About Evaluation

For the purpose of increasing student learning growth by improving the quality of instructional, administrative, and supervisory services in the public schools of the state, the district school superintendent shall establish procedures for evaluating the performance of duties and responsibilities of all instructional, administrative, and supervisory personnel employed by the school district. Florida Statutes Section 1012.34 (1) (a).

What does this mean?

To accomplish the purpose defined in law, a district evaluation system for school administrator's must:

- 1. Be focused on school leadership actions that impact student learning, and;
- 2. Support professional learning on performance of duties and responsibilities that matter most for student learning, faculty and leadership development.

The evaluation system adopted by the district is:

- ✓ Based on contemporary research that reveals educational leadership behaviors that, when done
 correctly and in appropriate circumstances, have a positive impact on student learning and
 faculty development.
- ✓ Fully aligned with the Florida Principal Leadership Standards a State Board of Education rule that sets expectations for principal performance (SBE Rule 6A-5.080).

<u>A New Approach to Evaluation:</u> This evaluation system is designed to support three processes:

- Self-reflection by the leader on current proficiencies and growth needs (What am I good at? What can I do better?)
- **Feedback** from the evaluator and others on what needs improvement.
- An annual summative evaluation that assigns one of the four performance levels required by law (i.e., Highly Effective, Effective, Needs Improvement, or Unsatisfactory.

What is Evaluated?

Evaluation of school leaders is based on observation and evidence about certain leadership behaviors AND the impact of a leader's behavior on others.

The portion of evaluation that involves "impact on others" comes in two components:

- 1. Student Growth Measures: At least 50% of a school leader's annual evaluation is based on the performance of students in the school on specific state or district assessments (e.g. FCAT, EOC exams).
- 2. The Leadership Practice: This component contributes the remaining percentage of the school leader's evaluation. Leadership Practice combines results of the Florida School Leader Assessment (FSLA) and an additional Metric Deliberate Practice. The FSLA contribution to evaluation is based on observation of the leader's actions and the leader's impact on the actions and behaviors of others

The processes and forms described in the following pages are focused on the Leadership Practice component of evaluation.

Training and Reflection

The content of the district evaluation system informs those evaluated and those doing evaluations of the issues to address and the processes to use.

- Those being evaluated use these documents to guide self-reflection on practices that improve your work.
- Evaluators provide both recurring feedback to guide growth in proficiency in district priorities and provide summative performance ratings.
- Those who are both evaluated by this system and evaluate other with it will do both.

Things to know:

- 1. The Research Framework(s) on which the evaluation system is based. Each research framework is associated with particular approaches to instruction or leadership. The research aligned with the district framework(s) is a useful source of deeper understanding of how to implement strategies correctly and in appropriate circumstances. Evaluators can provide better feedback to sub-ordinates when they understand the research framework
- 2. Inter-rater reliability: Evaluators in the district should be able to provide sub-ordinates similar feedback and rating so that there is consistent use of the evaluation system across the district. This is promoted by training on the following:
 - a. The "look fors" what knowledge, skills, and impacts are identified as system priorities by inclusion of indicators in the evaluation system.
 - b. The Rubrics how to distinguish proficient levels.
 - c. Rater reliability checks. Processes for verifying raters meet district expectations in using the rubrics.
- 3. Specific, Actionable, and Timely Feedback Processes: What evaluators observe does not promote improvement unless it is conveyed to employees as specific, actionable and timely manner. Training on how to do so is essential.
- 4. Conferences protocols and use of forms: Know what is required regarding meetings, conference procedures, use of forms, and records.
- 5. Processes and procedures for implementing the evaluation system
 - a. Evidence gathering: What sources are to be used?
 - b. Timeframes, record keeping
 - c. Scoring rules
- 6. Student Growth Measures: What are the districts requirements regarding use of student growth measures in the district's evaluation system?

- 7. Sources of information about the evaluation system: Where can evaluators and employees access manuals, forms, documents etc. regarding the evaluation process.
- 8. Additional metrics: Training on any additional metrics use to supplement the practice portion of evaluation.

Framework: Leadership Evaluation

<u>A Multi-Dimensional Framework</u>: This evaluation system is based on contemporary research and meta-analyses by Dr. Douglas Reeves, Dr. John Hattie, Dr. Vivian Robinson, Dr. Robert Marzano and other research findings that identify school leadership strategies or behaviors that, done correctly and in appropriate circumstances, have a positive probability of improving student learning and faculty proficiency on instructional strategies that positively impact student learning.

Domain 4 - Professional and Ethical Behaviors

() Highly Effective () Effective () Needs Improvement () Unsatisfactory
Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on an indicator, assign a proficiency level by checking one of the four proficiency levels. If not being rated at this time, leave blank.

Proficiency Area 10 - Professional and Ethical Behaviors: Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in education and as a community leader by staying informed on current research in education and demonstrating their understanding of the research, engage in professional development opportunities that improve personal professional practice and align with the needs of the school system, and generate a professional development focus in their school that is clearly linked to the system-wide strategic objectives.

| | () Highly Effective | () Effective | () Needs Improvement | () Unsatisfactory |
|--|----------------------|--------------|----------------------|--------------------|
| Indicator 10.1 – Resiliency | () Highly Effective | () Effective | () Needs Improvement | () Unsatisfactory |
| Indicator 10.2 - Professional Learning | () Highly Effective | () Effective | () Needs Improvement | () Unsatisfactory |
| Indicator 10.3 - Commitment | () Highly Effective | () Effective | () Needs Improvement | () Unsatisfactory |
| Indicator 10.4 – Professional Conduct | () Highly Effective | () Effective | () Needs Improvement | () Unsatisfactory |

Additional Metric: Deliberate Practice Guidelines

Deliberate Practice: The leaders work on specific improvements in mastery of educational leadership is a separate metric and is combined with the FSLA Domain Scores to determine a summative leadership score.

Deliberate Practice (DP) Proficiency Area(s) and Target(s) for School Leader Growth

<u>Deliberate Practice Priorities</u>: The leader and the evaluator identify 1 to 4 specific and measurable priority learning goals related to teaching, learning, or school leadership practices that impact student learning growth. One or two targets are recommended.

- The target of a deliberate practice process describe an intended result and will include "scales" or progress points that guide the leader toward highly effective levels of personal mastery;
- The leader takes actions to make discernible progress on those priority goals; monitors progress toward them, uses the monitoring data to make adjustments to practice, and provides measurable evidence of growth in personal mastery of the targeted priorities.
- The evaluator monitors progress and provides feedback.
- <u>The targets are "thin slices" of specific gains sought</u> not broad overviews or long term goals taking years to accomplish.
- Deliberate practices ratings are based on comparison of proficiency at a "start point" and proficiency at a designated "evaluation point". The start point data can be based on a preceding year FSLA evaluation data on a specific indicator or proficiency area, or determined by school leader and evaluator either at the end of the preceding work year or at the start of the new work year in which the DP targets will be used for evaluation.

Relationship to other measures of professional learning: Whereas FSLA indicator 4.5 addresses the leader's involvement with professional learning focused on faculty needs and indicator 10.2 addresses the leader's pursuant of learning aligned with a range of school needs, the Deliberate Practice targets are more specific and deeper learning related to teaching, learning, or school leadership practices that impact student learning. The DP learning processes establish career-long patterns of continuous improvement and lead to high quality instructional leadership.

Selecting Growth Targets:

Growth target 1: An issue that addresses a school improvement need related to student learning and either selected by the district or approved by leader's supervisor. The focus should be on complex issues that take some time to master such as providing observation and feedback of high-effect size instructional practices.

Growth target 2: An issue related to a knowledge base or skill set relevant to instructional leadership selected by leader). Growth target 3-4: Optional: additional issues as appropriate.

• The addition of more targets should involve estimates of the time needed to accomplish targets 1 and 2. Where targets 1 and 2 are projected for mastery in less than half of a school year, identify additional target(s).

The description of a target should be modeled along the lines of learning goals.

- A concise description (rubric) of what the leader will know or be able to do
- Of sufficient substance to take at least 6 weeks to accomplish
- Includes scales or progressive levels of progress that mark progress toward mastery of the goal.

Rating Scheme

- Unsatisfactory = no significant effort to work on the targets
- Needs Improvement = evidence some of the progress points were accomplished but not all of the targets
- Effective = target accomplished
- Highly effective = exceeded the targets and able to share what was learned with others

Sample:

Target: Leader will be able to provide feedback to classroom teachers on the effectiveness of learning goals with scales in focusing student engagement on mastery of state standards.

Scales:

Level 3: Leader develops and implements a process for monitoring the alignment of classroom assessments to track trends in student success on learning goals.

Level 2: Leader develops and implements a process for routinely visits classes and engaging students in discussion on what they are learning and compares student perceptions with teacher's learning goals.

Level 1: Leader can locate standards in the state course description for each course taught at the school and completes the on-line module on Learning Goals (both at www.floridastandards.org) and engages teachers in discussion on how they align instruction and learning goals with course standards.

Deliberate Practice Growth Target

FSLA Proficiency Areas with Indicators

Florida School Leader Assessment

A Multidimensional Leadership Assessment 4 Domains - 10 Proficiency Areas - 45 Indicators

A <u>summative performance level</u> is based 50% on Student Growth Measures (SGM) that conform to the requirements of s. 1012.34, F.S., and 50% on a Leadership Practice Score. In the Florida State Model, the Leadership Practice Score is obtained from two metrics:

- Florida School Leader Assessment (FSLA)
- Deliberate Practice Score

The school leader's FSLA Score is combined with a Deliberate Practice Score to generate a Leadership Practice Score. The tables below list the school leader performance proficiencies addressed in the four domains of the FSLA and the Deliberate Practice Metric.

Domain 1: The focus is on leadership practices that impact prioritization and results for student achievement on priority learning goals - knowing what's important, understanding what's needed, and taking actions that get results.

Domain 1: Student Achievement 2 Proficiency Areas – 8 Indicators This domain contributes 20% of the FSLA Score

Proficiency Area 1 - Student Learning Results: Effective school leaders achieve results on the school's student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

Indicator 1.1 – <u>Academic Standards</u>: The leader demonstrates understanding of student requirements and academic standards (Common Core and NGSSS).

Indicator 1.2 – <u>Performance Data</u>: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

 $Indicator \ 1.3 - \underline{Planning \ and \ Goal \ Setting} : The \ leader \ demonstrates \ planning \ and \ goal \ setting \ to \ improve \ student \ achievement.$

Indicator 1.4 - <u>Student Achievement Results</u>: The leader demonstrates evidence of student improvement through student achievement results.

Proficiency Area 2 - Student Learning as a Priority: Effective school leaders demonstrate that student learning is their top priority through effective leadership actions that build and support a learning organization focused on student success.

Indicator 2.1 - <u>Learning Organization</u>: The leader enables faculty and staff to work as a system focused on student learning, and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Indicator 2.2 - School Climate: The leader maintains a school climate that supports student engagement in learning.

Indicator 2.3 - High Expectations: The leader generates high expectations for learning growth by all students.

Indicator 2.4 - <u>Student Performance Focus</u>: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Domain 2: The focus is on instructional leadership – what the leader does and enables others to do that supports teaching and learning.

Domain 2: Instructional Leadership 3 Proficiency Areas – 17 Indicators This domain contributes 40% of the FSLA Score

 $Proficiency\ Area\ 3-Instructional\ Plan\ Implementation:\ Effective\ school\ leaders\ work\ collaboratively\ to\ develop\ and\ implement\ an\ instructional\ framework\ that\ aligns\ curriculum\ with\ state\ standards,$

effective instructional practices, student learning needs, and assessments.

Indicator 3.1 – <u>FEAPs</u>: The leader aligns the school's instructional programs and practices with the Florida Educator Accomplished Practices (FEAPs) (Rule 6A-5.065, F.A.C.), and models use of Florida's common language of instruction to

guide faculty and staff's implementation of the foundational principles and practices.

Indicator 3.2 - <u>Standards-based Instruction</u>: The leader delivers an instructional program that implements the state's adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Indicator 3.3 - <u>Learning Goals Alignments</u>: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state's adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubrics to guide tracking progress toward student mastery.

Indicator 3.4 - <u>Curriculum Alignments</u>: The leader implements systemic processes to insure alignment of curriculum resources with state standards for the courses taught.

Indicator 3.5 - Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Indicator 3.6 - <u>Faculty Effectiveness</u>: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district's instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Proficiency Area 4 - Faculty Development: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and secure and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Indicator 4.1 - <u>Recruitment and Retention</u>: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Indicator 4.2 - <u>Feedback Practices</u>: The leader monitors, evaluates proficiency, and secures and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals, and the cause and effect relationships between professional practice and student achievement on those goals.

 $Indicator\ 4.3-\underline{High\ Effect\ Size\ Strategies}: Instructional\ personnel\ receive\ recurring\ feedback\ on\ their\ proficiency\ on\ high\ effect\ size\ instructional\ strategies.$

Indicator 4.4 -<u>Instructional Initiatives</u>: District-supported state initiatives focused on student growth are supported by the leader with specific and observable actions, including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives.

Indicator 4.5 - <u>Facilitating and Leading Professional Learning</u>: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Indicator 4.6 - <u>Faculty Development Alignments</u>: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan; identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement); aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals; and using instructional technology as a learning tool for students and faculty.

Indicator 4.7 - <u>Actual Improvement</u>: The leader improves the percentage of effective and highly effective teachers on the faculty.

Proficiency Area 5 - Learning Environment: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.

Indicator 5.1 – <u>Student-Centered</u>: The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning, and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Indicator 5.2 – <u>Success-Oriented</u>: The leader initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.

Indicator 5.3 - <u>Diversity</u>: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.

Indicator 5.4 - Achievement Gaps: The leader engages faculty in recognizing and understanding cultural and

developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.

Domain 3: The focus is on school operations and leadership practices that integrate operations into an effective system of education.

Domain 3 - Operational Leadership 4 Proficiency Areas - 16 Indicators This domain contributes 20% of the FSLA Score

Proficiency Area 6 - Decision-Making: Effective school leaders employ and monitor a decision-making process that is based on vision, mission, and improvement priorities using facts and data; manage the decision-making process, but not all decisions, using the process to empower others and distribute leadership when appropriate; establish personal deadlines for themselves and the entire organization; and use a transparent process for making decisions and articulating who makes which decisions.

Indicator 6.1- <u>Prioritization Practices</u>: The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Indicator $6.2 - \frac{Problem-Solving}{Problem-Solving}$. The leader uses critical thinking and problem-solving techniques to define problems and identify solutions.

Indicator 6.3 - Quality Control: The leader maintains recurring processes for evaluating decisions for effectiveness, equity, intended and actual outcome(s); implements follow-up actions revealed as appropriate by feedback and monitoring; and revises decisions or implements actions as needed.

Indicator 6.4 - <u>Distributive Leadership</u>: The leader empowers others and distributes leadership when appropriate. Indicator 6.5 - <u>Technology Integration</u>: The leader employs effective technology integration to enhance decision making

and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Proficiency Area 7 - Leadership Development: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Indicator 7.1 - <u>Leadership Team</u>: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Indicator 7.2 – <u>Delegation:</u> The leader establishes delegated areas of responsibility for subordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure.

Indicator 7.3 - Succession Planning: The leader plans for and implements succession management in key positions.

Indicator 7.4 - Relationships: The leader develops sustainable and supportive relationships between school leaders, parents, community, higher education, and business leaders.

Proficiency Area 8 - School Management: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Indicator 8.1 - Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Indicator 8.2 - <u>Strategic Instructional Resourcing</u>: The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

Indicator 8.3 – <u>Collegial Learning Resources</u>: The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.

Proficiency Area 9 - Communication: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community; managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; recognizing individuals for good work; and maintaining high visibility at school and in the

community.

Indicator 9.1 - <u>Constructive Conversations</u>: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

Indicator 9.2 - <u>Clear Goals and Expectations</u>: The leader communicates goals and expectations clearly and concisely using Florida's common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receive timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

Indicator 9.3 - Accessibility: The leader maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

Indicator 9.4 - Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Domain 4: The focus is on the leader's professional conduct and leadership practices that represent quality leadership.

Domain 4 - Professional and Ethical Behaviors 1 Proficiency Area - 4 Indicators This domain contributes 20% of the FSLA Score

Proficiency Area 10 - Professional and Ethical Behaviors: Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in education and as a community leader by staying informed on current research in education and demonstrating their understanding of the research, engage in professional development opportunities that improve personal professional practice and align with the needs of the school system, and generate a professional development focus in their school that is clearly linked to the system-wide strategic objectives.

Indicator 10.1 – <u>Resiliency</u>: The leader demonstrates resiliency in pursuit of student learning and faculty development by staying focused on the school vision and reacting constructively to adversity and barriers to success, acknowledging and learning from errors, constructively managing disagreement and dissent with leadership, and bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and productive attitudes in the face of adversity.

Indicator 10.2 - <u>Professional Learning</u>: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Indicator 10.3 – <u>Commitment</u>: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well being of the school, families, and local community.

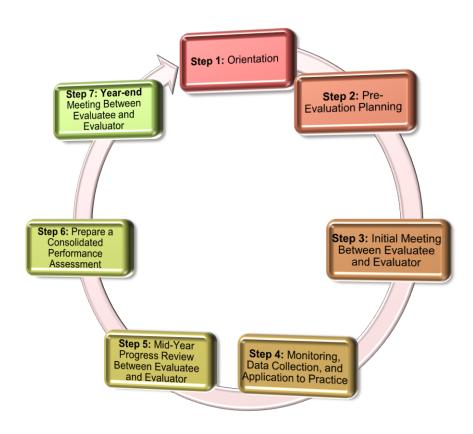

Indicator 10.4 - <u>Professional Conduct</u>: The leader adheres to the Code of Ethics of the Education Profession in Florida (Rule 6B-1.001, F.A.C.) and to the Principles of Professional Conduct for the Education Profession (Rule 6B-1.006, F.A.C.).

FSLA Process

The Florida School Leader Assessment

Districts implement the Florida School Leader Assessment (FSLA) processes listed below to provide:

- ➤ **Guides to self-reflection** on what's important to success as a school leader
- ➤ **Criteria for making judgments** about proficiency that are consistent among raters
- > Specific and actionable feedback from colleagues and supervisors focused on improving proficiency
- > **Summative evaluations** of proficiency and determination of performance levels

The seven steps of the FSLA are described below:

Step 1: Orientation: The orientation step can occur at the start of a new work year, at the start of a new school year, or at the start of assignment (or new assignment) as a principal. The depth and detail of orientation may vary based on prior training and whether changes in evaluation model have occurred, but an annual orientation or re-fresher orientation should occur. The orientation step should include:

- District provided orientation and training on the Florida Principal Leadership Standards (FPLS), Student Success Act, applicable State Board of Education rules, Race To The Top (RTTT) requirements, and district specific expectations that are subject to the evaluation system.
- All leaders and evaluators should have access to the content and processes that are subject to the evaluation system. All leaders and evaluators should have access to the same information and expectations. This may be provided by the leader's review of district evaluation documents, online modules, mentor sessions, or face-to-face training where awareness of district processes and expectations are identified.
- At the orientation step, each school leader is expected to engage in personal reflection on the connection between his/her practice and the FPLS and the indicators in the district evaluation system. This is a "what do I know and what do I need to know" self-check aligned with the FPLS and the district evaluation system indicators.

