• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

Spring 2007

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts  
**Writing+: Grade 10**

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%  
 \*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

- Percentages are rounded to the nearest whole number.
- Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.
- Reporting category results are not intended for comparison across administrations.
- \*\*\* Percentage is <0.5%
- \*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%  
 \*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts  
**Writing+: Grade 10**

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

Date: 04/16/07

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%  
 \*\* No students in this grade met the criteria for reporting.

Spring 2007  
 Florida Comprehensive Assessment Test®  
 State Report of Districts  
**Writing+: Grade 10**

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.

\* To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).  
 \* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.  
 • Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.  
 • Reporting category results are not intended for comparison across administrations.  
 \*\*\* Percentage is <0.5%  
 \*\* No students in this grade met the criteria for reporting.

• To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is at least 10 and when the performance of individuals would not be disclosed. This presentation of data is shown with a dash (-).

\* The combined rows include only students with a Writing+ Score, indicating that valid scores were reported for both the prompt and multiple-choice sections of the test. Each section contributes 50% to the overall score.

• Percentages are rounded to the nearest whole number.

• Achievement Levels 3-5 are grouped together for comparison since the percentage "at or above grade level" is necessary for federal AYP reporting.

• Reporting category results are not intended for comparison across administrations.

\*\*\* Percentage is <0.5%

\*\* No students in this grade met the criteria for reporting.
