3. Adult High School/GED Diplomas <small>(If this service is provided – must address.)</small>	\$	%		\$
<b>Totals</b>	\$	<b>100%</b>		

### Instructions for completing Section B:

1. In column 2, for each core measure applicable to applicant's program, indicate **both** the percentage of total grant budget and the actual dollar amount to be earned by each core measure. The total of all percentages in column 2 should be 100%, and the total of all core measure budgets should equal the total grant amount.
2. In column 3 calculate the total number of units per core measure to be achieved for the entire grant period.
3. In column 4 calculate the unit cost for each core measure by dividing the total budget amount in column 2 by the unit amount in column 3. For example, if the total budget amount in column 2 is \$25,000 and the unit amount in column 3 is 50, then the unit cost in column 4 is \$500 (\$25,000 divided by 50 = \$500).

### C. Explanation for determining Unit Cost per Core Measure.

Briefly explain, in the space below, the rationale and methodology used to determine the Unit Amount per Core Measure (column 3) and the Grant Budget per Core Measure (column 2) for each Core Measure selected. This explanation should be consistent with the expenditures on the DOE 101, Budget Narrative Form.

**Example:** *If the Grant Budget per Core Measure for GED Diplomas represents a substantial portion of the total budget, then a similar proportion of the total budget expenses reflected on the DOE 101 would support the GED goals.*
