https://suncom.webex.com/suncom/j.php?ED=171495252&UID=1328035987&RT=MiMxMQ%3D%3D
Dial-in Number: 1-888-670-3525
Participant Passcode: 2485005088

Chairperson's Comments
Dr. Ed Massey

Action Items
1. October 24, 2012 Meeting Minutes Dr. Ed Massey
2. Common Prerequisite Updates Abbey Cunningham
3. Nonpublic Articulation Agreements Abbey Cunningham
4. Revisions to Articulation Rule (6A-10.024, F.A.C.) Matthew Bouck

Discussion Items
5. 2013 Legislation Matthew Bouck
6. General Education Project Matthew Bouck
8. Dual Enrollment Instructional Materials Matthew Bouck

The next ACC meeting is scheduled for May 22, 2013
## Articulation Coordinating Committee

### Meeting Minutes

**October 24, 2012**

<table>
<thead>
<tr>
<th><strong>Action Items</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Approval of</td>
<td>The meeting minutes were approved.</td>
</tr>
<tr>
<td>April 18, 2012</td>
<td></td>
</tr>
<tr>
<td>Meeting Minutes</td>
<td></td>
</tr>
<tr>
<td>Common Prerequisites</td>
<td>Ms. Lynda Page presented updates to the Common Prerequisite Manual for four programs:</td>
</tr>
<tr>
<td></td>
<td>- Computational Science  CIP 30.3001</td>
</tr>
<tr>
<td></td>
<td>- General Studies  CIP 24.0106</td>
</tr>
<tr>
<td></td>
<td>- Hospitality Administration  CIP 52.0901</td>
</tr>
<tr>
<td></td>
<td>- Human Services  CIP 44.0000</td>
</tr>
<tr>
<td></td>
<td>The ACC discussed some current concerns regarding common prerequisites:</td>
</tr>
<tr>
<td></td>
<td>1) Some courses identified as common prerequisites have specific grade requirements to apply to a degree program, these should be identified in the manual;</td>
</tr>
<tr>
<td></td>
<td>2) in some programs (Accounting was cited as an example) students are required to complete an assessment prior to admission, so even if common prerequisite courses are completed there are still other program entrance requirements; and (3) with the reduction of general education to 30 hours, must be sure the program is well defined for articulation purposes. Look at “institutional requirements” or “graduation requirements.” These are courses that are required over the general education program.</td>
</tr>
<tr>
<td></td>
<td>The four common prerequisite programs were approved.</td>
</tr>
<tr>
<td>ACC Credit-by-Exam Equivalencies</td>
<td>Ms. Amanda Register presented updates to the ACC Credit-by-Exam Equivalencies List.</td>
</tr>
<tr>
<td></td>
<td>Advanced Placement</td>
</tr>
<tr>
<td></td>
<td>- Revised exam and discontinued exam</td>
</tr>
<tr>
<td></td>
<td>Cambridge AICE</td>
</tr>
<tr>
<td></td>
<td>- One new exam and nine changes to course equivalencies</td>
</tr>
<tr>
<td></td>
<td>International Baccalaureate</td>
</tr>
<tr>
<td></td>
<td>- Two new exams and one exam revision</td>
</tr>
<tr>
<td></td>
<td>DSST</td>
</tr>
<tr>
<td></td>
<td>- One new exam</td>
</tr>
<tr>
<td></td>
<td>Excelsior</td>
</tr>
<tr>
<td></td>
<td>- Seven new exams and updated scoring</td>
</tr>
<tr>
<td></td>
<td>UExcel</td>
</tr>
<tr>
<td></td>
<td>- Three new exams</td>
</tr>
<tr>
<td></td>
<td>The 2012 revisions to the equivalency list were approved and will be sent to the State Board of Education and Board of Governors.</td>
</tr>

### Discussion Items

<table>
<thead>
<tr>
<th>Presentation Given</th>
<th>Dr. Jan Ignash made a presentation similar to one given to the Board of</th>
</tr>
</thead>
<tbody>
<tr>
<td>Topic</td>
<td>Description</td>
</tr>
<tr>
<td>----------------------------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>to Commission on Florida Higher Education Access and Degree Attainment</td>
<td>Governors' Commission on Florida Higher Education Access and Degree Attainment on September 26, 2012. Bachelor's degree production goals are higher than the historical trend. This demands a review of degree needs—where should the system grow? Dr. Ignash presented methodologies used to determine baccalaureate degree supply and demand. Given workforce needs, are current policies sufficient to meet the demand? The next Commission meeting will examine Florida's economy.</td>
</tr>
<tr>
<td>General Education Project</td>
<td>Mr. Matthew Bouck presented an update to the general education project mandated by HB 7135. This mandates that faculty committees identify a maximum of five courses in each of the general education subject areas of communication, humanities, mathematics, natural science, and social science. This will make up a general education core within the total 30 hours. These changes will apply to students initially entering a Florida College System or State University System institution in 2014. The following day (October 25), faculty committees will be meeting at USF to begin the work of identifying the core course options. Each faculty committee is composed of six faculty members each from the FCS and SUS. Steering Committee members will chair the committees as non-voting members. The ACC discussed a consequence of these general education changes—a requirement to submit a substantive change document to SACS. It is important in this process that faculty are at the center of institutional approval of these changes.</td>
</tr>
<tr>
<td>Rule Revision: 6A-10.024, FAC</td>
<td>Mr. Matthew Bouck presented recommendations to revise the Articulation Rule. The revisions will come in two phases, technical changes and more substantive changes. There have been discussions about the appropriate vehicle for this rule, including: (1) a separate rule and regulation; (2) broken into several smaller rules, or (3) as a Memorandum of Understanding between the State Board of Education and Board of Governors. The ACC proposed moving forward with the technical changes while working on the more long-term substantive issues.</td>
</tr>
<tr>
<td>Nonpublic Articulation Agreements</td>
<td>Ms. Carrie Henderson presented information about nonpublic institution articulation agreements with the Florida College System. There are currently six agreements, with several other institutions expressing an interest in entering into an agreement. Two such agreements were presented for ACC comment: Ashford University and the Chamberlain College of Nursing. The ACC discussed factors to consider when approving agreements: establishing baseline information using data from the Integrated Postsecondary Education Data System (IPEDS), levels of student loans and debt, whether to require a student satisfaction survey; and student</td>
</tr>
</tbody>
</table>
progression and performance after transfer.

The process for negotiating these agreements and updated articulation agreements for these institutions will be brought to a future ACC meeting for action.

<table>
<thead>
<tr>
<th>AS-BS Articulation Agreement Review</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mr. Matthew Bouck reviewed the existing AS-BS articulation agreements, noting that many of them are outdated, or apply to programs that do not exist. In addition, when looking at the numbers of students who utilize these agreements, their usage is low—except for Nursing. Mr. Bouck proposed the deletion of these agreements in favor of the more recently updated programs in the Common Prerequisite Manual.</td>
</tr>
<tr>
<td>There was a concern about the transfer of general education coursework. Under the current agreements the general education component of the AS degree is guaranteed to transfer. Without these agreements these general education courses may be examined course-by-course.</td>
</tr>
<tr>
<td>The ACC would like to have the Occupational Education Steering Committee (OESC) comment on the AS-BS Articulation Agreements prior to ACC action.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Limited Access</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ms. Lynda Page presented a plan to create a Limited Access Task Force to review issues relating to the identification of programs and articulation into such programs. There are issues relating to the identification of limited access programs, based on capacity or limited enrollment. It is important to examine SUS and FCS data to determine a common definition of limited access, to ensure equity between the FTIC and transfer student. A Limited Access Task Force made up of three members each from the SUS and FCS will examine these issues.</td>
</tr>
<tr>
<td>Ms. Page reported that new questions were added to the SUS limited access program file that is submitted each year. These will assist in monitoring these programs, and include the semester that students are admitted, matriculation points for FTIC and AA, and the total anticipated capacity for the program.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>HB 347 – Military Training Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ms. Carrie Henderson and Ms. Lynda Page presented an update in progress toward rule and regulation adoption that enable eligible members of the US armed forces to earn academic credit for training acquired in the military. In addition, a data element regarding military credit will be added to the community college data system.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Sector Updates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public Schools</td>
</tr>
<tr>
<td>Ms. Mary Jane Tappen presented information about new NCAA initial eligibility requirements for Division I student-athletes who will enroll in August 2016 and later. These changes include a minimum core course GPA of 2.30, an increased GPA/assessment sliding scale standard, and a requirement that 10 core courses (of the total 16) be completed before the beginning of the senior year. Seven of the 10 core courses must be in English, math, and science.</td>
</tr>
<tr>
<td>Florida College System</td>
</tr>
<tr>
<td>Ms. Julie Alexander presented an update on the Florida College System.</td>
</tr>
</tbody>
</table>
There have been over 1,000,000 P.E.R.T. administrations since 2010, with 250,000 on high school campuses in Spring, 2012. School districts and high schools have done a tremendous amount of work to make this happen.

The average test scores between administrations at the college and high school are in the same range, with reading and writing higher at the college, math higher at the high school.

There is about to begin a standard-setting process with faculty engagement. The anticipated timeline for this effort (if new scores are established) is late spring 2013, for a fall 2013 implementation at the college.

The Department is building a database in the existing score repository for P.E.R.T. This will allow all institutions to receive P.E.R.T. scores—the process now is not standard for the high school and postsecondary institution. This repository should be ready in November 2012.

There is great interest in Florida and nationally about developmental education. There is a developmental education summit on October 30 at St. Petersburg College. State and national leaders and faculty are invited. The summit will examine policies and practices to improve student success.

The FCS and SUS received a $495,000 “Credit When It’s Due” grant to increase degree attainment of Florida students through associate degrees awarded via reverse transfer. This will help to identify students who may qualify for an associate degree. This program fits with the overall college completion agenda.

Ms. Lynda Page presented an update on three regulations that are in process with the Board of Governors. They are:

- College credit for military training
- Common placement testing
- For FTIC students, the inclusion of level III career and technical education courses as electives for SUS admissions

Ms. Page also presented information about a newly instituted process to review courses added to the Bright Futures Comprehensive Course Table for application to SUS admissions.

FOR ALL MAJORS: Students are strongly encouraged to select required lower division electives that will enhance their general education coursework and that will support their intended baccalaureate degree program. Students should consult with an academic advisor in their major degree area.

Admission to Bachelor of Applied Science (B.A.S) degree programs usually requires an Associate in Science (A.S) or Associate in Applied Science (A.A.S) degree in a related area. If a student has earned an Associate in Arts (A.A.) degree, or an A.S. degree, an A.A.S. degree, or its equivalent in an unrelated area, the student may be admitted on a case-by-case basis with approval of the appropriate academic administrator. Some majors may have licensure or other types of requirements prior to admittance. Due to the variance in specialized B.A.S degree programs and concentrations, students are strongly encouraged to consult with an academic advisor at the B.A.S. degree-granting institution.

