Introduction

This brochure focuses on students with disabilities at the secondary and postsecondary (adult) levels. There are two populations of students with disabilities participating in secondary education. The first population is students with disabilities served through exceptional student education (ESE) under the requirements of the Individuals with Disabilities Education Improvement Act (IDEA 2004). An Individual Educational Plan (IEP) must be developed for each student served by exceptional student education. The second population is students with disabilities protected under Section 504 of the Rehabilitation Act of 1973 (504) and the Americans with Disabilities Act of 1990 (ADA), but not served under IDEA 2004. These students may require a 504 Plan. Postsecondary (adult) students with disabilities are protected under Section 504 of the Rehabilitation Act of 1973 (504) and the Americans with Disabilities Act of 1990 (ADA) and may require 504 Plans. Adults with disabilities enrolled in certain career education or adult general education programs require Adult Individual Educational Plans (AIEP). Adults with disabilities must self-identify and request accommodations/services.

The purpose of the brochure is to provide an overview of the range of program options in career education and adult general education for students with disabilities. The brochure identifies types of career education and adult general education programs and provides related information about settings (mainstreamed and specialized), types of activities, programs (course descriptions/curriculum frameworks), teacher certification, funding, reporting, benchmarks, educational plans, and expected outcomes (intent). Most students with disabilities participate in mainstream programs with their nondisabled peers. However, specialized instruction is also available to meet the individual needs of students with disabilities. Supplementary aids, services, accommodations, and curriculum modifications are provided as needed on an individual basis.

Acronyms/Definitions

ADA—The Americans with Disabilities Act. This federal law prohibits discrimination against persons with disabilities by both private sector and state and local government.

AIEP—Adult Individual Educational Plan. A plan, based on the needs of a student with a disability, that includes but is not limited to goals, objectives, and accommodations.

ESE—Exceptional Student Education. Specialized programs and services designed to meet the needs of students with disabilities in accordance with IDEA 2004.

FEFP—Florida Education Finance Program. Florida's funding system supporting K-12 education.

IDEA 2004—The federal law that guarantees that eligible children and youth with disabilities will have available to them a free appropriate public education.

IEP—Individual Educational Plan. A written plan that is developed and implemented in accordance with the provisions of IDEA 2004 for a student with a disability.

LCP—Literacy Completion Point. Represents an individual's attainment of academic and/or workforce readiness skills which qualifies the student to enter advanced education and career training or employment.

MOCs—Modified Occupational Completion Points. A group of competencies/skills needed to obtain proficiency in a specific occupation that falls between established occupational completion points identified in career education curriculum frameworks.

OCPs—Occupational Completion Points. A group of competencies that are needed in order to obtain proficiency in a specific occupation.

RFP—Request for Proposals. A process that includes specific guidelines to provide applicants with the opportunity to request funding to meet an identified need.

Transition IEP—Transition Individual Educational Plan. An IEP that is developed for students with disabilities ages 14 and older that focuses on the student's transition services needs.

WDEF—Workforce Development Education Fund. Florida's performance-based funding system supporting adult general education and postsecondary career education.

WDIS—Workforce Development Information System. The Florida Department of Education's reporting system for adult general education and postsecondary career education.

504—Section 504 of the Rehabilitation Act of 1973 as amended. Civil rights law that protects the rights of individuals with disabilities.

Notes

7. Supported Employment – Phase II
 - is about work (individual is already stabilized on job) but is not time-limited
 - ongoing follow-along services are provided
8. Although an Adult Individual Educational Plan (AIEP) is not required for adult students enrolled in mainstream career education or adult education programs, it is recommended that accommodations plans (504 Plan), service plans, or career plans (including information about accommodations/services) be developed with adult students with disabilities who self-identify and request accommodations or support services.
9. Curriculum frameworks are authorized by Florida statute. Individual Educational Plans are required for students enrolled in Vocational Education for Students with Disabilities (secondary). AIEPs are required for students enrolled in Vocational Education for Students with Disabilities (postsecondary), Adult General Education for Adults with Disabilities, and Supported Competitive Employment for Adults with Disabilities-Phase I.
10. Benchmarks (objectives) are developed through the AIEP process, and mastery is reported through the Adults with Disabilities Quarterly Progress Report.
11. Legislation authorized an RFP process for funding specialized programs for adults with disabilities who do not have work as their goal. The RFP requires development of an Adult Individual Educational Plan (AIEP) for each student.
12. Students with disabilities may be exempted from meeting the basic skills requirement for completion (see Rule 6A-10.040, FAC., Basic Skills Requirements for Postsecondary Career Certificate Education).
13. The performance-based Workforce Development Education Funding System includes performances (weighted funding points) for students with disabilities and other target population students.
