected-

#### **EXAMPLE**

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record below would be rejected because the Experience Length code was left blank. The third record would be rejected because Experience Length is not within the acceptable range.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Experience Type	Experience Length

### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Experience Length and resubmit the records for processing.

7. The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

### **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Transaction Code and resubmit the record for processing.

8. Each Staff Experience record must be unique based on District Number, Social Security Number, Survey Period Code, Fiscal Year, and Experience Type code. -first record accepted, all other duplicate records rejected-

# **EXAMPLE**

The first and second record listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The last record would be rejected because the key items (District Number, Social Security Number, Survey Period Code, Fiscal Year, and Experience Type code) duplicate the key items in the first record.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted with a Transaction Code of "C" rather than "A."

However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Job Code Fund Source so that is has a valid nonzero code in at least one of the three Job Code Fund Source positions and resubmit the record for processing.

11. Any one Job Code Fund Source code can appear only once on a Staff Fiscal Year Salaries record. For purposes of this edit, zero (used where there are fewer than three fund sources) is NOT treated as a Job Code Fund Source code. -record rejected-

## **EXAMPLE**

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record would be rejected because the Job Code Fund Source of "G" appears twice.

#### **EXAMPLE**

In the two examples below, 49 zeroes are implied following the listed data in Salary Supplement Type/Value. <sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Salary Supplement Value and resubmit the record for processing.

15. The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

#### **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code will be rejected.

17. If Salary Supplement Type equals zero, then Salary Supplement Value should equal zero, and if Salary Supplement Type is not zero, Salary Supplement Value should be greater than zero. -record rejected-

## **EXAMPLE**

In the two examples below, 49 zeroes are implied following the listed data in Salary Supplement Type/Value. The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Salary Supplement Value is not greater than zero.

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Fiscal Year Salary is equal to zero and there is no Salary Supplement Value greater than zero.

District	Social Security	Survey Period	Fiscal	Fiscal Year	Salary Supplement
Number	Number	Code	Year	Salary	Type/Value
03	123456789	5	***	002700000	00000000

52. Each Fiscal Year Salaries record must have a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code, and Fiscal Year. -state validation 3-

## **EXAMPLE**

The Staff Fiscal Year Salaries record listed below would not pass this edit because there is no matching Staff Demographic Information record based on the key items of District Number, Social Security Number, Survey Period Code, and Fiscal Year.

Staff Demographic Information records

	Social	Survey	
District	Security	Period	Fiscal
Number	Number	Code	Year
03	123456789	5	****
03	123456780	5	****

Staff Fiscal Year Salaries record

District Number	Social Security Number	Survey Period Code	Fiscal Year	Salary Supplement Type/Value
* 03	123456781	5	***	B00012500

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

## **DISTRICT RESPONSIBILITY**

The district must verify that the Staff Fiscal Year Salaries record is valid, then submit a Staff Demographic Information record based on District Number, Social Security Number, Survey Code, and Fiscal Year.

1. District Number must be numeric in the range 01-70 or 72-76 and must be correct for the district submitting the data. -record rejected-

#### **EXAMPLE**

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

## **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero, and left-justified. Resubmit the records for processing.

3. Survey Period Code must be 5 and must be correct for the submission specified by the district. -record rejected-

#### **EXAMPLE**

The Survey Period Code specified in the transmission JCL is identified as Survey Period Code "5" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code on the records being submitted and resubmit the records for processing.

#### **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

5. School Number, Primary/Home must exist on the Master School Identification File as a valid school in the district of submission. -record rejected-

District Number	Social Security Number	Survey Period Code	Fiscal Year	Selected Benefits, Type
03	123456789	5	****	В
03	123456781	5	****	F

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Selected Benefits, Value and resubmit the records for processing.

9. The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

## **EXAMPLE**

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." 03	123456789	5	****	52001
03	123456780	5	****	61234

11. For each Selected Benefits, Type code that is not Z, the Selected Benefits, Value must be greater than zero. -record rejected-
