

## PARENT GUIDE FOR GRADE 6 ENGLISH LANGUAGE ARTS

### Preparing Florida's Children for a Successful Future

All Florida students deserve to graduate high school with the knowledge and skills they need to succeed in college, careers and life. Over the last several years, Florida has made strong academic gains. But, we know today's workforce requires our graduates to have stronger critical thinking, problem solving and communications skills than ever before. Higher standards that challenge and motivate our students are essential.

To address this need, education leaders across the state of Florida improved our academic content standards, creating new expectations for what students need to know and be able to do. The Florida Standards are designed to ensure that **ALL** students reach their greatest potential—whatever their path may be.

Preparing your child for success begins in kindergarten and continues as your child moves up through each grade. This guide will support parents and families with children in **sixth grade** by helping you:

- **Learn** about the Florida Standards and why they matter for your child.
- **Talk** with your child's teachers about what he/she will be learning in the classroom.
- **Support** your child's learning in practical ways at home.

### LEARN ABOUT THE STANDARDS

Florida students will continue to practice many of the same things you learned in sixth grade—along with some important additional skills. **Sixth grade** students are learning these types of lessons:

- Describing how a story's plot unfolds in a series of episodes and how the characters respond or change as the plot moves toward resolution. 
- Citing textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. 
- Writing arguments to support claims with clear reasons and relevant evidence.

- Using technology, including the internet, to produce and publish writing and to interact and collaborate with others.

Every child develops at his/her own pace. The activities in this guide are recommended age-specific guidelines for growing young minds.

## TALK WITH YOUR CHILD'S TEACHER

Now that your child has reached middle school, he/she should be taking on more responsibility for his/her own learning. Parent/teacher conferences may be led by your student. Look for those conferences to focus on examples of student work. Together, talk about ways this work is successful as well as possible ways your student can continue to learn and grow as a reader and effective communicator.

## SUPPORT LEARNING AT HOME

You can encourage learning English language arts at home in ways that are fun for you and your child. Try these ideas after school, on weekends and during the summer:

Utilize online sources for vocabulary development at [www.readwritethink.org](http://www.readwritethink.org).

Encourage your child to host or join a book club with friends who have similar reading interests.

Find reading materials, homework help and opportunities to publish your student's writing through the The Internet Public Library at [www.ipl.org/div/teen](http://www.ipl.org/div/teen).

Provide your child with digital reading and writing devices.

Have your child read to family members and neighbors.

Have your child research options for going out to eat, birthday party ideas or family vacation options using the internet.

Compose a monthly family newsletter.

Be frequent visitors to your local public library. Let him/her see you choosing, checking out and enjoying books.

Talk to your child's teacher or principal to learn more great ideas to support learning at home.