Step 2: Pre-evaluation Planning: After orientation processes, the leader and evaluator prepare for a formal conference to address evaluation processes and expectations. Two things occur:

- Leader's self-assessment from the orientation step moves to more specific identification of improvement priorities. These may be student achievement priorities or leadership practice priorities. The leader gathers any data or evidence that supports an issue as an improvement priority. This may include School Improvement Plan (SIP), student achievement data, prior faculty evaluations, and evidence of systemic processes that need work.
- The evaluator articulates a perspective on strengths and growth needs for the leader and for student achievement issues at the school.

Step 3: Initial Meeting between evaluatee and evaluator: A meeting on "expectations" held between leader and supervisor to address the following:

- Evaluation processes are reviewed and questions answered.
- Perceptions (of both) from Pre-evaluation Planning are shared.
- Domain, Proficiency Areas, Indicators from evaluation system that will be focus issues are identified and discussed.
- Student growth measures that are of concern are discussed.
- Relationship of evaluation indicators to the SIP and district-supported initiatives are discussed.
- Such a meeting is typically face-to-face but may also be via tele-conference or phone. (Meeting issues can be clarified via texts and emails as appropriate.)
- Proposed targets for <u>Deliberate Practice</u> (additional metric) are discussed and determined, or a timeframe for selection of Deliberate Practice targets are set. While

a separate meeting or exchange of information may be implemented to complete the Deliberate Practice targets, they should be discussed at the Step 3 Conference given their importance to the leader's growth and the summative evaluation.

Step 4: Monitoring, Data Collection, and Application to Practice: Evidence is gathered that provides insights on the leader's proficiency on the issues in the evaluation system by those with input into the leader's evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator accumulates data and evidence on leader's actions or impact of leader's actions during the routine conduct of work. Such data and evidence may come from site visits, be provided by the leader, from formal or informal observations, or from evidence, artifacts or input provided by others. The accumulated information is analyzed in the context of the evaluation system indicators.
- As evidence and observations are obtained that generate <u>specific and actionable</u> <u>feedback</u>, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.
- These monitoring actions occur before and continue after the mid-year Progress Check (step 5).

Step 5: Mid-year Progress Review between evaluatee and evaluator: At a mid-year point, a progress review is conducted.

- Actions and impacts of actions taken on priorities identified in Step 3 Initial Meeting are reviewed.
- Any indicators which the evaluator has identified for a specific status update are reviewed. (The leader is given notice of these indicators prior to the Progress Check, as the feedback expected is more specific than that for the general indicator overview.)
- The leader is prepared to provide a general overview of actions/processes that apply to all of the domains and proficiency areas and may include any of the indicators in the district system. Any indicator that the evaluator or the leader wishes to address should be included.
- Strengths and progress are recognized.
- Priority growth needs are reviewed.
- Where there is no evidence related to an indicator and no interim judgment of proficiency can be provided, a plan of action must be made:
 - o If the evaluator decides that the absence of evidence indicates unsatisfactory proficiency because actions or impacts of action should be evident if leader was proficient, the leader is provided notice that the indicator(s) will be addressed in a follow-up meeting.
 - The absence of evidence is explained by lack of opportunity for the evaluator to note anything relevant, and leader is asked to provide follow-up data on the indicator prior to the year-end conference.

- The lack of evidence on one indicator is balanced by substantial evidence on other indicators in the same proficiency area. No follow-up is required until evidence supporting a Needs Improvement (NI) or Unsatisfactory (U) rating emerges.
- Any actions or inactions which might result in an unsatisfactory rating on a domain or proficiency area if not improved are communicated.
- Any indicators for which there is insufficient evidence to rate proficiency at this stage, but which will be a priority for feedback in remainder of the year, are noted.
- FSLA Feedback and Protocol Form (or district equivalent) is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Notes or memorandums may be attached to the forms as appropriate to reflect what is communicated in the Progress Check.

Step 6: Prepare a consolidated performance assessment: The summative evaluation form is prepared by the evaluator and a performance rating assigned.

- Consider including relevant and appropriate evidence by any party entitled to provide input into the leader's evaluation.
- Review evidence on leader's proficiency on indicators.
- Use accumulated evidence and rating on indicators to rate each proficiency area.
- Consolidate the ratings on proficiency areas into domain ratings.
- Consolidate Domain ratings, using FSLA weights, to calculate a FSLA score.

Step 7: Year-end Meeting between evaluatee and evaluator: The year-end meeting addresses the FSLA score, the Deliberate Practice Score and Student Growth Measures.

- The FSLA score is explained.
- The leader's growth on the Deliberate Practice targets is reviewed and a Deliberate Practice Score assigned.
- The FSLA Score and Deliberate Practice Score are combined (as per weighting formula) to generate a Leadership Practice Score.
- If the Student Growth Measurement (SGM) score is known, inform the leader how the Leadership Practice Score and SGM Score combine to a summative performance level of Highly Effective, Effective, Needs Improvement, or Unsatisfactory.
- If SGM score is not known, inform leader of possible performance levels based on known Leadership Practice Score and various SGM outcomes.
- If recognitions or employment consequences are possible based on performance level, inform leader of district process moving forward.
- Review priority growth issues that should be considered at next year's step 2 and step 3 processes.

Scoring Guide for State Model Metrics

Directions for use of this Guide

MAKING NO CHANGES!

This guide may be used "as is" if using the state model FSLA and Deliberate Practice metric.

ALL DISTRICTS WILL NEED TO ADD DISTRICT DECISIONS ON CUT SCORES FOR SCHOOL LEADERS IN SECTION FOUR OF THE SCORING GUIDE

MAKING CHANGES IN SCORING, FSLA OR DELIBERATE PRACTICE?

- Districts may modify the scoring process described in this guide or use a district developed scoring process (which will be described and included in documentation submitted with Review and Approval Checklist)
- 2. If any aspects of the FSLA or Deliberate Practice metrics are modified by the district, the district should review scoring processes to determine if any of the scoring processes need adjustment based on district changes to the metrics. Submit a scoring process that works with your modified metrics.
- 3. If a district employs a phase-in option on the FSLA and/or Deliberate Practice metric, the district will need to amend the scoring process to reflect the phase-in decisions.

Scoring Guide for State Model Metrics

An evaluation system that is aligned with the purpose of Section 1012.34, F.S. and applicable State Board rules (e.g., 6A-5.065, 6A-5.080) has two functions:

- Providing quality feedback during a work year that focuses improvement effort on essential proficiencies.
- Generating an annual summative performance level based on the proficiency exhibited during the work year.

For Florida School Leaders being evaluated using the FSLA, the Florida state model for principal evaluation, the summative annual performance level is based on two factors:

- <u>Student Growth Measures Score (SGM)</u>: The performance of students under the leader's supervision represents 50% of the annual performance level. The specific growth measures used and "cut points" applied must conform to Florida Statutes and State Board rules.
- <u>Leadership Practice Score</u>: An assessment of the leader's proficiency on the Florida Principal Leadership Standards (FPLS). This is based on two metrics:
 - The Florida School Leader Assessment (FSLA): A system for feedback and growth based on the leader's work and impact of that work on others. The FSLA contributes 80% of the Leadership Practice Score.
 - Deliberate Practice (DP): Deep learning and growth on a few very specific aspects of educational leadership. The DP Score contributes 20% of the Leadership Practice Score.

Summary of Scoring Processes

| Ju | minary or scoring riocesses | |
|----|--|---|
| 1. | Score Indicators | Based on rubrics in the "long forms" |
| 2. | Score Proficiency Areas | Based on tables in this guide |
| 3. | Score Domains | Based on tables in this guide |
| 4. | Score FSLA | Based on formula in this guide |
| 5. | Score Deliberate Practice Metric | Based on directions in this guide |
| 6. | Calculate Leadership Practice Score | Combine FSLA and Deliberate Practice Scores |
| | | Based on formula in this guide |
| 7. | Calculate Student Growth Measure Score | Use district cut points for SGM |
| 8. | Assign Proficiency Level rating label | Combine Leadership and SGM scores |

What this FSLA Scoring Guide Covers:

Section One: How to "score" the FSLA

Section Two: How to "score" Deliberate Practice

Section Three: Leadership Practice Score

Section Four: Annual Performance Rating

Section One: How to Score the FSLA

<u>District Options</u>: The scoring process for the FSLA is one of a number of alternative scoring methods. Districts using the FSLA may use this scoring process <u>or</u> design a district system for scoring the FSLA. Use of the FSLA and use of the FSLA Scoring system are separate decisions. If using the FSLA scoring process, reference this scoring guide in element II-D in the "Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems" when submitting for review and approval. If your scoring model is adapted or is a district-developed scoring process, include your document(s) that describe your scoring process when you submit for review.

About the FSLA Scoring Process

The state scoring model has these features:

- The performance labels used in Section 1012.34, F.S. for summative performance levels are also used in the FSLA to summarize feedback on domains, proficiency areas, and indicators:
 - Highly Effective (HE)
 - o Effective (E)
 - Needs Improvement (NI)
 - Unsatisfactory (U)
- Direct Weighting: The FSLA score is based on ratings for each of four domains, but the system specifically gives added weight to Domain 2: Instructional Leadership: The weights are:
 - o Domain 1: Student Achievement: 20%
 - o Domain 2: Instructional Leadership: 40%
 - o Domain 3: Organizational Leadership: 20%
 - Domain 4: Professional and Ethical Behavior: 20%
- Embedded Weighting: The use of Domain scores to generate an FSLA score results in embedded weighting as the Domains have different numbers of indicators. For example: Domain 1 has eight indicators, Domain 3 has 16 indicators and Domain 4 has four indicators, but each Domain contributes 20% to the FLSA score. The result of this is:
 - Domain 2 indicators have the most impact on the FSLA results due to direct weighing. There are 17 indicators, but the Domain is weighted at 40%, thus magnifying the impact of that domain on the final rating.
 - Domain 4 has the next highest level of impact due to embedded weighting. There are only four indicators in this Domain, but the Domain contributes 20% of the FSLA score
 - O Domain 1 has more impact than Domain 3 since Domain 1 has eight indicators and Domain 3 has 16 indicators, but each Domain contributes 20% of the FSLA score.
- Proficiency on Indicators leads to an FSLA Score.
 - Ratings on indicators (using rubrics in the FSLA) are combined to generate a rating (HE, E, NI, or U) on each Proficiency Area.
 - o Ratings on Proficiency Areas are combined (using the tables in this scoring guide) to generate a Domain Rating.
 - Ratings on Domains are combined (using tables in this scoring guide) to generate a FLSA Score.

How to determine an FSLA Score.

Generating a score for the FSLA has four steps:

Step One: Rate each Indicator.

Start with judgments on the indicators. Indicators in each Proficiency Area are rated as HE, E, NI, or U based on accumulated evidence.

- ➤ The FSLA supports this indicator proficiency rating process with <u>rubrics</u> for distinguishing between the levels (HE, E, NI, or U) that are specific to the indicator.
- ➤ To guide the rating decision, <u>illustrative examples</u> of leadership actions and illustrative examples of impacts of leadership actions are provided.
- ➤ The rubrics for indicators and the illustrative examples are found in the "long forms" the Data Collection and Feedback Protocols" posted on www.floridaschoolleaders.org (in the Learning Library, Resources Menu: Evaluation Resources School Leaders).
- Ratings can be recorded on the long form or the short form (all FSLA forms and supporting resources are found on www.floridaschoolleaders.org).

Rating Labels: What do they mean?

The principal should complete a self-assessment by scoring each of the indicators. The evaluator also will score each of the indicators. In an end-of the year conference, their respective ratings are shared and discussed. The evaluator then determines a final rating for each indicator and, using the procedures in this scoring guide, calculates an FSLA score.

Indicator ratings:

When assigning ratings to indicators in the FSLA, the evaluator should begin by reviewing the indicator rubrics. These are "word-picture" descriptions of leadership behaviors in each of the four levels of leadership behavior—"Highly Effective", "Effective", "Needs Improvement", and "Unsatisfactory." The evaluator finds the level that best describes performance related to the indicator.

The rating rubrics provide criteria that distinguish among the proficiency levels on the indicator. The illustrative examples of Leadership Evidence and Impact Evidence for each indicator provide direction on the range of evidence to consider. The rating for each indicator is the lowest rating for which the "word-picture" descriptors are appropriate and representative descriptions of what was observed about the leader's performance.

The ratings on the indicators aggregate to a rating on the Proficiency Areas based on tables in this guide. The ratings on the Proficiency Areas within a Domain aggregate to a domain rating, using tables and formulas in this scoring guide.

The FSLA rubrics are designed to give principals a formative as well as a summative assessment of where they stand in all leadership performance areas and detailed guidance on how to improve. While they are not checklists for school visits by the principal's supervisor, they do reflect the key behaviors about which supervisors and principals should be conversing frequently throughout the year. Moreover, these behavioral leadership descriptions will form the basis for principal and supervisor coaching and mentoring sessions.

Distinguishing between proficiency ratings:

The "Effective" level describes leadership performance that has local impact (i.e., within the school) and meets organizational needs. It is adequate, necessary, and clearly makes a significant contribution to the school. The majority of the leadership workforce will be in the effective area once they have a clear understanding of what the FPLS require and have made the adjustments and growth necessary to upgrade performance. The previous rating system of "satisfactory" and "unsatisfactory" does not provide any guidance as to where those who repeat past performance levels will fall in the shift to research and standards-based assessments. Both school leaders and evaluators should reflect on performance based on the new FPLS and the rubrics of the FSLA.

The "Highly Effective" level is reserved for truly outstanding leadership as described by very demanding criteria. Performance at this level is dramatically superior to "Effective" in its impact on students, staff members, parents, and the school district. Highly effective leadership results from recurring engagement with "deliberate practice." In brief, the "Highly Effective" leader helps every other element within the organization become as good as they are. In normal distributions, some leaders will be rated highly effective on some indicators, but very few leaders will be rated highly effective as a summative performance level.

The "Needs Improvement" level describes principals who understand what is required for success, are willing to work toward that goal, and, with coaching and support, can become proficient. Needs improvement rating will occur where expectations have been raised and standards made more focused and specific. Professional behavior and focused professional learning will guide school leaders toward increasingly effective performance.

Performance at the "Unsatisfactory" level describe leaders who do not understand what is required for proficiency or who have demonstrated through their actions and/or inactions that they choose not to become proficient on the strategies, knowledge bases, and skills sets needed for student learning to improve and faculties to develop.

Step Two: Rate each Proficiency Area.

Ratings on the indicators in a Proficiency Area are combined to assign a proficiency level (HE, E, NI, or U) to a Proficiency Area: The distribution of indicator ratings within a Proficiency Area result in a Proficiency Area Rating. Since the number of indicators in a Proficiency Area varies, the following formulas are applied to assign Proficiency Area ratings. For each Proficiency Area, use the appropriate table.

Table 1

| For Proficiency Areas 1,2,5,7,9 and 10 with four Indicators , each Proficiency Area is rated: | | | |
|--|--|--|--|
| Highly Effective (HE) if: three or more indicators are HE and none are less than E. | | | |
| Examples: HE+HE+HE=HE HE+HE+E=HE | | | |
| Effective (E) if: at least three are E or higher and no more than one are NI. None are U. | | | |
| Examples: E+E+E+HE=E E+E+E+NI=E E+E+E+E=E | | | |
| Needs Improvement (NI) if: Criteria for E not met and no more than one is U. | | | |
| Examples: E+E+NI+NI=NI HE+HE+NI+NI =NI HE+E+U+NI=NI | | | |
| Unsatisfactory (U) if: two or more are U. | | | |
| Examples: HE+U+U+HE=U E+NI+U+U=U E+E+U+U=U | | | |

For the Proficiency Areas with fewer or more than four indicators, use the appropriate table below:

Table 2

| For proficien | ncy Area 3 with six Indic | <mark>ators</mark> , each Proficienc | y Area is rated: | |
|---|----------------------------------|--------------------------------------|-----------------------|------------------|
| Highly Effec | ctive (HE) if: four or mo | ore indicators are HI | E and none are less | than E. |
| Examples: | HE+HE+HE+HE+HE=H | IE HE+HI | E+HE+HE+E+E=HE | |
| Effective (E) | if: at least four are E or h | igher and no more tha | an two are NI. None a | re U. |
| Examples: | HE+HE+E+E+E=E | E+E+E+E+NI+NI=E | | |
| Needs Impr | ovement (NI) if: Criter | ia for E not met and | no more than two a | re U. |
| Examples: | HE+HE+NI+NI+NI+NI=NI | NI+NI+NI+NI+U+U=NI | E+E+E+NI+NI+NI=NI | HE+HE+E+E+E+U=NI |
| Unsatisfactory (U) if: two or more are U. | | | | |
| Examples: | HE+HE+HE+HE+U+U=U | NI+NI+NI+NI+U+U=U | | <u> </u> |

Table 3

| For Proficiency A | rea 4 with seven Indicators , each Proficiency Area is rated: | |
|---|--|--|
| Highly Effective | (HE) if: five or more indicators are HE and none are less than E. | |
| Examples: HE | E+HE+HE+HE+E+E=HE | |
| Effective (E) if: at | least five are E or higher and no more than two are NI. None are U. | |
| Examples: HE | E+HE+E+E+HNI+NI=E E+E+E+E+NI+NI=E | |
| Needs Improver | ment (NI) if: Criteria for E not met and no more than two are U. | |
| Examples: E+ | ·E+E+E+NI+NI+NI=NI HE+HE+E+E+E+U+U=NI HE+HE+HE+HE+HE+HE+U=NI | |
| Unsatisfactory (U) if: two or more are U. | | |
| Examples: HF | E+HE+HE+HE+HE+U+U=U NI+NI+NI+NI+U+U=U | |

Table 4

| For Proficience | cy Area 6 with five Indicators , each Proficiency Area is rated: | |
|-----------------|---|--|
| Highly Effect | tive (HE) if: four or more indicators are HE and none are less than E. | |
| Examples: | HE+HE+HE+HE+HE=HE HE+HE+HE+E=HE | |
| | f: at least four are E or higher and no more than one are NI. None are U. | |
| Examples: | E+E+E+E+E=E HE+HE+E+E=E HE+E+E+E+NI=E E+E+E+E+NI=E | |
| Needs Impro | ovement (NI) if: Criteria for E not met and no more than one is U. | |
| Examples: | HE+HE+NI+NI+NI=NI E+E+NI+NI+U=NI NI+NI+NI+U=NI | |
| Unsatisfacto | ry (U) if: two or more are U. | |
| Examples: | HE+HE+HE+U+U=U NI+NI+NI+U+U=U | |

Table 5

| For Proficiency Area 8 with three Indicators , each Proficiency Area is rated: | | |
|---|--|--|
| Highly Effective (HE) if: two or more indicators are HE and none are less than E. | | |
| Examples: HE+HE+HE=HE HE+HE+E=HE | | |
| Effective (E) if: two or more are E or higher and no more than one is NI. None are U. | | |
| Examples: E+E+E=E E+E+HE=E E+HE+NI=E HE+HE+NI=E | | |
| Needs Improvement (NI) if: Criteria for E not met and no more than one is U. | | |
| Examples: NI+NI+NI=NI NI+NI+U=NI HE+E+U=NI HE+NI+NI=NI | | |
| Unsatisfactory (U) if: two or more are U. | | |
| Examples: HE+U+U=U NI+U+U=U | | |

When you have a rating (HE, E, NI, or U) for each Proficiency Area in a Domain, you then generate a Domain rating.

