

Ready, Set, Leap!® Program

Ready, Set, Leap! Program provides the interactive materials you need to teach, assess, and support early childhood development. We have included professional development into the Ready, Set, Leap! program to ensure teachers and staff members have access to resources needed for a successful classroom implementation. The Ready, Set, Leap! program is research-based and aligns with Florida’s Voluntary PreK (VPK) standards.

Our Professional Development Plan: Instructor-Led or Online

The comprehensive Ready, Set, Leap! Professional development program comprises.

- 1 Full Day Instructor-Led Training (Included only in 5-Pack bundle purchases)
- 7 Initial Professional Development Online Sessions (Included in individual kit purchases)
- 3 Follow-up/Virtual Coaching Sessions (Included in both Individual Kit and 5 Pack bundle purchase)

Each module includes investigations into:

- Literacy theory, language acquisition, and child development
- Exploration of excellent preschool curriculae, including Ready, Set, Leap!
- Orientation to the multisensory technology components of Ready, Set, Leap!
- Classroom management techniques

Attendees participate in small group interactions, whole group presentations, reflections on practice, and activities designed to stimulate professional exchanges

Each module builds upon the information delivered in previous sessions and is timed to allow teachers the opportunity to extend theory into practice in their classrooms. There is a coaching model, home-school connection, and an entire manual devoted to high-quality supervision of instruction. In this manual, supervisors not only get an in-depth overview of the curriculum, but also are given strategies they might use to evaluate instruction. Administrative observation is key to the success of the program.

Initial Training Agenda for Professional Development

Teachers are encouraged to maintain contact with the facilitators via journaling, phone conversations, and e-mail contacts. This allows them to receive expedient answers to questions and suggestions. In addition, a virtual coaching model encourages participants to extend their learning and reflective practice.

On-Going Training

Additional options for ongoing training sessions include:

1. Virtual Coaching Sessions. Three follow-up sessions will be offered for review of the product, curriculum and classroom management processes. This is recommended to occur about 1 month after the initial 7 modules are completed.
2. Email. Teachers are encouraged to communicate with their instructor and other participants by email on a regular basis.
3. Phone Support. Professional Development Consultants and Teach Services coordinators are available by phone.

Total price: Starting at \$2,995 per kit or \$9,275 for 5 kits, English Edition.

Includes curriculum materials and professional development outlined above.