FOR ALL MAJORS: Students are strongly encouraged to select required lower division electives that will enhance their general education coursework and that will support their intended baccalaureate degree program. Students should consult with an academic advisor in their major degree area.

FOR EDUCATION MAJORS: General education courses will be determined by the college or university where the student currently is earning the Associate in Arts or baccalaureate degree, and will be published in the institution’s existing catalog and in the Community College Counseling Manual, delineated in the Statewide Course Numbering System.

(1) In addition to EDFX085, a minimum of 6sh with an international or diversity focus is required. Eligible courses will be determined by the community college or university where the student is currently earning the Associate in Arts or baccalaureate degree. Foreign language courses may be used to meet this requirement.

* Limited Access.
Articulation Coordinating Committee

February 27, 2013

Item #3

Subject: Update on New Nonpublic Institution Articulation Agreements with the Florida College System

Update on process to develop new articulation agreements and approval of new agreements with Ashford University and Chamberlain College of Nursing

Presenter: Abbey Cunningham
Materials: Ashford University cover sheet, draft Ashford University Articulation Agreement, Chamberlain College of Nursing’s cover sheet, draft Chamberlain College of Nursing Articulation Agreement, ACC comments, CIE comments
COUNCIL OF PRESIDENTS
Action Item
October 31, 2012

SUBJECT: New Nonpublic Articulation Agreements with the Florida College System

SUMMARY
In addition to the Independent Colleges and Universities of Florida (ICUF) articulation agreement, the Florida College System (FCS) currently has six nonpublic statewide articulation agreements. Several universities have contacted the Division of Florida Colleges (Division) about forming new agreements.

The process for forming new articulation, which was developed by the Division and the Office of Articulation, is:
- Step 1: Nonpublic institution works with Division staff to draft agreement
- Step 2: Division presents the draft agreement – along with a cover sheet of key data points – to the Articulation Coordinating Committee (ACC) and Commission for Independent Education (CIE) for comments
- Step 3: Draft agreement, cover sheet, ACC comments, and CIE comments are presented to COP for approval
- Step 4: Upon COP approval, Chancellor signs agreement

Ashford University’s and Chamberlain College of Nursing’s draft articulation agreements are included for the COP’s vote.

ARTICULATION AGREEMENT BETWEEN
THE DIVISION OF FLORIDA COLLEGES
AND
ASHFORD UNIVERSITY

A Statement of Philosophy and Intent

The State of Florida, long a national leader in higher education, has given broad policy directions to the system of postsecondary education with regard to transfer and articulation between and among two- and four-year institutions. A statewide articulation agreement exists in Florida Statutes and Florida Administrative Code to establish an effective and orderly transfer process for students entering a Florida College System institution, completing an Associate in Arts degree, and transferring to a state university or another Florida College System institution. Florida Statutes also encourage collaboration between the public and independent sectors of postsecondary education.

Founded in 1918, Ashford University is a private university located in Clinton, Iowa. The University offers Associate's, Bachelor's, and Master's degrees through its campus in Clinton as well as online degree programs. Ashford is regionally accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools. Ashford University is devoted to maintaining its rich history and heritage; we are a supportive community that combines a traditional college in Clinton, Iowa, with effective and innovative online learning.

The purpose of this agreement is to set forth the uniform conditions regarding articulation between the Florida College System (FCS) and Ashford University (Ashford). It is intended to increase the options available to Associate in Arts (AA) graduates of the Florida College System who are seeking further educational opportunities. This agreement serves as an overarching statement of cooperation between the FCS and Ashford, thus benefiting FCS graduates in Ashford's Bachelor degree programs. However, it is not intended to supersede more specific college and program articulation agreements. This articulation agreement between the FCS and Ashford was established in 2013.
ARTICULATION AGREEMENT BETWEEN
THE DIVISION OF FLORIDA COLLEGES
AND
ASHFORD UNIVERSITY

This Articulation Agreement (Agreement) is entered into this ________ day of ______________, _____, by and between the Division of Florida Colleges and Ashford University.

WHEREAS, the parties desire to promote the most efficient and effective use of their resources and to offer students the broadest possible range of educational opportunities, and

WHEREAS, the parties desire to encourage and facilitate the establishment of specific articulation provisions between Florida College System institutions and Ashford University, and

WHEREAS, the intent of this Agreement is to facilitate the transfer of Associate in Arts students from Florida College System institutions to Ashford University,

NOW, THEREFORE, the parties agree to cooperate in articulating programs in accordance with the terms set forth herein.

I. Ashford University shall recognize the Associate in Arts degree(s) as the transfer degree(s) from participating Florida College System institutions.

II. Ashford University shall publish an articulation manual that specifies the baccalaureate programs articulated with the Associate in Arts degree, including the course requirements and related prerequisite courses for each program. This articulation manual will be made available to students, faculty, and advisors through the Florida Virtual Campus website and the Ashford University transfer page. The manual will be reviewed and updated on an annual basis.

III. Ashford University shall develop course equivalency tables, specifically for program prerequisites and course requirements, insofar as it is reasonable and necessary to do so. Courses that are designated as equivalent in objectives, content, and credit hours must be treated as equivalent for participating Florida College System institutions.

IV. Ashford University shall annually provide data to the Division of Florida Colleges on the number of FCS graduates by academic term who enroll under the provisions of this agreement and graduate with the baccalaureate degree.

V. Ashford University and the Division of Florida Colleges shall agree to the following conditions:

A. College students who transfer with an Associate in Arts degree under the terms of this Agreement shall enter with junior standing, provided that transfer students meet the same standards and program requirements as native students. This includes admissions requirements (i.e., standard high school diploma, high school equivalency diploma, or other credential as authorized by Florida
Statutes), college placement testing, and prior successful completion of all college preparatory coursework as mandated by state-approved assessments and standards. Failure to demonstrate adherence to agreed-upon standards of individual student college readiness may abrogate guarantees for transfer of credit for specific students or termination of this agreement.

B. Florida College System students who transfer under the terms of this Agreement shall be considered as having completed the general education competencies and subject area requirements of Ashford University. Students will be required to take the Introductory Course requirements and the General Education Capstone as prescribed by their baccalaureate degree plan. However, Ashford University may specify additional courses that must be completed prior to the awarding of the baccalaureate degree. Courses not required to be taken at Ashford University may be completed at either institution.

C. A college student transferring under the terms of this Agreement shall be governed by the graduation requirements set forth in the Ashford University catalog in effect at the time of the student’s initial enrollment at Ashford University.

D. Admission of a Florida College System student to Ashford University will depend on the number of spaces in each academic year and the continuation of the program. Program discontinuance will remove any obligation (beyond those protections afforded to native students) of Ashford University to comply with the provisions of the Articulation Agreement relative to the discontinued program.

E. For the students accepted for transfer, the grade of “D” will be treated the same as grades of “D” obtained by native students at Ashford University. Ashford University may require a grade point average (GPA) of not less than 2.0 overall or a grade of “C” or better in all prerequisite courses, provided the same policy is applied equitably for native and transfer students.

F. All college-level credit (1000 level or higher) awarded by participating Florida College System institutions will transfer to Ashford University, based on the established number of credits in the college program of study. This includes a minimum of 60 credits for the Associate in Arts. However, the student must meet the specific degree course requirements of Ashford University which may mean extending the number of credit hours to earn the degree, if the 60 hours transferred and applied do not include all of the degree prerequisites.

G. Credit awarded by a participating Florida College System institution as experiential credit and/or credit awarded by exam, such as College Level Examination Program (CLEP), International Baccalaureate (IB) Program, Advanced International Certificate of Education (AICE) Program, and Advanced Placement (AP), while acceptable to satisfy associate degree requirements, may or may not satisfy specific requirements of the baccalaureate degree.

H. Programmatically, the forgiveness policy for Ashford University shall prevail.

I. Authority over all academic policies or practices not mentioned in this Agreement shall remain with Ashford University.
VI. During the period of this Agreement, the Division of Florida Colleges shall:

A. Publicize the Articulation Agreement among the faculty, staff, and students in the Florida College System via the Florida Virtual Campus website as well as other appropriate Department of Education and Division of Florida Colleges publications, correspondence, and outreach activities.

B. Make available to faculty members, counselors, students, and other appropriate individuals within the Florida College System, the Ashford University admission requirements; preferred general education requirements; program prerequisite courses, other related requirements, and the course equivalency lists. This will be done via the Florida Virtual Campus website.

C. Accept the Participation Agreements submitted by participating Florida College System institutions.

VII. Both parties agree:

A. To cooperate on curricular and advising issues that will facilitate future student transfer.

B. To foster communication between Ashford University, the Division, and the Florida College System, the following individuals will serve as liaison officers for matters relating to this Agreement:

<table>
<thead>
<tr>
<th>Division of Florida Colleges:</th>
<th>Ashford University:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ms. Abbey Cunningham</td>
<td>Mark Young</td>
</tr>
<tr>
<td>Coordinator of Baccalaureates and Common Prerequisites</td>
<td>Divisional Vice President of Academic Partnerships</td>
</tr>
<tr>
<td>(850) 245-9492 or <a href="mailto:abbey.cunningham@fldoe.org">abbey.cunningham@fldoe.org</a></td>
<td>(800) 798-0584 ext. 3426</td>
</tr>
<tr>
<td></td>
<td><a href="mailto:Mark.young@ashford.edu">Mark.young@ashford.edu</a></td>
</tr>
</tbody>
</table>

Both parties agree to notify the other in writing of any changes in contact information for their respective liaison officers.

C. To provide for periodic review of the Agreement to evaluate articulation between the Florida College System and Ashford University. The review should be initiated by the Division and should take place once every three years, following initial implementation of the Agreement.

VIII. Participation Agreements.

A. Each Florida College System institution that elects to participate shall submit to the Division of Florida Colleges a Participation Agreement. The Participation Agreement shall be in effect until terminated.

B. Proposed modifications, additions, or deletions to a Participation Agreement must be in writing and signed by both parties.

C. Termination of a Participation Agreement must be submitted in writing to the Division of Florida Colleges prior to April 1 of each year. The termination of the agreement will be in effect
beginning with the following Fall term. Ashford University shall abide by the terms and conditions of the Articulation Agreement and the Participation Agreement for all students who were enrolled in a Florida College System institution on or before the effective date of termination, except with regard to terminated programs.

IX. Applicable Law. This Agreement will be governed and construed in accordance with the laws of the State of Florida and the rules of the State Board of Education.

