### **Compliance Monitoring**

*Florida's State Plan for Carl D. Perkins Vocational and Technical Education* includes the provision that the state will evaluate the effectiveness of project activities based on established and approved performance goals. The Program Support and Compliance Team (PSCT) monitors recipients' compliance with program and fiscal requirements according to applicable federal and state laws and regulations specified by Education Department General Administrative Regulations (EDGAR), Office of Management and Budget (OMB) Circulars, and Florida Department of Financial Services *Reference Guide for State Expenditures* and, in addition, guidelines published in the Florida Department of Education's *Green Book*. These compliance references are available at the following web site: <http://www.firn.edu/doe/workforce/compliance.htm>

### **Reporting Outcomes**

Federal requirements include annual reports on specific performance measures. Local data must be reported on all career and technical students through the student database systems in place at the school districts and community colleges.

### **Local Perkins Performance Improvement Plan Approvals**

Florida Department of Corrections will receive, **under separate cover (not included in this RFA document)**, from the Division of Community Colleges and Workforce Education, individualized Perkins performance data for their LEA with local improvement targets identified. Instructions for completing the Local Perkins Performance Improvement Plan will accompany the local data.

Data reporting is part of Florida's contract with the U.S. Department of Education for receiving Perkins funds. The state is required to report annually on progress toward meeting federally-approved student/program performance improvement targets. Statewide progress is an aggregation of local program improvements made by local recipients of Perkins funds. Local recipients are therefore required to work toward meeting local improvement targets that are established by the Florida Department of Education.

Local Perkins Performance Improvement Plans submitted by LEAs will be reviewed and approved by the Division of Community Colleges and Workforce Education, and, in some cases, Accountability, Research, and Measurement (ARM) staff prior to release of funding.

**NOTE:** Instances where an LEA shows a consistent pattern of failure to submit student performance data as required may delay approval of funds until the LEA can demonstrate that local data reporting problems have been corrected.

### **Funding Method**

**Federal Cash Advance** –On-Line Reporting required monthly to record expenditures.

Federal cash advances will be made by state warrant or electronic funds transfer (EFT) to a recipient for disbursements. For federally funded projects, requests for federal cash advance must be made on the Electronic Federal Cash Advance Request System. If at times it is determined that disbursements are going to exceed the amount of cash on hand plus cash in transit, an on-line

amendment can be made prior to the due date of the next Federal Cash Advance distribution on the Electronic Federal Cash Advance Request System.

### **Fiscal Requirements**

Supporting documentation for expenditures is required for all funding methods. Examples of such documentation include: invoices with check numbers verifying payment, and/or bank statements; all or any of which must be available upon request.

Although there is flexibility for the expenditure of funds at the local level, there is a focus on accountability for all Career Technical Education students, including the performance measures for all of the categories of nontraditional and special populations.

Projected goals **must be increased from the previous year's goals** for continued funding. **Note:** If deliverables are reduced, a corresponding reduction in funding will occur.

### **Records Retention**

It is the responsibility of the fiscal agency to retain records for financial transactions and supporting documentation for auditing purposes. If records are requested by the Florida Department of Education or the State of Florida Division of Financial Services, all records must be provided. Records should be maintained for five years from the last day of the program or longer if there is an ongoing investigation or audit.

### **Funding Shall Supplement, Not Supplant**

In general, the Act states that the funds made available for Career and Technical Education activities shall supplement and not supplant other state or local public funds expended for Career and Technical Education programs.

### **Local Administrative Cost**

Perkins Act, Section 135(d), contains the requirements pertaining to local administrative costs. Not less than 95% of the funds shall be expended for carrying out Career and Technical Education activities. The remaining amount, not to exceed 5%, may be used for:

- Planning
- Personnel development
- Interagency coordination
- Administration
- Indirect costs

Positions such as project coordinator, accountant, clerical staff, or other positions not directly serving students are considered administrative. Travel, equipment, and supplies for administrators are also considered administrative costs unless used for the purpose of providing personnel development directly related to program and/or students, and direct assistance to career and technical education students. **Indirect costs are considered administrative costs.**

### **Project Disbursement Report, DOE 399**

All awarded Perkins projects must submit a DOE 399, Project Disbursement Report, to the Florida Department of Education, Comptroller's office, by August 20, 2006.