Step Three: Rate Each Domain.

Domains are rated as HE, E, NI, or U based on the distribution of ratings on Proficiency Areas within the Domain. The tables below provide rating criteria for each FSLA Domain.

Table 6

| Domain Rating | Domain I: Student Achievement (Two Proficiency Areas) |
|-----------------------|--|
| Highly Effective if: | Both Proficiency Areas rated HE |
| Effective if: | One Proficiency Area rated HE and one Effective, or |
| | Both rated Effective |
| Needs Improvement if: | One Proficiency Area rated HE or E and one rated NI or U |
| | Both Proficiency Areas rated NI |
| Unsatisfactory if: | One Proficiency Area rated NI and the other is rated U |
| | Both are rated U |

Table 7

| Domain Rating | Domain 2: Instructional Leadership (Three Proficiency Areas) | | |
|-----------------------|---|--|--|
| Highly Effective if: | All three Proficiency Areas are HE | | |
| | Two Proficiency Areas rated HE and one E | | |
| Effective if: | Two Proficiency Area rated E and one Effective or NI | | |
| | All three Proficiency Areas rated E | | |
| Needs Improvement if: | Any two Proficiency Areas rated NI | | |
| | One Proficiency Area rated NI, one Proficiency Area rated U and | | |
| | one Proficiency Area rated E or HE | | |
| Unsatisfactory if: | Two or more Proficiency Areas rated U | | |

Table 8

| Domain Rating | Domain 3: Organizational Leadership (Four Proficiency Areas) | | |
|-----------------------|---|--|--|
| Highly Effective if: | All four Proficiency Areas are HE | | |
| | Three Proficiency Areas rated HE and one E | | |
| Effective if: | Two Proficiency Areas rated E and two rated HE | | |
| | All four Proficiency Areas rated E | | |
| | Three Proficiency Areas rated E and one rated either NI or HE | | |
| Needs Improvement if: | Two Proficiency Areas rated E and two rated NI | | |
| | Any three Proficiency Areas rated NI | | |
| | One Proficiency Area rated NI, one Proficiency Area rated U and | | |
| | two Proficiency Area rated E or HE | | |
| Unsatisfactory if: | Two or more Proficiency Areas rated U | | |

Table 9

| Domain Rating | Domain 4: Professional Behaviors (One Proficiency Area) |
|-----------------------|---|
| Highly Effective if: | If Proficiency Area 10 rated HE |
| Effective if: | If Proficiency Area 10 rated E |
| Needs Improvement if: | If Proficiency Area 10 rated NI |
| Unsatisfactory if: | If Proficiency Area 10 rated U |

When you have determined Domain ratings, you then combine those ratings to generate an FSLA score.

Step 4: Calculate the FSLA Score.

- In Step One, proficiency ratings for indicators were made based on an assessment of available evidence and the rating rubrics.
- In Step Two, the apportionment of Indicators ratings, using the tables provided, generated a rating for each Proficiency Area within a Domain.
- In Step Three, Domain ratings were generated. All of these steps were based on evidence on the indicators and scoring tables.

<u>At the FSLA scoring stage the model shifts to a weighted point system</u>. Points are assigned to Domain ratings, direct weights are employed, and scores are converted to a numerical scale. The following point model is used:

Table 10

| DOMAIN RATING | POINTS ASSIGNED |
|--------------------------------------|-----------------|
| A Domain rating of Highly Effective | 3 points |
| A Domain rating of Effective | 2 points |
| A Domain rating of Needs Improvement | 1 point |
| A Domain rating of Unsatisfactory | 0 points |

The Domain points are multiplied by the Domain's direct weight: The rating is entered in column 2 ("Rating"), the points in column 3 ("Points"), and a weighted score calculated in column 5.

Table 11

| Domain | Rating | Points | Weight | Domain Weighted Score |
|---|--------|--------|--------|--------------------------|
| Domain I: Student Achievement | | | .20 | |
| Domain 2: Instructional Leadership | | | .40 | |
| Domain 3: Organizational Leadership | | | .20 | |
| Domain 4: Professional and Ethical Behavior | | | .20 | |

Example

Table 12

| Domain | Rating | Points | Weight | Domain Weighed Score |
|---|--------|--------|--------|-------------------------|
| Domain I: Student Achievement | HE | 3 | .20 | .6 |
| Domain 2:Instructional Leadership | Е | 2 | .40 | .8 |
| Domain 3:Organizational Leadership | HE | 3 | .20 | .6 |
| Domain 4: Professional & Ethical Behavior | NI | 1 | .20 | .2 |

After a Domain Weighted Score is calculated, the scores are converted to a 100 point scale. This process results in a FSLA Score range of 0 to 300 Points.

This table illustrates the conversion of a Domain Weighted value to a 100 point scale.

Example

Table 13

| Domain | Rating | Points | Weight | Weighed value | Convert to 100 point scale | Domain Score |
|--|--------|--------|--------|---------------|----------------------------|-----------------|
| Domain I Student Achievement | НЕ | 3 | .20 | .6 | x 100 | 60 |
| Domain 2 Instructional Leadership | Е | 2 | .40 | .8 | x 100 | 80 |
| Domain 3 Organizational Leadership | HE | 3 | .20 | .6 | x 100 | 60 |
| Domain 4 Professional and Ethical Behavior | NI | 1 | 20 | .2 | x 100 | 20 |
| FSLA Score | | | | | | 220 |

The Domain scores are added up and an FSLA score determined. The FSLA Score is converted to an FSLA rating of HE, E, NI, or U based on this scale:

Table 14

| FSLA SCORE | FSLA Proficiency Rating |
|------------|-------------------------|
| 240 to 300 | Highly Effective |
| 151 to 239 | Effective |
| 75 to 150 | Needs Improvement |
| 0 to 74 | Unsatisfactory |

The FSLA score is combined with a Deliberate Practice Score to generate a Leadership Practice Score. Section Three provides scoring processes for Deliberate Practice. The FSLA score will be 80% of the Leadership Score.

The Deliberate Practice Score will be 20% of the Leadership Practice.

(Note: If there is no Deliberate Practice or other additional metric at this time, then the FSLA score is the Leadership Practice Score.)

Section Two: How to Score Deliberate Practice

NOTE: This section applies IF the district is using the state model deliberate practice metric. If deliberate practice is not in use at this time, skip to Section Three.

Deliberate Practice Score

- The DP score is 20% of the Leadership Practice Score.
- The DP metric will have 1 to 4 specific growth targets.
- Each target will have progress points (much like a learning goal for students).
- The targets will have equal weight and the leader's growth on each will be assessed as HE, E, NI, or U.

Table 15

| Scoring a DP Growth | Rating Rubrics | |
|---------------------|--|--|
| Target | | |
| Highly Effective | Target met, all progress points achieved, and verifiable | |
| | improvement in leaders performance | |
| Effective | Target met, progress points achievesimpact not yet evident | |
| Needs Improvement | Target not met, but some progress points met | |
| Unsatisfactory | Target not met, nothing beyond 1 progress point | |

A DP Score has an upper limit of 300 points. Each target is assigned an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

Table 16

| Number of growth targets | Maximum points per target | Maximum Point Range |
|--------------------------|---------------------------|---------------------|
| One Target | 300 | 300 |
| Two Targets | 150 (300/2) | 300 (150 x 2) |
| Three Targets | 100 (300/3) | 300 (100 x 3) |
| Four Targets | 75 (300/4) | 300 (75 x 4) |

Target values based on Rating (HE, E, NI, or U) and Number of Targets.

This chart shows the points earned by a growth target based on a rating Level (HE, E, NI, or U) **and** the total number of targets in the DP plan.

Table 17

| Rating | Point values | If 1 target | If 2 targets | If 3 targets | If 4 targets |
|--------|------------------------|-------------|--------------|--------------|--------------|
| HE | max points | 300 | 150 | 100 | 75 |
| Е | .80 of max | 240 | 120 | 80 | 60 |
| NI | .5 of max | 150 | 75 | 50 | 37.5 |
| U | .25 if some progress | 75 | 37.5 | 25 | 18.75 |
| U | .0 if 1 progress stage | 0 | 0 | 0 | 0 |

A DP score is based on ratings of the targets and the points earned for each rating.

Examples

If Three Growth Targets:

Table 18

| DP Target | Rating | Points (based on table 17 – column 5) * |
|------------------------------|--------|--|
| DP TARGET 1 | HE | 100 |
| DP TARGET 2 | Е | 80 |
| DP TARGET 3 | NI | 50 |
| DP Score (target score added | | 230 |
| together) | | |

* Points available vary based on total number of growth targets. Use Table 17 to select point values.

Deliberate Practice rating

Table 19

| DP Score Range | DP Rating |
|----------------|-------------------|
| 241 to 300 | Highly Effective |
| 151 to 240 | Effective |
| 75 to 150 | Needs Improvement |
| 0 to 74 | Unsatisfactory |

<u>Summary</u>

80% of the Leadership Practice Score is based on the Florida School Leader Assessment Proficiency Score.

20% of the Leadership Practice Score is based on the Deliberate Practice Growth Score.

Section Three How to Calculate a Leadership Practice Score

| A. | FLSA | SCORI | Ε: |
|----|------|-------|----|
| | | | |

B. Deliberate Practice Score:

C. Add scores from calculations A and B above to obtain Leadership Practice Score

Example:

FLSA score of 220 x. 80 = 176DP score of 230 x .20 = 46 Leadership Practice Score is 222.

| Leadership Score Range | Leadership Practice Rating |
|------------------------|----------------------------|
| 240 to 300 | Highly Effective |
| 151 to 239 | Effective |
| 75 to 150 | Needs Improvement |
| 0 to 74 | Unsatisfactory |

Section Four How to Calculate an Annual Performance Level

1: Enter Cut scores for Student Growth Measures using a 300 point scale:

Above XXX = Highly effective

XXX to XXX = Effective

XXX to XXX = Needs Improvement

Below XXX = Unsatisfactory

Step 2: Enter Leadership Practice Score: _____

Step 3: Add SGM score and Leadership Practice Score

Example: SGM score of 212 + Leadership Practice score of 222 = 432 performance score

Performance score of 432 = rating of effective

| Performance Score ranges | Performance Level Rating |
|--------------------------|--------------------------|
| 480 to 600 | Highly Effective |
| 301 to 479 | Effective |
| 150 to 300 | Needs Improvement |
| 0 to 149 | Unsatisfactory |

Step 4: Enter rating on Evaluation form

Florida School Leader Assessment Data Collection and Feedback Protocol Forms for Domains 1, 2, 3 and 4

These forms provide guidance to school leaders and evaluators on what is expected regarding each indicator.

The forms provide:

- The text of all Proficiency Areas and FSLA indicators
- Rubrics to distinguish among proficiency levels
 - o A generic rubric that applies to each indicator and
 - An indicator specific rubric that applies to the individual indicator
- Narratives to assist in understanding the focus and priorities embedded in the FSLA
- Illustrative examples of Leadership Actions and Impacts on Others of Leadership Action that assist in understanding how the issue(s) in an indicator are observed "on the job".
- · Reflection questions to guide personal growth

Domain 1 - Student Achievement

Narrative: Student achievement results in the student growth measures (SGM) segment of evaluation represent student results on specific statewide or district assessments or end-of-course exams. The leadership practice segment of the evaluation, through the proficiency areas and indicators in this domain, focuses on <u>leadership behaviors</u> that influence the desired student results.

Proficiency Area 1. <u>Student Learning Results</u>: Effective school leaders achieve results on the school's student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

Narrative: This proficiency area focuses on the leader's knowledge and actions regarding academic standards, use of performance data, planning and goal setting related to targeted student results, and capacities to understand what results are being obtained. This proficiency area is aligned with Florida Principal Leadership Standard #1.

Indicator 1.1 - Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core Standards and Next Generation Sunshine State Standards).

Narrative: Standards-based instruction is an essential element in the state's plan of action for preparing Florida's students for success in a 21st century global economy. This indicator is focused on the leader's understanding of what students are to know and be able to do. School leaders need to know the academic standards teachers are to teach and students are to master. Note: Every credit course has specific academic standards assigned to it. Common Core Standards and Next Generation Sunshine State Standards (NGSSS) assigned to each course are found at www.floridastandards.org.

Rating Rubric

| Rating Rubric | | | |
|--|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Every faculty meeting and staff development forum is focused on student achievement on the Common Core Standards and NGSSS, including periodic reviews of student work. The leader can articulate which Common Core Standards are designated for implementation in multiple courses. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The link between standards and student performance is in evidence from the alignment in lesson plans of learning goals, activities and assignments to course standards. The leader is able to recognize whether or not learning goals and student activities are related to standards in the course descriptions. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Common Core Standards and NGSSS are accessible to faculty and students. Required training on standards-based instruction has been conducted, but the link between standards and student performance is not readily evident to many faculty or students. Assignments and activities in most, but not all courses relate to the standards in the course descriptions. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Classroom learning goals and curriculum are not monitored for alignment to standards or are considered a matter of individual discretion regardless of course description requirements. The leader is hesitant to intrude or is indifferent to decisions in the classroom that are at variance from the requirements of academic standards in the course descriptions. Training for the faculty on standards-based instruction does not occur and the leader does not demonstrate knowledge of how to access standards. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: School leader extracts data on standards associated with courses in the master schedule from the course descriptions and monitor for actual implementation. | | Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following: Lesson plans identify connections of activities to standards. Teacher leaders' meeting records verify recurring review of progress on state standards. | |

- Lesson plans are monitored for alignment with correct standards.
- Agendas, memoranda, etc. reflect leader's communications to faculty on the role of state standards in curriculum, lesson planning, and tracking student progress.
- Common Core Standards shared by multiple courses are identified and teachers with shared Common Core Standards are organized by the leader into collegial teams to coordinate instruction on those shared standards.
- Students can articulate what they are expected to learn in a course and their perceptions align with standards in the course description.
- Teachers routinely access course descriptions to maintain alignment of instruction with standards.
- Other impact evidence of proficiency on this indicator.

| instruction on those shared sta | ındards. | | |

Reflection Questions for Indicator 1.1

| Highly Effective: | Effective: | Needs Improvement: | Unsatisfactory: |
|--|---|--|--|
| Do you routinely share examples of specific leadership, teaching, and curriculum strategies that are associated with improved student achievement on the Common Core Standards or NGSSS? | How do you support teachers' conversations about how they recognize student growth toward mastery of the standards assigned to their courses? | How do you monitor what happens in classrooms to insure that instruction and curriculum are aligned to academic standards? | Where do you find the standards that are required for the courses in your master schedule? |

Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

Narrative: This indicator addresses the leader's proficiency in use of student and adult performance data to make instructional leadership decisions. What does test data and other sources of student performance data related to targeted academic goals say about what is needed? What does data about teacher proficiency or professional learning needs indicate needs to be done? The focus is what the leader does with data about student and adult performance to make instructional decisions that impact student achievement.

Rating Rubric

| actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader can specifically document examples of decisions in teaching, assignment, curriculum, assessment, and intervention that have been made on the basis of data analysis. The leader has coached school administrators in other schools to improve their data analysis skills and to inform instructional decision making. Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader uses multiple data sources, including state, district, school, and classroom assessments, and systematically examines data at the subscale level to find strengths and challenges. The leader empowers teaching and administrative staff to determine priorities using data on student and adult performance. Data insights are regularly the subject of faculty meetings and professional development sessions. Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Data files and analyses on a wide range of student performance assessments are in routine use by the leader. Analyses of trends and patterns in student performance over time are reflected in presentations to faculty on instructional | about adult performance evaluation feedback data, essional learning needs ssments) are seldom used form instructional leadership sions. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader is unaware of or indifferent to the data about student and adult performance, or fails to use such data as a basis for making decisions. |
|---|---|---|
| seen in the leader's behaviors or actions. Analyses of trends and patterns in student performance over | | |

Reflection Questions for Indicator 1.2

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|---|---|--|
| How do you aggregate data about teacher proficiencies on instructional practices to stimulate dialogue about what changes in instruction are needed in order to improve student performance? | How do you verify that all faculty have sufficient grasp of the significance of student performance data to formulate rational improvement plans? | By what methods do you enable faculty to participate in useful discussions about the relationship between student performance data and the instructional actions under the teachers' control? | How much of the discussions with district staff about student performance data are confusing to you and how do you correct that? |

Indicator 1.3 – Planning and Goal Setting: The leader demonstrates planning and goal setting to improve student achievement.

Narrative: Knowing the standards and making use of performance data is expected to play a significant role in planning and goal setting. This indicator is focused on the leader's alignment of planning and goal setting with improvement of student achievement.

Rating Rubric

| Rating Rubric | | | |
|---|---|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader routinely shares examples of specific leadership, teaching, and curriculum strategies that are associated with improved student achievement. Other leaders credit this leader with sharing ideas, coaching, and providing technical assistance to implement successful new initiatives supported by quality planning and goal setting. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Goals and strategies reflect a clear relationship between the actions of teachers and leaders and the impact on student achievement. Results show steady improvements based on these leadership initiatives. Priorities for student growth are established, understood by staff and students, and plans to achieve those priorities are aligned with the actual actions of the staff and students. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Specific and measurable goals related to student achievement are established, but these efforts have yet to result in improved student achievement or planning for methods of monitoring improvements. Priorities for student growth are established in some areas, understood by some staff and students, and plans to achieve those priorities are aligned with the actual actions of some of the staff. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Planning for improvement in student achievement is not evident and goals are neither measurable nor specific. The leader focuses more on student characteristics as an explanation for student results than on the actions of the teachers and leaders in the system. |
| the adopted goals. Leader's presentations to fact the status of plan implementa Leader's presentations to pare student achievement. | Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|--|--|---|
| What methods of sharing | How will you monitor progress | How do you engage more faculty | How are other school leaders |
| successful planning processes with other school leaders are most likely to generate district- wide improvements? | toward the goals so that adjustments needed are evident in time to make "course corrections?" | in the planning process so that there is a uniform faculty understanding of the goals set? | implementing planning and goal setting? |

Indicator 1.4 - Student Achievement Results: The leader demonstrates evidence of student improvement through student achievement results.

Narrative: Engagement with the standards, using data, making plans and setting goals are important. This indicator shifts focus to the leader's use of evidence of actual improvement to build support for continued effort and further improvement.