X. Modifications. Any modifications, additions, or deletions to this Agreement must be in writing and signed by both parties. The designated representatives are the President of Ashford University and the Chancellor for the Division of Florida Colleges.

XI. Termination of the Articulation Agreement. Either party may terminate this Agreement by giving written notice to the other party. The notice shall state the effective date of termination which shall be at least one year after the date on which the notice is received by the other party. Any student enrolled in a Florida college during the time this Agreement is in effect shall continue to receive the benefits of the Agreement until the effective date, one year after notification, provided all conditions contained herein are met by the student.

This Articulation Agreement between Ashford University and the Division of Florida Colleges was accepted and approved by the participating entities this ________ day of ______________, 2012.

By: ______________________________ By: _________________________________
   President, Ashford University   Chancellor, Division of Florida Colleges

THIS AGREEMENT shall take effect on ____________, and shall remain in effect until terminated by either party.

ARTICULATION AGREEMENT BETWEEN
THE DIVISION OF FLORIDA COLLEGES
AND
CHAMBERLAIN COLLEGE OF NURSING, LLC

A Statement of Philosophy and Intent

The State of Florida, long a national leader in higher education, has given broad policy directions to the system of postsecondary education with regard to transfer and articulation between and among two- and four-year institutions. A statewide articulation agreement exists in Florida Statutes and Florida Administrative Code to establish an effective and orderly transfer process for students entering a Florida college, completing an Associate in Arts degree, and transferring to a state university. Florida Statutes also encourage collaboration between the public and independent sectors of postsecondary education.

Chamberlain College of Nursing, LLC, is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools. The online Bachelor of Science in nursing degree program under this agreement is accredited by the Commission on Collegiate Nursing Education (CCNE, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202.887.6791) and the National League for Nursing Accrediting Commission (NLNAC).

The purpose of this agreement is to set forth the uniform conditions regarding articulation between the Florida College System (FCS) and Chamberlain College of Nursing, LLC. It is intended to increase the options available to graduates holding an associate in science degree in nursing who are seeking a baccalaureate degree in nursing. This agreement serves as an overarching statement of cooperation between FCS and Chamberlain College of Nursing, LLC, thus benefiting FCS graduates in nursing degree programs. However, it is not intended to supersede more specific college and program articulation agreements as developed in geographic areas served by campuses of Chamberlain College of Nursing, LLC. This articulation agreement between FCS and Chamberlain College of Nursing, LLC, was established in 2012.
ARTICULATION AGREEMENT BETWEEN

THE DIVISION OF FLORIDA COLLEGES

AND

CHAMBERLAIN COLLEGE OF NURSING

This Articulation Agreement is entered into this ___ day of ___________, 2012, by and between the Division of Florida Colleges and Chamberlain College of Nursing, LLC (“Chamberlain” or “Chamberlain College of Nursing”).

WHEREAS, the parties desire to promote the most efficient and effective use of their resources and to offer students the broadest possible range of educational opportunities, and

WHEREAS, the parties desire to encourage and facilitate the establishment of specific articulation provisions between Florida College System (FCS) institutions and Chamberlain College of Nursing, and

WHEREAS, the intent of this agreement is to facilitate the transfer of Associate in Science in nursing degree graduates from FCS institutions to Chamberlain College of Nursing,

NOW, THEREFORE, the parties agree to cooperate in articulating programs in accordance with the terms set forth herein.

I. Chamberlain College of Nursing shall agree to the following conditions:

A. FCS students who transfer with an Associate in Science in nursing degree under the terms of this Agreement shall enter with junior standing provided that transfer students shall meet the same standards and program requirements as native students, including verification of a current, active U.S. Registered Nurse (RN) license.

B. FCS students who transfer under the terms of this Agreement shall be considered as having completed the general education requirements of Chamberlain College of Nursing RN-BSN completion program. The Chamberlain RN-BSN degree completion program is a 129 semester credit hour baccalaureate degree program. Chamberlain College of Nursing requires that a minimum of 32 hours be completed at Chamberlain in order to graduate. However, Chamberlain College of Nursing may specify additional courses that must be completed prior to the awarding of the baccalaureate degree provided native and transfer students are treated equally. These courses may be completed at either institution.

C. A FCS student transferring under the terms of this Agreement shall be governed by the graduation requirements set forth in the Chamberlain College of Nursing catalog in effect at the time of the student’s initial enrollment in a FCS institution, provided the student maintains
continuous enrollment as defined by Chamberlain College of Nursing and receives an Associate in Science degree in nursing and transfers to Chamberlain College of Nursing within six years of initial enrollment in a FCS institution. Continuous enrollment as defined by Chamberlain College of Nursing is enrollment in at least one course that meets the degree requirements each semester, as offered by Chamberlain. The student will also have the option of graduating under the catalog in effect at the time of transfer. However, all students are subject to changes imposed by state law or rule as long as those changes are imposed on native students who began initial enrollment at the same time as the transfer students.

D. For the students accepted for transfer, the grade of “D” will be treated the same as grades of “D” obtained by native students at Chamberlain College of Nursing. Chamberlain College of Nursing requires a grade point average (GPA) of not less than 2.0 overall or a grade of “C” or better in all nursing courses, provided the same policy is applied equitably for native and transfer students.

E. Credit awarded by a Florida College System institution as experiential credit and/or credit awarded by exam, such as College Level Examination Program (CLEP), International Baccalaureate (IB) Program, Advanced International Certificate of Education (AICE) Program, and Advanced Placement (AP), are acceptable to satisfy Associate in Science in nursing degree requirements.

F. The grade forgiveness policy for the receiving institution shall prevail.

G. Authority over all academic policies or practices not mentioned in this agreement shall remain with Chamberlain College of Nursing.

II. Chamberlain College of Nursing shall recognize the associate in science degree(s) in nursing degree as the transfer degree from The Florida College System.

III. Chamberlain College of Nursing shall publish an Articulation Manual that specifies course requirements and related prerequisite courses for the Bachelor of Science in Nursing. This Articulation Manual will be made available to students, faculty, and advisors through the Florida Virtual Campus website and updated on an annual basis.

IV. Chamberlain College of Nursing shall treat courses that are designated as equivalent in objectives, content, and credit hours as equivalent for all FCS institutions.

V. Chamberlain College of Nursing shall annually provide data to the Division of Florida Colleges on the number of FCS graduates by academic term who enroll under the provisions of this agreement and graduate with the baccalaureate degree.
VI. During the period of this Agreement, the Division of Florida Colleges shall:

A. Publicize the Articulation Agreement among the faculty, staff, and students in The Florida College System via the Florida Virtual Campus website as well as other Department of Education and Division of Florida Colleges publications, correspondence, and outreach activities.

B. Make available to FCS faculty members, counselors, students, and other appropriate individuals within The Florida College System, the Chamberlain College of Nursing admission requirements; preferred general education requirements; program prerequisite courses, other related requirements, and the course equivalency lists. This will be done via the Florida Virtual Campus website.

VII. Both parties agree:

A. To cooperate on curricular and advising issues that will facilitate future student transfer.

B. To foster communication between Chamberlain College of Nursing, the Division, and Florida College System institutions. The following individuals will serve as liaison officers for matters relating to this agreement:

<table>
<thead>
<tr>
<th>Division of Florida Colleges:</th>
<th>Chamberlain College of Nursing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ms. Carrie Henderson</td>
<td>Peggy Guillory, MAED</td>
</tr>

</tr>
<tr>
<td></td>
<td>(630) 512-8870 or <a href="mailto:mseiler@chamberlain.edu">mseiler@chamberlain.edu</a></td>
</tr>
</tbody>
</table>

Both parties agree to notify the other of any changes in contact information for their respective liaison officers.

C. To provide for periodic review of the Agreement to strengthen articulation between The Florida College System and Chamberlain College of Nursing. The review should be initiated by the Division of Florida Colleges.

VIII. Applicable Law. This Agreement will be governed and construed in accordance with the laws of the State of Florida and the rules of the State Board of Education.

IX. Modifications. Any modifications, additions, or deletions to this Agreement must be in writing and signed by both parties. The designated representatives are the President of Chamberlain College of Nursing or his/her designees and the Chancellor for the Division of Florida Colleges.
X. Termination of the Articulation Agreement. Either party may terminate this Agreement by giving written notice to the other party. The notice shall state the effective date of termination which shall be at least one year after the date on which the notice is received by the other party. Any student enrolled during the time this Agreement is in effect shall continue to receive the benefits of the Agreement, provided the student maintains continuous enrollment and all conditions contained herein are met by the student.

This Articulation Agreement between Chamberlain College of Nursing and the Division of Florida Colleges was accepted and approved by:

__________________________________________  __________________________________________
President, Chamberlain College of Nursing, LLC  Chancellor, Division of Florida Colleges

THIS AGREEMENT shall take effect on ____________, and shall remain in effect until termination.
Articulation Coordinating Committee’s Comments
Nonpublic Articulation Agreements

October 24, 2012

General Questions

- Does the agreement mean the receiving institutions can use the Florida College System for marketing purposes?
  Yes. In many cases, receiving institutions will contact the Division of Florida Colleges about marketing materials and the use of the logo. Additionally, the articulation agreements include a section that outlines how the FCS will market these agreements. Language below.

  VI. During the period of this Agreement, the Division of Florida Colleges shall:
      A. Publicize the Articulation Agreement among the faculty, staff, and students in the Florida College System via the Florida Virtual Campus website as well as other appropriate Department of Education and Division of Florida Colleges publications, correspondence, and outreach activities.
      B. Make available to faculty members, counselors, students, and other appropriate individuals within The Florida College System, the (receiving institution’s) admission requirements; preferred general education requirements; program prerequisite courses, other related requirements, and the course equivalency lists. This will be done via the Florida Virtual Campus website.

- Are there standard criteria for evaluating agreements?
  No. However, the inclusion of key data points in the cover sheet is designed to provide interested parties with information relevant to making decisions. The Division would be interested in exploring standardized criteria, including – per a member’s suggestion – the inclusion of cost per credit hour. The data were collecting using the Integrated Postsecondary Education Data System (IPEDS). Members suggested asking the receiving institutions to report data on metrics that may not be included in IPEDS.

- How do we know how FCS students do once they transfer to the receiving institutions?
  The articulation agreements require that receiving institution provide data. Language below.

  IV. (Receiving institution) shall annually provide data to the Division of Florida Colleges on the number of FCS graduates by academic term who enroll under the provisions of this agreement and graduate with the baccalaureate degree.

- Does the articulation agreement have a time limit?
  No. The articulation agreement does have language regarding its termination. Language below.

