Annualized earnings in this graph are an estimation based on full-time employment during the 4th quarter of 2013. Full-time employment is determined when an individual's 4th quarter wages are equal to at least the hourly minimum wage of $7.79, working 40 hours per week for 13 weeks x 4 quarters or $16,203 annually.

The High Skill/High Wage threshold uses the same calculation but with an hourly minimum wage of $20.48 or $42,598 annually.