Rating Rubric

| Rating Rubric | | | |
|--|---|---|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. A consistent record of improved student achievement exists on multiple indicators of student success. Student success occurs not only on the overall averages, but in each group of historically disadvantaged students. Explicit use of previous data indicates that the leader has focused on improving performance. In areas of previous success, the leader aggressively identifies new challenges, moving proficient performance to the exemplary level. Where new challenges emerge, the leader highlights the need, creates effective interventions, and reports improved results. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader reaches the required numbers, meeting performance goals for student achievement. Results on accomplished goals are used to maintain gains and stimulate future goal setting. The average of the student population improves, as does the achievement of each group of students who have previously been identified as needing improvement. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Accumulation and exhibition of student improvement results are inconsistent or untimely. Some evidence of improvement exists, but there is insufficient evidence of using such improvements to initiate changes in leadership, teaching, and curriculum that will create the improvements necessary to achieve student performance goals. The leader has taken some decisive actions to make some changes in time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement, but additional actions are needed to generate improvements for all students. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Evidence of student improvement is not routinely gathered and used to promote further growth. Indifferent to the data about learning needs, the leader blames students, families, and external characteristics for insufficient progress. The leader does not believe that student achievement can improve. The leader has not taken decisive action to change time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement. |

Reflection Questions for Indicator 1.4

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|--|
| How do you share with other school leaders how to use student improvement results to raise expectations and improve future results? | How do you engage students in sharing examples of their growth with other students? | How do you engage faculty in routinely sharing examples of student improvement? | What processes should you employ to gather data on student improvements? |

Proficiency Area 2. <u>Student Learning as a Priority</u>: Effective school leaders demonstrate that student learning is their top priority through effective leadership actions that build and support a learning organization focused on student success.

Narrative: This proficiency area is aligned with Florida Principal Leadership Standard #2. A learning organization has essential elements regarding the behavior of people in the organization. When all elements are present and interacting, productive systemic change is possible. This proficiency area is focused on the degree to which learning organization elements exist in the school and reflect the following priorities on student learning:

- Supports for personal mastery of each person's job focus on job aspects related to student learning
- Team learning among faculty is focused on student learning
- Processes for exploring and challenging mental models that hamper understanding and progress on student learning are in use
- A shared vision has student learning as a priority
- Systems thinking is employed to align various aspects of school life in ways that promote learning

Indicator 2.1 – Learning Organization: The leader enables faculty and staff to work as a system focused on student learning and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Narrative: Are the elements of a learning organization present among the adults in the school? Are the learning organization elements focused on student learning? Is the system in operation at the school engaging faculty in improving results for underachieving subgroups? This indicator addresses the systemic processes that make gap reduction possible. Is the leader proficient in building capacity for change?

Note: Indicator 5.4 from Florida Principal Leadership Standard #5 addresses actual success in reducing achievement gaps.

Rating Rubric

| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The essential elements of a learning organization (i.e. personal mastery of competencies, team learning, examination of mental models, shared vision, and systemic thinking) are focused on improving student learning results. Positive trends are evident in closing learning performance gaps among all student subgroups within the school. There is evidence that the interaction among the elements of the learning organization deepen the impact on student learning. The leader routinely shares with colleagues throughout the district the effective leadership practices learned from proficient implementation of the essential elements of a learning organization. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader's actions and supported processes enable the instructional and administrative workforce of the school to function as a learning organization with all faculty having recurring opportunities to participate in deepening personal mastery of competencies, team learning, examination of mental models, a shared vision, and systemic thinking. These fully operational capacities are focused on improving all students' learning and closing learning performance gaps among student subgroups within the school. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader's actions reflect attention to building an organization where the essential elements of a learning organization (i.e. personal mastery of competencies, team learning, examination of mental models, shared vision, and systemic thinking) are emerging, but processes that support each of the essential elements are not fully implemented, or are not yet consistently focused on student learning as the priority, or are not focused on closing learning performance gaps among student subgroups within the school. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is no or minimal evidence of proactive leadership that supports emergence of a learning organization focused on student learning as the priority function of the organization. Any works in progress on personal mastery of instructional competencies, team learning processes, examinations of mental models, a shared vision of outcomes sought, or systemic thinking about instructional practices are not aligned or are not organized in ways that impact student achievement gaps. |
|---|--|---|--|
|---|--|---|--|

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Principal's support for team learning processes focused on student learning is evident throughout the school year.
- Principal's team learning processes are focused on student learning.
- Principal's meeting agendas reflect student learning topics routinely taking precedence over other issues as reflected by place on the agenda and time committed to the issues.
- School Improvement Plan reflects a systemic analysis of the actionable causes of gaps in student performance and contains goals that support systemic improvement.
- The principal supports through personal action, professional learning by self and faculty, exploration of mental models, team learning, shared vision, and systems thinking practices focused on improving student learning.
- Dialogues with faculty and staff on professional learning goes beyond learning what is needed for meeting basic expectations and is focused on learning that enhances the collective capacity to create improved outcomes for all students.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Team learning practices are evident among the faculty and focused on performance gaps among student subgroups within the school.
- Professional learning actions by faculty address performance gaps among student subgroups within the school.
- Performance gaps among student subgroups within the school show improvement trends.
- Faculty, department, team, and cross-curricular meetings focus on student learning.
- Data Teams, Professional Learning Communities, and/or Lesson Study groups show evidence of recurring meetings and focus on student learning issues.
- Faculty and staff talk about being part of something larger than themselves, of being connected, of being generative of something truly important in students' lives.
- There is systemic evidence of celebrating student success with an emphasis on reflection on why success happened.
- Teacher or student questionnaire results address learning organization's essential elements.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

[] Highly Effective [] Effective

[] Needs Improvement

[] Unsatisfactory

Evidence Log (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

Reflection Questions for Indicator 2.1

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|---|--|
| Has your leadership resulted in people continually expanding their capacity to create the results they truly desire? Is there evidence that new and expansive patterns of thinking are nurtured? Are the people who make up your school community continually learning to see the "big picture" (i.e. the systemic connections between practices and processes)? | Where the essential elements of a learning organization are in place and interacting, how do you monitor what you are creating collectively is focused on student learning needs and making a difference for all students? | What essential elements of a learning organization have supports in place and which need development? Understanding that systemic change does not occur unless all of the essential elements of the learning organization are in operation, interacting, and focused on student learning as their priority function, what gaps do you need to fill in your supporting processes and what leadership actions will enable all faculty and staff to get involved? | What happens in schools that are effective learning organizations that does not happen in this school? How can you initiate work toward a learning organization by developing effective collaborative work systems (e.g., Data Teams, Professional Learning Communities, Lesson Studies)? |

Indicator 2.2 – School Climate: The leader maintains a school climate that supports student engagement in learning.

Narrative: "Climate" at a school is determined by how people treat one another and what is respected and what is not. School leaders who promote a school climate where learning is respected, effort is valued, improvement is recognized, and it is safe to acknowledge learning needs have provided students support for sustained engagement in learning.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader ensures that the school's identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school.

Respect for students' cultural, linguistic and family background is evident in the leader's conduct and expectations for the faculty.

The leader is proactive in guiding faculty in adapting the learning environment to accommodate the differing needs and diversity of students.

School-wide values, beliefs, and goals are supported by individual and class behaviors through a well-planned management system.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader systematically (e.g., has a plan, with goals, measurable strategies, and recurring monitoring) establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thoughts and actions of all staff and students.

Policies and the implementation of those policies result in a climate of respect for student learning needs and cultural, linguistic and family background.

Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are consistently applied throughout the school. **Needs Improvement:**

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Some practices promote respect for student learning needs and cultural, linguistic and family background, but there are discernable subgroups who do not perceive the school climate as supportive of their needs.

The school climate does not generate a level of school-wide student engagement that leads to improvement trends in all student subgroups.

The leader provides school rules and class management practices that promote student engagement and are fairly implemented across all subgroups. Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are inconsistently applied.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

Student and/or faculty apathy in regard to student achievement and the importance of learning is easily discernable across the school population and there are no or minimal leadership actions to change school climate.

Student subgroups are evident that do not perceive the school as focused on or respectful of their learning needs or cultural, linguistic and family background or there is no to minimal support for managing individual and class behaviors through a well-planned management system.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader organizes, allocates, and manages the resources of time, space, and attention so that the needs of all student subgroups are recognized and addressed.
- There are recurring examples of the leader's presentations, documents, and actions that reflect respect for students' cultural, linguistic and family background.
- The leader maintains a climate of openness and inquiry and supports student and faculty access to leadership.
- The school's vision, mission, values, beliefs, and goals reflect an expectation that student learning needs and cultural, linguistic and family backgrounds are respected and school rules consistent with those beliefs are routinely implemented.
- Professional learning is provided to sustain faculty understanding of student needs.
- Procedures are in place and monitored to ensure students have effective means to express concerns over any aspect of school climate.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Classroom rules and posted procedures stress positive expectations and not just "do nots."
- All student subgroups participate in school events and activities.
- A multi-tiered system of supports that accommodates the differing needs and diversity of students is evident across all classes.
- Students in all subgroups express a belief that the school responds to their needs and is a positive influence on their future well-being.
- Walkthroughs provide recurring trends of high student engagement in lessons.
- Student services staff/counselors' anecdotal evidence shows trends in student attitudes toward the school and engagement in learning.
- Teacher/student/parent survey or questionnaire results reflect a school climate that supports student engagement in learning.
- The availability of and student participation in academic

|--|--|---|--|
| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
| In what ways might you further extend your reach within the district to help others benefit from your knowledge and skill in establishing and maintaining a school climate that supports student engagement in learning? | What strategies have you considered that would ensure that the school's identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school? How could you share with your colleagues across the district the successes (or failures) of your efforts? | How might you structure a plan that establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thought and action of all staff and students? | What might be the importance of developing a shared vision, mission, values, beliefs, and goals to establish and maintain a school climate that supports student engagement in learning? |

Indicator 2.3 – High Expectations: The leader generates high expectations for learning growth by all students.

Narrative: The leader who expects little from students and faculty will get less than they are capable of accomplishing. "Every child can learn" takes on new meaning when supported by faculty and school leader expectations that students can and will learn a lot...not just a minimum to get by. Expecting quality is a measure of respect.

| Highly Effective: Leader's | Effective: Leader's actions or | Needs Improvement: | Unsatisfactory: Leader's |

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
| What strategies have you considered using that would increase the professional knowledge opportunities for colleagues across the school district in the area of setting high academic expectations for students? | How might you incorporate community members and other stakeholder groups into the establishment and support of high academic expectations? | What are 2-3 key strategies you have thought about using that would increase your consistency in creating and supporting high academic expectations for every student? | What might be some strategies you could use to create or support high academic expectations of students? |

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Narrative: Lots of talk about high expectations, goal setting, working hard, rigor, and getting results is important, but leaders need to know where students' actual performance levels are to be able to track real progress. Knowing annual test results is useful, but it is not enough. What does the leader do to know whether progress is being made or not and whether "mid-course" corrections are required?

| Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. |
|---|---|---|
| Each academic standard has been analyzed and translated into student-accessible language and processes for tracking student progress are in operation. Domain 2 - Instructional Leadership

Narrative: School leaders do many things. Domain 2 of the FSLA addresses a core of leader behaviors that impact the quality of essential elements for student learning growth. The skill sets and knowledge bases employed for this domain generate 40% of the FSLA Score. The success of the school leader in providing a quality instructional framework, appropriately focused faculty development, and a student oriented learning environment are essential to student achievement.

<u>Proficiency Area 3</u>. <u>Instructional Plan Implementation</u>: Effective school leaders work collaboratively to develop and implement an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs, and assessments.

Narrative: Proficiency Area 3 is focused on Florida Principal Leadership Standard #3 (FPLS). Aligning the key issues identified in the indicators into an efficient system is the leader's responsibility. This area stresses the leader's proficiency at understanding the current reality of what faculty and students know and can do regarding priority practices and goals.

Indicator 3.1 – FEAPs: The leader aligns the school's instructional programs and practices with the Florida Educator Accomplished Practices (Rule 6A-5.065, F.A.C.) and models use of the Florida common language of instruction to guide faculty and staff implementation of the foundational principles and practices.

Narrative: Indicator 3.1 is focused on the school leader's understanding of the Florida Educator Accomplished Practices (FEAPs) and ability to use Florida's common language of instruction. To be effective participants in school, district and statewide communities of practice working collegially for high quality implementation of the FEAPs, educators at the school level must be able to communicate and organize their efforts using the terms and concepts in the FEAPs and the Florida common language of instruction. This indicator is about the school leader's proficiency in making that happen by using a core set of expectations (the FEAPs) and terminology (the common language) to guide and focus teacher discussions on instructional improvements. Florida's common language of instruction is used so that educators in Florida use the core terms in the same way and with a common understanding.

Note: The FEAPs, a FEAPs brochure, and Florida's common language may be explored at http://www.floridaschoolleaders.org.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The instructional program and practices are fully aligned with the FEAPs. Faculty and staff implementation of the FEAPs is consistently proficient and professional conversations among school leadership and faculty about instruction use the Florida common language of instruction and the terminology of the FEAPs.

The leader's use of FEAPs and common language resources results in all educators at the school site having access to and making use of the FEAPs and common language.

Teacher-leaders at the school use the FEAPs and common language.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader's use of FEAPs content and terms from the common language is a routine event and most instructional activities align with the FEAPs.

Coordinated processes are underway that link progress on student learning growth with proficient FEAPs implementation.

The leader's use of FEAPs and common language resources results in most faculty at the school site having access to and making use of the FEAPs and common language.

The leader uses the common language to enable faculty to recognize connections between the FEAPs, the district's

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader demonstrates some use of the FEAPs and common language to focus faculty on instructional improvement, but is inconsistent in addressing the FEAPs.

The leader's use of FEAPs and common language resources results in some faculty at the school site having access to and making use of the FEAPs and common language.

There are gaps in alignment of ongoing instructional practices at the school site with the FEAPs. There is some correct use of terms in the common language but errors or omissions are evident.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

There is no or minimal evidence that the principles and practices of the FEAPs are presented to the faculty as priority expectations.

The leader does not give evidence of being conversant with the FEAPs or the common language.

The leader's use of FEAPs and common language resources results in few faculty at the school site having access to and making use of the FEAPs and common language.

Indicator 3.2 – Standards-Based Instruction: The leader delivers an instructional program that implements the state's adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by:

- aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and
- communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Narrative: Florida's plan of action for educating our children for the 21st century is based on standards-based instruction. Course descriptions specify the standards that are to be learned in each course. All of the course content in courses for which students receive credit toward promotion/graduation is expected to be focused on the standards in the course description. This indicator addresses the leader's proficiency at making sure all students receive rigorous, culturally relevant standards-based instruction by aligning key practices with the state's academic standards (Common Core, NGSSS, Access Points). The leader does what is necessary to make sure faculty recognize and act on the cause and effect relationship between good instruction (i.e., research-based strategies, rigorous, culturally relevant,) on the "right stuff" (the state standards adapted based on data about student needs).

Note: Course descriptions and the standards for each course may be explored at www.floridastandards.org.

Rating Rubric

| Highly Effective: Leader's |
|--|
| actions or impact of leader's actions |
| relevant to this indicator exceed |
| effective levels and constitute models |
| of proficiency for other leaders |

Processes exist for all courses to ensure that what students are learning is aligned with state standards for the course.

The leader has institutionalized quality control monitoring to ensure that instruction is aligned with the standards and is consistently delivered in a rigorous and culturally relevant manner for all students.

Teacher teams coordinate work on student mastery of the standards to promote integration of the standards into useful skills.

The leader provides quality assistance to other school leaders in effective ways to communicate the cause and effect relationship between effective standards-based instruction and student growth.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

Processes exist for most courses to ensure that what students are learning is aligned with state standards for the course.

Instruction aligned with the standards is, in most courses, delivered in a rigorous and culturally relevant manner for all students.

The leader routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for most courses.

Collegial faculty teamwork is evident in coordinating instruction on Common Core standards that are addressed in more than one course.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Processes exist for some courses to ensure that what students are learning is aligned with state standards for the course.

Instruction is aligned with the standards in some courses.

Instruction is delivered in a rigorous manner in some courses.

Instruction is culturally relevant for some students.

The leader has implemented processes to monitor progress in some courses, but does not intervene to make improvements in a timely manner.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

There is limited or no evidence that the leader monitors the alignment of instruction with state standards, or the rigor and cultural relevance of instruction across the grades and subjects.

The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum and instruction that are culturally, racially, or ethnically insensitive and/or inappropriate.

The leader does not know and/or chooses not to interact with staff about teaching using research-based instructional strategies to obtain high levels of achievement for all students.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader's faculty, department, grade-level meeting agendas, minutes, and other documents focus on the alignment of curriculum and instruction with state standards.
- School Improvement Plan goals and actions are linked to targeted academic standards.
- The leader's presentations to faculty on proficiency expectations

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Faculty members routinely access or provide evidence of using content from www.floridastandards.org
- Faculty has and makes use of the list of standards associated with their course(s).
- Activities and assignments are aligned with standards applicable to the course and those connections are conveyed to students.

- include illustrations of what "rigor" and "culturally relevant"
- Monitoring documents indicate frequent review of researchbased instructional practices regarding alignment, rigor and cultural relevance.
- Results of monitoring on research-based instruction are used to increase alignment to standards, rigor, and/ or cultural relevance.
- School's financial documents reflect expenditures supporting
- Teachers can describe a school wide "plan of action" that aligns curriculum and standards and provide examples of how they implement that plan in their courses.
- Teachers attest to the leader's efforts to preserve instructional time for standards-based instruction.
- Teachers attest to the leader's frequent monitoring of researchbased instructional practices and application of those practices in pursuit of student progress on the course standards.
- Other impact evidence of proficiency on this indicator.

Reflection Questions for Indicator 3.2

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|--|---|---|
| What procedures might you establish to increase your ability to help your colleagues lead the implementation of the district's curriculum to provide instruction that is standards-based, rigorous, and culturally relevant? What can you share about your leadership actions to ensure that staff members have adequate time and support, and effective monitoring and feedback on proficiency in use of research-based instruction focused on the standards? | In what ways can you offer professional learning for individual and collegial groups within the school or district that illustrate how to provide rigor and cultural relevance when delivering instruction on the standards? How do you engage teachers in deliberate practice focused on mastery of standards-based instruction? | What might be 2-3 key leadership strategies that would help you to systematically act on the belief that all students can learn at high levels? How can your leadership in curriculum and instruction convey respect for the diversity of students and staff? How might you increase the consistency with which you monitor and support staff to effectively use research-based instruction to meet the learning needs of all students? What are ways you can ensure that staff members are aligning their instructional practices with state standards? | Where do you go to find out what standards are to be addressed in each course? How might you open up opportunities for all students to meet high expectations through your leadership in curriculum and instruction? Do you have processes to monitor how students spend their learning time? In what ways are you monitoring teacher implementation of effective, research-based instruction? In what ways are you monitoring teacher instruction in the state's academic standards? |

Indicator 3.3 – Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state's adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubric to guide tracking progress toward student mastery.

Narrative: "Learning goals" is a high-effect size strategy that uses scales or progressive levels to monitor student growth on the way to mastery of a state academic standard. Learning goals typically take 2-9 weeks of student time to master so are more comprehensive than daily objectives. The essential issue is that the teacher creates "scales" or levels of progress toward mastery of the learning goal. Teacher and students use those scales to track progress toward mastery of the goal(s). This indicator addresses the leader's proficiency at monitoring and providing feedback on teacher and student use of priority learning goals with scales. The leader is expected to go beyond low levels of monitoring that address whether the teacher provides such goals and attends to the levels of student understanding and engagement with the learning goals. Do the students pursue those goals? Do they track their own progress? Is celebrations of success on learning goals focused on how success was achieved more than that is was obtained?

