## MEMORANDUM

**TO:** District Career and Technical Education Directors

**FROM:** Loretta Costin 

**SUBJECT:** 2010-11 Career and Professional Academy Enrollment Reports

---

The Division of Career and Adult Education staff are reviewing enrollment data reported in Survey 3 (Federal/State Indicator Status format) for career and professional academies registered for 2010-11.

Starting with the 2008-09 reporting year, districts must report students enrolled in registered career and professional academies in Surveys 2, 3, and 5 on the Federal State Indicator Status format. The data element for reporting students in registered academies is the "Career and Professional Academy Identifier." See the following link for data element definition:

[http://www.fldoe.org/eias/dataweb/database\\_1011/st20\\_25.pdf](http://www.fldoe.org/eias/dataweb/database_1011/st20_25.pdf). Please review the database and technical documents on the Department's Website for details on this reporting. All information on MIS reporting formats and data elements may be accessed at the following Website:

<http://www.fldoe.org/eias/dataweb/default.asp>.

Attached are two summary reports which show the enrollment data reported for all registered career and professional academies, as well as a technical assistance paper:

Attachment 1 – 2010-11 Registered Career and Professional Academies with enrollment reported (May 2011)

Attachment 2 – 2010-11 Registered Career and Professional Academies without any student enrollment (May 2011)

Attachment 3 – Florida Career and Professional Education Act Technical Assistance Paper (updated March 2010)

District Career and Technical Education Directors  
May 11, 2011  
Page Two

This information has been compiled by matching records for all registered career and professional academies with a summary report produced by the Department's K-12 MIS reporting staff (as of May 6, 2011). Of the 1,298 registered career and professional academies, 185 did not have any student enrollment reported in survey 3. For our own information purposes, we have included information about academies that were registered during the enrollment period, but not implemented for various reasons. This is based on self-reported information collected from districts and not part of the MIS data collection.

All registered academies should have reported student enrollment. It is important that the enrollment information be reported as accurately as possible to reflect the current fiscal year and to anticipate enrollment for future academic years. The Department may be asked to supply 2010-11 information to executive and legislative staff and members.

Please take a moment to look through the two reports. If there is an error or incomplete information about the number of students enrolled in each academy, please consult with your MIS department to verify accuracy of the data reported and to submit additional record or data corrections for Survey 3. All final updates or amendments for Survey 3 must be transmitted by July 31, 2011.

If you have any questions, please contact your district MIS department. For questions regarding the two enrollment reports, please contact Tara McLarnon by e-mail at [tara.mclarnon@fldoe.org](mailto:tara.mclarnon@fldoe.org) or by phone at 850-245-9005.

Thank you.