  X. Termination of the Articulation Agreement. Either party may terminate this Agreement by giving written notice to the other party. The notice shall state the effective date of termination which shall be at least one year after the date on which the notice is received by the other party. Any student enrolled in a Florida college during the time this Agreement is in effect shall continue to receive the benefits of the Agreement until the effective date, one year after notification, provided all conditions contained herein are met by the student.
Questions about Ashford University

- Were the graduation rates by ethnic category available?
  No. However, the IPEDS data that were available are listed in the table below.

<table>
<thead>
<tr>
<th>Graduation rate, 2010</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Men</td>
<td>38%</td>
</tr>
<tr>
<td>Women</td>
<td>35%</td>
</tr>
<tr>
<td>White, non-Hispanic</td>
<td>45%</td>
</tr>
</tbody>
</table>

- Do we have data on student loan burden?
  No. However, we do know the average amount of loan received in fall 2011 was $4,647. This data point can serve as a proxy for loan burden.

<table>
<thead>
<tr>
<th>Financial Aid, Fall 2011</th>
<th>Percentage Receiving Aid</th>
<th>Average Amount of Aid Received</th>
</tr>

</tr>
<tr>
<td>Institutional grant aid</td>
<td>10%</td>
<td>$14,282</td>
</tr>
<tr>
<td>Loan</td>
<td>87%</td>
<td>$4,647</td>
</tr>
</tbody>
</table>

Questions about Chamberlain College of Nursing

- Do we have data on graduation rate and student success rate?
  The data were not available at the time they were pulled. However, a representative from Chamberlain was present, and she indicated their overall graduation rate (including graduate students) is 67%.

Articulation Coordinating Committee

February 27, 2013

Item #4

Subject: Update to 6A-10.024 Articulation Between and Among Universities, Community Colleges, and School Districts.

Rule 6A-10.024, F.A.C., was first adopted in 1975 and has been amended over time to strengthen 2+2 policies and improve student transitions in Florida. Most recently, as a result of a constitutional change in education governance structure, the State Board of Education and the Board of Governors adopted a parallel rule/resolution intended to preserve the basic foundations upon which the 2+2 system is based.

The rule has not been updated since 2005.

Presented by: Matthew Bouck
Materials: Proposed revisions to rule 6A-10.024, F.A.C.
6A-10.024 Articulation Between and Among Universities, Community-Florida Colleges, and School Districts.

It is the intent of the State Board of Education in rule and the Board of Governors in regulation to facilitate articulation and seamless integration of the education system. The authority to adopt and amend the regulation aligns with the Constitutional power given to the Board of Governors for the state university system, and the statutory authority given the State Board of Education for the district school boards, the Florida College System, and the Department of Education.

It is the intent of the Board of Governors and the State Board of Education to facilitate articulation and seamless integration of the education system by agreeing to the provisions of this rule. The authority to adopt and amend this rule aligns with the Constitutional power given the Board of Governors for the state university system and the statutory authority given the State Board of Education for the district school boards, the community college system, and the Department of Education.

(1) Each state university board of trustees, community-Florida college-College System board of trustees, and district school board shall plan and adopt policies and procedures to provide articulated programs so that students can proceed toward their educational objectives as rapidly as their circumstances permit. State universities, community colleges, and school districts shall exchange ideas in the development and improvement of general education, and in the development and implementation of student acceleration mechanisms. They shall establish joint programs and agreements to facilitate articulation, acceleration, and efficient use of faculty, equipment, and facilities.

(2) Articulation Coordinating Committee. The Commissioner shall establish an Articulation Coordinating Committee which shall report to the Commissioner and consist of eighteen (18) members. The committee shall have four (4) standing members from the Department of Education to represent the state university system, the community college system, public workforce education, and the public pre-K-12 schools. Fourteen (14) are appointed by the Commissioner for two-year terms: three (3) members representing the state university system; three (3) members representing the state community college system; one (1) member representing career education; three (3) members representing public schools; two (2) members representing nonpublic postsecondary institutions; one (1) member representing nonpublic secondary education; and one (1) member representing students. The Commissioner will appoint a chair from the membership. Ten members of the committee shall constitute a quorum. No business may be transacted at any meeting unless a quorum is present. The Committee shall:

(a) Function as the statewide pre-kindergarten through university advisory committee and accept continuous responsibility for community-college-university-school district relationships.

(b) Develop suggested guidelines for interinstitutional agreements between and among public schools, community colleges, and universities to facilitate interaction, articulation, acceleration, and the efficient use of faculty, equipment, and facilities.

(c) Establish groups of university-community college-school district representatives to facilitate articulation in subject areas.

(d) Conduct a continuing review of the provisions of this rule and make recommendations to the State Board of Education and the Board of Governors for revisions.

(e) Review instances of student transfer and admissions difficulties among universities, community colleges, and public schools. Decisions shall be advisory to the institutions concerned.

(f) Examine statewide data regarding articulation, recommend resolutions of issues, and propose policies and procedures to improve articulation systemwide.

(g) Recommend the priority to be given research conducted cooperatively by the Department of Education with individual institutions. Such research shall be encouraged and conducted in areas such as admissions, grading practices, curriculum design, and follow-up of transfer students. Research findings shall be used to evaluate current policies, programs, and procedures.

(h) Review and make recommendations to institutions for experimental programs which vary from official transfer policy.

(i) Collect and disseminate information on successful cooperative programs between and among educational institutions.

(j) Establish and maintain a standard format to record the performance and credits of postsecondary students. Each such transcript shall include all courses in which a student enrolls each term, the status in each course at the end of each term, all grades and credits awarded, College-Level Academic Skills Test scores, and a statement explaining the grading policy of the institution. The Articulation Coordinating Committee shall collaborate with the Division of Public Schools in the development of a standard format on which district school systems shall record the performance and credits of students.

(k) Document, maintain, and publish the statewide associate in science to bachelor of arts/bachelor of science articulation agreements between the community colleges and the state universities. The agreements must be consistent with the policies of the Board of Governors and the State Board of Education and shall be reviewed by the Department of Education.
(m) Document, maintain, and publish statewide applied technology diploma to associate in applied science/associate in science degree articulation agreements between the career education centers and the community colleges.

(n) Maintain and review annually the accelerated articulation mechanism examinations, minimum scores guaranteed for transfer, maximum credits guaranteed to transfer, and recommended course equivalencies.

(o) Perform such other duties as may be assigned in law or by the Commissioner.

(3) General education.

(a) Each public postsecondary state university and Florida College System institution shall establish a general education core curriculum, which shall require thirty-six (36) semester hours of communication, mathematics, social sciences, humanities, and natural sciences for students working toward an associate in arts or baccalaureate degree.

(b) After a state university or Florida community college-Florida College System institution has published its general education core curriculum, the integrity of that curriculum shall be recognized by the other public postsecondary institutions. Once a student has been certified by such an institution on the official transcript as having completed satisfactorily its prescribed general education core curriculum, regardless of whether the associate in arts degree is conferred, no other public postsecondary institution to which he or she may transfer shall require any further such general education courses.

(c) If a student does not complete the general education core curriculum prior to transfer, the general education requirement becomes the responsibility of the new institution, consistent with Section (s.) 1007.24, Florida Statutes (F.S.).

(4) Associate in Arts (A.A.) Degree. The associate in arts degree is the basic transfer degree of the community colleges. It is the primary basis for admission of transfer students from community colleges to upper division study in a state university. Every associate in arts graduate of a Florida community college-College System institution shall be granted admission to an upper division program consistent with Section (s.) 1007.23, F.S. Admission to the student’s preferred public postsecondary institution or program is not guaranteed. The associate in arts degree is defined in Rule 6A-14.030, F.A.C., and for purposes of this agreement shall include:

The associate in arts degree shall be awarded upon:

(a) Completion of sixty (60) semester hours of college credit courses in an established program of study, exclusive of courses not accepted in the state university system, and including a general education core curriculum of thirty-six (36) semester hours of college credit in communication, mathematics, social sciences, humanities, and natural sciences with the remaining twenty-four (24) semester hours consisting of appropriate common program prerequisite courses and electives. The 60 semester hours that comprise a completed Associate in Arts degree shall be accepted in total upon transfer to an upper division program at another public postsecondary institution.

(b) Achievement of a cumulative grade point average of at least 2.0, in all courses attempted, and in all courses taken at the institution awarding the degree, provided that only the final grade received in courses repeated by the student shall be used in computing the average. The grade of “D” shall transfer and count toward the associate and baccalaureate degrees in the same way as “D” grades obtained by native students in the receiving state university or receiving community college-public postsecondary institution. Whether courses with “D” grades in the major satisfy requirements in the major field may be decided by the receiving university or receiving community college-public postsecondary institution. The 60 hours that comprise a completed Associate in Arts degree shall be accepted in total upon transfer to an upper division program at another public postsecondary institution.

(c) Completion of the requirements for English and mathematics courses adopted by the State Board of Education in Rule 6A-10.030, F.A.C., and the Board of Governors; and

(d) Achievement of the minimum standards for college level communication and computation skills adopted by the State Board of Education in Rule 6A-10.0312, F.A.C., and the Board of Governors.

(5) Beginning in the 2013-2014 academic year and thereafter, each student in an associate in arts program at a Florida College System institution must indicate a baccalaureate degree program at an institution of interest by the time the student earns 30 semester hours. The Florida College System institution in which the student is enrolled must inform the student of program prerequisites at the public postsecondary institution offering the baccalaureate degree of interest.

(56) Associate in Science (A.S.) Degree. The associate in science degree is the career education degree of the community colleges. It is a two-year degree intended to prepare students for the workforce.

(a) The associate in science degree is defined in Rule 6A-14.030, F.A.C., and for purposes of this agreement shall be awarded upon:

The associate in science degree shall be awarded upon:

1(a). Completion of the minimum number of semester hours of college credit courses in an established program of study as required in subsection 6A-14.030(23), F.A.C.
2. (b) Completion of a minimum of fifteen semester hours in the general education core curriculum in the subject areas of communication, mathematics, social sciences, humanities, and natural sciences which meet the Southern Association of College and Schools Commission on Colleges criteria. English and mathematics courses must meet the requirements adopted by the State Board of Education in Rule 6A-10.030, F.A.C., and the Board of Governors Regulation 6.017. No physical education credit will be included in the general education block of credit. 3. General education courses not taught in accordance with the Southern Association of Colleges and Schools Commission on Colleges criteria for programs designed for college transfer shall not be included in the associate in science degree.

(bc) Appropriate courses within associate in science degree programs will articulate to baccalaureate degree programs.

1. Achievement of the minimum standards adopted by the State Board of Education in Rule 6A-10.0312, F.A.C., and the Board of Governors, will be required by the time the student earns 36 semester hours at the senior institution in upper division work.

2. Completion of common prerequisites will be required for the baccalaureate degree or as otherwise outlined in program-specific statewide agreements.