Note: Beginning in the 2012-13 school year, professional learning about learning goals and sample learning goals may be explored at www.floridastandards.org, <a href="https:/

- be able to do.
- The leader's practices on teacher observation and feedback routinely address learning goals and tracking student progress.
- The leader provides coaching or other assistance to teachers struggling with use of the learning goals strategy.
- Procedures are in place to monitor and promote faculty collegial discussion on the implementation levels of learning goals to promote alignment with the implementation level of the associated state standards.
- Leader's communications to students provide evidence of support of students making progress on learning goals.
- Progress monitoring of adult and student performance on targeted priority learning goals is documented, charted, and posted in high traffic areas of the school.
- Evidence of the leader's intervention(s) with teachers who do not provide learning goals that increase students' opportunities for success.
- Other leadership evidence of proficiency on this indicator.

- Teams or departments meet regularly to discuss the quality of learning goals with scales being employed and adapt them based on student success rates.
- Teacher lesson plans provide evidence of the connection of planned activities and assignments to learning goals.
- Teacher documents prepared for parent information make clear the targeted learning goals for the students.
- Students are able to express their learning goals during walkthroughs or classroom observations.
- Students are able to explain the relationship between current activities and assignments and priory learning goals.
- Lesson study groups and other collegial learning teams routinely discuss learning goals and scales for progression
- Methods of both teachers and students tracking student progress toward learning goals are evident.
- Celebrations of student success include reflections by teachers and students on the reasons for the success
- Teachers can identify the learning goals that result in the high levels of student learning.

Reflection Questions for Indicator 3.3

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|---|---|
| What specific strategies have you employed to measure improvements in teaching and innovations in use of learning goals and how can you use such measures as predictors of improved student achievement? | What system supports are in place to ensure that the best ideas and thinking on learning goals are shared with colleagues and are a priority of collegial professional learning? | To what extent do learning goals presented to the students reflect a clear relationship between the course standards and the assignments and activities students are given? | What have I done to deepen my understanding of the connection between the instructional strategies of learning goals and tracking student progress? |

Indicator 3.4 – Curriculum Alignments: Systemic processes are implemented to ensure alignment of curriculum resources with state standards for the courses taught.

Narrative: Academic standards are determined at the state level and the curriculum used to enable students to master those standards is determined at the district and school level. Curriculum must be aligned with the standards if it is to support standards-based instruction. Curriculum resources may or may not be fully aligned with the standards assigned to a specific course. The learning needs of students in specific classes may require additional or adapted curriculum materials to address issues of rigor, cultural relevance, or support for needed learning goals. School leaders maintain processes to monitor the appropriateness and alignment of curriculum to standards and intervene to make adjustments as needed to enable students to access curriculum that supports the standards.

Note: Where gaps or misalignments are noted by the processes addressed in this indicator, the leader's actions relevant to Indicator 8.2 (Strategic Instructional Resourcing) should be addressed.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader routinely engages faculty in processes to improve the quality of curriculum resources in regard to their alignment with standards and impact on student achievement and supports replacing resources as more effective ones are available.

The leader is proactive in engaging other school leaders in sharing feedback on identification and effective use of curriculum resources that are associated with improved student achievement.

Parents and community members credit this leader with sharing ideas or curriculum supports that enable home and community to support student mastery of priority standards. **Effective:** Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

Specific and recurring procedures are in place to monitor the quality of alignment between curriculum resources and standards.

Procedures under the control of the leader for acquiring new curriculum resources include assessment of alignment with standards.

Curriculum resources aligned to state standards by resource publishers/developers are used school wide to focus instruction on state standards, and state, district, or school supplementary materials are routinely used that identify and fill gaps, and align instruction with the implementation level of the standards.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Processes to monitor alignment of curriculum resources with standards in the course descriptions are untimely or not comprehensive across the curriculum.

Efforts to align curriculum with standards are emerging but have not yet resulted in improved student achievement.

Curriculum resources aligned to state standards by text publishers/developers are used school wide to focus instruction on state standards, but there is no to minimal use of state, district, or school supplementary materials that identify and fill gaps, and align instruction with the implementation level of the standards.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

There are no or minimal processes managed by the leader to verify that curriculum resources are aligned with the standards in the course descriptions.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Curriculum is presented to faculty and students as the content reflected in course descriptions rather than the content in a taythook.
- School procedures for acquisition of instructional materials include assessment of their usefulness in helping students' master state standards and include processes to address gaps or misalignments.
- Course descriptions play a larger role in focusing course content than do test item specification documents.
- Agendas, meeting minutes, and memoranda to the faculty make evident a focus on importance of curriculum being a vehicle for enabling students to master standards in the course description.
- Media center acquisitions reflect a systematic effort to build curriculum supports that support student mastery of content

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Teachers can describe the strengths and weaknesses of primary texts in regard to alignment with standards in the state course description.
- Students are able to characterize text books and other school provided resources tools as aids in student mastery of course standards.
- Pacing guides focus assignments and activities planned for students on learning goals and state standards rather than coverage of chapters in a text.
- Documents can be presented that inform of the alignment between curriculum resources and standards for the course.
- Teachers can identify supplementary material used to deepen student mastery of standards.
- Parent feedback/questionnaire results indicate recognition that

- standards at various levels of implementation.
- NGSSS and Common Core standards are routinely used to frame discussions on the quality and sufficiency of curriculum support materials.
- Other leadership evidence of proficiency on this indicator.
- the school is focused on standards-based instruction rather than covering topics or chapters.
- Student feedback/questionnaire results indicate recognition that the curriculum is focused on what students are to understand and be able to do.
- Results on student growth measures show steady improvements in student learning.
- Other impact evidence of proficiency on this indicator.

Reflection Questions for Indicator 3.4

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|---|--|---|
| What system is in place to ensure that your best ideas and thinking on using curriculum to enable students to master standards are shared with colleagues, particularly when there is evidence at your school of improved student achievement? | What specific school improvement strategies have you employed to measure improvements in teaching and innovations in curriculum that serve as predictors of improved student achievement? | How can you monitor whether the activities and assignments student get that involve use of curriculum resources are aligned with learning goals and standards? | Do you know which standards are addressed in your curriculum? |

Indicator 3.5 - Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Narrative: How do we know what our students already know, what they need to know, and how they are doing as we move forward with instruction? The school leader needs "assessment literacy" to address these questions. Where indicator 1.2 addresses the leader's proficiency in use of student performance data, this indicator focuses on actions taken at the school site to generate interim assessment data and make sure faculty use formative assessment practices to monitor and adjust instruction. Assessment of student progress toward academic standards is an important aspect of tracking student progress. Leaders need to make use of data on interim and formative assessments to guide goal setting and progress monitoring. They need to provide teachers access to quality assessments and promote teacher use of formative assessments as a routine strategy. The leader needs on-going assessment data to inform a variety of decisions regarding such issues as resource allocations, student and teacher schedules, professional learning impacts, and adjustments in plans.

| Highly Effective: Leader's | Effective: Leader's actions or | Needs Improvement: | Unsatisfactory: Leader's |
|---|---|--|--|
| actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. | impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. | Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. | actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. |
| The leader uses a variety of creative ways to provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement. Formative assessments are part of the school culture and interim assessment data is routinely used to review and adapt plans and priorities. | The leader systematically seeks, synthesizes, and applies knowledge and skills of assessment literacy and data analysis. The leader routinely shares knowledge with staff to increase students' achievement. Formative assessment practices are employed routinely as part of the instructional program. The leader uses state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions. These specific and observable changes result in increased achievement for students. | The leader haphazardly applies rudimentary knowledge and skills of assessment literacy and is unsure of how to build knowledge and develop skills of assessment literacy and data analysis. The leader inconsistently shares knowledge with staff to increase student achievement. There is inconsistency in how assessment data are used to change schedules, instruction, curriculum, or leadership. There is rudimentary use of assessment data from state, district, school, and classroom. | The leader has little knowledge and/or skills of assessment literacy and data analysis. There is little or no evidence of interaction with staff concerning assessments. The leader is indifferent to data and does not use data to change schedules, instruction, curriculum or leadership. Student achievement remains unchanged or declines. The leader does not use assessment data from state, district, school, and classroom. |
| Leadership Evidence of proficeseen in the leader's behaviors of such evidence may include, I following: | or actions. Illustrative examples | Impact Evidence of leadership behaviors or status of the facult examples of such evidence may | y and staff. Illustrative |

- Documents for faculty use that set clear expectations for the use of formative assessments to monitor student progress on mastering course standards
- Samples of written feedback provided to teachers regarding effective assessment practices.
- Collaborative work systems' (e.g., data teams, professional learning communities) agendas and minutes reflect recurring engagements with interim and formative assessment data.
- Faculty meeting agendas and minutes reflect attention to formative and interim assessment processes.
- Classroom walkthrough data reveals routine use of formative assessment practices in the classrooms.
- Assessment rubrics are being used by the school.
- Other leadership evidence of proficiency on this indicator.

- Teachers can describe interactions with the leader where effective assessment practices are promoted.
- Teachers' assessments are focused on student progress on the standards of the course.
- Teachers attest to the leader's efforts to apply knowledge and skills of effective assessment practices.
- Teachers can provide assessments that are directly aligned with course standard.
- Teachers attest to the leader's frequent monitoring of assessment practices.
- Student folders and progress tracking records reflect use of formative data.
- Documents are in use that informs teachers of the alignment between standards and assessments.
- Other impact evidence of proficiency on this indicator.

Reflection Questions for Indicator 3.5

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|---|
| How might you engage other school leaders in sharing quality examples of formative assessment and use of interim assessment data? What procedures might you establish to increase your ability to help your colleagues provide professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement? | How might you engage teacher leaders in sharing quality examples of formative assessment practices with other faculty? How can you provide ongoing professional learning for individual and collegial groups within the district focused on applying the knowledge and skills of assessment literacy, data analysis, and the use of state, district, school, and classroom assessment data to improve student achievement? | How are you systematically seeking, synthesizing, and applying knowledge and skills of assessment literacy and data analysis? In what ways are you sharing your knowledge with staff to increase all students' achievement? In what ways are you using state, district, school, and classroom assessment data to make specific and observable changes in teaching, curriculum, and leadership decisions to increase student achievement? | How are you expanding your knowledge and/or skills of assessment literacy and data analysis? What strategies have you considered that would increase your interaction with staff concerning assessments? How are you using your knowledge and skills of assessment literacy to change schedules, instruction, and curriculum or leadership practices to increase student achievement? |

Indicator 3.6 – Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district's instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Narrative: School leaders are responsible for monitoring the effectiveness of classroom teachers. This indicator addresses the proficiency and focus of the leader's monitoring processes to maintain awareness of faculty effectiveness and the use of monitoring data to improve student and faculty performance. The focus here is on monitoring teacher use of strategies supported by contemporary research, teacher proficiency on issues contained in the district's teacher evaluation system, what teachers do to improve student achievement, and faculty proficiency on the FEAPs.

Note: Indicator 3.1 is focused on the leader's grasp of the FEAPs whereas this indicator focuses on monitoring the faculties' grasp of the FEAPs. Indicator 4.2 is focused on the leader's use of monitoring data to provide timely feedback.

Rubric

| Rubric | | | |
|--|---|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader's monitoring process generates a shared vision with the faculty of high expectations for faculty proficiency in the FEAPs, research-based instructional strategies, and the indicators in the teacher evaluation system. The leader shares productive monitoring methods with other school leaders to support district wide improvements. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations The leader's effectiveness monitoring process provides the leader and leadership team with a realistic overview of the current reality of faculty effectiveness on the FEAPs, the indicators in the teacher evaluation system, and research-based instructional strategies. The leader's monitoring practices are consistently implemented in a supportive and constructive manner. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency The district teacher evaluation system is being implemented but the process is focused on procedural compliance rather than improving faculty proficiency on instructional strategies that impact student achievement. The manner in which monitoring is conducted is not generally perceived by faculty as supportive of their professional improvement. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Monitoring does not comply with the minimum requirements of the district teacher evaluation system. Monitoring is not focused on teacher proficiency in research-based strategies and the FEAPs. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Schedules for classroom observation document monitoring of faculty. Records or notes indicate the frequency of formal and informal observations. Data from classroom walkthroughs is focused on higheffect size strategies and other FEAPs implementation. Notes and memorandum from follow-up conferences regarding feedback on formal or informal observations reflect attention to FEAPs issues and research-based practices. Reflection Questions for Indicator 3.6

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|---|--|---|
| How do you convey to highly effective teachers specific feedback that would move them toward even higher levels of proficiency? | How do you improve your conferencing skills so your feedback to teachers is both specific enough to be helpful and perceived as support rather than negative criticism? | How do you restructure your use of time so that you spend enough time on monitoring the proficiency of instructional practices and giving feedback to be an effective support for the faculty? | How do you improve your own grasp of what the FEAPs require so that your monitoring has a useful focus? |
| How do you engage highly effective teachers in sharing a vision of high quality teaching with their colleagues so that there is no plateau of "good enough"? | - | | |

Proficiency Area 4: <u>Faculty Development</u>: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Narrative: This proficiency area is aligned with FPLS standard 4. It moves the focus from "what is the current reality" of faculty proficiency to continuous progress toward what the faculty can achieve with effort and focus.

Indicator 4.1 – Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Narrative: The focus of this indicator is on the leader's actions to staff the school with the best faculty possible for the needs of the school population. It addresses actions taken to anticipate staffing needs, seek out quality applicants, and efforts to retain quality staff once on the faculty.

| quality start of too off the factority. | | | | |
|---|--|--|---|--|
| Rating Rubric | | | | |
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader tracks the success of her or his recruitment and hiring strategies, learns from past experience, and revisits the process annually to continually improve the process. The leader engages in a variety of traditional and non-traditional recruitment strategies and then prioritizes based on where they find their most effective teachers. Effective recruiting and hiring practices are frequently shared with other administrators and colleagues throughout the system. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader works collaboratively with the staff in the human resources office to define the ideal teacher based upon the school population served. The leader is sensitive to the various legal guidelines about the kind of data that can be sought in interviews. A hiring selection tool that helps interviewers focus on key instructional proficiencies that are aligned with the teacher evaluation criteria is developed and effectively utilized. A hiring process is clearly communicated including how staff is involved. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader relies on the district office to post notices of vacancies and identify potential applicants. Efforts to identify replacements tend to be slow and come after other schools have made selections. Interview processes are disorganized, not focused on the schools needs, and do not improve from year to year. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader approaches the recruitment and hiring process from a reactive rather than a proactive standpoint. Consequently, the process may not be well thought out, is disjointed, and not aligned with key success criteria embedded within the teacher evaluation documents essential to organizational success. No coherent plan or process is employed to encourage quality staff to remain on the faculty. | |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following: | | Impact Evidence of leadership behaviors or status of the facult examples of such evidence may the following: | y and staff. <u>Illustrative</u> y include, but are not limited to | |
| The leader maintains an updated assessment of the instructional capacities needed to improve faculty effectiveness and uses that assessment in filling vacancies. Samples of hiring documents (e.g., posting notices, interview questions with look/listen fors) that identify highly desirable instructional proficiencies needed in teacher applicants. Documentation that the recruitment and select process is subjected to an in-depth review and evaluation for continuous improvement purposes. Reflection Questions for Indicator 4.1

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|---|
| What can be done to encourage quality teachers to stay with your school and quality applicants to seek to join the faculty? | What connections do you have to reach potential applicants other that the districts personnel office? | Have you gathered data about why teachers choose to leave your faculty? What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert? | At what point in the school year do you check on staff retention and estimate future staffing needs? In what ways are professional learning opportunities linked to individual faculty needs? |

Indicator 4.2 – Feedback Practices: The leader monitors, evaluates proficiency, and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals and the cause and effect relationships between professional practice and student achievement on those goals.

Narrative: Where indicator 3.6 focuses on monitoring to maintain awareness of faculty effectiveness, this indicator focuses on the use of the monitoring process to provide quality and timely feedback to teachers. The feedback processes need to deepen teacher understanding of the impact of their practices on student learning.

Rating Rubric

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Rubrics that distinguish among proficiency levels on evaluation indicators are used by the leader to focus feedback needed improvements in instructional practice.
- Samples of written feedback provided teachers regarding prioritized instructional practices.
- Documentation of an instructional monitoring schedule that supports frequent instructional monitoring by the school's administrative staff.
- The leader implements a schedule that results in frequent walkthroughs and observation of teaching and learning
- School improvement plan reflects monitoring data analyses.
- Evidence the leader has a system for securing feedback from teachers specific to prioritized instructional practices.
- The leader's use of time results in at least 2 work days a week spent on monitoring instructional issues (i.e. "watching the game") and providing specific and actionable feedback on

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

- Teachers can attest to regularly scheduled formal and informal observations.
- Teachers report recognition as team members and as individuals.
- Teachers describe feedback from the leader in terms of recognizing instructional strengths and suggestions to take their teaching to a new level.
- Teachers report that leader uses a combination of classroom observation and teacher-self assessment data as part of the feedback.
- Feedback to teachers, over the course of the year, is based on multiple sources of information (e.g. observations, walkthroughs, videos, self-reflections, lesson studies, PLCs, assessment data,) and from more than one person.
- Teacher leaders have opportunities to observe colleagues teaching practices and provide feedback.

Reflection Questions for Indicator 4.2

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|---|--|
| How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance and that of the school? What might you do to ensure that they see this important connection? | What are some examples of focused, constructive, and meaningful feedback that you provide to your staff? How does this support their learning? | In what ways do you currently recognize faculty in providing feedback and affirmation to them? To what extent do you acknowledge the efforts of teams, as well as that of individuals? | How can frequent, focused, and constructive feedback support teachers in improving their instructional practice? |

Indicator 4.3 – High effect size strategies: Instructional personnel receive recurring feedback on their proficiency on high effect size strategies.

Narrative: Teaching is a complex process. The "right thing to do" varies with conditions in the classroom. However, teachers need proficiency on a core repertoire of high importance strategies. These are strategies all teachers are expected to be able to use effectively. This indicator is focused on the leader's proficiency in focusing faculty attention on improvement of those "high effect size" strategies – those with higher probabilities of causing student growth when done correctly and in appropriate circumstances.

Note: Department lists of high-effect size strategies are posted at www.floe.org and www.floridaschoolleaders.org

Rating Rubric

| Rating Rubite | | | |
|--|---|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader uses a variety of creative ways to provide positive and corrective feedback on the implementation of high effect size strategies. As a result, the correct and appropriate implementation of high effect size instructional strategies across the curriculum and grades is a routine part of the learning environment for all students. The entire organization reflects the leader's focus on accurate, timely, and specific recognition of correct and appropriate implementation of high effect size strategies. The leader balances individual recognition on high effect size strategies with team and organization-wide recognition. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. In addition to the formal feedback consistent with the district evaluation system indictors, the leader provides recurring informal feedback on high effect size strategies to reinforce proficient performance and highlight the strengths of colleagues and staff. The leader has effectively implemented a system for collecting feedback from teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of high effect size strategies is linked to organizational goals. Both the leader and employees can cite examples of where feedback on high effect size strategies is strategies is used to improve individual and organizational performance. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader adheres to the district evaluation system requirements for providing formal feedback on high effect size strategies, but the feedback is general rather than providing details that improve teaching or organizational performance related to high effect size strategies. The leader tends to view feedback as a linear process; something they provide teachers rather than two way communications where the leader also learns from the teachers' expertise. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader is not aware of the high effect size strategies expected to be used in district schools or fails to communicate them to faculty. Feedback on high effect size strategies is rare, nonspecific, and not constructive. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Indicator 4.4 - <u>Instructional Initiatives</u>: District supported state initiatives focused on student growth are supported by the leader with specific and observable actions including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives.

