**SUBJECT:** Cybersecurity Forum Opportunity

---

Colleagues,

The Florida College System has a unique opportunity at the [AIF Cybersecurity Forum](#) to connect Florida's employers with the credentialing needed for their industry Cybersecurity Maturity Model Certification (CMMC) standards. Please join Florida College System Chancellor Kathy Hebda and me for a virtual meeting to discuss an opportunity to connect your CMMC training with industry leaders interested in meeting the mandatory cyber security requirements.

The Florida College System is exploring sponsoring a virtual booth at the Forum next month to highlight all Florida's institutions. The discussion is scheduled for this Friday, August 28, at 9:30 a.m. to learn more about how you and your college can be involved.

Please register for the webinar at
