

Hendry County Paperwork Reduction Report

This is a summary of paperwork reduction issues collected from Administration, Faculty and Staff:

- Ø Establish an effective web-based method of collecting, organizing and disseminating Paperwork Reduction input from school board employees.*
- Ø Investigate the impact of migrating from Academic Improvement Plans/Middle School Success Plans to a Progress Monitoring model.*
- Ø Investigate the Individual Educational Plans and 504 Plans in ESE, The English Language Learner Plans in ESOL, the Behavioral Intervention Plans and all other plans originating from the "Child Study" process, with the goal of creating a legally compliant document that is economical in the human investment of time, energy and involvement, and plans that assist in providing substantial benefit for students.*
- Ø Continue to provide information and two-way communication in an electronic format that is easily accessed by a variety of audiences. One major initiative is to re-format and expand the District and school web sites.*