Narrative: The Department of Education and/or district-supported initiatives focused on improving student performance require school leader support to be successful at the school site. This indicator addresses the leader's proficiency in supporting such initiatives. Indicator 4.4 also focuses on professional learning needed to implement priority initiatives.

Note: District and FLDOE websites provide support and information about priority initiatives.

Reflection Questions for Indicator 4.4

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|--|---|
| How do you engage your faculty in communities of practice where practices related to the initiatives are shared with faculty in other schools or districts? | How do you use monitoring of these initiatives to identify faculty professional development needs that, if addressed, would improve the quality of implementation? | How do you communicate with district and state resources to learn more about what these initiatives can contribute to my school? | How do you find out what initiatives should be implemented? |

Indicator 4.5 - Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Narrative: Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Professional learning on-the-iob is an essential aspect of effective schools. School leaders who manage the school in ways that support both individual and collegial professional learning get better outcomes than those who do not. The leader's personal participation in professional learning plays a major role in making professional learning efforts pay off. This indicator addresses the leader's role as a leader in professional development.

Rating Rubric

| Rating Rubiic | | | |
|---|---|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader uses a variety of creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies. The leader is personally involved in the learning activities of the faculty in way s that both show support and deepen understanding of what to monitor. The entire organization reflects the leader's focus on accurate, timely, and specific professional learning that targets improved instruction and student learning on the standards in the course descriptions. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader provides recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs. The leader removes barriers to time for professional learning and provides needed resources as a priority. Participation in specific professional learning that target improved instruction and student learning is recognized by the faculty as a school priority. Leadership monitoring of professional learning is focused on the impact of instructional proficiency on student learning. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Less than a majority of the faculty can verify participation in professional learning focused on student needs or faculty proficiency at high effect size strategies. Time for professional learning is provided but is not a consistent priority. Minimal effort expended to assess the impact of professional learning on instructional proficiency. Leadership monitoring of professional learning is focused primarily participation with minimal attention given to the impact of instructional proficiency on student learning. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Focused professional development on priority learning needs is not operational. Few faculty members have opportunities to engage in collegial professional development processes on the campus. Individual professional learning is not monitored and is not connected to the school improvement plan or student learning needs. |

Reflection Questions for Indicator 4.5

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|--|
| What strategies have you implemented so that you spread your learning about providing professional learning for individual and collegial groups within your school to your colleagues across the school system? | What might be some creative ways to provide professional learning for individual and collegial groups focused on deepening subject matter knowledge and proficiency at high effect size strategies? | As you think about your leadership in providing professional learning, what are key strategies for you to consider that would help you provide recurring opportunities for professional learning for individual and collegial groups focused on issues directly related to faculty proficiency at high effect size strategies and student learning needs? | How would you describe your efforts to make certain that your professional learning is focused on student needs or faculty proficiency at high effect size strategies? |

Indicator 4.6 – Faculty Development Alignments: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by:

- generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan,
- identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement),
- aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals,
- and using instructional technology as a learning tool for students and faculty.

Narrative: Faculty development has many aspects. This indicator addresses the leader's proficiency at developing faculty capacity to implement culturally relevant differentiated instruction by <u>aligning</u> the various faculty developments processes and practices with certain key issues (Standards-based content, research-based methods, data for planning, etc. as specified in the text of the standard.)

Rating Rubric

| Rating Rubric | | | |
|--|--|---|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader has demonstrated a record of differentiated professional learning for faculty based on student needs. The leader has developed a system of job-embedded professional learning that differentiates training and implementation of instructional priorities based on teacher needs, which help retain proficient and highly exemplary staff. The leader routinely shares professional learning opportunities with other schools, departments, districts, and organizations. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Professional learning includes a plan for the implementation of the prioritized instructional needs (e.g., research-based instruction, data analysis, instructional technology, culturally relevant) aligned to school improvement plan and some effort has been made to differentiate (coaching, mentoring, collaborative teams, coaching) and embed professional development to meet the needs of all faculty members. The leader is able to use data from evaluation of instructional personnel to assess proficiencies and identify priority needs to support and retain proficient and exemplary faculty members. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader attempts to implement all of the priority instructional needs without a plan for doing so. The leader is aware of the differentiated needs of faculty and staff members, but professional development is only embedded in faculty meetings at this time, rather than incorporating the use of collaboration, study teams, etc. in order to meet the unique needs of staff. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Professional learning is typically "one size fits all," and there is little or no evidence of recognition of individual faculty needs or matching of faculty needs to student achievement needs. Consequently, retaining proficient and exemplary staff is problematic. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Documentation that professional learning is determined on the basis of student achievement and teacher competency data. Evidence that professional learning includes culturally relevant instructional practices. Faculty meetings focus on professional learning related to the schools instructional priorities. The leader examines data on teacher proficiencies and identifies needs that are subsequently addressed by professional learning. Technology resources are provided to maximize faculty access to online learning and sharing video exemplars for quality instructional practices. | | Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following: Staff describes ways that professional learning is culturally relevant to the population served and differentiated to meet their unique instructional needs. Lesson study groups and PLCs have explicitly stated goals and a focus for their collegial learning. Teachers can articulate a process that helps them develop individualized learning plans. Faculty requests for professional learning are filtered to ensure that they relate to identified needs within the school improvement plan. Teachers can identify their learning needs as they relate to student learning needs. | |

- Individualized professional development plans approved by the principal are clearly aligned with school improvement priorities.
- Meeting agendas and memorandum to faculty provide evidence of on-going monitoring of the implementation of critical initiatives (e.g., data analysis, text complexity), standards-based instructional program, multi-tiered system of supports, and differentiated instruction.
- The leader's documents and agendas provide evidence of guiding faculty toward deeper understanding of the cultures of students in the school and how instruction is adapted to improve student engagement in learning.
- Faculty can demonstrate their use of course descriptions as the source of learning goals and objectives.
- Faculty can provide evidence of culturally relevant and differentiated instruction.
- Other impact evidence of proficiency on this indicator.

Reflection Questions for Indicator 4.6

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|---|--|
| What procedures have you established to increase professional knowledge opportunities for colleagues across the school system? | What system do you use to prioritize learning needs and empower faculty to create individual learning plans? | What strategies have you employed to meet the learning needs of your faculty, from novice to veteran to expert? | In what ways are professional learning opportunities linked to individual faculty needs? |

Indicator 4.7 – Actual Improvement: The leader improves the percentage of effective and highly effective teachers on the faculty.

Narrative: An indicator required by 1012.34 F.S., the focus is on whether the accumulated impact of the leader's actions result in positive trend lines on teacher effectiveness. Evidence gathered from proficiency area #3 provide a base line that, along with teacher rating in the district's teacher evaluation system and student growth measures, enable assessment of whether actual improvement in teacher's proficiency is occurring.

Proficiency Area 5: <u>Learning Environment</u>: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida's diverse student population.

Narrative: This proficiency area is aligned with FPLS standard 5. Much of what student's experience in school is a result of decisions and actions by the adults in the school. Learning environments that are success oriented, student centered, treat diversity as an asset, and focus on eliminating achievement gaps support students preparation for fulfilling lives.

Indicator 5.1 – Student Centered: The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Narrative: School leaders who monitor what students experience by being enrolled in the leader's school have better insights on how to make the system work than those who do not monitor impact of policies and practices on students. It is the leader's responsibility to know whether student life is equitable, respectful, and supportive of engagement in learning.

| Rating Rubric | | | |
|--|--|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader provides clear, convincing, and consistent evidence that they ensure the creation and maintenance of a learning environment conducive to successful teaching and learning for all and shares these practices with others throughout the district. Involves the school and community to collect data on curricular and extra-curricular student involvement to assure equal opportunity for student participation. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader provides clear evidence that they create and maintain a learning environment that is generally conducive to ensuring effective teaching practices and learning, although there may be some exceptions. Collects data on curricular and extra-curricular student involvement to assure equal opportunity for student participation. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader provides limited evidence that they create a safe school either in planning or actions. Collects data on curricular and extra-curricular student involvement. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader provides little to no evidence that s/he make plans for a safe and respectful environment to ensure successful teaching and learning or addresses safety concerns as they arise. Does not collect data on curricular and extra-curricular student involvement. |

Reflection Questions for Indicator 5.1

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|---|--|
| What practices have you engaged in to increase professional knowledge opportunities for colleagues across the school system regarding your efforts to ensure the creation and maintenance of a learning environment conducive to successful teaching and learning for all? | What evidence would you accept you were ensuring the creation and maintenance of a learning environment conducive to successful teaching and learning for all? | How would you describe your efforts to provide clear evidence that you create and maintain a learning environment that is generally conducive to ensure effective teaching and learning, although there may be some exceptions? | What strategies are you intentionally implementing to create and maintain a safe and respectful environment to ensure successful teaching and learning or addresses safety concerns as they arise? |

Indicator 5.2 - Success Oriented: Initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.

Narrative: The issues in 5.1 focus on monitoring how school policy and practice affect the quality of student lives. This indicator shifts focus from those broad issues to what happens at the school that creates opportunities for student success and students' perceptions that school life is organized to do something good for them. School should be rigorous and demanding but also implemented in ways that create recurring opportunities for success.

Rating Rubric

| Rating Rubric | | | |
|--|---|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Through all grades and subjects a multi-tiered system of supports is operational providing core universal supports (research-based, high-quality, general education instruction and support; screening and benchmark assessments for all students, and continuous data collection continues to inform instruction). Where student are not successful on core instruction, problem solving is employed to identify and implement targeted supplemental supports (data based interventions and progress monitoring). Where targeted supplemental supports are not successful, intensive individual supports are employed based on individual student needs. Skillful problem solving to ensure staff have adequate time and support, and effectively monitoring teacher's effective use of research-based instruction. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Problem solves skillfully (e.g., conceptualizing, applying, analyzing, synthesizing, and/or evaluating information) to provide adequate time, resources, and support to teachers to deliver the district's curriculum to all students. Celebrations of student success are common events and are focused on recognition of the methods and effort expended so students understand what behaviors led to the success. Most grades and subject track student learning growth on priority instructional targets. MTSS operational across the grades and subjects. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Problem solving efforts are unskillfully used to provide adequate time, resources, and support to teachers to deliver the district's curriculum and state's standards to students. Celebrations of student success are provided but are inconsistent in focusing on how/why students succeeded. MTSS operational in some classes. | unsatisfactory: Leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. No actions other than use of slogans and exhortations to succeed are taken by the leader to address practices and process that actually enable success. MTSS not operational. |
| Leadership Evidence of profici seen in the leader's behaviors of such evidence may include, be following: | or actions. <u>Illustrative examples</u> out are not limited to the | Impact Evidence of leadership behaviors or actions of the facul community. | with oth4r school leaders? | | What barriers to student success are not being addressed in your school? | |

Indicator 5.3 – <u>Diversity</u>: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.

Narrative: "Diversity practices" refers to the capacity of teachers and school leaders to recognize the many variations in students that impact learning growth (e.g. learning processes, prior learning experiences, family and cultural backgrounds); implement practices that respect diversity in learning needs (e.g. multi-tiered system of supports) and make adjustments at the classroom level that make use of student strengths and promote growth needs.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The leader shares with others throughout the district strategies that help them put into action their belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

The leader provides an instructional program where recurring adaptations in instructional to address variations in student learning needs, styles, and learning strengths are routine events in all classes.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader systematically acts on the belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

Classroom practices consistently reflect appropriate adjustments based on cultural, racial, ethnic backgrounds of students.

The leader's expectations that teachers adapt instructional strategies to meet individual student needs are an accepted part of the shared vision of the leader and faculty.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader inconsistently acts on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.

The leader has taken some actions that set expectations for teachers adapting instructional strategies to meet individual student needs and such individualization is evident in some but not most classes.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum, instruction, and assessment that are culturally, racially, or ethnically insensitive and/or inappropriate.

Takes no actions that set expectations for teachers adapting instructional strategies to meet individual student needs.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Documents that support the use of diversity as an asset in the development and implementation of procedures and practices.
- Agendas, memorandum, etc., reflecting recurring attention at faculty meetings to capacity to recognize diversity issues and adapt instruction accordingly.
- Leader's actions in providing professional learning for faculty that deepens understanding of a range of diversity issues and evidence of monitoring for implementation in the classroom of appropriate diversity practices.
- School policies, practices, procedures that validate and value similarities and differences among students.
- The school leader collects and reviews agenda and minutes from departmental or team meetings to monitor attention to diversity issues in pursuit of student learning growth.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> <u>examples</u> of such evidence may include, but are not limited to the following:

- Teachers can describe a specific policies, practices, and procedures that validate and value similarities and differences among students.
- Professional development opportunities are provided for new teachers regarding ways to adapt instruction to address diversity issues in the student body and community.
- Student questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- Parent questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- A multi-tiered system of supports (MTSS) is implemented in the classrooms in ways that respect and make adjustments for diversity factors.
- The school provides an interactive website for students, parents, and the community designed to be "user friendly" and sensitive to diversity issues in the community, providing information of interest to various segments of the school community
- Other impact evidence of proficiency on this indicator.

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|---|---|--|
| What procedures might you establish to increase your ability to help your colleagues develop curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | What strategies might you employ so that you could share with others throughout the district practices that help them put into action your belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | How might you increase the consistency with which you act on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? | How might you expand the opportunities for all students to meet high expectations by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff? |

Indicator 5.4 – Achievement Gaps: The leader engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.

Narrative: Where indicator 5.3 is focused on the broad array of diversity factors that impact success of individual students and student sub-groups, indicator 5.4 focuses on <u>academic growth</u> of specific sub-groups whose academic performance lags behind what they are capable of achieving. The leader is expected to prepare the faculty to do what is needed to meet the academic improvement needs of the sub-group(s).

| Rating Rubric | | | |
|---|---|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader has created a self-regulating system based on data that guarantees regular and predictable success of all subgroups, even if conditions change from one year to another. Achievements gaps have been eliminated or substantially minimized with trend lines consistently moving toward elimination of such gaps. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Processes to minimize achievement gaps within all impacted subs-groups are employed for all sub-groups with positive trend lines showing reduction of gaps for all subgroups. The leader consistently applies the process of inquiry and/or has enabled development of processes that generate greater understanding of the school's | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Sub-groups within the school and associated with achievement gaps have been identified and some processes are underway to understand root causes. Some actions to minimize the gaps have been implemented but either do not reach all subgroup students or have inconsistent or minimal results. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Domain 3: Organizational Leadership

Narrative: This domain addresses proficiencies that impact the quality of a broad array of school operations. The focus is applying these proficiencies to improve student achievement, instructional leadership, and professional conduct.

Narrative: This proficiency area is aligned to FPLS standard #6. How decisions are made can be as important as what decisions are made. The leader's proficiency at balancing the various aspects of decision-making is the focus of this area.

Indicator 6.1 – Prioritization Practices: The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Narrative: Leaders make many decisions. Those that impact student learning and teacher proficiency require priority attention. The focus is the leader's ability to make sure that decisions on student learning and faculty proficiency are not lost among the lower priority issues or given inadequate attention because of all the other things leaders do.

| rating raphic | T | , |
|---|--|--|
| Highly Effective: Leader's actions or impact of leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader produces clear, convincing, and consistent evidence that demonstrates an understanding of learning, teaching, and student development to inform all decisions and continuously uses this information to enhance teaching and learning. The leader produces clear, convincing, and consistent evidence that, on an ongoing basis, all decisions are made in a way that promotes the school's vision and mission. Effective decision-making practices are frequently shared with other administrators and colleagues throughout the system. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader provides limited evidence that demonstrates understanding of learning, teaching, and student development to inform decisions or is inconsistent in using this information to enhance decisions about teaching and learning. The leader produces limited evidence that the school's vision and mission impacts decision making. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader provides little or no evidence that demonstrate awareness of learning, teaching, and student development to inform decisions. The leader produces little to no evidence of making decisions that are linked to the school's vision and mission. Decisions adverse to student growth and/or faculty development are made. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: The school's vision and mission statement developed under this leader is focused on student growth and improving faculty proficiency. Staff evaluations and professional development documents emphasize student learning or faculty proficiency growth. Documents showing the development and modification of teacher and student schedules are based on data about student needs. Reflection Questions for Indicator 6.3

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|--|--|
| How do you continue to clarify the decision-making process in a dynamic, changing environment? | Why is it necessary for you as a school leader to reevaluate prior decisions and programs in light of emerging research, personal experience, and changing situations? | What will you do from now on to ensure previous decisions and programs are revisited and evaluated on a routine basis? | When do you take time with your leadership team to reflect on decisions that have been made? In what ways do you evaluate decisions on the basis of student achievement? |

Indicator 6.4 – Distributive Leadership: The leader empowers others and distributes leadership when appropriate.

Narrative: A school is too complex for one person to make all decisions. Some of the functions of leadership must be shared with others. Developing capacity for success in a workforce requires enabling other people to be responsible for meaningful decisions. The leader's capacity to share the "right stuff" and distribute decision making among other appropriate staff is the focus here.

| Tracing Trabile | | | |
|---|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Innovation and improvement in instructional processes, faculty development, or school operations have resulted from distributive leadership. The leader encourages staff members to accept leadership responsibilities outside of the school building. The leader incorporates teacher and support staff into leadership and decision-making roles in the school in ways that foster the career development of participating teachers. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader creates opportunities for staff to demonstrate leadership skills by allowing them to assume leadership and decision-making roles. The leader supports the decisions made as part of the collective decision-making process. Decision-making delegations are clear: Sub-ordinates know what decisions are made by the leader, which by the leader after input from others, and which are delegated to sub-ordinates to decide. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Some well-understood leadership roles other than the school principal are functioning and contributing to effective and timely decisions on some school priorities, but there are recurring delays in reaching decisions on other issues. Decisions are often rushed or made without appropriate input due to lack of planning and implementation of development activities by staff members. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is no or only minimal evidence that anyone other than the principal has a meaningful role in making timely decisions. The leader rarely seeks input on significant issues from a variety of stakeholder groups (e.g. faculty leaders, teachers, student, parents, community, or business leaders). |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: | | Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following: | |
| Organizational charts or other documents reveal how leadership is distributed and informs who is involved in what. School improvement plan process reflects involvement by a variety of parties. Evidence of shared decision-making and distributed leadership is present in leader's memorandums, e-mails, and other communications. Leader's communication to faculty and stakeholders recognizes the role of those to whom leadership functions were distributed. Other leadership evidence of proficiency on this indicator. | | roles in decision making. Minutes, agendas, and other ordinate leaders reflect their is making. | Transaction Quadratic for interaction of the | | | | |
|--|--|---|--|--|
| Highly Effective | Effective | Needs Improvement | Unsatisfactory | |
| To what extent do you have a systematic process in place for delegating authority to subordinates? | How might you increase the range and scope of tasks and responsibilities you delegate to key individuals or teams? | Under what circumstances would you be willing to release increased decision-making authority to your staff and faculty? | What factors prevent you from releasing responsibilities to staff? | |
| | In what areas do faculty and staff bring expertise that will improve the quality of decisions at your school? | How might you use the function of delegation to empower staff and faculty at your school? | | |

Indicator 6.5 – Technology Integration: The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Narrative: Technology was a separate standard in the 2005 Florida Principal Leadership Standards (FPLS). By 2011 the state had made great strides toward accepting technology into the schools. In the 2011 FPLS, technology moved from a separate general "pro-technology" standard to focused <u>applications</u> of technology embedded in several standards. This indicator focuses on technology integration and the leader's use of technology to improve decision-making processes in several priority areas.