3. Courses taken as part of the associate in science degree to meet the general education requirements will transfer and apply toward the 36 credit hours required for the baccalaureate degree. No additional general education credit hours can be required except to complete the total 36 general education hours.

2(7). The statewide associate in science to baccalaureate degree program articulation agreements between public postsecondary institutions shall be documented and maintained by the Articulation Coordinating Committee. The Department of Education, in consultation with institutions, shall review periodically, as necessary, but no more than once a year, the provisions of the state articulation agreements and the prescribed curricula to ensure the continued effectiveness of the articulation between the A.S. and B.A./B.S. programs. Any recommendations for revisions to the state articulation agreements will be forwarded to the Articulation Coordinating Committee for review. The revisions may be approved after the Board of Governors and the State Board of Education make independent determinations that the recommended revisions are consistent with board policies.

(ea) Capstone Degree Articulation Agreement. A capstone agreement that is entered into by a specific public or private postsecondary institution provides for the acceptance of a specific associate in science degree from any Florida community college and applies it as a block of credit toward a specified baccalaureate degree. The quality and content of the associate in science degree is respected as the technical component of the baccalaureate degree and the remainder of the program is designed to complete general education requirements and provide management skills to assist in job progression. Every associate in science degree graduate of a Florida community college program that articulates with a capstone degree program in a specific Florida public or private postsecondary institution shall be granted admission to that program except for limited access programs and those requiring specific grades on particular courses for admission. All associate in science degree graduates who articulate under the capstone agreement shall be treated equally, regardless of the community colleges from which they receive their degrees. The general education component of the associate in science degree shall be accepted in total as a portion of the general education requirement upon transfer to the capstone program in a specific Florida public or private postsecondary institution.

(db) Career Ladder Degree Articulation Agreement. The Career Ladder agreement integrates specific associate in science degree programs with identified baccalaureate degree programs statewide. Each associate in science degree program must meet specific requirements as prescribed in the agreement and public postsecondary institutions are required to honor the transfer of credit toward the specified baccalaureate degree. Graduates of a Florida community college associate in science degree program with an agreement that is documented and maintained by the Articulation Coordinating Committee shall be granted admission to a public postsecondary institution in the program designated to articulate with their degree, except for limited access programs and those requiring specific grades on particular courses for admission. Admission to the student’s preferred public postsecondary institution is not guaranteed. Each State University System institution shall develop admissions criteria to ensure that associate in science degree students are evaluated on an equal basis with associate in arts degree graduates and native university students for admission into Career Ladder programs designated as limited access and those requiring specific grades on particular courses for admission.

1. The associate in science degree shall be awarded based on all of the requirements contained in paragraph (5)(a) of this rule and in accordance with the articulation agreement provisions maintained by the Articulation Coordinating Committee.

2. The statewide associate in science to baccalaureate degree program articulation agreements between public postsecondary institutions shall be documented and maintained by the Articulation Coordinating Committee. The Department of Education, in
consultation with institutions, shall review periodically, as necessary, but no more than once a year, the provisions of the state articulation agreements and the prescribed curricula to ensure the continued effectiveness of the articulation between the A.S. and B.A./B.S. programs. Any recommendations for revisions to the state articulation agreements will be forwarded to the Articulation Coordinating Committee for review. The revisions may be approved after the Board of Governors and the State Board of Education make independent determinations that the recommended revisions are consistent with board policies.

(68) Applied Technology Diploma (A.T.D.). The A.T.D. consists of a course of study that is part of an associate in science (A.S.) or an associate in applied science degree (A.A.S.), is less than sixty (60) credit hours, is approximately fifty (50) percent of the technical component (non-general education), and leads to employment in a specific occupation. An applied technology diploma/A.T.D. program may consist of either technical credit/clock hours or college credit.

(a) Students must have a high school diploma, a high school equivalency diploma, or a certificate of completion pursuant to Section 1003.433(2)(b), F.S.; or in the case of a student who is home educated, a signed affidavit submitted by the student’s parent or legal guardian attesting that the student has completed a home education program pursuant to the requirements of Section 1002.41, F.S., to be admitted to an applied technology diploma program. Within six (6) weeks of entry, students in applied technology diploma programs of 450 or more hours must be tested pursuant to Rule 6A-10.040, F.A.C., and, if below minimum standards for completion from the program as defined in the program standards document adopted in Rule 6A-6.0571, F.A.C., must receive remedial instruction. The minimum standards must be at least the equivalent of a score of ten (10) on all sections of any basic skills test approved in Rule 6A-10.040, F.A.C. Students must successfully complete all remedial instruction before completing the Applied Technology Diploma.

(b) Community colleges Florida College System institutions may offer either college credit or clock hours or career credit toward the applied technology diploma. Career centers may offer only career credit/clock hours.

(c) All faculty providing instruction must have at least a baccalaureate degree or an associate degree with demonstrated competencies in the specific instructional program area as defined by the Southern Association of Colleges and Schools.

(d) The information related to the guaranteed transfer of credit between an applied technology diploma program and associate in science or an associate in applied science degree must be documented and maintained by the Articulation Coordinating Committee. The documentation shall include the following:

1. The total number of clock or credit hours within the program.
2. The associate in science or associate in applied science degree into which the applied technology diploma is guaranteed to transfer.
3. The number of college credit hours guaranteed to transfer.
4. An effective date.

(e) The transfer of the applied technology diploma to an associate in science or associate in applied science degree is guaranteed for a period of three (3) years following the date of the award of the applied technology diploma.

(f) Applied technology diploma students entering an associate degree program shall meet the admissions standards stipulated in Section 1007.263, F.S.. Additional admissions requirements for limited access programs may be established by the community Florida college Florida college College System College System institution boards of trustees.

(29) Credit by examination.

(a) General Provisions.

1. For examination programs listed in paragraphs (b) through (h), examination specifications and content information shall be submitted to the Statewide Course Numbering System for course equivalency recommendations.

2. For examination programs listed in section 1007.27, F.S., a list of examinations, minimum scores for guaranteed transfer credit, maximum credits guaranteed to transfer, and recommended course equivalents shall be maintained by the Articulation Coordinating Committee and reviewed annually as the publication 2012 Articulation Coordinating Committee Credit-by-Exam Equivalencies available at http://www.fldoe.org/articulation/pdf/ACC-CBE.pdf which is hereby incorporated herein by reference.

3. Transfer of credit by examination is guaranteed for up to forty-five (45) credits, provided that credit was awarded in accordance with the Articulation Coordinating Committee’s recommended minimum scores and course equivalents.

4. Transfer of examination credit over forty-five (45) credits is at the discretion of the receiving institution.

5. Credit by examination may not duplicate credit previously earned through postsecondary courses or through examination.

6. No grades or grade points shall be assigned for credit by examination.

7. Institutions may award credit for examinations that are not listed in this rule or that do not have recommended course...
equivalents, minimum scores, and maximum credits. Acceptance of transfer credit so awarded is at the discretion of the receiving institution.

6. For all Advanced Placement (AP), International Baccalaureate (IB), Advanced International Certificate of Education (AICE), and College-Level Examination Program (CLEP) examinations, credit must be awarded at a minimum in accordance with the credit-by-examinations equivalencies determined by the Articulation Coordinating Committee, pursuant to s. 1007.27, F.S. Any credit awarded for examinations completed prior to the initial adoption of the ACC credit-by-examination equivalencies shall be determined by the postsecondary institution.

7. All credit-by-examination that is initially awarded based on ACC recommended minimum scores and maximum amount of credit is guaranteed to transfer and must be accepted by all public postsecondary institutions.

8. Institutions may award credit for examinations that are not listed in this rule or that do not have recommended course equivalents, minimum scores, and maximum credits. Acceptance of transfer credit so awarded is at the discretion of the receiving institution.

(b) College Level Examination Program (CLEP) of the College Board.

1. The transfer of credit awarded on the basis of scores achieved on examinations in the College Level Examination Program is protected by this rule only for examinations taken in an administration authorized by CLEP.

2. For examinations taken after July 2001, transfer of credit is mandatory for all CLEP examinations. For all CLEP examinations, credit must be awarded at a minimum in accordance with the credit-by-examination equivalencies determined by the Articulation Coordinating Committee.

3. For examinations taken prior to July 1, 2001, transfer of credit under the terms of this rule is mandatory provided that the award of credit is consistent with the CLEP recommendations or scaled scores determined to represent student achievement at or above the fiftieth (50) percentile on the combined men-women sophomore norms in use prior to 1978, with no letter grade or grade points assigned.

(c) College Board Advanced Placement Program (AP). For all AP examinations, credit must be awarded at a minimum in accordance with the credit-by-examination equivalencies determined by the Articulation Coordinating Committee. Transfer of Advanced Placement credit under terms of this rule is also mandatory, provided that the award of credit is consistent with the Articulation Coordinating Committee’s recommended minimum scores and maximum amount of credit guaranteed to transfer.

(d) International Baccalaureate (IB) Diploma Program. For all IB examinations, credit must be awarded at a minimum in accordance with the credit-by-examination equivalencies determined by the Articulation Coordinating Committee. Transfer of International Baccalaureate credit under terms of this rule is also mandatory, provided that the award of credit is consistent with the Articulation Coordinating Committee’s recommended minimum scores and maximum amount of credit guaranteed to transfer. The award of credit for students who completed IB Diploma program examinations before April 1993 shall be determined by the public postsecondary institution.

(e) Advanced International Certificate of Education Program (AICE). Transfer of Advanced International Certificate of Education credit under terms of this rule is mandatory, provided that the award of credit is consistent with the Articulation Coordinating Committee’s recommended minimum scores and the statutory maximum amount of 30 credits.

(f) Excelsior College Examinations, formerly known as the Regents College Examinations or the Proficiency Examination Program (PEP). Transfer of credit under terms of this rule is mandatory provided that the award of credit is consistent with the Articulation Coordinating Committee’s recommended minimum scores and maximum amount of credit guaranteed to transfer with no letter grades or grade points assigned.

(g) Defense Activity of Non-Traditional Education Support (DANTES) Subject Standardized Tests (DSSTs). Transfer of credit under terms of this rule is mandatory provided that the award of credit is consistent with the Articulation Coordinating Committee’s recommended minimum scores and maximum amount of credit guaranteed to transfer with no letter grades or grade points assigned.

(h) United States Armed Forces Institute (USAFI). The award of credits for students who successfully completed USAFI courses or exams before 1974 shall be determined by the public postsecondary institution.

(8) Pre-professional course responsibility. Lower division programs in state universities and community colleges may offer introductory courses to enable students to explore the principal professional specializations available at the baccalaureate level. Such courses shall be adequate in content to count toward the baccalaureate for students continuing in such specialization. However, deciding major course requirements for a baccalaureate, including courses in the major taken in the lower division, shall be the responsibility of the institution awarding the baccalaureate degree.

