

## Columbia County

### Paper Work Reduction Report

1. FLKRS is a total waste of time. This is a tremendous amount of paper work that is required to be done at the busiest and most frustrating time of the year. Unless you have been in a Kindergarten classroom, you have no idea just how frustrating this hoop is!!!! The progress of VPK should be done for those students at the end of the VPK year. This has no benefit to the Kindergarten student or teacher. This is a waste of valuable time and money!! **Solution – Get rid of it or have it done at the end of the VPK year.**
2. Truancy – The only responsibility a teacher should have regarding truancy is to take attendance. The never ending task of counting up excused absences, unexcused absences, doctors notes, parent notes, excused tardies, unexcused tardies, early dismissals, calling parents regarding absences and tardies, and holding conferences about truancy is just too much!! **Solution – Find a computer program that will alert the computer operator when there is a problem with truancy. Have someone that is *NOT* responsible for teaching take on the task.**
3. Staff development protocol is too time consuming.
4. Do away with Para Professional log documentation.