Rating Rubric

| Rating Rubric | | | | |
|--|--|--|---|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader mentors other school leaders on effective means of acquiring technology and integrating it into the decision-making process. The leader provides direct mentoring and coaching supports so that new staff and new sub-ordinate leaders are quickly engaged in effective use of technology supports needed to enhance decision-making quality. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Technology support for decision-making processes is provided for all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership. Engages sub-ordinate leaders in developing strategies for coaching staff on integration of technology. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Technology support for decision-making processes is provided for some, but not all of the staff involved in decision making on school instructional and faculty improvement efforts. Technology integration supports some, but not all of the following processes: decision-making prioritization, problem solving, decision evaluation and distributed leadership. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is no or only minimal evidence that decision-making prioritization, problem solving, decision evaluation or distributed leadership processes are supported by technology integration. Decision making is not supported by a well-understood system of procedures to identify problems and generate solutions. Technology integration does not support data exchanges, project management, and feedback processes. | |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: | | Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Proficiency Area 7. <u>Leadership Development</u>: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Narrative: This proficiency area aligns to Standard 7. Leaders are developed by other leaders. This is a process critical to an organization's capacity to improve over time and sustain quality processes. This proficiency area focuses on what leaders do to develop leadership in others.

Indicator 7.1 – Leadership Team: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Narrative: The FPLS are based on a presumption that the school leader works with and through a team of other people to insure coordination and focus of school operations and improvements. Leadership teams get things done!

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

The participants in the school's leadership team function independently with clear and efficient implementation of their role(s) and work in a collegial partnership with other leadership team participants to coordinate operations on student growth and faculty development.

Leadership development processes employed by the school leader are shared with other school leaders as a model for developing quality leadership teams.

The leader has specifically identified at least two emerging leaders in the past year, and has entered them into the ranks of leadership training or provided personal mentoring on site.

Other school leaders cite this leader as a mentor in identifying and cultivating emergent leaders.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

Those who are assigned or have accepted leadership functions have consistent support from the school leader in focusing their efforts on instructional improvement and faculty development.

The leader has specifically identified and cultivated potential and emerging leaders for the major functions of the school.

The leader has personally mentored at least one emerging leader to assume leadership responsibility in instructional leadership or at an administrative level, with positive results.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader has identified staff for leadership functions, follows district personnel guidelines for accepting applications for new leaders, but has not implemented any systemic process for identifying emergent leaders, or is inconsistent in application of such a process.

The leader provides some training to some of the people assigned leadership functions, but does not involve staff other than those in the designated roles.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader does not recognize the need for leadership by other people. Staff with leadership titles (e.g., department heads, team leaders, deans, assistant principals) has little or no involvement in processes that build leadership capacities.

Persons under the leader's direction are unable or unwilling to assume added responsibilities.

There is no or only minimal evidence of effort to develop leadership potential in others.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Organizational charts identify the leadership roles and team members
- The leader has a system for identifying and mentoring potential leaders.
- The leader can cite examples in which s/he coached several emerging leaders to assume greater levels of responsibility within the organization.
- Teachers at the school can describe informal and formal opportunities to demonstrate and develop leadership competencies.
- Teachers at the school report that leadership development is supported and encouraged.
- Current leadership team members can describe training or mentoring they receive from the school leader regarding

- Minutes, e-mails, and memorandums reflecting exchanges among leadership team members are focused on school improvement goals, student growth, and faculty development.
- The leader's communications to faculty and stakeholders reflect recognition of the leadership team.
- Other leadership evidence of proficiency on this indicator.

leadership

- Teachers can describe processes that encourage them to be involved in school improvement and prepare for leadership roles.
- Other impact evidence of proficiency on this indicator.

| [] Highly Effective | [] Effective | [] Needs Improvement | [] Unsatisfactory |

Evidence Log (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

Reflection Questions for Indicator 7.1

| Highly Effective Effective | Needs Improvement | Unsatisfactory |
|---|-------------------------------|---|
| How do you provide guidance and mentorship to emerging leaders outside of your personal job description and leadership responsibilities? How would you describe the system you use to ensure that emerging leaders pursue job opportunities when they are available? How might you embed this preparation into their job duties, and what changes will you need to make to help build such leadership How have you designed the school improvement process to develop leadership capacity from existing faculty? What strategies and lessons might you impart to your direct reports to better prepare them for expanded leadership opportunities? | What process do you employ to | What process is available to you that help you screen and develop potential leaders? How might you spend time explicitly preparing your assistants to assume your role as principal? What steps would you take to spend more time in preparing your assistants to assume your role as principal? |

Indicator 7.2 – Delegation: The leader establishes delegated areas of responsibility for sub-ordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure.

Narrative: Leadership teams engage other skilled people in the business of the school. However, involvement does not insure effective organizations. This indicator focuses on the distribution of responsibility and whether sub-ordinate leaders have been delegated all that is needed to succeed.

| Rating Rubric | | | |
|---|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Staff throughout the organization is empowered in formal and informal ways. Faculty members participate in the facilitation of meetings and exercise leadership in committees and task forces; other employees, including noncertified staff, exercise appropriate authority and assume leadership roles where appropriate. The climate of trust and delegation in this organization contributes directly to the identification and empowerment of the next generation of leadership. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There is a clear pattern of delegated decisions, with authority to match responsibility at every level in the organization. The relationship of authority and responsibility and delegation of authority is clear in personnel documents, such as evaluations, and also in the daily conduct of meetings and organizational business. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader sometimes delegates, but also maintains decision-making authority that could be delegated to others. Clarity of the scope of delegated authority is inconsistent from one delegation to another. Actions taken by those to who tasks are delegated are sometimes overruled without explanation. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader does not afford subordinates the opportunity or support to develop or to exercise independent judgment. If delegation has occurred there is a lack of clarify on what was to be accomplished or what resources were available to carry out delegated tasks. |
| Leadership Evidence of proficion seen in the leader's behaviors of such evidence may include, but following: | r actions. <u>Illustrative examples</u> | Impact Evidence of leadership behaviors or status of the facult examples of such evidence may the following: | y and staff. <u>Illustrative</u> |
| A Responsibility Matrix or chart of "who does what" provides evidence that the leader trust others within the school by identifying how leadership responsibilities are delegated to other faculty members on his or her staff. The leader's processes keep people from performing redundant activities. The leader has crafted "job descriptions" for sub-ordinate leaders' roles that clarify what they are to do and have the delegated authority to do. Communications to delegated leaders provide predetermined decision-making responsibility. Documents initiating projects and tasks identify personal responsibility for success at the beginning of the project. Delegation and trust are evident in personnel evaluations. Delegation and trust are evident in the school improvement plan as a variety of school staff are identified as being directly responsible for various components of the planning effort. Meeting minutes provide evidence of delegation and trust being extended to select members of the faculty. Indicator 7.3 – Succession Planning: The leader plans for and implements succession management in key positions.

Narrative: When the leader is off campus – who is in charge? When the leader changes jobs or retires, who is prepared to take over? What about the school's subs-ordinate leaders? Who takes over for them? Succession planning is building relationships and preparation processes for involving others in ways that prepare them to move into key positions as they become vacant.

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

In addition to the practices at the effective level, the leader systematically evaluates the success of the succession program, making adjustments as needed and engaging subordinate leaders in succession management processes in their own areas of responsibility.

Central office personnel rely upon this leader to share highly successful succession planning practices with other leaders throughout the district. Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader proficiently implements a plan for succession management in key positions that includes identification of key and hard-to-fill positions for which critical competencies have been identified.

In conjunction with central office staff, the leader identifies and evaluates applicant pools, collects information on competency levels of employees in identified applicant pools and identifies competency gaps.

Based on an analysis of these gaps, the leader develops and uses programs and strategies for smooth succession including temporary strategies for getting work done during vacancy periods.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

Inasmuch as the leader understands the need to establish a plan for succession management, the plan remains simply that - a plan - as thoughts about the plan and its component parts have yet to be implemented.

The leader primarily relies on central office staff to identify and evaluate applicant pools, the competency levels of employees in identified applicant pools, and the competency gaps.

Little to no effort on the part of the leader is made to increase the competency level of the potential successor leaders within the faculty or such efforts are limited in scope. Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

The leader takes little or no actions to establish a plan for succession management.

Staff are hired to fill vacancies in key positions who do not possess the critical instructional capabilities required of the school, which compromises the school's efforts to increase student academic achievement, and no processes to remedy the trend are taken.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- Documents generated by or at the direction of the leader establish a clear pattern of attention to individual professional development that addresses succession management priorities.
- The leader has processes to monitor potential staff departures.
- The leader accesses district applicant pools to review options as soon as district processes permit.
- Informal dialogues with faculty routinely explore their interests in expanded involvement and future leadership roles.
- Leader has documents or processes to inform potential leaders of the tasks and qualifications involved in moving into leadership roles
- A succession management plan that identifies succession problems, key and hard-to-fill positions for which critical competencies have been identified, and key contacts within the school community.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. <u>Illustrative</u> examples of such evidence may include, but are not limited to the following:

- Select teachers can attest to having been identified into applicant pools for leadership in key and hard-to-fill positions that may develop in the future.
- Select teachers report that the principal has identified various competency levels needed for key or hard-to-fill leadership positions.
- Select teachers describe providing the leader feedback as to gaps in their personal competency for which the leader has developed professional learning experiences.
- Teachers can describe transparent processes for being considered for leadership positions within the school.
- Sub-ordinate leaders engage other faculty in competency building tasks that prepare them for future leadership roles.
- Other impact evidence of proficiency on this indicator.

| practices? What have you prepared to assist your successor when the time comes? | What are some of your strategies you have employed that help your school get work done during vacancy periods? | which you will pay particular attention as you implement your succession management plan? | |

Indicator 7.4 – Relationships: The leader develops sustainable and supportive relationships between school leaders, parents, community, higher education, and business leaders.

Narrative: This is a fundamentally important skill set. Leaders get quality work done through other people. The skill set of relationship building, including networking and engaging others in a shared vision, are hallmarks of quality leaders.

| Nating Nubite | | | |
|--|---|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. While maintaining on-site work relationships with faculty and students as a priority, the leader finds ways to develop, support, and sustain key stakeholder relationships with parent organizations, community leaders, and businesses, and mentors other school leaders in quality relationship building. The leader has effective relationships throughout all stakeholder groups and models effective relationship building for other school leaders. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) networks with all key stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) in order to cultivate, support, and develop potential and emerging leaders. Leader has effective collegial relationships with most faculty and subordinates. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader is inconsistent in planning and taking action to network with stakeholder groups (e.g., school leaders, parents, community members, higher education, and business leaders) to support leadership development. Relationship skills are employed inconsistently. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader makes no attempt to or has difficulty working with a diverse group of people. Consequently, the leader does not network with individuals and groups in other organizations to build collaborative partnerships in support of leadership development. |
| seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Documentation can be provided describing the leader's plan—with goals, measurable strategies, and a frequent-monthlymonitoring schedule—to develop sustainable and supportive relationships with key stakeholder groups in support of potential and emerging leaders. Documentation can be provided as to the relationships with other building leaders the leader has established in support of potential and emerging leaders within the school. Reflection Questions for Indicator 7.4

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|--|---|
| In what ways might you further extend your reach within the district to help others throughout the district benefit from your knowledge and skill in establishing relationships among key stakeholder groups? | What strategies are you employing so you can share your experiences relative to establishing relationships with key stakeholders to support potential and emerging leaders? | In what ways are you working to establish networks with key stakeholder groups to cultivate and support potential and emerging leaders in your school? | How might your relationships with faculty and key stakeholder groups help to cultivate and support potential and emerging leaders in your school? |

Proficiency Area 8. <u>School Management</u>: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Narrative: This proficiency area aligns with Standard 8. A school is an "organization." School leaders manage implementation of many rules, regulations, and policies. However, the "organization" is the people working together to provide learning to students. What leaders do to manage those people and the environment in which they work is the focus of this area.

Indicator 8.1 – Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Narrative: Time, tasks, and projects all need organization to have the desired impact. This indicator focuses on the key aspects of organization essential to school success.

| Rating Rubric | | | |
|---|--|--|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader uses project management as a teaching device, helping others understand the interrelationship of complex project milestones throughout the organization. The leader uses complex project management to build system thinking throughout the organization. Project plans are visible in heavily trafficked areas, so that accomplishments are publicly celebrated and project challenges are open for input from a wide variety of sources. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Project management documents are revised and updated as milestones are achieved or deadlines are changed. The leader understands the impact of a change in a milestone or deadline on the entire project, and communicates those changes to the appropriate people in the organization. Task and project management and tracking of deadlines are routinely monitored with an emphasis of issues related to instruction and faculty development. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Project management methodologies are vague or it is unclear how proposed project management tools will work together in order to help keep tasks and projects on time and within budget. The impact of changes in an action plan or deadline is inconsistently documented and communicated to people within the organization. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is little or no evidence of time, task or project management focused on goals, resources, timelines, and results. |
| Successful project results can be documented. Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: Examples of projects that have been adjusted based on the input from a variety of sources. Examples of timely completion of learning environment improvement projects focused on issues like safety, efficiency, effectiveness, or legal compliance. Examples of multiple projects and timelines managed by the leader by strategically delegating time, resources, and responsibilities. School Improvement Plan implementation records reveal planning of tasks with clear stages of progress and timelines to measure progress. Indicator 8.2 – Strategic Instructional Resourcing: The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

Narrative: Resources are always limited. How well a leader does at putting resources where they are needed and when they are needed to support instructional goals is the focus here. Do teachers and students get what they need when they need it?

| Tating Rubite | T === | | |
|--|--|---|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The leader regularly saves resources of time and money for the organization, and proactively redeploys those resources to help the organization achieve its strategic priorities. Results indicate the positive impact of redeployed resources in achieving strategic priorities. The leader has established processes to leverage existing limited funds and increase capacity through grants, donations, and community resourcefulness. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader leverages knowledge of the budgeting process, categories, and funding sources to maximize all available dollars to achieve strategic priorities. The leader has a documented history of managing complex projects, meeting deadlines, and keeping budget commitments. The leader documents a process to direct funds to increase student achievement that is based on best practice and leveraging of antecedents of excellence in resources, time, and instructional strategies. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader sometimes meets deadlines, but only at the expense of breaking the budget; or, the leader meets budgets, but fails to meet deadlines. The leader lacks proficiency in using the budget to focus resources on school improvement priorities. Resources are not committed or used until late in the year or are carried over to another year due to lack of planning and coordination. The leader makes minimal attempts to secure added | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader has no clear plan for focusing resources on instructional priorities and little or no record of keeping commitments for schedules and budgets. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following: School financial information shows alignment of spending with instructional needs. Documents are provided to faculty that indicate clear protocols for accessing school resources. School Improvement Plan and spending plans are aligned. Leader's documents reveal recurring involvement in aligning time, facility use, and human resources with priority school needs. Schedules and calendars for use of the facility reflect attention to instructional priorities. Other leadership evidence of proficiency on this indicator. | | Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following: School-wide teacher questionnaire results reveal satisfaction with resources provided for instructional and faculty development. Staff receipt books, activity agreements, and fundraiser requests reflect priority attention to instructional needs. Teachers can describe the process for accessing and spending money in support of instructional priorities. Teachers can provide examples of resource problems being taken on by school leadership as a priority issue to be resolved. Other impact evidence of proficiency on this indicator. | |
| Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank: [] Highly Effective [] Effective [] Needs Improvement [] Unsatisfactory Evidence Log (Specifically, what has been observed that reflects current proficiency on this indicator? Reflection Questions for Indicator 8.2

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|--|
| How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases to student achievement? | To what extent are faculty and staff aware of your budgeting expectations? How are your budgeting expectations delineated, published, and communicated? | Have there been instances in which you failed to meet deadlines or where expenditures resulted in budget overruns? What did you learn from that experience and how did you apply lessons from it? | When resources are limited, what actions do you take as the school leader to allocate them most efficiently? |

Indicator 8.3 – Collegial Learning Resources: The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.

Narrative: Team learning is an essential element in a learning organization. Does the leader provide needed supports to collegial learning? Are barriers to success removed? Everyone working in isolation reduces the probability of improvements. Collegial processes need resource support. This indicator assesses the leader's proficiency at providing that support.

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|--|--|---|
| How would you describe the systematic method for pursuing grants, partnerships, and combining community resources you have implemented to support increases in the quality of collegial processes? | To what extent are faculty and staff aware of your focus on collegial processes? How are faculty given opportunities to request or recommend time or resource allocations that support collegial processes and faculty development? | Have there been instances in which you failed to act on opportunities to support collegial processes or faculty development? What did you learn from that experience and how did you apply lessons from it? | When resources are limited, what actions do you take as the school leader to reallocate them to the high impact functions like collegial processes and faculty development? |

Proficiency Area 9. <u>Communication</u>: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by:

- Practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community;
- Managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; and
- Recognizing individuals for good work; and maintaining high visibility at school and in the community.

Narrative: The "voice of the school" represents a core set of communication processes that shape perceptions about the school – the leader's communications central among them. The leader must manage the "voice of the school" so clear, coherent and accurate information flows to faculty, students, and stakeholders. The perceptions of those involved in the success of the school need to be heard, acknowledged, and understood.