(910) Limited access programs. Community Florida college-College System institution and state university transfer students
shall have the same opportunity to enroll in baccalaureate limited access programs as native students. Baccalaureate limited access program selection and enrollment criteria shall be established and published in catalogs, counseling manuals, and other appropriate publications. A list of limited access programs shall be filed annually with the Articulation Coordinating Committee.

A state university may accept non-associate in arts degree credit in transfer based on its evaluation of the applicability of the courses to the student’s program at the university.

State universities and community Florida colleges College System institutions shall publish with precision and clarity in their official catalogs the admission, course, and prerequisite requirements of the institution, each unit of the institution, each program, and each specialization. Any applicable duration of requirements shall be specified. The university or college catalog in effect at the time of a student’s initial collegiate enrollment shall govern upper division prerequisites in the same manner as for native students at the same institution, provided the student maintains continuous enrollment as defined in that catalog unless otherwise specified.

The Department and all public universities, community Florida colleges College System institutions, and school districts shall maintain the electronic exchange of student transcripts and associated educational records, including acquisition of and access to test scores of students in the standard format established by the ACC.

All postsecondary courses offered for college credit, career credit, clock hours, college preparatory developmental education, or career preparatory developmental credit as they are defined in Rule 6A-10.033, F.A.C., shall be entered in the statewide course numbering system. Each course shall be assigned a single prefix and a single identifying number in the course numbering system.

When a student transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system, the receiving institution shall award credit for courses satisfactorily completed at the previous participating institutions when the courses are judged by the appropriate common course designation and numbering system faculty task forces to be academically equivalent to courses offered at the receiving institution including equivalency of faculty credentials regardless of the public or nonpublic control of the previous institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credit so awarded shall satisfy institutional requirements on the same basis as credits awarded to native students.

Rulemaking Authority 1001.02(2)(n), 1007.23(1), 1007.25, 1007.27(9) FS. Law Implemented 1007.01(2), 1007.23(1), 1007.27(9) FS. Articulation Coordinating Committee

February 27, 2013

Item #5

Subject: 2013 Legislation Relating to the ACC

Update on 2013 Legislation of interest to or directly impacting the Articulation Coordinating Committee

Presenter: Matthew Bouck
Materials: Summary of Articulation-related Bills
1007.01 Articulation; legislative intent; purpose; role of the State Board of Education and the Board of Governors; Articulation Coordinating Committee.
   PCB CIS 13-02 | SB 878 An act relating to education accountability

1007.012 Florida Flexible Option Initiative
   HB 843 | SB 904 An act relating to education

1007.25 General education courses; common prerequisites; other degree requirements.
   PCB 2-19-13 (General education; developmental education, fixed tuition)

1009.21 Determination of resident status for tuition purposes.
   HB 11 | SB 268
   (d) A dependent child who is a United States citizen may not be denied classification as a resident for tuition purposes based solely upon the citizenship status of his or her parent.

   HB 17 | SB 180
   (l) A dependent child who is a United States citizen, a lawful permanent resident, or a qualified legal alien whose parent is not a United States citizen, a lawful permanent resident, or a qualified legal alien and who attends a Florida high school for 4 consecutive years and submits his or her high school transcript to and enrolls in an institution of higher education within 12 months after graduating from a Florida high school.

   HB 29
   (l) A United States citizen who attends a Florida high school for at least 1 year and submits his or her official high school transcript to and enrolls in an institution of higher education after graduating from a Florida high school.

   HB 539 | SB 260
   (c) Veterans of the Armed Services of the United States, including reserve components thereof, who:
   1. Attend the physical location of an institution of higher learning within this state; or
   2. Physically reside in this state while enrolled in an online course offered by an institution of higher learning within this state.

   PCB 2-19-13
   (b) Each institution, except for Florida College System institutions, that offers adult education courses as defined under s. 1004.02(1)-(5) shall affirmatively determine the residency status of each applicant for enrollment.

1011.62 Funds for operation of schools
   HB 491
   2. An additional bonus of $500 to each Advanced Placement teacher in a school designated with a grade of "D" or "F" who has at least one student scoring 3 or higher on the College Board Advanced Placement Examination, regardless of the number of classes taught or of the number of students scoring a 3 or higher on the College Board Advanced Placement Examination.

   Bonuses awarded to a teacher according to this paragraph shall not exceed $2,000 in any given school year and shall be in addition to any regular wage or other bonus the teacher received or is scheduled to receive.
Section 3. Paragraph (i) of subsection (1) of section 1005.22, Florida Statutes, is amended to read:

1005.22 Powers and duties of commission.—

(1) The commission shall:

(i) Serve as a central agency for collecting and distributing current information regarding institutions licensed by the commission. The commission shall annually collect, and all institutions licensed by the commission shall annually report, student-level data from the prior year for each student who receives state funds, in a format prescribed by the Department of Education. At a minimum, data from the prior year must be reported annually and include retention rates, transfer rates, completion rates, graduation rates, employment and placement rates, and earnings of graduates. By December 31, 2013, the commission shall report the data for the 2012-2013 academic year to the Department of Education. By October 1 of each year thereafter, the commission shall report the data to the department.

Section 4. Subsection (3) of section 1007.01, Florida Statutes, is amended to read:

1007.01 Articulation; legislative intent; purpose; role of the State Board of Education and the Board of Governors; Articulation Coordinating Committee.—

(3) The Commissioner of Education, in consultation with the Chancellor of the State University System, shall establish the Articulation Coordinating Committee which shall make recommendations related to statewide articulation policies and issues regarding access, quality, and reporting of data maintained by the K-20 data warehouse established pursuant to...
ss. 1001.10 and 1008.31, to the Higher Education Coordination Council, the State Board of Education, and the Board of Governors. The committee shall consist of two members each representing the State University System, the Florida College System, public career and technical education, public K-12 education, and nonpublic education and one member representing students. The chair shall be elected from the membership. The committee shall:

(a) Monitor the alignment between the exit requirements of one education system and the admissions requirements of another education system into which students typically transfer and make recommendations for improvement.

(b) Propose guidelines for interinstitutional agreements between and among public schools, career and technical education centers, Florida College System institutions, state universities, and nonpublic postsecondary institutions.

(c) Annually recommend dual enrollment course and high school subject area equivalencies for approval by the State Board of Education and the Board of Governors.

(d) Annually review the statewide articulation agreement pursuant to s. 1007.23 and make recommendations for revisions.

(e) Annually review the statewide course numbering system, the levels of courses, and the application of transfer credit requirements among public and nonpublic institutions participating in the statewide course numbering system and identify instances of student transfer and admissions difficulties.

(f) Annually publish a list of courses that meet common general education and common degree program prerequisite
requirements at public postsecondary institutions identified pursuant to s. 1007.25.

(g) Foster timely collection and reporting of statewide education data. Examine statewide data regarding articulation to identify issues and make recommendations to improve articulation throughout the K-20 education performance accountability system by:

1. Facilitating timely reporting of data by all educational delivery systems to the K-20 data warehouse established pursuant to ss. 1001.10 and 1008.31.

2. Facilitating timely reporting of data by the K-20 data warehouse to organizations and authorized representatives pursuant to s. 1008.31.

3. Identifying data issues including, but not limited to, data quality and accessibility.

(h) Recommend roles and responsibilities of public education entities in interfacing with the single, statewide computer-assisted student advising system established pursuant to s. 1006.73.

Section 5. Paragraph (f) is added to subsection (1) of section 1008.31, Florida Statutes, subsection (3) is amended, present subsection (4) is redesignated as subsection (5), and a new subsection (4) is added to that section, to read:

1008.31 Florida’s K-20 education performance accountability system; legislative intent; mission, goals, and systemwide measures; data quality improvements.—

(1) LEGISLATIVE INTENT.—It is the intent of the Legislature that:

(f) The Commissioner of Education interpret the Family
Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1007.012, Florida Statutes, is created to read:

1007.012 Florida Flexible Option Initiative.—

(1) The Florida Flexible Option Initiative is created to expand student choices in selecting multiple, high-quality public and nonpublic courses and assessments toward satisfying course, assessment, or credit requirements for promotion, graduation, or degree attainment. The purpose of the initiative is to make available multiple options to suit unique student interests, satisfy educational requirements, and accelerate student accomplishment of goals in a productive and effective manner.

(2) The Legislature intends that state and local rules, policies, and administrative decisions are flexible in interpreting and implementing the requirements in this section in order to encourage creative, innovative, resourceful, and forward-thinking practices that can be modeled throughout this state and the country. The Legislature intends that the Florida Flexible Option Initiative generate sufficient options for students to combine multiple instructional experiences and build complete programs for attaining a standard high school diploma and a postsecondary education degree which are tailored to the
unique interests of each student.

(3) The initiative allows students in this state to satisfy public K-12 education promotion or high school graduation course, assessment, or credit requirements, or to satisfy requirements for public postsecondary credit or degree attainment by successfully meeting the assessment requirements of this subsection.

(a) As used in this section, the term “Florida-accredited charter course” is a K-12 course or postsecondary education credit course that:

1. Is created by individuals whose credentials and documented knowledge of a specific science, technology, engineering, or math field warrants consideration as a credible and legitimate source of course content;

2. Is provided or distributed by individuals, institutions, entities, or organizations; and

3. Has fulfilled requirements under subsection (4) for purposes of satisfying requirements for promotion, graduation, or obtaining a degree. A massive, open online course and a course associated with rigorous industry certifications are eligible for consideration and approval as a Florida-accredited charter course.

(b) Courses and assessments may be applied toward requirements for promotion, graduation, or degree attainment in whole, in subparts, or in a combination of whole and subparts.

1. A Florida-accredited charter course, a public K-12 course identified on the course code directory, or a postsecondary education course identified on the statewide course numbering system, may be applied as one whole unit or as
two or more discrete subunits such that when combined, they are equivalent to the whole unit. A student may not be required to repeat subunits that are satisfactorily completed.

2. Assessments associated with a course must be established by regionally accredited public institutions and must be approved in accordance with subsection (4). The assessments may be applied as one whole assessment or as two or more discrete subassessments such that when combined, they are equivalent to the whole assessment. A student may not be required to repeat subassessments that are satisfactorily completed. Assessments and subassessments shall be administered pursuant to s. 1008.24.

(4) A Florida-accredited charter course and its associated assessments must be annually identified, approved, published, and shared for consideration by interested students, institutions, school districts, colleges, and universities.

(a) Each Florida-accredited charter course and its associated assessments must be:

1. Approved by the Commissioner of Education for application in K-12 public schools and Florida College System institutions in accordance with rules of the State Board of Education.

2. Approved by the Chancellor of the State University System for application in state universities in accordance with rules of the Board of Governors.

