Additional Years of Funding	In accordance with Section 231 of the Act, a program application for eligible recipients will be awarded on a multi-year basis. The definition of a multi-year program for the purpose of the Request for Proposal will be at least 24 months. Continuation of funding may be available for additional years. Projected goals must be increased from previous year's goals for continued funding. All recipients must submit a continuation application to be considered for funding in the second year.
Funding Method	All applicants are advised that grantees will be funded according to the projected goals in their applications. Performances that do not meet projected goals will result in overpayment. The overpayment must be returned to the Florida Department of Education by August 20, 2005, along with the final DOE 499 form. Monitoring and invoicing will assist grantees in achieving their performance goals and avoiding overpayment.

Funded recipients will receive their allocation in one of three ways to be determined by the Florida Department of Education: cash advance, payments based upon performance, or reimbursement as described below. All applicants must provide a detailed budget description on the DOE 101, Budget Narrative Form. The application is to include a budget for fiscal 2004-2005 only.

Federal Cash Advance: Cash advance funded projects allow the recipient to request cash as needed to pay outstanding obligations. Cash is advanced through the “On Line Cash Advance Application” (D-502). Expenditures for projects funded by federal cash advance should be reported utilizing the “On Line Disbursement Reporting Application” (D-503). These expenditures should be reported as they occur until the 20th of each month. The on-line system will be turned off on the 20th or the Friday before the weekend of the 20th of each month for adjustments and updating the state-wide accounting system. “Final Project Disbursement Reports” (DOE 499) must be submitted by the date specified on the project award notification in complete detail by function and object. Indirect cost charges must be reported in the fiscal year for which they apply. Project recipients do not have the authority to report disbursements until the project award notification is received.

Performance-Based Funding: As expressed in the Performance-Based Project Deliverables Form, performance-based payments will be distributed upon receipt of a properly prepared invoice and acceptance of units of deliverables by the designated DOE program manager.

Reimbursement Funding: Projects that are funded on a reimbursement system should be reported on a monthly basis. All reimbursement requests must be made using the appropriate forms (refer to DOE Green Book - <http://www.firn.edu/doe/comptroller/gbook.htm>), in accordance with the instructions on each form. The invoices and the entries on the forms should correspond with the agency’s account codes. Request for reimbursement should be submitted to the DOE Comptroller’s Office, 325 West Gaines Street, Room 944, Tallahassee, FL 32399-0400.

Geographical Allocation of Funding: The Department will allocate funds utilizing an equitable geographic formula for awarding projects. This funding model does not mean that the funds will automatically be awarded to any particular agency.

The allocation for each of the five Adult Regional Adult Literacy Centers is for up to \$100,000 for a total of \$500,000.