Indicator 9.1 – Constructive Conversations: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

Narrative: Skillful "speaking" is important. So is skillful listening. People can engage in conversation on many things, but some things are more important to school improvement than others. Making sure speaking and listening occurs on the important issues is a leader's task.

| Rating Rubitc | | | |
|---|--|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. In addition to the practices at the effective level, the highly effective leader routinely mentors others within the district to effectively employ key active listening skills (e.g. wait time, paraphrasing, asking clarifying questions) when interacting with diverse stakeholder groups about high achievement for all students. There is evidence of the leader making use of what was learned in constructive conversations with others in the leader's subsequent actions, presentations, and adjustments to actions. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. The leader systematically (e.g., has a plan, with goals, measurable strategies, and a frequent-monthly-monitoring schedule) and reciprocally listens to and communicates with students, parents, staff, and community using multiple methods (i.e., oral, written, and electronic) to seek input/feedback and to inform instructional and leadership practices. The leader systematically communicates with diverse stakeholders about high achievement for all students. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader's involvement in regard to listening to and communicating with students, parents, staff, and community is primarily unplanned and/or initiated by others rather than the leader "reaching out." The leader has only a few methods to seek input/feedback with the intent to inform instructional and leadership practices. The leader's communications with stakeholders about high achievement for all students are not carefully planned and implemented. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader's visibility within the community is virtually nonexistent; conducts little to no interactions with stakeholders regarding the work of the school. The leader is isolated from students, parents, staff, and community and engages in no or minimal listening to and communicating with them to seek input/feedback and inform instructional and leadership practices. The leader avoids engaging faculty and/or stakeholders in conversations on controversial issues that need to be addressed in the interest of school improvement. |
| Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following: | | Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following: | |

- Samples of communication methods used by the leader.
- A School Improvement Plan that demonstrates knowledge of the specific school community and the impact of community factors on learning needs of students and faculty.
- A school-wide plan to engage families and community in understanding student needs and participating in school improvement efforts.
- Evidence of opportunities for families to provide feedback about students' educational experiences.
- Logs of community interaction (e.g., number of volunteers, community members in the school, telephone conversations and community presence at school activities).
- Leader writes articles for school or community newspapers.
- Leader makes presentations at PTSA or community organizations.
- Leader hosts informal "conversations" with faculty, parents, and/or business leaders to share perceptions about the school and pertinent educational issues.
- The leader can identify influential "opinion leaders" in the school community and has processes for engaging them in school improvement efforts.
- Other leadership evidence of proficiency on this indicator.

- Students confirm that the leader is a good listener and effectively uses a wide variety of methods of communication to describe expectations and seek input/feedback.
- Faculty members confirm that the leader is a good listener and effectively uses a wide variety of methods of communication to describe expectations and seek input/feedback.
- Parents and community members confirm that the leader is a good listener and effectively uses a wide variety of methods of communication to describe expectations and seek input/feedback.
- Local newspaper articles report involvement of school leader and faculty in school improvement actions.
- Letters and e-mails from stakeholders reflect exchanges on important issues.
- Other impact evidence of proficiency on this indicator.

| communication techniques? | communicating as you? | What might be some of the things you are taking away from this experience that will influence your communication practice in the future? | · |

Indicator 9.2 – Clear Goals and Expectations: The leader communicates goals and expectations clearly and concisely using Florida's common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receives timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

Narrative: Proficiency in the competencies addressed in this indicator impacts success on many other indicators. The most successful school leaders are able to provide clear goals and expectations on every aspect of school operations and instructional leadership. You need to do the "school leader's two step." Having clear goals and expectations is step one, communicating them so others can act on them is step two.

Indicator 9.3 – Accessibility: Maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

Narrative: Leaders need to be seen by those they are to lead...and those who are asked to engage in rigorous effort on the leader's goals need access to the leader. While leaders must manage their time, they must also make sure those who need access can get it in reasonable ways and timeframes. In a 21st century technological society use of social networking and other technologies to promote accessibility is a valuable leadership competency.

| Rating Rubric | | | |

Indicator 9.4 – Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Narrative: Leading is about enabling others to succeed. Recognition of the successes and contributions of others is a key leadership function. Recognition from the leader is motivating and focusing. The recognition needed is more than "good job." It identifies what people did to generate the success being recognized. Recognizing the way in which people succeed encourages them to continue those practices and informs others "by what methods" they may do the same.

Reflection Questions for Indicator 9.4

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|--|---|---|
| What might be some of the potential benefits that would come from you sharing your talents in this area with your colleagues in the district? | In what ways are you utilizing the recognition of failure as an opportunity to improve? How do you enable those that make progress to share "by what method" they did so? | How might you compare your beliefs about the importance of providing individual and collective praise to your actual practice? What do you want to be most aware of as you make future plans in this area? | As you assess the importance of acknowledging failures and celebrating accomplishments, what assumptions are guiding you? |

Domain 4 - Professional and Ethical Behavior

Narrative: This domain is focused on the professional integrity and dedication to excellence of the school leader. The indicators in this domain focus on behaviors essential to success as a school leader.

Narrative: There are two broad proficiency areas that are the focus of evaluation of behavior and ethics. One is approached as Proficiency Area 10 of the FSLA which is focused on Florida Principal Leadership Standard #10 (FPLS). The indicators in proficiency area 10 address resiliency, professional learning, commitment, and conduct. The other major professional behavior area, Deliberate Practice, is a separate metric, scored separately and, when combined with the overall FLSA score, generates the Leadership Practice Score.

Indicator 10.1 – Resiliency: The leader demonstrates resiliency in pursuit of student learning and faculty development by:

- staying focused on the school vision,
- · reacting constructively to adversity and barriers to success,
- acknowledging and learning from errors,
- constructively managing disagreement and dissent with leadership,
- bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and
- productive attitudes in the face of adversity.

Narrative: The lead indicator in this FSLA domain is focused on resiliency. Leadership takes strength of character and a capacity to "weather the storm(s)" to get quality results. It includes learning from mistakes and sticking with it until you get it right.

Indicator 10.2 – Professional Learning: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Narrative: Professional learning is addressed in several FSLA indicators, each from a different perspective. Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Indicator 4.4 focuses on professional learning needed to implement priority initiatives. Indicator 4.6 addresses alignment of faculty professional learning with improvement of instruction. The Deliberate Practice metric concentrates on a very few issues where the leader drives for deep learning and personal mastery of a few "thin slices." Indicator 10.2 is focused on the impact of the leader's professional learning – does the leader's learning result in improved performance?

Rating Rubric

Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

Performance improvements linked to professional learning are shared with other leaders thus expanding impact.

The leader approaches every professional learning opportunity with a view toward multidimensional impact.

Knowledge and skills are shared throughout the organization and with other departments, schools, and districts.

Rather than merely adopting the tools of external professional learning, this leader creates specific adaptations so that learning tools become part of the culture of the organization and are "home-grown" rather than externally generated.

The leader provides evidence of leverage, applying each learning opportunity throughout the organization. This leader creates forms, checklists, self-assessments, and other tools so that concepts learned in professional development are applied in the daily lives of teachers and leaders throughout the organization.

Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

The leader routinely shows improvement in areas where professional learning was implemented.

The leader engages in professional learning that is directly linked to organizational needs.

The priority is given to building on personal leadership strengths.

The leader personally attends and actively participates in the professional learning that is required of other leaders in the organization.

The leader personally attends and actively participates in the professional learning required of teachers.

There is clear evidence of the actual application of personal learning in the organization. Where learning has not been applied within the organization, this leader rigorously analyzes the cause for this and does not continue investing time and money in professional learning programs that lack clear evidence of success when applied in the organization.

Needs Improvement:

Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

The leader demonstrates some growth in some areas based on professional learning.

The leader actively participates in professional learning, but it is reflective of a personal agenda rather than addressing the strategic needs of the organization.

The leader attends professional learning for colleagues, but does not fully engage in it and set an example of active participation.

The leader has given intellectual assent to some important learning experiences, but can give only a few specific examples of application to the organization.

Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

There is no or only minimal impact of professional learning on the leader's performance.

The leader might introduce a professional learning program, but does not participate in the learning activities along with the staff.

The leader is not strategic in planning a personal professional learning focus aligned with the school or district goals.

Even on those rare occasions when the leader engages in professional learning, the purpose appears to be merely collecting information rather than reflecting on it and applying it to the organization. Professional learning is an expense, not an investment in constructive improvements.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. <u>Illustrative examples</u> of such evidence may include, but are not limited to the following:

- The leader is an active participant in professional learning provided for faculty.
- The leader's professional growth plan includes professional learning topics that are directly linked to the needs of the school

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers' anecdotal evidence of the leader's support for and participation in professional learning.
- The frequency with which faculty members are engaged in professional learning with the school leader.

or district.

- Evidence the leader has applied lessons learned from the research to enhance personal leadership practices.
- Case studies of action research shared with subordinates and/or colleagues.
- Forms, checklists, self-assessments, and other learning tools the leader has created that help the leader apply concepts learned in professional development.
- Membership and participation in professional learning provided by professional organizations.
- The leader shares professional learning with other school leaders.
- Other leadership evidence of proficiency on this indicator.

- Changes in student growth data, discipline data, etc., after the leader's professional development.
- Teachers can articulate professional learning shared by the leader after the leader's professional learning was implemented.
- Other impact evidence of proficiency on this indicator.

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|--|---|---|--|
| What has been most effective in creating a focus on professional learning? How might you lead this effort across the district? How have you synthesized new professional learning into existing learning for more sophisticated application? How have you applied this learning to support and encourage the growth of other leaders? How will you leverage your professional learning throughout the school, district, and beyond? | To what degree do you explicitly identify the focus areas for professional development in faculty and grade level/department meetings? How will you determine whether application of your own professional learning is impacting student achievement and the school as a whole? How are you adjusting application when clear evidence of success is not apparent? | How are you investing your professional learning and applying it to your school on daily basis? How do you apply this learning in multiple leadership venues? | What steps can you take to participate in professional learning focused on school and district goals with your staff? What steps can you take to begin to apply professional learning to your daily work? |
| <i>'</i> | application when clear evidence | | |

Indicator 10.3 – Commitment: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community.

Narrative: Leaders are committed to carrying out the role of school leader in ways that benefit others: Students – faculty – community. Barriers to having that impact are not seen as reasons to give up but as problems to be solved.

| Nating Nubit | | | |
|---|--|--|--|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. The messaging and support systems of the effective principal are expanded to engage parents and the community at large in participating in actions that promote student success and mitigate or eliminate multiple barriers to success. The principal's actions on behalf of students form a foundation of mutual respect between students, faculty and the community. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There are programs and processes within the school that focus all students on the importance of success in school and multiple tiers of support to assist them in overcoming barriers to success. Positive slogans and exhortations to succeed are supported with specific and realistic guidance and supports on how to succeed and overcome barriers. The schools vision of success for all students is shared with the community at large. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader demonstrates professional concern for students and for the development of the student's potential but implementation of processes to identify barriers to student success have limited scope and have resulted in actions to mitigate those barriers and provide supports for success only for some students. There are gaps in processes that engage all faculty in understanding the student population and the community in which they live. Some student sub-groups do not perceive the school as focused on their best interests. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. Other than slogans and exhortations to do better, there is minimal or no evidence of principal leadership being employed to implement the FEAPs and FPLS for the benefit of students in the school, and the leader is not perceived by staff, students, or community as a sincere and effective advocate for the students. |

Reflection Questions for Indicator 10.3

| Highly Effective | Effective | Needs Improvement | Unsatisfactory |
|---|---|---|---|
| What actions are needed to sustain the role of the school in generating a community wide effort to insure students succeed? | What outreach can you initiate to expand the involvement of parents and community leaders in supporting student success and deepening understanding of the barriers and actions that mitigate them? | Have you presented an effective challenge to perceptions that student apathy or lack of parent involvement are acceptable explanations for lack of success by some students or subgroups? | Do you know enough about the students and the community in which they live to recognize the barriers that prevent success by all of the students? |

Indicator 10.4 – Professional Conduct. The leader Adheres to the Code of Ethics (Rules 6B-1.001) of the Education Profession in Florida and to the Principles of Professional Conduct for the education profession (Rules 6B-1.006, F.A.C.).

Narrative: State Board Rules define specific expectations for the conduct and ethical behaviors for Florida educators.

Rating Rubric

| | - cc 4: | NI II | 11 4 6 4 |
|---|---|---|---|
| Highly Effective: Leader's actions or impact of leader's actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. There is clear, convincing, and consistent evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida, and inspires others within the organization to abide by that same behavior. The leader clearly demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community, as a result the leader achieves and sustains the highest degree of ethical conduct and serves as a model for others within the district. | Effective: Leader's actions or impact of leader's actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. There is clear evidence that the leader values the worth and dignity of all people, the pursuit of truth, devotion to excellence (i.e., sets high expectations and goals for all learners, then tries in every way possible to help students reach them) acquisition of knowledge, and the nurture of democratic citizenship. The leader's primary professional concern is for the student and for the development of the student's potential. Therefore, the leader acquires the knowledge and skills to exercise the best professional judgment and integrity. The leader demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community. As a result the leader adheres to the prescribed ethical conduct. | Needs Improvement: Leader's actions or impact of leader's actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. The leader's behaviors enable recurring misunderstanding and misperceptions about the leader's conduct and ethics as expressed in the Code and Principles. There are segments of the school community whose developmental needs are not addressed and leadership efforts to understand and address those needs is not evident. The leader has only a general recollection of issues addressed in the Code and Principles and there is limited evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida. | Unsatisfactory: Leader's actions or impact of leader's actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. The leader's patterns of behavior are inconsistent with the Code of Ethics, Rule 6B-1.001, or disciplinary action has been initiated based on violation of the Principles of Professional Conduct, Rule 6B-1.006. |

FSLA Template updated 5/9/12 and posted on FSL website

School Administrator Evaluation System

I. Performance of Students Elements

- D. For school administrators, student learning growth will be based on statewide assessment results as calculated by the state-adopted value added model.
- E. The years for which data will be used in calculating the student learning growth will be indicated on the school administrator's evaluation form. The minimum requirement will be the current year's data.
- F. The percentage of an evaluation based on student performance will be 50% when there are three years of data present. If less than three years of data are available for a school administrator, the percentage will be 40%.
- H. School year 2011-12 will be considered year 1. School year 2012-13 will be considered year 2. Three years of data will be available in school year 2013-14.

II. Leadership Practice Elements

The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.

III. Professional and Job Responsibility Elements

The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.

IV. Summative evaluations form(s) and scoring and weighting systems that define how student growth measures and proficiency levels are calculated and combined to obtain a summative performance level.

The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.

V. Statement of purpose consistent with the purpose for evaluation systems as expressed in Section 1012.34(1)(a), FS.

The Okeechobee County School District is using the state model for the School Administrator Evaluation.

VI. Multiple measures are employed that inform improvement processes and evaluation decisions. Multiple measures must be included in determining the summative evaluation. This means the result is based on more than two sources of data. Data sources include evidence of student learning growth, instructional practice, deliberate practice, parental input, and may include other data sources as determined by the district. The weighting and scoring of such measures shall be incorporated into either the student growth measure portion or instructional or leadership practice portion of the evaluation. Measures of practice or job responsibilities shall be incorporated into the instructional or leadership practice portion of the performance level rating. District developed end-of-course student growth measures or learning targets must be aligned with the standards in the state course description(s).

The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.

VII. Performance Levels and rubric(s) used to differentiate between performance levels on the summative rating.

The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.

VIII. Input Mechanisms

- A. School principals report directly to the Superintendent of Schools; therefore, the Superintendent of Schools will evaluate school principals. Assistant principals will be evaluated by their supervising principal.
- B. Parents have an opportunity to provide input to a school administrator's performance evaluation through various methods including, but not limited to, the following: annual climate surveys, School Advisory Council, and District Advisory Council.
- C. Instructional personnel have an opportunity to provide input to school administrator's performance evaluation through the annual climate survey. Specific indicators on the climate survey address the performance of the school administrators.
- D. Other individuals who may provide input to school administrator's performance evaluation may include, but not limited to, the following personnel: district staff, assistant principals, and district administrators. Information from internal audits, FTE review, FLDOE program reviews, and other pertinent information may be considered in the evaluation.

E. N/A

IX. Training: Provides for training programs that are based upon guidance provided by the Department to ensure that all employees subject to an evaluation system are informed on evaluation criteria and processes, and that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures.

A. The School Administrator Evaluation Committee, comprised of the Assistant Superintendent for Instructional Services, the Assistant Superintendent for Administrative Services, the Director of Human Resources, an elementary principal, and a secondary principal, have attended training provided by the Department and The Leadership and Learning Center. Following this training, the members of the committee will present an overview of the evaluation system to school administrators prior to the end of the 2011-12 school year. Additional training for school administrators will be arranged during the summer of 2012.

School principals and the Superintendent will receive training on using the evaluation system as an evaluator prior to the beginning of the 2012-13 school year. One focus of training will be on Florida's common language of instruction and on the assessment process.

- B. Continuous training for school administrators shall be available at monthly meetings for principals and assistant principals. These meetings will focus on the common language of instruction, the evaluation instrument, and the supporting documents required for implementation of the evaluation. School administrators will also receive feedback and individualized training during the meetings and reviews of the assessment process.
- C. The district will provide training for those individuals who will be evaluators of school administrators. This training will begin prior to the beginning of the 2012-13 school year and have periodic updates and "boosters" at least three times during the 2012-13 school year.

X. Continuous Improvement and Professional Development

- A. Principals and assistant principals will analyze the results of their individual evaluations in order to made decisions on staffing, curriculum, and professional development. This information will be incorporated into the School Improvement Plan. Data will be analyzed at the district level by the Superintendent or his designee for inclusion in the District Improvement Plan.
- B. 1. The Okeechobee County School District is implementing the state model for the School Administrator Evaluation.
- 2. The district will use an Individualized Leadership Development Plan form for the development of an individualized plan for each school administrator. Data collected from the analysis of school administrator evaluations will be used to develop individual professional development plans.

- 3. Monitoring of the implementation of the individual improvement plans will occur during the meetings outlined in the Florida School Leader Assessment process.
- 4. The Coordinator of Staff Development will facilitate the analysis of professional development as it impacts individual indicators on the evaluation. Feedback from evaluations of professional development activities will be used in the analysis as well as anecdotal notes from administrators about the impact of the professional development.

5. N/A

- C. In order to be in compliance of Staff Development Protocol, the content of the Master Inservice Plan will align with the district's needs assessment, the district's Strategic Plan, the School Improvement Plans, the District Improvement Plan, and the individual plans of the school administrators. The Office of Staff Development will strive to provide professional development designed to address the needs and requests of school administrators based on the data from the evaluations.
- D. Various departments of the district (Information Technology, Instructional Services, Staff Development, and Human Resources) will coordinate efforts to align in the Local Instructional Improvement System (LIIS) to include data from evaluations, school improvement and professional development planning, data collection and analysis, and impact monitoring.
- E. Specific and actionable feedback on proficiency of performance to those being evaluated, monitoring the effective and consistent use of the evaluation criteria, and the district monitoring will follow the following schedule:
 - 1. Orientation August of school year
 - 2. Pre-evaluation and planning August and September of school year
 - ${\bf 3.}\ \ Initial\ meeting\ between\ evaluatee\ and\ evaluator\ -\ September\ of\ school$

year

- 4. Monitoring, data collection, and application to practice September through June of school year
- 5. Mid-year progress review between evaluatee and evaluator January of school year
- 6. Prepare a consolidated performance assessment May and June of school year
- 7. Year-end meeting between evaluatee and evaluator June of school year with follow-up when student learning data are available
- F. The School Administrator Evaluation System will be reviewed annually by a team composed of district administrators and school principals. Data from evaluations will be analyzed. The Director of Accountability and Assessment will facilitate the process of data analysis. The committee will consider revisions to the process and recommend adjustments as needed.

XI. Annual Evaluation

School administrators will be evaluated a minimum of one time per year.

XII. Reporting processes that meet the requirements of subsection (7) of this rule

A. The approved evaluation documents will be posted at http://www.okee.k12.fl.us/html/evaluation.html

B. The committee will convene to review data and prepare information to submit in order to meet the requirements of subsection (7).

XIII. Special Procedures

C. The evaluator may amend the student learning growth component of the evaluation of school administrators if data from the current school year become available within 90 days after the close of the school year.