(b) The Articulation Coordinating Committee established in s. 1007.01 shall annually publish and share a consolidated list of approved Florida-accredited charter courses and associated, approved assessments in conjunction with the courses listed in the course code directory and statewide course numbering system.
in a manner that facilitates student and institutional knowledge of the Florida-accredited charter courses as options available for credit.

Section 2. Section 1008.24, Florida Statutes, is amended to read:

1008.24 Test administration and security.—

(1) A person may not knowingly and willfully violate test security rules adopted by the State Board of Education for mandatory tests administered by or through the State Board of Education or the Commissioner of Education to students, educators, or applicants for certification or administered by school districts pursuant to s. 1008.22, or, with respect to any such test, knowingly and willfully to:

(a) Give examinees access to test questions prior to testing;

(b) Copy, reproduce, or use in any manner inconsistent with test security rules all or any portion of any secure test booklet;

(c) Coach examinees during testing or alter or interfere with examinees’ responses in any way;

(d) Make answer keys available to examinees;

(e) Fail to follow security rules for distribution and return of secure test as directed, or fail to account for all secure test materials before, during, and after testing;

(f) Fail to follow test administration directions specified in the test administration manuals; or

(g) Participate in, direct, aid, counsel, assist in, or encourage any of the acts prohibited in this section.
(c) The college placement test authorized in ss. 1001.03(10) and 1008.30 or a similar test may be administered to high school students who have chosen one of the four destinations. The results of the placement test shall be used to target additional instructional needs in reading, writing, and mathematics prior to graduation.

Section 14. Subsections (3), (6), (7), (8), and (10) of section 1007.25, Florida Statutes, are amended to read:

1007.25 General education courses; common prerequisites; other degree requirements.—

(3) The chair of the State Board of Education and the chair of the Board of Governors, or their designees, shall jointly appoint faculty committees to identify statewide general education core course options. General education core course options shall consist of a maximum of five courses within each of the subject areas of communication, mathematics, social sciences, humanities, and natural sciences. Each general education core course option must contain high-level academic and critical thinking skills and common competencies that students must demonstrate to successfully complete the course. Beginning with students initially entering a Florida College System institution or state university in 2014-2015 and thereafter, each student must complete at least one identified core course in each subject area as part of the general education course requirements. All public postsecondary educational institutions shall offer and accept these courses as meeting general education core course requirements. The
remaining general education course requirements shall be identified by each institution and reported to the department by their statewide course number. The general education core course options shall be adopted in rule by the State Board of Education and in regulation by the Board of Governors. Additional core course options may be approved by the State Board of Education and the Board of Governors if recommended by the subject area faculty committee, and approved by the Articulation Coordinating Committee, as necessary for a subject area.

(6) The universities and Florida College System institutions shall work with their school districts to ensure that high school curricula coordinate with the general education curricula and to prepare students for college-level work. General education curricula for associate in arts programs shall be identified by each institution and, beginning with students initially entering a Florida College System institution or state university in 2014-2015 and thereafter, shall include 30 semester hours in the subject areas of communication, mathematics, social sciences, humanities, and natural sciences.

(7) An associate in arts degree shall require no more than 60 semester hours of college credit and, beginning with students initially entering a Florida College System institution or state university in 2014-2015 and thereafter, must include 30 semester hours of general education coursework and. Beginning coursework for an associate in arts degree must include
demonstration of competency in a foreign language pursuant to s. 1007.262. Except for college-preparatory coursework required pursuant to s. 1008.30, all required coursework shall count toward the associate in arts degree or the baccalaureate degree.

(8) A baccalaureate degree program shall require no more than 120 semester hours of college credit and, beginning with students initially entering a Florida College System institution or state university in 2014-2015 and thereafter, include 30 semester hours of general education coursework, unless prior approval has been granted by the Board of Governors for baccalaureate degree programs offered by state universities and by the State Board of Education for baccalaureate degree programs offered by Florida College System institutions.

(10) Students at state universities may request associate in arts certificates if they have successfully completed the minimum requirements for the degree of associate in arts (A.A.). The university must grant the student an associate in arts degree if the student has successfully completed minimum requirements for college-level communication and computation skills adopted by the State Board of Education and 60 academic semester hours or the equivalent within a degree program area and, beginning with students initially entering a Florida College System institution or state university in 2014-2015 and thereafter, includes 36 semester hours in general education courses in the subject areas of communication, mathematics, social sciences, humanities, and natural sciences, consistent with the general education requirements specified in
readiness for postsecondary instruction. Additional requirements included in the agreement may not arbitrarily prohibit students who have demonstrated the ability to master advanced courses from participating in dual enrollment courses.

Section 17. Section 1008.02, Florida Statutes, is created to read:

1008.02 Definitions.—As used in this chapter:

(1) "Developmental education" means instruction through which a high school graduate who applies for any college credit program may attain the communication and computation skills necessary to successfully complete college credit instruction.

(2) "Co-requisite education" means preparatory academic instruction that is deployed through a variety of classroom, online, or blended instructional strategies and offered concurrently with college credit instruction. The term includes, but is not limited to:

(a) Compressed or modularized tutoring or coaching that supplements credit instruction; and

(b) Embedded content in a modified or extended credit-bearing course intended to contextualize or accelerate credit attainment.

(3) "Gateway course" means the first course that provides transferable, college-level credit allowing students to progress in their program of study.

(4) "Meta-major" means a collection of programs of study that share common foundational skills.

(5) "Accelerated course structure" means a course or
strand of study that accelerates the progress of students from
developmental education instruction into college-level course
work.

Section 18. Section 1008.30, Florida Statutes, is amended
to read:

1008.30  Common placement testing for public postsecondary
education  College readiness and placement testing.—

(1) The State Board of Education, in conjunction
consultation with the Board of Governors, shall develop and
implement establish by rule a common college placement test for
the purpose of assessing the basic computation and communication
skills of students who intend to enter a degree program at any
public postsecondary educational institution. Alternative
assessments that may be accepted in lieu of the college
placement test must also be identified in rule. Public
postsecondary educational institutions shall provide appropriate
modifications of the test instruments or test procedures for
students with disabilities.

(2) By January 1, 2014, the State Board of Education, in
conjunction with the Board of Governors, shall approve a series
of meta-majors, academic pathways, and degree maps that identify
the gateway courses required for success in each meta-major.
Results from the common placement test shall be used to diagnose
students’ readiness for their chosen meta-major and provide
academic counseling that places students into credit courses as
quickly as possible, with developmental education limited to
that content needed for success in the meta-major.
(23) The common college placement testing program shall include at a minimum the following: the capacity to diagnose basic competencies in the areas of English, reading, and mathematics which are essential for success in meta-majors to perform college-level work; prerequisite skills that relate to progressively advanced instruction in mathematics, such as algebra and geometry; prerequisite skills that relate to progressively advanced instruction in language arts, such as English composition and literature; and provision of provide test information to students on the specific deficiencies.

(4) The State Board of Education shall establish by rule the test scores a student must achieve to demonstrate readiness. Students who demonstrate readiness by achieving or exceeding the test scores established by the State Board and enroll in a Florida College System institution within 2 years of achieving such scores may not be required to retest or complete developmental education instruction when admitted to any Florida College System institution.

(35) The State Board of Education shall adopt rules that require high schools to evaluate before the beginning of grade 12 the college readiness of each student who scores at Level 2 or Level 3 on the reading portion of the grade 10 FCAT or Level 2, Level 3, or Level 4 on the mathematics assessments under s. 1008.22(3)(c). High schools shall perform this evaluation using results from the corresponding component of the common college placement test prescribed in this section, or an equivalent alternative test identified by the State Board of Education. The
State Board of Education shall identify in rule the assessments necessary to perform the evaluations required by this subsection and shall work with the school districts to administer the assessments. The State Board of Education shall establish by rule the minimum test scores a student must achieve to demonstrate readiness. Students who demonstrate readiness by achieving the minimum test scores established by the state board and enroll in a Florida College System institution within 2 years of achieving such scores shall not be required to retest or enroll in remediation when admitted to any Florida College System institution. The high school shall use the results of the test to advise the students of any identified deficiencies and to provide 12th grade students, and require them to complete, appropriate postsecondary preparatory instruction prior to high school graduation. The curriculum provided under this subsection shall be identified in rule by the State Board of Education and encompass Florida's Postsecondary Readiness Competencies. Other elective courses may not be substituted for the selected postsecondary reading, mathematics, or writing preparatory course unless the elective course covers the same competencies included in the postsecondary reading, mathematics, or writing preparatory course.

(6) (a) The State Board of Education shall adopt rules by January 1, 2014, to implement developmental education. The rules must include:

i. Student attributes that may be considered by institutional boards, including but not limited to, performance
on college placement tests, grade point averages, work history, military experience, career interests, degree major declaration, or any combination thereof.

   ii. Recommended placement options for students performing at levels indicating adult education as an appropriate placement for students to develop needed college-entry academic skills;

   iii. Sufficient flexibility for local professional judgment and determinations of appropriate student placement;

   iv. Limits on credit course enrollment for students indicating the need for preparatory assistance in two or more content areas.

Local policies and practices set by each Florida College System institutional board of trustees must outline the attributes considered by the institution for placement determinations, identify instructional options available to students, and describe student costs and financial aid opportunities associated with each instructional option. Placement and instructional options must, at minimum, provide for direct placement of a student in a credit course either with or without institutionally-required co-requisite education, and direct placement of a student in adult education, as appropriate to the student’s demonstrated communication or computation performance levels. Policies and practices must specify limits on credit course enrollment for students indicating the need for preparatory assistance, outline retesting requirements, and identify options for students counseled into adult education as
Students who have been identified as requiring additional preparation pursuant to subsection (1) shall enroll in college-preparatory developmental education or other adult education pursuant to s. 1004.93 in Florida College System institutions to develop needed college-entry skills. The State Board of Education shall specify by rule provisions for alternative remediation opportunities and retesting policies. These students shall be permitted to take courses within their degree program concurrently in other curriculum areas for which they are qualified while enrolled in college-preparatory instruction courses developmental education courses. A student enrolled in a college-preparatory developmental education course may concurrently enroll only in college credit courses that do not require the skills addressed in the college-preparatory developmental education course. However, a student who scores below the test score established pursuant to subsection (3) may concurrently enroll in a college credit course that requires the skills addressed in the associated developmental education course if:

1. The institution in which the student is enrolled identifies other indicators, in conjunction with the test score, which will predict the student’s success in the course; or

2. The student co-enrolls in a co-requisite supplemental remediation strategy offered by the institution.
instruction developmental education coursework may not be counted toward fulfilling the number of credits required for a degree.

