Our Professional Development Plan:

Options for Early Childhood Workshops

Houghton Mifflin will work with regions, coalitions, and groups to determine which option(s) best meet the needs of teachers and students. Our website also contains information to support professional development.

Introduction to Houghton Mifflin's Pre-K Program

Instructional techniques to meet children's key learning goals will be provided to teachers upon adoption of Houghton Mifflin Pre-K. The workshop is designed to provide an overview of how the program helps children build phonological awareness, alphabet knowledge, oral language and vocabulary skills, print awareness, and number sense.

The Connection of Oral Language, Phonological Awareness and Literacy

Both oral language development and phonological awareness instruction are critical components of a quality early childhood program. In this workshop, early childhood teachers will explore these two skills and their significant connection to literacy acquisition.

Teaching Early Reading Competencies in Pre-K

The joint position statement of IRA and NAEYC (1998) states:

"The ability to read and write does not develop naturally, without careful planning and instruction. Children need regular and active interactions with print (p.7)." The focus of this workshop will center on carefully planning the modes of reading and writing used with preschoolers.

Design Your Own Workshop

Your Houghton Mifflin Harcourt Sales Representative will work with your early learning coalition to determine the right topics for meaningful, timely professional development for a specific group of teachers.

Total price: \$1650.00 Includes curriculum materials and professional development outlined above.