(b) A university board of trustees may contract with a Florida College System institution board of trustees for the Florida College System institution to provide such instruction on the state university campus. Any state university in which the percentage of incoming students requiring college-preparatory instruction—developmental education equals or exceeds the average percentage of such students for the Florida College System may offer college-preparatory instruction developmental education without contracting with a Florida College System institution; however, The Florida Agricultural and Mechanical University any state university offering college-preparatory instruction as of January 1, 1996, may continue to provide such services.

(57) A student may not be enrolled in a college credit mathematics or English course on a dual enrollment basis unless the student has achieved or exceeded the scores demonstrated adequate precollegiate preparation on the section of the basic computation and communication skills assessment—required pursuant to subsection (13) that is appropriate for successful student participation in the course.

Section 19. Subsection (4) of section 1008.32, Florida Statutes, is amended to read:

1008.32 State Board of Education oversight enforcement authority.—The State Board of Education shall oversee the
in the calculation of cost borne by students.

Section 23. Paragraph (b) of subsection (2) and subsection (3) of section 1009.23, Florida Statutes, is amended to read:

1009.23 Florida College System institution student fees.—

(2)

(b) Tuition and out-of-state fees for upper-division courses must reflect the fact that the Florida College System institution has a less expensive cost structure than that of a state university. Therefore, the board of trustees shall establish tuition and out-of-state fees for upper-division courses in baccalaureate degree programs approved pursuant to s. 1007.33 consistent with law and proviso language in the General Appropriations Act. However, the board of trustees may not vary tuition and out-of-state fees as provided in subsection (4).

(4) Each Florida College System institution board of trustees shall establish tuition and out-of-state fees, which may vary no more than 10 percent below and 15 percent above the combined total of the standard tuition and fees established in subsection (3). However, a Florida College System institution board of trustees may establish resident tuition for a baccalaureate degree program at any amount below the tuition rate established by law or by the General Appropriations Act.

Section 24. Paragraph (c) of subsection (4), subsection (8), and paragraph (b) of subsection (16) of section 1009.24, Florida Statutes, are amended to read:

(4)

(c) Beginning with the 2013-14 fiscal year and each year
thereafter, resident undergraduate students enrolled in the State University System for the first time shall be eligible to pay a fixed rate of tuition and fees not to exceed of the rate assessed to them upon their initial enrollment. The fixed rate includes the base tuition rate set by subsection (4), the differential tuition rate set by subsection (16), and the fees authorized by subsections (7), (8), (9), and (13). The periods of time during which an undergraduate student is eligible to pay a fixed rate of tuition and fees are as follows:

1. For students initially enrolled as a full-time student at a state university, the earlier of 4 years from initial enrollment or completion of 120 course credit hours.

2. For students who have graduated with an associate’s degree, the earlier of 2 years from initial enrollment or completion of 60 course credit hours.

The Board of Governors may adopt regulations identifying certain baccalaureate degree programs, requiring greater than 120 hours of coursework to complete, for which state universities may not charge students tuition or fees at a rate higher than that established upon their initial enrollment in the degree program. The fixed rate of tuition and fees expires at the completion of each time period described in subparagraphs 1 and 2. Upon expiration, the student must pay for any further coursework at the current rate of tuition set pursuant to this section and any increases thereafter. In order to remain eligible for the fixed rate of tuition and fees, a student must maintain continuous enrollment with a state university, excluding summer terms. This
subsection applies prospectively only.

(ce) The Board of Governors, or the board's designee, may establish tuition for graduate and professional programs, and out-of-state fees for all programs. Except as otherwise provided in this section, the sum of tuition and out-of-state fees assessed to nonresident students must be sufficient to offset the full instructional cost of serving such students. However, adjustments to out-of-state fees or tuition for graduate programs and professional programs may not exceed 15 percent in any year.

d(ef) The Board of Governors may consider and approve flexible tuition policies as requested by a university board of trustees in accordance with the provisions of subsection (15) only to the extent such policies are in alignment with the mission of the university and do not increase the state's fiscal liability or obligations, including, but not limited to, any fiscal liability or obligation for programs authorized under ss. 1009.53-1009.538 and ss. 1009.97-1009.984.

e(f) The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course shall not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year, or the same percentage increase in tuition
Articulation Coordinating Committee

Item #6

Subject: Update on HB 7135 General Education Project

In 2012 HB 7135 (Chapter 2012-195, Laws of Florida), amended Section 1007.25, Florida Statutes, to make significant changes to the general education program. The current 36-hour requirement was changed to 30 hours in the five subject areas of communication, humanities, mathematics, natural science, and social science. Faculty committees appointed by the chairs of the State Board of Education and Board of Governors, or designees, were directed to identify a listing of no more than five postsecondary courses in each subject area, making up the general education core course options. The statute mandates that all institutions must offer and accept these general education core courses, and that students initially entering a Florida College System institution or state university in 2014-2015 must complete at least one identified core course in each subject area. To be in compliance with the statute, this general education core must be adopted in rule by the State Board of Education and in regulation by Board of Governors.

The *Initial Draft Recommendations of the General Education Steering and Faculty Committees December 2012* represents the draft recommendations of the general education faculty committees. This document represents the work of more than 60 faculty members and hours of in-person and electronic discussions. Each faculty committee reached consensus, if not unanimity, in these recommendations. While there are many issues still to be resolved, these recommendations represent a significant step forward in implementing the statutory requirements.

More information related to the general education project can be found at: http://www.fldoe.org/articulation/hb7135gep.asp.

General Education
Section 1007.25(3), Florida Statutes (HB 7135)
Update

Initial Draft Recommendations of the General Education Steering and Faculty Committees December 2012

General Education Requirements

For students initially entering an institution in the Florida College System or State University System in 2014-2015 and thereafter:

- General education requirement in associate in arts and baccalaureate degree programs changed from 36 to 30 hours
- Faculty committees will identify statewide general education core course options consisting of a maximum of five courses in each of general education areas: Communication, Humanities, Mathematics, Natural Science, and Social Science
- Students must complete at least one identified course from each subject area
- All institutions must offer and accept these courses for general education
- Remaining general education at the discretion of the institution
- The general education core will be adopted in SBE Rule and BOG Regulation
General Education Committees

Chancellors of Florida College System and State University System appointed to implement general education core course options

Steering Committee
Five members each from the Florida College System and State University System with equal number of alternates

Faculty Committees
Five committees representing general education areas
12 voting faculty members each (6 FCS, 6 SUS)
Two Steering Committee members

General Education Project Timeline

October 25, 2012  Initial Meeting of Faculty Committees
December 2012  Faculty Discipline Committee Initial Recommendations, Courses and Competencies
Jan 2013-April 2013  Faculty Review/Institution (CAVP/CIA) Review
June 2013  State Board of Education and Board of Governors Initiate Rule/Regulation Development
Recommendations Released for Public Comment
Aug-Sept 2013  Final Recommendations Submitted to Chancellors
September 2013  State Board of Education and Board of Governors Rule/Regulation Approval
September 2013  Communications to Florida College System and State University System Institutions, Courses and Competencies
Fall 2014  General education core implementation
Initial Draft Recommendations

Communication

• Students will demonstrate the ability to communicate effectively.
• Students will demonstrate the ability to analyze communication critically.

ENC X101  English Composition I

Initial Draft Recommendations

Humanities

• Students will demonstrate interpretive ability and cultural literacy.
• Students will demonstrate competence in reflecting critically upon the human condition.

ARH X000  Art Appreciation
HUM X020  Introduction to Humanities
LIT X100  Introduction to World Literature
MUL X010  Introduction to Music Literature/Music Appreciation
PHI X010  Introduction to Philosophy
Initial Draft Recommendations

**Mathematics**

- Students will determine appropriate mathematical and computational models and methods in problem solving, and demonstrate an understanding of mathematical concepts.
- Students will apply appropriate mathematical and computational models and methods in problem solving.

General Education: Implementation Issues

• Additions and modifications to core course options
• “Advanced level” courses
• Offer and accept all general education courses
• 30 vs. 36-hour general education requirement
• SACS substantive change
• 2014 implementation
The PCPT and High School Feedback Report provide districts and schools with information about their graduates' performance on a number of pre-graduation and post-graduation indicators. The report includes performance information for students who graduated from a public high school in Florida and attended a public college or university in Florida during the academic year immediately following high school graduation. Students who did not go to college or who attended private or out-of-state colleges are not included in these reports.

Performance on Common Placement Tests

</table>

Source: FL House of Representatives, Public School Funding, The Florida Education Finance Program FEFP, Fiscal Year 2011-2012

Instructional Materials Survey: Expenditure vs. Allocation

Expenditure exceeded allocation by $3,141 to $896,623

Dual Enrollment Instructional Materials

Charter High Schools

*Are charter high schools included in the instructional materials allocation, or separate allocation?*

16 responses

8 - Included in Allocation
8 - Separate Allocation
Dual Enrollment Instructional Materials

Cost Reduction Strategies

Does your school district have an agreement with the postsecondary institution to help defray the cost of instructional materials?

- Most responded there is no specific program
- 10% discount from independent bookstore
- Order direct from publisher
- Used textbooks
- College assists in return of materials

Dual Enrollment Instructional Materials

“Consumable” Instructional Materials

- Does your district pay instructional material electronic access fees?
  - Yes = 28
  - No = 6

- Does your district provide “consumable” instructional materials (supplies, kits, workbooks, lab manuals) to dual enrollment students?

<table>
<thead>
<tr>
<th>No extras</th>
<th>Only if bundled</th>
<th>Yes, but limited</th>
<th>Broad range of materials</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>6</td>
<td>7</td>
<td>16</td>
</tr>
</tbody>
</table>

- Does your district provide technology supplies (calculator, computer) if required by the course?
  - Most districts do not; a few districts report providing calculators
Dual Enrollment Instructional Materials

Textbook Adoption Cycles

*Is the schedule for instructional materials adoption different for dual enrollment courses as compared to the district adoption cycle?*

Responses vary across districts
- No identified cycle at college (although typically not more than 1-2 years)
- Faculty control over texts
- Publisher editions

Dual Enrollment Instructional Materials

Limits to Dual Enrollment

*Does your school district limit dual enrollment course offerings?*

<table>
<thead>
<tr>
<th>No Identified Limit to Dual Enrollment Offerings</th>
<th>Limits Identified in Articulation Agreement</th>
</tr>
</thead>
<tbody>
<tr>
<td>19</td>
<td>14</td>
</tr>
</tbody>
</table>
Dual Enrollment Instructional Materials

Open response question

Dual enrollment growing rapidly, making these issues more acute
• K12 instructional material allocation used to cover dual enrollment materials
• Textbook adoption
• Increasing access fees
• Operational funds to support dual enrollment
• Efficiencies in materials management (centralized book depositories)
• Difficulty in acquiring texts from independent vendors
